"SEC. 1101. (a) The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.

"(b) To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c).

"(c) The mortgage shall—

"(1) not exceed \$5,000,000;

"(2) not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges incident to construction or rehabilitation and approved by the Secretary;

"(3) have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments

within such term as the Secretary shall prescribe; and

"(4) bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market.

"(d) Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

"(e) Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgagee, the property will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated.

"(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records.

"Premiums"

"SEC. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary.

"Payment of insurance benefits"

"SEC. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and

(n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title.

"Regulations"

"SEC. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Secretary of Health, Education, and Welfare with respect to any health or medical aspects of the program under this title which may be involved in such regulations.

"Administration"

"SEC. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for and construction of such facilities.

"(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency.

"Definitions"

"SEC. 1106. For the purposes of this title—

"(1) The term 'group practice facility' means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine or surgery in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

"(2) The term 'medical or dental group' means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs, and which partnership or association or group is composed of at least such professional personnel and makes available at least such health services as may be provided in regulations prescribed under this title.

"(3) The term 'group practice unit or organization' means—

"(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis;

"(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to

which assistance has been requested under this title available to a medical or dental group for use by it; or

"(C) a medical or dental group.

"(4) The term 'nonprofit organization' means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organization for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

"(5) The term 'State' includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

"(6) The term 'mortgage' means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term 'first mortgage' means such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the realty.

"(7) The term 'mortgagee' means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

"(8) The term 'mortgagor' means the original borrower under a mortgage and his or its successors and assigns."

(b) The first sentence of section 227 of such Act is amended by inserting after "new or rehabilitated multifamily housing" the following: "or a property or project described in title XI".

Labor standards

SEC. 503. Section 212(a) of the National Housing Act is amended by adding at the end thereof the following new sentence: "The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be."

Amendments to other Federal laws

SEC. 504. (a) (1) The sixth sentence of paragraph "Seventh" of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after "Federal Home Loan Banks," the following: "or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act".

(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after "or sections 1471-1484 of title 42," the following: "or which are in-

sured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act."

(b) Subsection (a) of section 304 of the Trust Indenture Act of 1939 (15 U.S.C. 77ddd) is amended by striking out the word "or" at the end of paragraph (8); by striking out the period at the end of paragraph (9) and inserting in lieu thereof a semicolon and the word "or"; and by adding after paragraph (9) a new paragraph as follows:

"(10) any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c(a)(2))."

(c) Section 263 of chapter X of the Bankruptcy Act (11 U.S.C. 663) is amended by adding at the end thereof the following: "Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act."

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

Preservation of historic structures as part of urban renewal projects

SEC. 601. (a) Section 110(b) of the Housing Act of 1949 is amended by inserting "historic and architectural preservation," after "land acquisition."

(b) Section 110(c)(6) of such Act is amended by inserting "to promote historic and architectural preservation," after "deterioration."

(c) Section 110(c) of such Act is further amended by striking out "and" at the end of clause (8), and by striking out clause (9) and inserting in lieu thereof the following:

"(9) relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and

"(10) restoration of acquired properties of historic or architectural value."

Local grant-in-aid credit for relocation and restoration of historic structures

SEC. 602. Clause (2) of section 110(d) of the Housing Act of 1949 is amended by striking out "clause (2) and clause (3)" and inserting in lieu thereof "clauses (2), (3), (9), and (10)".

Grants to national trust for historic preservation to cover restoration costs

SEC. 603. (a) The Secretary of Housing and Urban Development is authorized to make grants to the National Trust for Historic Preservation, on such terms and conditions and in such amounts (not exceeding \$90,000 with respect to any one structure) as he deems appropriate, to cover the costs incurred by such Trust in renovating or restoring structures which it considers to be of historic or architectural value and which it has accepted and will maintain (after such renovation or restoration) for historic purposes.

(b) There are authorized to be appropriated such sums as may be necessary for the grants to be made under subsection (a).

Urban planning grants for surveys of historic structures

SEC. 604. Section 701 of the Housing Act of 1954 is amended by adding at the end thereof the following new subsection:

"(h) In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic struc-

tures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the National Register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (9) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved."

Loans for acquisition and rehabilitation of historic structures

SEC. 605. (a) Section 312(a) of the Housing Act of 1964 is amended by inserting "(1)" after "(a)", by striking out the second sentence, and by adding at the end thereof the following new paragraphs:

"(2) To assist in the preservation of historic structures both within and outside of urban renewal areas, the Secretary is also authorized under this section to make loans to the owners or tenants of structures which are determined in accordance with regulations prescribed by him to be of historic or architectural value to finance the rehabilitation or restoration of such structures, and to make loans to other persons to finance the acquisition and rehabilitation or restoration by them of structures which are determined in accordance with such regulations to be of historic or architectural value.

"(3) No loan shall be made under this section unless the Secretary finds (A) that the applicant is unable to secure the necessary funds from other sources upon comparable terms and conditions, and (B) the loan is an acceptable risk, taking into consideration the security available for the loan, the ability of the applicant to repay the loan, and the need for the rehabilitation or restoration involved.

"(4) Nothing in this section shall prevent a person from receiving a loan under this section with respect to property in connection with which he receives a grant under section 115 of the Housing Act of 1949, if and to the extent that such person is otherwise eligible to receive such loan under this section."

(b) (1) The heading of section 312 of such Act is amended to read as follows:

"Loans for rehabilitation or historic preservation"

(2) Section 312(b)(1) of such Act is amended by striking out "or the urban renewal plan" and inserting in lieu thereof "or the urban renewal plan if any,".

(3) Section 312(b)(3) of such Act is amended by striking out "rehabilitation loan" and inserting in lieu thereof "loan".

(4) So much of section 312(c) of such Act as precedes paragraph (1) thereof as amended by striking out "rehabilitation loan" and inserting in lieu thereof "loan".

(5) Section 312(c)(4) of such Act is amended by striking out "the cost of rehabilitation" in subparagraphs (A) and (B) and inserting in lieu thereof in each instance "the cost of the rehabilitation, restoration, or acquisition and restoration".

Grants for historic preservation

SEC. 606. (a) The heading of title VII of the Housing Act of 1961 is amended to read as follows:

"TITLE VII—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION"

(b) Section 701 of such Act, is amended by redesignating subsection (c) as subsection (d), and by inserting after subsection (b) a new subsection as follows:

"(c) The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our past history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas."

(c) Section 701(d) of such Act (as redesignated by subsection (b) of this section) is amended—

(1) by inserting after "urban development," the following: "to assist in preserving areas and properties of historic or architectural value,"; and

(2) by striking out "and (2)" and inserting in lieu thereof "(2) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (3)".

(d) Section 702(e) of such Act is amended to read as follows:

"(e) The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this title. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments."

(e) Section 706 of such Act is amended by striking out the proviso.

(f) Section 708 of such Act is amended by inserting "(a)" after "SEC. 708", by inserting "(b)" before "The" in the second paragraph, and by adding at the end thereof a new subsection as follows:

"(c) Notwithstanding any other provision of this title, the Secretary may use not to exceed \$10,000,000 of the sum authorized for contracts under this title for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this title."

(g) Title VII of such Act is amended by redesignating section 709 as section 710, and by adding after section 708 a new section as follows:

"Grants for historic preservation"

"SEC. 709. The Secretary is authorized to enter into contracts to make grants to States and local public bodies to assist in the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit in accord with the comprehensively planned development of the locality. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Secretary, of the assisted activities. The remainder of such cost shall be provided from non-Federal sources.

(h) Commencing three years after the date of the enactment of this Act, no grant shall be made (except pursuant to a contract or commitment entered into less than three years after such date) under section 709 of the Housing Act of 1961 or section 701(h) of the Housing Act of 1954, or under section 103 of the Housing Act of 1949 to the extent that it is to be used for historic or architectural preservation, except with respect to districts, sites, buildings, structures, and objects which the Secretary of Housing and Urban Development finds meet criteria comparable to those used in establishing the National Register maintained by the Secretary of the Interior pursuant to other provisions of law.

TITLE VII—URBAN RENEWAL

Local grants-in-aid

SEC. 701. Section 110(d) of the Housing Act of 1949 is amended by inserting immediately after the colon at the end of the first proviso the following: "Provided further, That any publicly owned facility, the construction of which was begun not earlier than three years prior to the date of enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility, if such facility (A) is used, or is to be used, by the public predominantly for cultural, exhibition, civic, or municipal purposes; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid:".

Air rights sites in urban renewal projects

SEC. 702. (a) Section 110(c)(1) of the Housing Act of 1949 is amended by inserting in clause (iv), between the word "income" and the colon immediately preceding the first proviso, the following: "or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for industrial development".

(b) Section 110(c)(7) of such Act is amended by inserting immediately before the semicolon the following: "or construction of foundations and platforms necessary for the provision of air rights sites for industrial development".

Application of Davis-Bacon Act to multifamily housing construction in urban renewal areas

SEC. 703. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(f) All laborers and mechanics employed by contractors or subcontractors in the construction of any multifamily housing (as defined for purposes of this subsection by the Secretary of Housing and Urban Development or his designee) which may be involved in the redevelopment of the urban renewal area, and which is not subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5). No contract for loan or capital grant shall be entered into under this title with respect to an urban renewal area whose redevelopment will involve the construction of such housing without first obtaining adequate assurance that the labor standards imposed by the preceding sentence (or, in the case of housing which is subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, the labor standards imposed by

such provisions) will be maintained upon the construction work. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c)."

TITLE VIII—RURAL HOUSING

SEC. 801. Section 501(a) of the Housing Act of 1949 is amended by striking out "previously occupied" wherever it appears.

SEC. 802. Section 502(a) of the Housing Act of 1949 is amended by striking out "In cases of applicants who are elderly persons, the" and inserting in lieu thereof "The".

SEC. 803. Section 504 of the Housing Act of 1949 is amended by striking out "\$1,000" and inserting in lieu thereof "\$1,500".

SEC. 804. (a) Section 515(a) of the Housing Act of 1949 is amended by inserting after "income" the following: "or other persons and families of low income".

(b) Section 515(d)(1) of such Act is amended by striking out "elderly persons or elderly families" and inserting in lieu thereof "occupants eligible under this section".

SEC. 805. (a) Subsections (a) and (b) of section 515 of the Housing Act of 1949 are each amended by striking out "rental housing" and inserting in lieu thereof "rental or cooperative housing".

(b) Section 515(b) of such Act is amended by inserting after "families" the following: "or other persons and families of moderate income".

(c) Section 515(d)(4) of such Act is amended by adding at the end thereof the following: "Such fees and charges may include payments to qualified consulting organizations or foundations which operate on a nonprofit basis and which render services or assistance to nonprofit corporations or consumer cooperatives who provide housing and related facilities."

SEC. 806. Section 517(a)(1) of the Housing Act of 1949 is amended—

(1) by inserting "and" before "(B)"; and

(2) by striking out ", and (C)" and all that follows and inserting in lieu thereof the following: "; but no loan under this paragraph shall be insured or made after October 1, 1969, except pursuant to a commitment entered into before that date; and".

TITLE IX—MISCELLANEOUS

Housing for the elderly or handicapped

SEC. 901. Section 105(b) of the Housing and Urban Development Act of 1965 as amended—

(1) by inserting "(1)" after "(b)";

(2) by striking out "Effective with respect to loans made on or after the date of the enactment of this Act, section" and inserting in lieu thereof "Section"; and

(3) by adding at the end thereof a new paragraph as follows:

"(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate."

Low-rent housing in private accommodations for displaced families—term of lease

SEC. 902. Section 23(d) of the United States Housing Act of 1937 is amended by inserting after "thirty-six months" the following: "(except that it may be for a term of up to sixty months in any case in which the public housing agency determines that the housing to be leased thereunder is needed for displaced families)".

Application of Davis-Bacon Act to low-rent housing projects consisting of privately built housing

SEC. 903. Section 16(2) of the United States Housing Act of 1937 is amended by inserting after "the development of the project involved" the following: "(including a project for the use of privately built housing in any case, other than under the authority of section 23 of this Act, where the public housing agency and the builder or sponsor enter into an agreement for such use before construction or rehabilitation is commenced), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be".

Assistance for housing in Alaska

SEC. 904. (a) The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make loans and grants to the State of Alaska, or any duly authorized agency or instrumentality thereof, in accordance with a statewide program prepared by such State, agency, or instrumentality, and approved by the Secretary, to assist in the provision of housing and related facilities for Alaska natives and other Alaska residents who are otherwise unable to finance such housing and related facilities upon terms and conditions which they can afford. The program shall (1) specify the minimum and maximum standards for such housing and related facilities (not to exceed an average of \$7,500 per dwelling unit); (2) to the extent feasible, encourage the proposed users of such housing and related facilities to utilize mutual and self-help in the construction thereof; and (3) provide experience, and encourage continued participation, in self-government and individual home ownership.

(b) Grants under this section shall not exceed 75 per centum of the aggregate cost of the housing and related facilities to be constructed under an approved program.

(c) There is authorized to be appropriated not to exceed \$10,000,000 to carry out the purposes of this section.

Federal National Mortgage Association participation in Federal Housing Administration-insured construction financing

SEC. 905. Section 305 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(i) In any case where the Association makes a commitment to purchase under this section (1) a mortgage insured under section 213, or (2) a mortgage insured under section 221(d)(3) and executed by a cooperative (including an investor-sponsor), a private nonprofit corporation or association, or a mortgagor qualified under section 221(e), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage. The Secretary of Housing and Urban Development shall approve the reasonableness of the fee to be paid a participating mortgagee, taking into account its services and the extent of its participation in the advances."

Federal National Mortgage Association standby commitments

SEC. 906. Section 304(a)(1) of the National Housing Act is amended by striking out the last sentence.

Planning grants for research on State statutes affecting local governments

SEC. 907. Section 701(b) of the Housing Act of 1954 is amended by inserting before the period at the end thereof the following:

"and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations".

Public facility loans

SEC. 908. Section 202 of the Housing Amendments of 1955 is amended by adding at the end thereof a new subsection as follows:

"(f) The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located."

Use of open-space grants for development of existing open-space land

SEC. 909. (a) Section 701(b) of the Housing Act of 1961 is amended by inserting ", for the development and redevelopment of existing parks and other open space," after "the Nation's urban areas".

(b)(1) The first sentence of section 702(a) of such Act is amended by inserting before the period at the end thereof the following: ", or the development or redevelopment, for open-space uses, of existing open-space land".

(2) The second sentence of section 702(a) of such Act is amended by inserting before the period at the end thereof the following: "or such development or redevelopment".

Applying advances in technology to housing and urban development

SEC. 910. (a) To encourage and assist the housing industry to continue to reduce the cost and improve the quality of housing by the application to home construction of advances in technology, and to encourage and assist the application of advances in technology to urban development activities, the Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is directed to—

(1) conduct research and studies to test and demonstrate new and improved techniques and methods of applying advances in technology to housing construction, rehabilitation, and maintenance, and to urban development activities; and

(2) encourage and promote the acceptance and application of new and improved techniques and methods of constructing, rehabilitating, and maintaining housing, and the application of advances in technology to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public.

(b) Research and studies conducted under this section shall be designed to test and demonstrate the applicability to housing construction, rehabilitation, and maintenance, and urban development activities, of advances in technology relating to (1) design concepts, (2) construction and rehabilitation methods, (3) manufacturing processes, (4) materials and products, and (5) building components.

(c) The Secretary is authorized to carry out the research and studies authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for research and studies authorized by this section for work to continue not more than two years from the date of any such contract.

(d) There are authorized to be appropriated to carry out the provisions of this

section not to exceed \$5,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$10,000,000 for the fiscal year ending June 30, 1968. All funds so appropriated shall remain available until expended.

(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

Urban environmental studies

SEC. 911. (a) The Congress finds that, with the ever-increasing concentration of the Nation's population in urban centers, there has occurred a marked change in the environmental conditions under which most people live and work; that such change is characterized by the progressive substitution of a highly complex, man-contrived environment for an environment conditioned primarily by nature; that the beneficent or malignant influence of environment on all living creatures is well recognized; and that much more knowledge is urgently needed concerning the effect on human beings of highly urbanized surroundings. It is the purpose of this section to authorize a comprehensive program of research, studies, surveys, and analyses to improve understanding of the environmental conditions necessary for the well-being of an urban society, and for the intelligent planning and development of viable urban centers.

(b) In order to carry out the purpose of this section, the Secretary is authorized and directed to—

(1) conduct studies, surveys, research, and analyses with respect to the ecological factors involved in urban living;

(2) document and define urban environmental factors which need to be controlled or eliminated for the well-being of urban life;

(3) establish a system of collecting and receiving information and data on urban ecological research and evaluations which are in process or are being planned by public or private agencies, or individuals;

(4) evaluate and disseminate information pertaining to urban ecology to public and private agencies or organizations, or individuals, in the form of reports or otherwise;

(5) initiate and utilize urban ecological information in urban development projects initiated or assisted by the Department of Housing and Urban Development; and

(6) establish through interagency consultation the coordinated utilization of urban ecological information in projects undertaken or assisted by the Federal Government which affect the growth or development of urban areas.

(c) (1) The Secretary is authorized to establish such advisory committees as he deems desirable for the purpose of rendering advice and submitting recommendations for carrying out the purpose of this section. Such advisory committees shall render such advice to the Secretary upon his request and may submit such recommendations to the Secretary at any time on their own initiative. The Secretary may designate employees of the Department of Housing and Urban Development to assist such committees.

(2) Members of such advisory committees shall receive not to exceed \$100 per day when engaged in the actual performance of their duties, in addition to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

(d) The Secretary is authorized to carry out the studies, surveys, research, and analyses authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for work under this subsection to

continue not more than two years from the date of any such contract.

(e) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. All funds so appropriated shall remain available until expended when so provided in appropriation Acts.

Mortgage relief for certain homeowners

SEC. 912. That part of section 107 of the Housing and Urban Development Act of 1965 which precedes subsection (f) is amended to read as follows:

"Mortgage relief for certain homeowners"

"SEC. 107. (a) For the purposes of this section—

"(1) The term 'mortgage' means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(2) The term 'Federal mortgage agency' means—

"(A) the Secretary of Housing and Urban Development when used in connection with mortgages insured under the National Housing Act, and

"(B) the Administrator of Veterans' Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(3) The term 'distressed mortgagor' means an individual who—

"(A) was employed by the Federal Government at, or was assigned as a serviceman to, a military base or other Federal installation and whose employment or service at such base or installation was terminated subsequent to November 1, 1964, as the result of the closing (in whole or in part) of such base or installation; and

"(B) is the owner-occupant of a dwelling situated at or near such base or installation and upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments due under such mortgage.

"(b) (1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments due under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

"(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that such action is necessary to avoid foreclosure.

"(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency, the mortgagor, and the mortgagee shall enter into a binding agreement under which—

"(A) the mortgagor will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c), together with interest thereon at a rate not to exceed the rate provided in the mortgage; the manner and time in which such payments shall be made to be determined by the Federal mortgage agency having due regard for the purposes sought to be achieved by this section; and

"(B) the Federal mortgage agency will be subrogated to the rights of the mortgagee to the extent of payments made pursuant to such certificate, which rights, however, shall be subject to the prior right of the mortgagee to receive the full amount payable under the mortgage.

"(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

"(A) two years from the date on which such certificate was issued;

"(B) thirty days after the date on which the mortgagor gives notice in writing to the Federal mortgage agency that he is able to resume his obligation to make payments due under his mortgage; or

"(C) thirty days after the date on which the Federal mortgage agency determines that the mortgagor to whom such certificate was issued has ceased to be a distressed mortgagor as defined in subsection (a) (3).

"(c) (1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments due under the mortgage.

"(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor may include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid payments under such mortgage prior to the issuance of such certificate, plus a reasonable allowance for foreclosure costs actually paid by the mortgagee if a foreclosure action was dismissed as a result of the issuance of a moratorium certificate. Payments by the Federal mortgage agency may also include payments of taxes and insurance premiums on the mortgaged property as deemed necessary when these items are not provided for through payments to a tax and insurance account held by the interested mortgagee.

"(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments due under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

"(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

"(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

"(e) There shall be in the Treasury (1) a fund which shall be available to the Secretary of Housing and Urban Development for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c) and for paying administrative expenses incurred in connection with such assistance, and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose, except administrative expenses. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Secretary of Housing and Urban Development, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts."

Acquisition of certain properties situated at or near military bases which have been ordered to be closed

SEC. 913. (a) Notwithstanding any other provision of law, the Secretary of Defense is authorized to acquire title to, hold, manage, and dispose of, or, in lieu thereof, to reimburse for certain losses upon private sale of, or foreclosure against, any property improved with a one- or two-family dwelling which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

(1) that the owner of such property is, or has been, a Federal employee employed at or in connection with such base or installation (other than a temporary employee serving under a time limitation) or a serviceman assigned thereto;

(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at or in connection with such base or installation; and

(3) that as the result of the actual or pending closing of such base or installation, in whole or in part, there is no present market for the sale of such property upon reasonable terms and conditions.

(b) In order to be eligible for the benefits of this section such employees or military personnel must be or have been—

(1) assigned to or employed at or in connection with the installation or activity at the time of public announcement of the closure action,

(2) transferred from such installation or activity, or terminated as employees as a result of reduction-in-force, within six months prior to public announcement of the closure action, or

(3) transferred from the installation or activity on an overseas tour unaccompanied by dependents within fifteen months prior to public announcement of the closure action:

Provided, That, at the time of public announcement of the closure action, or at the time of transfer or termination as set forth above, such personnel or employees must—

(i) have been the owner-occupant of the dwelling, or

(ii) have vacated the owned dwelling as a result of being ordered into on-post housing during a six-month period prior to the closure announcement:

Provided further, That as a consequence of such closure such employees or personnel must—

(i) be required to relocate because of military transfer or acceptance of employment beyond a normal commuting distance from the dwelling for which compensation is sought, or

(ii) be unemployed, not as a matter of personal choice, and able to demonstrate such financial hardship that they are unable to meet their mortgage payments and related expenses.

(c) Such persons as the Secretary of Defense may determine to be eligible under the criteria set forth above shall elect either (1) to receive a cash payment as compensation for losses which may be or have been sustained in a private sale or foreclosure, in an amount not to exceed the difference between (A) 95 per centum of the fair market value of their property prior to public announcement of intention to close all or part of the military base or installation and (B) the fair market value of such property at the time of the sale or foreclosure, or (2) to receive, as purchase price for their property, an amount not to exceed 90 per centum of prior fair market value as such value is determined by the Secretary of Defense, or the amount of the outstanding mortgages. An election to receive a cash payment as compensation for

loss sustained in a private sale shall not be effective in any case in which the property at the time of the sale is encumbered by a mortgage loan guaranteed, insured, or held by a Federal agency unless such mortgage loan is paid or otherwise fully satisfied at or prior to the time such cash payment is made, or is assumed by the purchaser (who must be determined to be satisfactory to such Federal agency in the case of a sale occurring after the date of the enactment of this Act). In the event of foreclosure by mortgagees commenced prior to the one hundred and twentieth day after the date of the enactment of this Act, the Secretary may pay or reimburse for direct costs of foreclosure, including deficiency judgments.

(d) There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section which receipts shall be credited to the fund and shall be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray expenses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: *Provided, however*, That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 406 (a) of the Act of August 30, 1957 (42 U.S.C. 1594i), nor shall it be deemed a transaction within the contemplation of section 2662 of title 10, United States Code.

(e) Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired and held under this section. The amount so paid for any year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

(f) The title to any property acquired under this section, the eligibility for, and the amounts of, cash payable, and the administration of the preceding provisions of this section, shall conform to such requirements, and shall be administered under such conditions and regulations, as the Secretary of Defense may prescribe. Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

(g) The Secretary of Defense is authorized to enter into such agreement with the Sec-

retary of Housing and Urban Development as may be appropriate for the purposes of economy and efficiency of administration of this section. Such agreement may provide authority to the Secretary of Housing and Urban Development and his designee to make any or all of the determinations and take any or all of the actions which the Secretary of Defense is authorized to undertake pursuant to the preceding provisions of this section. Any such determinations shall be entitled to finality to the same extent as if made by the Secretary of Defense, and, in event the Secretaries of Defense and Housing and Urban Development so elect, the fund established pursuant to subsection (d) of this section shall be available to the Secretary of Housing and Urban Development to carry out the purposes thereof.

(h) Section 223(a)(8) of the National Housing Act is amended to read as follows:

"(8) executed in connection with the sale by the Government of any housing acquired pursuant to section 915 of the Demonstration Cities and Metropolitan Development Act of 1966."

(i) No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization Act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

(j) Section 108 of the Housing and Urban Development Act of 1965 is repealed.

College housing

SEC. 914. Section 404(b)(4) of the Housing Act of 1950 is amended by striking out "public" immediately before "educational institution".

Study concerning relief of homeowners in proximity to airports

SEC. 915. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting "(a)" after "Sec. 1113.";

(2) by striking out "one year after the date of the enactment of this Act" and inserting in lieu thereof "six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966"; and

(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

Hydrology research for urban development

SEC. 916. (a) The Congress finds that there is an increasingly severe impact upon the national economy occasioned by storm water damages and costs of storm drainage control in urban and metropolitan areas; that engineering technology directed toward the specialized storm drainage problems of urbanized areas has not kept pace with the growth of drainage problems in such areas; and that effective areawide comprehensive planning requires efficient planning and design of all elements of urban drainage systems.

(b) The Secretary of Housing and Urban Development is authorized—

(1) by contract with public or private agencies to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology as it relates to storm drainage systems for urban and metropolitan areas and to collection sewers for such areas, and by working agreements with other departments and agencies of the Federal Government to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology;

(2) to evaluate the studies, investigations, research, and demonstrations authorized by this section; and

(3) to make available, through publications and other appropriate means, the information resulting from such studies, investigations, research, and demonstrations.

(c) The Secretary shall annually submit a report to the President and to the Congress concerning the studies, investigations, research, and demonstrations undertaken under this section with such recommendations as he deems desirable for additional legislation to develop the science of urban hydrology and its application.

(d) There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this section.

(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

Quarters and facilities for Federal home loan banks and the Federal Home Loan Bank Board

SEC. 917. (a) The second sentence of section 12 of the Federal Home Loan Bank Act (12 U.S.C. 1432) is amended by striking out "but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease" and inserting in lieu thereof "but, except with the prior approval of the Board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease".

(b) Section 18 of such Act (12 U.S.C. 1438) is amended—

(1) by adding at the end of subsection (b) the following new sentence: "Such assessments may include such amounts as the Board may deem advisable for carrying out the provisions of subsection (c) of this section."; and

(2) by adding at the end thereof the following new subsection:

"(c) (1) The Board, utilizing the services of the Administrator of General Services (hereinafter referred to as the 'Administrator'), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—

"(A) to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;

"(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

"(C) to enlarge, remodel, or reconstruct any of the same; and

"(D) to make or enter into contracts for any of the foregoing.

"(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of 4½ per centum per annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the United States. To such extent as

the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

"(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

"(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

"(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term 'property' shall include interests in property.

"(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms 'wholly owned Government corporations' and 'Government corporations', wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413—5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

"(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000 or such greater amount as may be provided in an appropriation Act or other law."

Small Business Act

SEC. 918. Paragraph (1) of section 8(b) of the Small Business Act is amended by inserting "(A)" after "(1)" by inserting "and"

after "Administration"; and by adding at the end thereof a new subparagraph as follows:

"(B) to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;".

Use of certain lands for civil defense purposes

SEC. 919. Section 2 of the Act entitled "An Act to provide for the conveyance of a tract of land in Prince Georges County, Maryland, to the State of Maryland for use as a site for a National Guard Armory and for training the National Guard or for other military purposes", approved August 10, 1949 (63 Stat. 592), is amended by striking out "The land" and inserting in lieu thereof "(a) Except as provided in subsection (b) of this section, the land" and by adding at the end thereof the following new subsection:

"(b) The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable."

Mortgage insurance for land development—Clarifying amendments

SEC. 920. Section 1001(d) of the National Housing Act is amended—

(1) by striking out "sewerage disposal installations," and inserting in lieu thereof "sewage disposal installations, steam, gas, and electric lines and installations;";

(2) by striking out the semicolon after "or common use", and inserting in lieu thereof a period and the following new sentence: "Related uses may include industrial uses, with sites for such uses to be in proper proportion to the size and scope of the development;";

(3) by striking out "but such term" and inserting in lieu thereof: "The term improvements"; and

(4) by inserting after "sewage disposal installation," in clause (1) the following: "or a steam, gas, or electric line or installation;".

Miscellaneous and technical amendments

SEC. 921. (a) Section 106(d) of the Housing Act of 1949 is repealed.

(b) Section 227(a) of the National Housing Act is amended by striking out "subsection (b) (2)" in clause (vi) and inserting in lieu thereof "subsection (b)".

(c) The last sentence of section 305(e) of the National Housing Act is amended by striking out "supplementing" and inserting in lieu thereof "supplementary".

(d) Section 308 of the National Housing Act is amended by striking out "(a)".

(e) Section 512 of the National Housing Act is amended by striking out "or IX" and inserting in lieu of "IX, X, or XI".

(f) Section 1001(c) of the National Housing Act is amended by striking out "'mortgage'" and inserting in lieu thereof "'mortgagee'".

(g) Section 1 of the National Housing Act is amended by striking out "and X" wherever it appears and inserting in lieu thereof "X, and XI".

(h) Section 102(h) of the Housing Amendments of 1955 is amended by striking out "section 213 of the National Housing Act, as amended, the Commissioner" and inserting in lieu thereof "section 213 of the National Housing Act, section 221(d) (3) of the National Housing Act, and section 101 of the Housing and Urban Development Act of 1965 (insofar as the provisions of such sections relate to cooperative housing), the Secretary of Housing and Urban Development", and

by striking out "such section" each place it appears and inserting in lieu thereof "such sections".

AMENDMENT OFFERED BY MR. ASHLEY

Mr. ASHLEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. ASHLEY: Strike out page 99, line 21, and all that follows down through page 100, line 11, and insert in lieu thereof the following:

"Sec. 701. (a) Section 110(d) of the Housing Act of 1949 is amended by inserting immediately after the colon at the end of the first proviso the following: 'Provided further, That any publicly-owned facility, the construction of which was begun not earlier than three years prior to the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility, if such facility (A) is used, or is to be used, by the public predominantly for cultural, exhibition, or civic purposes; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid.'"

"(b) Section 112(a) of such Act is amended by inserting before the period at the end thereof the following: 'Provided further, That no such expenditure shall be deemed ineligible as a local grant-in-aid in connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project (or within such greater distance from the project as the Secretary may specify in the case of an expenditure and project which the Secretary determines meet the objectives of this section but cannot be encompassed within the one-mile limitation)'."

"(c) In view of the fact that a substantial proportion of the local share of urban renewal costs is being met by local non-cash grants-in-aid, and that the success of many projects is dependent upon the credits allowed therefor, the Secretary is authorized and directed to make a study of the ways in which local communities are meeting their share of these costs and recommend to the Congress policies to govern the recognition of local expenditures for such credits. The appropriation of such sums as may be necessary to carry out such study is hereby authorized."

The CHAIRMAN. The gentleman from Ohio is recognized for 5 minutes in support of his amendment.

Mr. ASHLEY. Mr. Chairman, this is an important amendment. It has just three parts. Section 701 as it appears in the reported bill would give the communities credit toward their share of urban renewal of 25 percent of costs of civic, community, exhibition facilities, and municipal projects.

The word "municipal" was added at the last minute in our committee and it has met with vigorous opposition from the Department, from communities throughout the country and from various other sources. The term "municipal" is not defined and the Department points out that it is so inconsistent with the rest of the section as to be practically meaningless.

The Department is deeply concerned, as I and as other members of the committee are, that the wide open term

might lead to impossible pressure on the funds authorized for the urban renewal program and might well distort that program by encouraging lower priority projects for the sake of taking advantage of these credits.

To meet those objections, my amendment would strike from the provisions of the bill the word "municipal", thereby leaving that section in the same form as was approved by the Senate.

This, without question, is the most important proviso in my amendment, Mr. Chairman, but there are two other portions which I should like to comment on.

The second provision would liberalize section 712 in the existing urban renewal law by permitting certain expenditures by universities and hospitals to be counted toward the community share of urban renewal projects. Existing law allows the expenditures if they meet the criteria in section 112 and if they are made in or in the vicinity of an urban renewal project.

The phrase "in the vicinity" has never been defined by the Congress and many universities feel that the Department has interpreted it too restrictively in their definition of a quarter of a mile from the urban renewal project.

It seems to me that this interpretation by the Department does not take into account many local factors and the different shapes of some campuses.

My amendment would simply define "in the vicinity" to mean within 1 mile. And I would like to emphasize that before any expenditure could be counted in this area it would have to meet the guidelines created in the law to assure that the expenditures are truly related to the purposes of the urban renewal project.

The final section of my amendment, Mr. Chairman, would direct the Secretary to undertake a special study of the way in which communities are now meeting their share of urban renewal cost and the problems they are having in providing their one-third share or their one-fourth share as the circumstances may be.

The Secretary would report back to the Congress next year with any recommendations he might wish to make on changes in the law with respect to local financing to assure that all communities are treated equitably.

I think, and I feel certain, that the Subcommittee on Housing will welcome this study and take action on any recommendations that he makes.

Mr. HANNA. Mr. Chairman, will the gentleman yield on that point?

Mr. ASHLEY. Mr. Chairman, I will be glad to yield.

Mr. HANNA. Mr. Chairman, if the gentleman recalls, there were substantial problems that were raised relative to the language in section 701 as it appeared in the bill that eliminates for consideration facilities whose construction were less than the 3-year period, which was kind of an arbitrary dropoff date. And there were suggestions that some flexibility in relation to that should be evolved.

Mr. ASHLEY. Mr. Chairman, is the gentleman referring to individual projects such as mine in Toledo, Ohio, which

do not quite meet the definition of the law that construction of the facility for which there is sought to be taken a non-cash credit, was not constructed within 3 years prior to approval of an urban renewal project?

Mr. HANNA. That is precisely the point.

Mr. ASHLEY. In drawing this amendment if I may say so, I drew it deliberately to exclude consideration for the time being of that kind of special exception.

Mr. HANNA. Is this what the report is supposed to have developed—an approach to this problem?

Mr. ASHLEY. My amendment does not go to that kind of situation. The reason it does not is because I feel it is very important for us to come up with general language that will cover every type of situation.

The language I have come up with does cover those situations that can be covered by general language at least at this time.

The CHAIRMAN. The time of the gentleman has expired.

(Mr. ASHLEY asked and was given permission to proceed for 3 additional minutes.)

Mr. ASHLEY. Mr. Chairman, I have asked for these few additional minutes to make clear the principal thrust of my amendment which goes to this proposition: by inclusion of the word "municipal" in section 701 we say to the cities that any municipal facilities, be they police stations, municipal office buildings, courthouses, firehouses or whatever they may be—that the construction of these facilities within an urban renewal project will generate 25-percent noncash credit.

If my amendment is not adopted, these communities will generate untold millions of dollars of noncash credit—and each of these noncash credit dollars, let me point out, generates 2 Federal dollars.

This is the thrust of my amendment.

I would like to make it clear at the same time that I am not eliminating the 25 percent that would be allowed as non-cash credit for civic facilities that benefit and that are located within and benefit an urban renewal project.

I might say, Mr. Chairman, the distinction was drawn out well in the language of the Senate report which I would recommend to this body at this time.

It reads as follows:

While the legislative language is quite broad, the committee wishes to make clear that it had very specific types of facilities in mind. It intends this provision to apply to public auditoriums, concert halls, theaters, central libraries, museums, exhibition halls, art galleries, band shells, settings for historical sites, meeting halls and similar facilities for general use. It does not intend this provision to apply to facilities associated with normal governmental functions, such as city halls, municipal office buildings, or courthouses, nor should it be applicable to facilities provided principally for athletic or recreational purposes, such as stadiums, gymnasiums, or skating rinks.

The CHAIRMAN. The time of the gentleman has expired.

(Mr. ASHLEY asked and was given permission to revise and extend his remarks.)

The CHAIRMAN. For what purpose does the gentleman from New Jersey rise?

Mr. WIDNALL. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. WIDNALL. Is it in order to offer a substitute for the amendment offered by the gentleman from Ohio [Mr. ASHLEY]?

The CHAIRMAN. It is always in order to offer a substitute.

Mr. WIDNALL. If so, when should it be offered? At this time?

The CHAIRMAN. If the gentlewoman from New Jersey wishes to offer a substitute, it can be offered now.

Mrs. DWYER. Mr. Chairman, I offer a substitute amendment to the Ashley amendment.

Mr. PATMAN. Mr. Chairman, will the gentlewoman yield for a unanimous-consent request?

Mrs. DWYER. I yield to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that debate close at the end of the 5 minutes allotted to the gentlewoman.

The CHAIRMAN. I did not hear the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that from now until the end of the consideration of the bill all debate on amendments be limited to 10 minutes.

Mr. WIDNALL. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

AMENDMENT OFFERED BY MRS. DWYER

Mrs. DWYER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mrs. DWYER as a substitute for the amendment offered by Mr. ASHLEY: Strike out section 701 beginning on page 99, line 20, and ending on page 100, line 11, and renumber the succeeding sections accordingly.

Mr. PATMAN. Mr. Chairman, a point of order.

The CHAIRMAN. The gentleman will state it.

Mr. PATMAN. I rise to a point of order against the amendment on the ground of germaneness. It is a simple motion to strike out.

The CHAIRMAN. The Chair advises the gentlewoman from New Jersey that this is obviously a motion to strike out and cannot be submitted at this time.

Mr. ST GERMAIN. Mr. Chairman, I move to strike the requisite number of words.

(Mr. ST GERMAIN asked and was given permission to revise and extend his remarks.)

Mr. ST GERMAIN. Mr. Chairman and Members of the Committee, I listened very attentively to the remarks of my esteemed senior colleague on the subcommittee from Ohio, and among some of the phrases I picked out were the fact that the agency had voiced vigorous opposition, and evidently in voicing their opposition to certain Members in the Congress and on the committee, neglected to inform other members of the subcommittee and the full committee of this vigorous opposition.

When we consider the words—and despite the Senate committee's report—"cultural, exhibition, or civic purposes," I do not see that there should be any greater problem in determining what a municipal purpose is. I think it is a whole lot simpler to define municipal purpose than it is to define cultural, exhibition, or civic purposes.

I feel that if there is any validity to the gentleman's argument, then we should strike section 701 in toto, in its entirety, and then wait for that report to come in a year from now. But if we can go along with the words "cultural, exhibition, or civic purposes" that are not defined, then I feel certainly that there is a strong argument that can be made for municipal purposes.

I for one am certainly in favor of cultural and civic purposes. By the same token, I am also in favor of the necessary facilities that many of our communities need, and I certainly feel that a central police headquarters is just as important to the well-being of the citizens of a community as is an exhibition center or a cultural center.

By comparison, in fact, if we were to grade these in importance, I would certainly feel that the "municipal" should come first and the others later if there were funds remaining.

Additionally, in the arguments which were given in proposing this particular amendment, there was no breakdown on what the total cost would be either way.

No figures have been propounded, nor could they be projected, for the possible cost of the "cultural, exhibition or civic" purposes, as the three words that remain in the amendment offered by the gentleman from Ohio.

Nor have any figures been projected for the cost that the word "municipal" would mean in this amendment.

Therefore, Mr. Chairman, I hope that the Members will reject this amendment.

Let us make a real decision. Either we are going to allow these lofty, very important projects to be given a 25-percent credit, and allow all of them, or, if that is not the case, let us not be prejudiced against municipal projects but let us delete the entire section. I am sure there will be a motion offered to do that subsequent to the vote on the Ashley amendment, in view of the parliamentary situation.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. ST GERMAIN. I yield to the gentleman from Ohio.

Mr. ASHLEY. The gentleman indicated that there was no breakdown of the cost figures. I believe that is an admission of the first water.

The plain fact of the matter is that the amendment of the gentleman to include "municipal" was made at the last minute. There was no hearing on the inclusion. There was no request for testimony. The gentleman offered this after the subcommittee concluded hearings when the bill was being taken up before the full committee.

Mr. ST GERMAIN. That is correct. By the same token, no hearings were held, and no evidence or testimony was taken, on the words "cultural, exhibition or civic."

Mr. ASHLEY. There was, before the other body.

Mr. ST GERMAIN. None was presented to us. Not one single bit of evidence was before our committee.

Mr. HARDY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I am disturbed by this amendment.

When the bill came over from the other body, as I recall, there were quite a number of special projects included. Frankly, I have always felt that was the wrong approach to this kind of legislation.

The House Committee came in with a substitute approach, and included this section, which embodies a credit of 25 percent for a number of types of buildings that can be included. To me that is a much more fair approach.

But if we leave out the credit for municipal buildings, this would destroy it, so far as I am concerned. I believe the point made by the gentleman from Rhode Island was a very good point. Certainly there cannot be anything which would contribute more to a community or to its redevelopment than a police station or than a modernized jail, if that is necessary, or, if it fitted in with the redevelopment program, for that matter, even a city hall, if it were a necessary part of the redevelopment program.

Mr. Chairman, it is utterly foolish, it seems to me, for us to try to decimate this particular section. I think it is both proper and desirable to include this type of facility and to permit a percentage of credit. It is a much better approach than having the special projects brought out specifically in the bill as was done in the other body. I hope that this amendment will be defeated.

Mr. DOWNING. Mr. Chairman, will the gentleman yield?

Mr. HARDY. I yield to my neighbor from Virginia.

Mr. DOWNING. I must say, Mr. Chairman, that I concur completely with the gentleman from Virginia. As I recall it, when this bill was being marked up, it had some 40 or 50 projects in it which were municipal projects.

Mr. HARDY. A great many of them were municipal projects.

Mr. DOWNING. Then it was very wisely decided to delete these projects and put in qualification language or general language by which any city that qualified could make application for municipal projects.

Mr. HARDY. I will say to the gentleman that under the language in this bill there is 25-percent credit instead of the 100-percent credit which is allowed for specific projects in the Senate bill.

Mr. DOWNING. Exactly. I do hope that my colleagues will vote this amendment down.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. HARDY. I yield to the gentleman from Ohio.

Mr. ASHLEY. Is it not true that what we are trying to do is get away from the special exception legislation that we have had year in and year out where privileged Members can come in and say that for

the city of Norfolk or the city of Toledo we will be treated a little differently?

Mr. HARDY. I will say to the gentleman that is exactly what the committee was attempting to do when they included this section in here. They included municipal building, which was entirely proper. If you leave these out, you defeat the whole purpose of the section.

Mr. ASHLEY. Will the gentleman yield further?

Mr. HARDY. I yield to the gentleman.

Mr. ASHLEY. We are talking about cities going forward with the construction of municipal and cultural facilities. These are cities that will be getting undreamed of credits—and Mr. WIDNALL should agree with this—the result will be that small cities that want to do something with urban redevelopment where it is really needed will be precluded from doing so.

Mr. HARDY. I will say to the gentleman that I do not think he is making a proper distinction here, because there are cities—and I have one in my district and, as a matter of fact, it was one included in the Senate bill—that had a municipal project in it. Under the language before us it is left out entirely. That city is certainly as entitled to include a municipal type of facility in its urban redevelopment as any other city and, as a matter of fact, it must do it in order to have a proper redevelopment program.

Mr. ASHLEY. It does not have to be included, does it?

Mr. HARDY. There is no more reason why you should exclude that than a civic center.

Mr. ASHLEY. May I ask the gentleman, does he understand whether the use of the word "municipal" expands the scope of the entire program by tens and tens and tens of millions of dollars?

Mr. HARDY. I will say to the gentleman that he sits on the committee. I have not undertaken to try to see how far this thing goes, but I do know if you do not have something of that kind in the bill, you are leaving a lot of good projects out that should be included.

Mr. ST GERMAIN. Mr. Chairman, will the gentleman yield?

Mr. HARDY. I yield to the gentleman from Rhode Island.

Mr. ST GERMAIN. I thank the gentleman for yielding.

I heard the colloquy between the gentleman from Virginia and the gentleman from Ohio. The gentleman from Ohio said that smaller cities will be hurt. Let us be realistic about this. I think the gentleman will agree that the smaller cities cannot afford exhibitions, civic or cultural centers. What they need most is a police station, a firehouse, a city hall, a jailhouse, or a courthouse.

Mr. HARDY. Actually, the city I am speaking about in my district might be classified as one of the smaller cities, and I will say that it will be hurt if you leave this out.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio [Mr. ASHLEY].

The amendment was rejected.

AMENDMENT OFFERED BY MR. MULTER

Mr. MULTER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MULTER: Starting with line 18 of the bill, on page 92, strike out all the material through line 10 on page 96.

On page 96, line 12, strike out "Sec. 606." and substitute "Sec. 603."

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the gentleman from Texas [Mr. PATMAN].

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that, hereafter, each amendment and debate thereon be limited to 10 minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. WIDNALL. Mr. Chairman, may I suggest that we up that to 15 minutes on each amendment?

Mr. PATMAN. Well, if the gentleman from New Jersey insists.

Mr. WIDNALL. Mr. Chairman, we can yield back such time as remains on any amendment, which is not consumed. I am sure, and I hope that many of the amendments will not require any more than 2 or 3 minutes.

Mr. PATMAN. Mr. Chairman, I put that unanimous-consent request to conform to the wishes of the gentleman from New Jersey [Mr. WIDNALL] that there be allocated 15 minutes for the discussion of each amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. WHITTEN. Mr. Chairman, reserving the right to object, it is reported or rumored that the rural development bill from the Committee on Agriculture on which a rule has been granted providing for 3 hours of debate will be offered as an amendment to this bill. If that be true, I shall object.

Mr. PATMAN. Certainly that will not be taken up under this 15-minute limitation.

The CHAIRMAN. In view of that assurance, does the gentleman from Mississippi withdraw his reservation of objection?

Mr. WHITTEN. Mr. Speaker, I withdraw my reservation of objection.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield further to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, I would like to amend my request to provide that the last 5 minutes of the 15 minutes granted upon each amendment be reserved to the committee.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. GERALD R. FORD. Mr. Chairman, reserving the right to object, I believe that the Chair ought to proceed along the thoughts of the gentleman from Pennsylvania. I believe we ought to defer to the judgment of the gentleman from Pennsylvania. I believe the gentleman will protect the interests of the Committee.

Mr. PATMAN. Mr. Chairman, I am willing to trust the gentleman from New Jersey, with the understanding that the minority leader and the gentleman from Pennsylvania, who is the chairman of the subcommittee—I am willing to trust them thereon and I am confident that the Chair will rule in accordance therewith.

The CHAIRMAN. The gentleman from Texas [Mr. PATMAN] asks unanimous consent that debate on all amendments upon the remainder of the bill be limited to 15 minutes, and not to exceed 15 minutes.

Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. MULTER. Mr. Chairman, I am offering this amendment to strike three sections of the historic preservation title in the bill. I want to make clear that this is by no means because I am opposed to either the purpose or the main provisions of this title. I agree fully with the Special Committee on Historic Preservation that the Federal Government must take far more responsibility in this area than they are now doing. However, I think that we should not run off in all directions on this subject. We must avoid a scattergun approach.

My amendment would strike sections 603, 604, and 605 of the bill. These would authorize grants to the National Trust for Historic Preservation; special grants for historic surveys, under the section 701 comprehensive urban planning program; and the use of the limited funds for low interest-rate loans for acquisition and rehabilitation of historic structures. I believe all three of these provisions are either duplications or undesirable.

The first of these, which authorizes the Secretary of Housing and Urban Development to make grants to the National Trust for Historic Preservation, completely duplicates legislation contained in S. 3035, which has already passed both the Senate and the House. That bill would authorize grants to the National Trust from the Secretary of the Interior. The authority is even broader than in our bill, since it covers grants for acquisition and maintenance of property as well as for renovation and restoration.

I think the national trust has been doing a fine job, and I particularly commend its efforts because of its demonstrated ability to involve private efforts and contributions for this very important work. However, I think it is simply poor Federal organization to provide competing grant programs to assist this organization.

Further, I believe it is more appropriate for the grants to be made by the Secretary of the Interior rather than the Secretary of Housing and Urban Development. Most of the activities of the national trust relate to properties of nationwide importance. This type of historic preservation activity is closely related to the activities of the Secretary of the Interior.

Section 604 of the bill, which I also propose to strike would add special provisions to the section 701 comprehensive urban planning program. This program

already assists in areawide historic surveys. The effect of the new provisions would be to authorize more detailed studies of individual historic structures. Also, it would allow a locality to undertake such historic surveys and planning regardless of whether it was undertaking a general program of comprehensive planning.

Such historic activities are certainly desirable, and can be useful if carried out separately from a general planning program. However, the section 701 program is simply unable to carry any extra burden of this sort at this time. The recent independent Offices Appropriation Act provides \$33 million for the program. Applications are already on hand for about \$25 million of this amount. New applications are coming in at an average rate of about 65 a month, and it is obvious that stringent priorities must be established to assure the best use of the limited available funds.

The last of the sections which I propose to strike is, in many respects, the most objectionable of the three. It would amend the present rehabilitation loan program, under section 312 of the Housing Act of 1964. It would make available the special 3 percent, long-term loans under that section to owners or tenants of historical or architecturally valuable properties to finance their restoration. These loans would be used primarily by private individuals, and could be used to refinance existing mortgage debt, as well as the restoration work.

I have no objection to pouring new legislative wine into old statutory bottles when there is some purpose to be served thereby. However, I see no purpose in diverting a good program to an entirely different purpose.

The rehabilitation loan program has as its purpose the provision of low interest loans to persons who are being required to upgrade their property or have it taken by public condemnation—either because they are in an urban renewal rehabilitation area or a code enforcement area. Moreover, these loans are available only to persons otherwise unable to meet their mortgage payments with 20 percent of their income. It makes good sense to help such persons to stay where they are and bring their properties up to the new standards for the area, rather than to evict them and pay them an even greater subsidy for the cost of moving them and finding adequate quarters for them elsewhere. The funds for this program should not be diverted for historic preservation purposes.

That, also, raises the question of whether a separate loan program should be proposed instead. I think that would be premature. We are authorizing, in the other provisions of the historic preservation title, very substantial new grant assistance to State and local public bodies for historic preservation activities, including both acquisition and restoration, under the existing open space and urban beautification program. These public bodies do not need loans in addition to grants.

Mr. Chairman, I urge adoption of my amendment which would strike these

three provisions. To do so will result in more, rather than less, effective Federal assistance for historic preservation.

Mr. HAYS. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the gentleman from Ohio.

Mr. HAYS. Mr. Chairman, in other words, this is in the bill and you are seeking to strike it out of the bill. Is that correct?

Mr. MULTER. The gentleman is correct.

Mr. HAYS. Why was not this bill settled in the committee? I never saw such a disorganized mess, on this floor, the committee members themselves do not know what is in it.

Mr. MULTER. I appreciate the kind comments of the gentleman from Ohio. We have heard that same comment so often, no one will take it seriously. I think the committee has labored long and well and arduously on this bill. Like many another bill of the length of this bill, things get into it that ought not to be in it, and some things are left out that ought to be in it. The purpose of the 5-minute rule is to permit us to correct such matter and to improve the bill.

Mr. Chairman, I urge the adoption of my amendment.

The CHAIRMAN. The time of the gentleman from New York has expired.

Mr. WIDNALL. Mr. Chairman, I move to strike out the last word, and I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from New Jersey is recognized for 5 minutes in opposition to the amendment.

Mr. WIDNALL. Mr. Chairman, I am particularly surprised by the amendment offered by the gentleman from New York [Mr. MULTER]. As I recall, he voted to report this bill in its entirety. This was incorporated in the bill when he voted on it in the committee.

I cannot help but think that this might be coming up at this time as a punishment to me for some of the positions that I have taken in connection with this bill, because this is a section of the bill I sponsored originally. Actually it had been prepared through a commission that was appointed after a Ford Foundation grant. On that commission Senator MUSKIE of Maine served for the Senate and I served for the House. Former Congressman Rains of Alabama was one of those who were very prominent in the formulation of the suggested legislation. It is a proposal that has received considerable thought. Similar bills have been introduced in both Houses. There is tremendous interest in this bill and the amount of funds involved in this is miniscule compared to the rest of the funds that are in this bill.

Mr. Chairman, we must do something urgently in this area, or we are going to bulldoze out of existence almost every historic site in the United States. It is tragic to think today that many people think it is not important to consider something such as this immediately. We are really losing part of our heritage day by day through the highway and other projects all over this country. This is meaningful legislation. I believe that the people of the United

States back it. I certainly would hope that the amendment is going to be rejected.

Mr. REUSS. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. REUSS. Mr. Chairman, I would like to associate myself with the remarks of the gentleman from New Jersey [Mr. WIDNALL] and urge Members to vote down the amendment.

I think these three sections of the historic preservation bill are important.

The organization to which section 603 permits grants, the national trust for historic preservation is a very distinguished public organization.

As the gentleman from New Jersey has said, a very high level bipartisan commission has worked out the details of this bill. I voted for it in committee and I support it. Irrespective of the disagreements I may have on other sections of this bill, and they are deep seated, I would hope that we would retain these sections in the bill and vote down the amendment.

Mr. WIDNALL. I thank the gentleman.

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. MULTER. The gentleman from New Jersey and I agree on almost everything that he has said except when he said that this may be intended to punish him for some of the positions he has taken.

Mr. Chairman, the gentleman from New Jersey is one of the most respected Members of this House. I certainly have the highest respect for him. We have worked together very closely on many matters in and out of committee.

But, Mr. Chairman, I am sorry to take a position opposite to his position on this particular amendment. At the same time I want to assure him, I am not seeking any revenge or trying to take anything out on him for any position that he has taken. I know that whatever position he has taken is a conscientious position in accordance with what he thinks is right.

The only reason for offering this amendment at this time is that I think this does not belong in this bill.

I do not have any doubt that when the appropriate bill comes before this House covering this matter, I will be happy to join with the gentleman in urging its enactment. But we ought not to take out of this bill the small amount of funds that we have available here and divert them to this purpose when we have another fund that is available for them. Mind you, I am not touching the grants but only touching the loan provisions here.

The CHAIRMAN. The time of the gentleman from New Jersey has expired. The question is on the amendment of the gentleman from New York [Mr. MULTER].

The amendment was rejected.

AMENDMENT OFFERED BY MR. MOORHEAD

Mr. MOORHEAD. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MOORHEAD: Page 106, lines 16 through 19, strike out "(or (2) a mortgage insured under section 221(d) (3) and executed by a cooperative (including an investor-sponsor)," and inserting in lieu thereof "(2) a mortgage insured under section 220, or (3) a mortgage insured under section 221(d) (3) and executed by a cooperative (including an investor-sponsor), a limited dividend corporation,".

Mr. MOORHEAD. Mr. Chairman, FHA section 220 permits the FHA to insure mortgage loans for housing and urban renewal areas.

FHA section 221(d) (3) does the same thing for FHA for housing for low income families.

These programs work because in past years for construction money, borrowers have been able to get money from existing lending institutions on the assurance that Fannie Mae would buy them out.

The present mortgage market, even for construction mortgages, is so tight that these builders cannot get their construction money. In this bill—before my amendment—we authorize Fannie Mae to come up with construction money for a few of these institutions. But we did not cover section 220, urban renewal housing, nor section 221(d) (3) programs where there was a limited dividend corporation.

My amendment takes into account this fact. It liberalizes this situation and would permit Fannie Mae to participate in construction mortgages in the section 220 urban renewal housing program and in the section 221(d) (3) program where there is a limited dividend corporation.

In today's housing market, where we are trying to get housing, and particularly in the slum areas, this bill, particularly as amended by my amendment, will do something to give us such housing.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. MOORHEAD. I yield to the gentleman from Pennsylvania.

Mr. BARRETT. I see no reason why we cannot accept the amendment, if it is agreeable with the minority.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Pennsylvania [Mr. MOORHEAD].

The amendment was agreed to.

AMENDMENT OFFERED BY MRS. DWYER

Mrs. DWYER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mrs. DWYER: Strike out section 701, beginning on page 99, line 20, and ending on page 100, line 11.

And renumber the succeeding sections accordingly.

Mrs. DWYER. Mr. Chairman, I do not see how, in good conscience, this House can allow section 701 to remain in the bill.

To those who favor the legislation, it will be a fatal millstone around the necks of the urban renewal and demonstration cities programs.

To those who oppose the program, it will stand as a billion-dollar embarrassment to every Member of Congress.

Unless our colleagues, Mr. Chairman, accept my amendment, every Member of this body will be saddled with responsibility for perpetrating the biggest "pork barrel" operation in the history of hous-

ing legislation—held responsible by a public that has grown sick and tired of unjustified Federal subsidies, handed out by the billions to people who do not need them.

Unless we strike out section 701, Mr. Chairman, it will remain in the bill and there will be little the conferees will be able to do about it. Except for the addition of the word "municipal" in the House committee, section 701 is identical in both the House and Senate versions of the legislation.

So the decision is up to us. What we do on this amendment will determine the fate of the urban renewal program. There will not be much left if 701 stays in.

For those of our colleagues who did not hear or read my remarks on section 701 yesterday or who have not yet had an opportunity to read my letter to them, I would summarize the case against the section this way: It will cost billions; it will radically transform urban renewal; it will subsidize public projects which have already been built; it will require the Federal urban renewal program to help pay for citywide or areawide facilities which have no specific relationship to an urban renewal project; it would, in effect, take from the poor and give to the rich; and with 800 cities being invited to get something for nothing, there will be very little left after the earliest and the biggest and the hungriest get finished.

In case there is any doubt as to the position of the Secretary of Housing and Urban Development on the subject of section 701 or noncash grant-in-aid credits generally, I am glad to assure our colleagues that the Secretary strongly supports my position—both with regard to the 52 special exception subsidies, which the committee eliminated from the bill, and section 701 which would do, at a 25-percent rate, what the special exceptions would have done, but this time for more than 800 instead of 52 cities.

In my remarks yesterday and in my letter to our colleagues, I quoted pertinent comments of the Secretary about the 52 special projects—it was 48 when he wrote—and about section 701. At the close of my remarks today, I shall include the texts of an exchange of letters between the Secretary and myself on this subject.

I do not criticize, Mr. Chairman, any great city for wanting a mammoth new auditorium, or a vast new opera house, or a beautiful new museum, but I resent deeply taking money away from the poor to pay for it, and I resent deeply charging a large part of the cost to the U.S. Treasury when this Congress has never authorized subsidies for opera houses—or for any of the variety of projects which cities would rush to build under the generous incentives of section 701.

How, I wonder, could we ever explain this section—in the event it is approved—to our constituents?

How, for instance, could we justify authorizing billions of dollars of new subsidies—unnecessary and unproductive subsidies, subsidies which will help defeat the very purposes of this legislation?

How could we excuse an act which would turn the urban renewal program away from those who need decent homes

and turn it over instead to office buildings, shopping centers, exhibition halls, and the like—facilities which, in many cases, have already been built and would be built, in any event, with local funds as they should be and always have been.

How could we convince constituents that it is right to hand over a valuable program to those who are looking for something for nothing?

One final word, Mr. Chairman. To those of our colleagues who may think their own communities will gain something from section 701, let me add a note of caution. They probably will not. In fact, they may find that they no longer can obtain any urban renewal assistance at all.

Why? Because this section will be so expensive there will not be enough money to go around. I remind our colleagues that Secretary Weaver said he would have to stop accepting new applications for capital grant funds if Congress approved 48 special exceptions. In section 701, there is the potential for at least four times the impact of the 48, or 52, special subsidies. So I fear there will be a great many disappointed cities in America if we let this provision stay in.

It is time for restraint, Mr. Chairman, for reason and responsibility. I urge our colleagues to support my amendment to strike section 701.

The letters referred to follow:

THE SECRETARY OF HOUSING
AND URBAN DEVELOPMENT,
Washington, D.C.

HON. WRIGHT PATMAN,
House of Representatives,
Washington, D.C.

DEAR MR. PATMAN: I wish to state in the strongest possible terms this Department's opposition to the 48 special non-cash grant-in-aid exceptions contained in section 704 of the August 27 Committee Print of the draft "Housing and Urban Development Act of 1966."

With two exceptions (those for Garden City, Michigan and Sacramento, California) these exceptions in the draft are without justification or merit.

It is our estimate that the cost of the facilities involved in the special exceptions will be on the order of \$350 million. These estimates are conservative. A major proportion of the exceptions deal with facilities proposed but not yet constructed, and traditionally early estimates of construction costs tend to be very low. It is not inconceivable that these figures will double before the facilities are in place. If the same generous treatment were to be extended to all of the projects still active in the urban renewal program, it would result in additional demand for capital grant funds on the order of \$8.7 billion, far more than has been authorized for the entire urban renewal program since it was authorized in 1949.

If these exceptions are passed, we may well expect a similar deluge in future years. I would go even further than this. If we establish a principle that any locality can ignore all of the legislative and administrative rules involved in the carrying out of urban renewal projects, through the ready and unquestioned recourse to special exception legislation, we will then have reached a point at which the program has become completely unmanageable.

The effect of the enactment of these provisions on the urban renewal program would be devastating. If we are to act in a financial prudent manner, it will be necessary for us to set aside, from current urban renewal capital grant authorization, the necessary funds to meet future capital grant needs

generated by these provisions. If we take this course of action, which I believe to be prudent and necessary, we will not be able to approve any further projects for any other localities until further authorization becomes available in fiscal 1968. For the sake of the few localities benefiting from the special provisions, other deserving localities would suffer.

Accordingly, the immediate effect of approving these special provisions would be to preclude approval of new urban renewal projects, cripple the newly authorized demonstration cities program, and dissipate the funds Congress has already authorized to fight slums and blight.

Adoption of these special provisions would use up almost one-half of the \$725 million authorized by Congress to be spent for the elimination of slums and blight during fiscal 1967. All of the money required by the special provisions would be added to the amount of urban renewal grant funds to be paid to cities which already have urban renewal projects. The funds would be used to pay for cultural centers, civic centers, and huge stadiums—not to make possible additional housing for low-income people.

These special provisions would preempt urban renewal funds to pay for luxury items of communities which are already benefiting from participation in the urban renewal program. This would constitute the most drastic discrimination against the many localities in the country which would be deprived of an opportunity to participate in the urban renewal program. It would take money the Congress has earmarked for the elimination of slums and blight and convert it to the financing of huge civic and cultural monuments, baseball stadiums and the like. It would move directly away from the very desirable objective of the Committee that we place greater emphasis on residential construction in urban renewal areas.

Approval of these 48 special provisions would severely hamper the demonstration cities program—the most important and socially necessary legislative item in the Committee bill—by severely limiting the number of new urban renewal projects that could be approved to help provide low-income housing as part of a demonstration program.

Sincerely yours,

ROBERT C. WEAVER.

SEPTEMBER 13, 1966.

HON. ROBERT C. WEAVER,
Secretary of Housing and Urban Development,
Washington, D.C.

DEAR MR. SECRETARY: In reporting favorably the "Demonstration Cities and Metropolitan Development Act of 1966," the House Banking and Currency Committee has, as you know, retained with an amendment section 701 from the Senate-passed housing bill. In the haste and confusion attendant upon approving this legislation, I am concerned that the committee did not devote adequate consideration to the import and potential consequences of this section. I would greatly appreciate it, therefore, if you would furnish me—at your earliest convenience—with a detailed analysis of section 701 together with your views as to its impact on the future of the urban renewal program with special reference to the limited funds authorized for the program and the program's primary emphasis on residential construction.

In this regard, I refer to your recent letter to Chairman PATMAN expressing your strong opposition to the special non-cash grant-in-aid exceptions contained in section 704 of the committee's draft housing bill. It would seem to me that your objections to these special provisions or subsidies would apply with at least equal force to section 701. As I interpret this section, it would open up to all communities having urban renewal projects the same extra benefits or subsidies which the 52 special exception provisions

proposed to give a selected number of communities—though at a rate reduced from 100% to 25%. If my interpretation is correct, therefore, the very same 52 special projects which we succeeded, with your help, in striking from the committee's draft bill would become eligible (at the 25% rate) as local grants-in-aid. But, even more important, every similar project in every other urban renewal community would also be entitled to this generous treatment.

Even at the reduced rate, the impact of such a provision of law on both the cost and the character of urban renewal is awesome to imagine. Using your own estimate of \$8.7 billion as the cost, in terms of additional demand for capital grant funds, of extending special treatment to all active urban renewal projects, reducing this figure to 25%, and limiting it to those public facilities begun within three years of the date of enactment of the present housing bill, it would seem reasonable to suppose that the cost of section 701 could quickly approach \$2 billion. As you point out, too, these are conservative figures which, "not inconceivably," could double before the facilities are in place. Furthermore—and I again refer to our mutual concern about retaining and strengthening the residential housing character of the urban renewal program—by diverting such a huge amount of capital grant funds (assuming Congress could be persuaded to authorize them) to non-residential purposes, the fundamental nature of urban renewal would be drastically changed. And it would be changed without Congress ever having seriously considered what it was doing and in the face of overwhelming evidence of the need to employ urban renewal more effectively in order to reduce the growing shortage of decent low- and middle-income residential housing in the nation's urban areas.

Considered in the light of these potential consequences, this simple little section 701 begins to assume the aspect of a pretty horrible example of bad legislation. I recognize that these are speculations on my part—though I suggest they have considerable validity—and so I am coming to you for the information and professional judgment I require. In the event, however, that my fears are even partially valid, I would hope you will join with me in vigorously opposing what could become a most serious setback to what is probably the most valuable urban area program we have.

May I also, in closing, express my appreciation for the candor and vigor with which you communicated your objections to the projects in the proposed section 704. I would hope that our success in striking this attempted raid on the Treasury from the committee-reported bill augurs well for similar success in preserving the urban renewal program as Congress intended it to be and as the people need it.

Thank you very much for your cooperation.

Sincerely yours,

FLORENCE P. DWYER,
Member of Congress.

THE SECRETARY OF HOUSING AND
URBAN DEVELOPMENT,
Washington, D.C., September 27, 1966.

HON. FLORENCE P. DWYER,
House of Representatives,
Washington, D.C.

DEAR MRS. DWYER: This is in reply to your recent letter asking for an analysis of section 701 of S. 3708, as reported to the House, and our views as to its impact on the urban renewal program.

This provision would require certain publicly owned, city-wide facilities used by the public for cultural, exhibition, civic or municipal purposes to be deemed to benefit an urban renewal project to the extent of 25 percent of the cost of the facility. The provision originated in the Senate and, as

passed by the Senate in S. 3711, its benefits were limited to facilities used by the public for cultural, exhibition, or civic purposes. Section 701 of the bill reported to the House would extend the provision to include facilities used by the public for municipal purposes.

As passed by the Senate, the provision was designed to establish a uniform method of providing noncash grant-in-aid credit for expenditures made in connection with certain city-wide facilities which serve the objectives of specific urban renewal projects. The report of the Committee on Banking and Currency to accompany S. 3711, which makes clear the purpose of the provision, states:

"In recent years there has been an increasing municipal concern for the provision of public facilities for cultural, exhibition, and civic purposes. Under present regulations, such facilities are entirely excluded from consideration as noncash grants-in-aid because they serve the entire city and are not of special benefit to the project areas.

"In the case of public facilities intended for cultural, exhibition, or civic purposes there appears to be a different relationship to urban renewal projects than is the case with the more traditional municipal facilities. These facilities serve as centers of attraction for people from the entire urban area and bring a vitality to the project area as well as to a large surrounding area. In creating that vitality, they serve urban renewal objectives in a different way than the normal municipal facility, but they are equally important from the standpoint of serving the project area and creating an appropriate environment.

"The provision recommended by the committee assigns a 25-percent apportioned benefit for such facilities which are within, adjacent to, or in the immediate vicinity of one or more urban renewal projects. This apportionment would continue to recognize that while such facilities do serve the project area in some measure, they also serve a much broader need. It was felt that a 25-percent fixed apportionment of benefits between the project and the city as a whole provided a reasonable measure of the extent which such facilities generally serve several objectives. Consideration was given to estimating the benefits on a case-by-case basis, but this was rejected because of the difficulties inherent in trying to establish a precise measure of benefit.

"While the legislative language is quite broad, the committee wishes to make clear that it had very specific types of facilities in mind. It intends this provision to apply to public auditoriums, concert halls, theaters, central libraries, museums, exhibition halls, art galleries, band shells, settings for historical sites, meeting halls and similar facilities for general use. It does not intend this provision to apply to facilities associated with normal governmental functions, such as city halls, municipal office buildings, or courthouses, nor should it be applicable to facilities provided principally for athletic or recreational purposes, such as stadiums, gymnasiums, or skating rinks."

Extension of this 25 percent noncash grant-in-aid provision to facilities used by the public predominantly for "municipal" purposes is obviously inconsistent with the purpose underlying the provision as it was proposed to, and adopted by, the Senate. City-wide facilities associated with normal governmental functions serve the city—not a specific urban renewal project area. Moreover, rough preliminary estimates indicate that extension of the provision to facilities used for municipal purposes would more than double the amount of noncash credit that could be generated by it.

We have made strenuous efforts to determine the cost of this provision and have

undertaken surveys of citywide facilities which would be made eligible for credit in a wide sampling of cities. It is extremely difficult, however, to obtain meaningful estimates of the impact of either the House or the Senate provision on the existing urban renewal authorization. Over 800 cities are presently participating in the urban renewal program. To estimate the impact of the provision in each city, it would be necessary to determine whether a citywide facility, eligible for credit under the criteria of the provision, has been constructed, is under construction, or is to be constructed in sufficient time to be related to an existing urban renewal project.

The information needed for this purpose does not appear in any existing application or material filed with the Renewal Projects Administration, and in each case it would have to be obtained on the basis of the best knowledge available to local people. Moreover, once the citywide facility is identified, reasonable estimates as to the cost of the facility could vary greatly.

In addition, many of the cities which could claim additional credit because of the provision have no immediate need for it—i.e., their project financing plans already identify sufficient noncash credit to cover their required share of the cost of existing urban renewal projects. Other cities, which would appear to be able to immediately utilize the credit, may not do so since they have other sources of noncash credit available to them which they have not yet utilized. It is impossible, therefore, to determine the extent to which the new noncash grants-in-aid generated by this provision would be immediately utilized by such cities. On the other hand, the availability of this additional credit may induce an indeterminate number of cities to submit amendatory applications substantially increasing the cost of projects already approved.

For these reasons, it is impossible to make any meaningful estimate of the charge against the urban renewal authorization that will immediately result from enactment of either the House or Senate provision.

It is clear, however, that either provision would ultimately be costly—both in terms of dollars and in terms of the emphasis of local urban renewal programs. There is a real danger that this provision would induce cities to delay projects which provide additional low- and moderate-income housing and undertake instead downtown urban renewal projects which would benefit from the additional credits provided by this provision.

In many cities this provision would generate great amounts of noncash grant-in-aid credit available only for pooling. This might result in many public facilities useful to the proper development of an urban renewal project no longer being provided as a non-cash grant-in-aid because these cities would already have sufficient pooling credits to meet a large portion of the required local share of their future urban renewal projects.

I believe the potentially harmful effects of this provision could be greatly reduced without changing its essential purpose.

First, the extension of the provision to facilities used for municipal purposes could be eliminated. The extension is inconsistent with the underlying purpose of the provision. Citywide facilities used for municipal purposes are in no way related to undertaking a specific urban renewal project, and in almost every case would have been constructed by the city whether or not a specific urban renewal project was undertaken.

Second, the pooling privileges could be eliminated with respect to the grant-in-aid credit generated by the provision. This would avoid the danger that a large amount of such pooling credits might have a harmful effect (1) on the emphasis of local urban renewal programs and (2) on the provision

of schools and other desirable facilities usually constructed by cities as noncash contributions to a project.

If these changes are made in the provision, the grant-in-aid credit generated by the citywide facilities would still be available to the extent the city needs them for the specific urban renewal project which the facilities are deemed to benefit.

Your interest in this matter again demonstrates your concern that the urban renewal program effectively serve the needs of our Nation's cities. I am most grateful for your efforts to maintain and improve our urban programs and I look forward to your continued cooperation.

Sincerely yours,

ROBERT C. WEAVER.

(Mrs. DWYER asked and was given permission to revise and extend her remarks.)

Mr. ASHLEY. Mr. Chairman, I rise in opposition to the amendment.

It is with some reluctance that I rise to oppose the amendment of the gentlewoman from New Jersey. I do so only because I feel her motion to strike goes too far.

The amendment I offered a few minutes ago sought to limit the scope of section 701, but of course it did not go so far as to eliminate the section in its entirety. That would be the effect of the amendment of the gentlewoman from New Jersey.

Were this to be adopted, we should understand that the provision adopted by the other body after full hearings—which did not meet the objection, to the best of my knowledge, of the Department—which includes 25 percent non-cash credit for communities building certain facilities for communitywide use, would not be able to be taken as a non-cash credit against the local share of urban renewal projects. This would have a vast impact on the plans and projects of many communities throughout the length and breadth of our land.

For that reason I oppose the amendment, and I hope I will be joined by my colleague in opposing the amendment.

Mr. WELTNER. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I am happy to yield to my friend from Georgia.

Mr. WELTNER. Mr. Chairman, I wish to associate myself with the remarks of the gentleman from Ohio. I should like to state that section 701 would not diminish the amount of local funds which would have to be expended. It would simply be a matter of crediting certain worthwhile expenditures toward the local share.

There are certain instances that arise which show the rigid rules we have are of necessity not quite in accord with reality. For instance, if within an urban renewal area a neighborhood auditorium were constructed, under the present law it would be eligible now as a noncash credit. If it serves a small area or if it serves a small number of people, it is eligible. Under section 701, if it is serving a greater number of people or a greater area, it would be eligible for a 25-percent credit of the amount expended.

Mr. ASHLEY. Or greater.

Mr. WELTNER. Up to 25 percent of the cost.

Mr. ASHLEY. A minimum of 25 percent but more if it benefits the project area to a greater extent.

Mr. WELTNER. I thank the gentleman for yielding. I think that point needs to be raised. It is not a grant as such but is a credit. It does not diminish the amount of money being spent by the local communities in developing all of their facilities for the benefit of the local people.

Mr. ASHLEY. I think the gentleman made a good point.

Mr. BRADEMAs. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Indiana.

Mr. BRADEMAs. I want to associate myself as well with the remarks just made by the distinguished gentleman from Georgia, and I urge defeat of the amendment.

(Mr. BRADEMAs asked and was given permission to revise and extend his remarks.)

Mr. BOLAND. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman.

Mr. BOLAND. Can the gentleman give us any idea as to what it would cost the Government? This noncash credit would have to be made up by a more substantial contribution by the Federal Government, would it not?

Mr. ASHLEY. That is assuming the noncash credits are accepted with regard to a project and that project on the part of a community is approved by the department. As a matter of fact, to answer the gentleman from Massachusetts directly, the department did not come up with any specific figures but did indicate adoption of the total provision for structural as well as municipal facilities in allowing all of these as noncash credits would have a significant impact on the program. For that reason I offered the amendment I did a few moments ago.

Mr. BOLAND. I thank the gentleman.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from New Jersey [Mrs. DWYER].

The question was taken; and on a division (demanded by Mrs. DWYER) there were—ayes 35, noes 52.

So the amendment was rejected.

AMENDMENT OFFERED BY MR. HANNA

Mr. HANNA. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. HANNA: Page 64, after line 12, insert the following new section:

"EXTERIOR LAND IMPROVEMENTS UNDER COOPERATIVE HOUSING MORTGAGES

"SEC. 305. Section 213(b)(2) of the Housing Act is amended by striking out 'as defined by the Commissioner' and inserting in lieu thereof 'as defined by the Secretary, and the increase in the value of the land subject to the mortgage by reason of off-site special improvements, as defined by the Secretary, which are for the use and benefit of the occupants of the mortgaged property.'"

[Mr. HANNA addressed the Committee. His remarks will appear hereafter in the Appendix.]

The CHAIRMAN. The question is on the amendment offered by the gentleman from California [Mr. HANNA].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. REES

Mr. REES. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. REES: On page 62, between lines 2 and 3, insert a new section as follows:

"AREAS AFFECTED BY CIVIL DISORDERS

"SEC. 302. (a) Section 203 of the National Housing Act is amended by adding after subsection (1) (added by section 101 of this Act) a new subsection as follows:

"(m) The Secretary is authorized to insure under this section any mortgage meeting the requirements of this section, other than the requirement in subsection (c) relating to economic soundness, if he determines that (1) the dwelling covered by the mortgage is situated in an area in which rioting or other civil disorders have occurred or are threatened, (2) as a result of such actual or threatened rioting or other disorders the property with respect to which the mortgage is executed cannot meet the normal requirements with respect to economic soundness, and (3) such property is an acceptable risk giving due consideration to the need for providing adequate housing for families of low and moderate income in such area."

The CHAIRMAN. The gentleman from California is recognized for 5 minutes in support of his amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. REES. I yield to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, the intentions of the amendment of the gentleman from California are very desirable. It is my understanding that the Federal Housing Administration would administer it. The Members on our side are willing to accept the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from California [Mr. REES].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. WIDNALL

Mr. WIDNALL. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WIDNALL: On page 102, after line 4, insert the following new section:

"ADDITIONAL REQUIREMENTS FOR REDEVELOPMENT OF URBAN RENEWAL AREA

"SEC. 704. (a) Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

"(g) The redevelopment of the urban renewal area, unless such redevelopment is for predominantly nonresidential uses, will provide a substantial number of units of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas."

"(b) The amendment made by subsection (a) shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act."

The CHAIRMAN. The gentleman from New Jersey [Mr. WIDNALL], is recognized for 5 minutes in support of his amendment.

Mr. WIDNALL. Mr. Chairman, the amendment is the one that I sent to every Member of the House with a covering letter and called their attention to the fact that I would offer it on the House floor. I think it is an important amendment.

If the Members truly believe in a demonstration cities bill, it seems to me that this should become part of the law at the same time so that you can have a true demonstration of what can be done to aid the low income and moderate income housing for the people in such circumstances.

We have had urban renewal on the statute book since 1949 as the Committee all know. In connection with residential development which was intended to provide a decent home and a decent living environment to the low-income citizens or the underprivileged who were the slum dwellers, it has failed to do the job. We have wandered far afield from the original purpose.

This amendment would not curb having a commercial redevelopment for other purposes. It merely says that in cases of a residential redevelopment, there shall be a substantial supply of low and moderate housing in any replacement construction that is undertaken.

I think that if we are to attack the hard core areas, and certainly the arguments for a demonstration cities bill indicate that, to make it truly meaningful, you have got to do the same job in using your regular urban renewal in the residential areas for the low-income citizens.

It is not anything that wanders afield from the announced purposes of the bill that we are considering. I believe we can do a great deal to be helpful by concentrating the effort in both areas of approach.

It seems to me that we are likely to not give this the full consideration it deserves because we are late in the session, and it is late tonight, and we are all anxious to get through and to go home and do the things that we have to do back in our districts.

This has been discussed for some time. I have offered the amendment before. Others in the Congress have been offering amendments of a like nature in the past.

Our colleague, the gentleman from New York [Mr. FARBERSTEIN] is seeking recognition. I know of his longtime interest.

Mr. FARBERSTEIN. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. FARBERSTEIN. Do I understand that your amendment requires that on every project low- and middle-income housing be part of every proposed development?

Mr. WIDNALL. In future residential projects, that there shall be a substantial supply of low and moderate housing

in any replacement construction that is undertaken.

Mr. FARBERSTEIN. So far as I am concerned, I would restrict all housing under Federal aid to low and middle income.

I would not permit any luxury housing to be aided by any Federal money because there is no reason for it.

Under the circumstances, it would seem to me the gentleman's amendment is a very salutary amendment and I favor it.

Mr. WIDNALL. Mr. Chairman, I will not speak further on this amendment. I think most of the Members are pretty well acquainted with it.

I hope my amendment receives the overwhelming support of the committee.

Mr. RYAN. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. RYAN. As one who has offered amendments to previous housing bills and introduced legislation which would require that title I funds be used for low-income and moderate-income housing and not for luxury housing, I think it is a meritorious amendment and should be supported. I have constantly fought against the use of title I land for luxury housing.

Mr. WIDNALL. I thank the gentleman.

The CHAIRMAN. For what purpose does the gentleman from Ohio [Mr. ASHLEY], a member of the committee, rise?

AMENDMENT OFFERED BY MR. ASHLEY

Mr. ASHLEY. Mr. Chairman, I offer an amendment as a substitute for the amendment offered by the gentleman from New Jersey [Mr. WIDNALL].

The Clerk read as follows:

Amendment offered by Mr. ASHLEY as a substitute for the amendment offered by Mr. WIDNALL: On page 102, after line 4, insert the following new section:

"LOW AND MODERATE INCOME HOUSING IN URBAN RENEWAL PROJECTS

"SEC. 704. (a) Section 105 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(g) Before approving assistance for any urban renewal project under this title, the Secretary shall determine that the urban renewal program in the locality includes, or will include, a substantial increase in the supply of standard housing within the means of families of low or moderate income."

"(b) The amendment made by subsection (a) of this section shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act."

Mr. ASHLEY. Mr. Chairman, the essential purpose of the amendment offered by the gentleman from New Jersey and the substitute that I have offered is much the same.

I am constrained to offer my substitute amendment, Mr. Chairman, because I feel that the Widnall amendment goes so far in its effort to achieve a good purpose that no administration flexibility would remain.

May I take just a moment to point out the difference between his amendment and my substitute amendment.

What the amendment offered by the gentleman from New Jersey [Mr. WIDNALL] says is that in the future in each and every residential renewal project there must be a substantial number of units of standard housing of low or moderate cost and that the result must be marked progress in serving the poor and disadvantaged people living in the slum and blighted areas.

My substitute does not require that there be this infusion of new housing for low and moderate income families in each and every project.

On the contrary, what my amendment says is that before any residential renewal project can be approved, there must be a substantial increase in the supply of standard housing provided by the urban renewal program of the community.

What I am getting at is this, suppose there is a project comprising two or three blocks, a small project area. The city indicates that it has a renewal plan, and that outside the project area there is going to be constructed substantial numbers of housing units for low- and moderate-income families. Then I say, Mr. Chairman, should we insist, inasmuch as this construction is going on outside the project area but within an urban renewal plan, that there be this construction of low- and moderate-income housing within the two- or three-block project area itself?

What we are really saying is that regardless of the plans for housing for low- and moderate-income families, regardless of a renewal plan, if we breakdown the number of urban renewal projects within a city, it will be necessary for each to comply with the amendment of the gentleman from New Jersey [Mr. WIDNALL].

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I am happy to yield to the gentleman from New Jersey.

Mr. WIDNALL. I do not believe that the gentleman's proposal would have any material effect for 5 or 6 years, because you would have to go all the way back to the very first step that was taken by urban renewal within the cities, and it certainly seems to me that there would be delay, delay, and delay in effectiveness of the amendment.

I would also like to call attention to the fact that it does not define the area.

Mr. ASHLEY. Mr. Chairman, I decline to yield further only for this reason: I want to point out to the gentleman from New Jersey that section (b) of his amendment and my substitute are identical with respect to when the provision takes place. I would say with regard to the substantive aspect of my substitute that, the Secretary must determine that the urban renewal program in the locality includes a substantial increase in the supply of standard housing for families of low and moderate income.

Mr. FARBSTEIN. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from New York.

Mr. FARBSTEIN. Does your amendment presuppose the fact that an urban renewal area will contain projects other than dwellings?

Mr. ASHLEY. I would say to the gentleman that you can have a general renewal area, and in one area you will have a project that is residential, next to it you may have a commercial project, and next to that you may have again a residential area. This is why I say the thrust of the amendment of the gentleman from New Jersey imposes an inflexibility on the program that is clearly not within the best interests of the country.

Mr. BARRETT. Mr. Chairman, I rise in support of the substitute. I do not think there is anyone in the House who is more inclined to want low-income housing than I. But I do think that the amendment offered by the gentleman from New Jersey is too rigid. It should have some flexibility in it. This substitute does not change the character of the area, but it does give them flexibility to do what they think is in the best interests and, by the same token, give them low- and moderate-income housing.

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I yield to the gentleman from New Jersey.

Mr. WIDNALL. I think it should be said that the argument that has been used for the existing urban renewal program ever since 1949 is that you have got to preserve flexibility in the program, and it has been so flexible that we have gotten no cure for the hard-core areas of the cities.

What I want to do is concentrate the effort for at least the next few years in the areas of greatest need, particularly when it is a residential project. I am not talking about combined projects or commercial projects, but the residential projects. There should be a substantial increase.

The amendment offered by the gentleman from Ohio would not limit the impact to a specific area in the city. It could be any part of the city, with vague promises from the administrator of the program that he is going to do something in another area in order to help those people in the area of urban redevelopment.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I yield to the gentleman from Ohio.

Mr. ASHLEY. I should like to ask the gentleman from New Jersey if he would agree to this statement? We have both been concerned with this problem for some time. We have never been entirely in agreement, but we have been substantially so. His amendment would go further than mine.

Would the gentleman not agree that my amendment represents a considerable improvement over existing law?

Mr. WIDNALL. We are not sure. We believe there is still too much flexibility in it, and the administrator could do what has been done in the past and channel the funds in a direction which is not going to hit hard-core problems of the cities. I believe this has reached the

point that we have to concentrate our efforts and not spread it too thin.

Mr. BROOMFIELD. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I am glad to yield to the gentleman from Michigan.

(Mr. BROOMFIELD asked and was given permission to extend his remarks at this point in the RECORD.)

Mr. BROOMFIELD. Mr. Chairman, I rise in support of the amendment offered by the gentleman from New Jersey [Mr. WIDNALL].

The amendment he has offered would help put the urban renewal program back on the path from which it strayed so many years ago, and that is to provide the means by which low- and middle-income families can obtain decent housing.

In far too many cases, urban renewal has been more interested in removing people from the areas it encompasses than in providing decent housing for them.

It is no wonder that we have explosive social situations in our cities when those who are supposed to be helped by this program find, that instead of being used as it should, as a tool to assist them, it is being used as a weapon against them.

I support the gentleman's amendment with enthusiasm. I have an amendment which has a similar purpose to the one introduced by the gentleman from New Jersey, and which I will submit later in the evening.

Passage of the Widnall amendment would, in my estimation, be a large step toward a goal which has been too long ignored and forgotten.

Mr. BARRETT. Mr. Chairman, I hope the substitute amendment will be supported.

Mr. DOWDY. Mr. Chairman, I move to strike the last word.

As I understand it, when the urban renewal law was passed the purpose was to eliminate slums and to give to the people living in the slums better housing in which to live.

I do not know which one of these two proposals will come closer to accomplishing the purpose, but I believe the original amendment would.

As chairman of a subcommittee dealing with the District of Columbia, I learned from investigations that several hundred thousand dollars had been spent in urban renewal here, and thousands of homes were destroyed in the so-called slum areas. Luxury construction was put up in place of the destroyed homes. No one who lived in the area could even afford to rent a broom closet in what was constructed to take the place of the homes that were torn down.

In the District of Columbia, in urban renewal areas, there has not been one unit—not one—either of low- or medium-income housing built in place of it.

If the amendment of the gentleman from New Jersey [Mr. WIDNALL], would mean there would be at least a few low-income or medium-income housing units built in place of what is torn down, it ought to be adopted.

As I listened to the substitute amendment that was offered, it appeared to me

it would leave the same discretion in the local redevelopment agencies as they have now, and there would not be any low- or medium-income housing built in any urban renewal area if the substitute were adopted.

I do not know whether the Widnall amendment would help much, but the way the thing has been run in the past, using the District of Columbia as an example, the result has been not one unit of low- or medium-income housing built. It has all been luxury, and only the wealthiest people can live in it. Not many Members of Congress could afford to live in these luxury buildings of the urban renewal areas. I trust the Widnall amendment shall be adopted, and I support it.

The CHAIRMAN. The question is on the substitute amendment offered by the gentleman from Ohio [Mr. ASHLEY].

The substitute amendment was rejected.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey [Mr. WIDNALL].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. BROCK

Mr. BROCK. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. BROCK: On page 66, line 6, strike out "Single".

On page 66, line 7, insert "(a)" after "Sec. 308."

On page 66, after line 14, insert the following:

"(b) Section 221(f) of such Act is further amended by adding at the end thereof (after the sentence added by subsection (a) of this section) the following new sentence: 'For purposes of determining eligibility for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3) which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5), a family or person with an annual income of more than \$7,500 shall in no case be considered to be a family or person of low or moderate income.'"

Mr. BROCK. Mr. Chairman, the amendment I have just offered would place a maximum family income ceiling of \$7,500 per year on families who are eligible to have their rents subsidized by the Federal Government.

According to the Census Bureau the median family income in the United States today is around \$6,800. It is my understanding that in no section of the country does the median family income exceed \$7,500.

When the below-market interest rate rent subsidy program was enacted in 1961 there is no question that Members of Congress were led to believe that it was to benefit primarily lower income families. On June 8, 1961, page 9193 of the RECORD, Senator SPARKMAN referred to the provision in the then pending housing bill which created this program as "representing a phasing out of the public housing program as we have known it in the past." Shortly thereafter, during the Senate debate, this provision was eliminated from the bill. Subsequently, the below-market interest rate rent subsidy program was restored. During that debate it was again reiterated that this program represented a phasing out of the public housing program and Mem-

bers of the Congress were led to believe that this would primarily be for low- and moderate-income families.

Let me quote from another portion of that debate. It was said by the Senator from Alabama:

The purpose of this program is to phase out that part and to try to find some other plan for low income housing which would be less costly to the government and more satisfactory to the people and which they can afford.

Mr. Chairman, it is clear to me that Members of Congress were misled in believing that this below-market interest rent subsidy program was to: First, replace public housing; and second, to provide housing for low- and moderate-income families.

As of last month this rent subsidy program is committed to spending \$1.4 billion through FHA insurance at below-market interest rates for both new and existing construction.

I have in my hand the list of maximum income limits for occupancy under this below-market interest rate rent subsidy program issued by FHA in June of this year. Let me give you just a few of the maximum income limits permitted under this program for families with three children:

In Anaheim, California \$9,700 annual income.

San Diego, California \$9,900.

District of Columbia \$9,350.

Honolulu \$10,300.

Chicago \$9,850.

Portland, Maine \$8,300.

Boston, Mass. \$8,400.

St. Louis, Missouri \$9,200.

Concord, N.H. \$9,150.

Patterson, N.J. \$9,150.

Portland, Oregon \$9,200.

Charleston, W. Va., \$8,400.

New York City, \$9,450.

Petersburg, Alaska, \$12,550.

Mr. Chairman, these are just a few of the maximum annual family income limits permitted by FHA to benefit from a multibillion-dollar Federal rent subsidy program, and these figures do not include certain extra income that is not counted for purposes of determining eligibility.

Currently, there are more of these below-market interest rate rent subsidy projects being built than there are public housing units. Only last year an overwhelming majority of this House voted to restrict the latest addition of the rent subsidy program to families whose incomes do not exceed public housing maximum income limits—in most cases \$4,000 per year. How can we do less here?

It is regulations such as these which greatly exceed congressional intent that caused so many Members of this House to vote against last year's rent subsidy program. Many of us knew that the Department of Housing and Urban Development really wants to use that program for middle-income families as well.

In this period of tight mortgage credit where millions of families earning \$6,000 or \$7,000 per year income cannot get private loans to build their own houses because of competition in the private credit market from Federal programs such as this, how can we justify a multibillion-dollar Federal rent subsidy pro-

gram benefiting families earning \$2,000 and \$3,000 per year more than the median family income in the United States?

My amendment would not immobilize this program. On the contrary, my amendment does not even place a ceiling as low as the current median family income in the United States. My amendment would still leave administrators of the program ample opportunity to permit extra uncounted income over and above \$7,500 per year. But my amendment would prevent families earning \$8,000, \$9,000, \$10,000, \$11,000, and \$12,000 per year from benefiting from a massive Federal rent subsidy program, while millions earning less than \$5,000 per year do not receive any Federal housing benefits whatsoever.

Mr. Chairman, I invite all the Members of the House to come over to the committee table and inspect the list of maximum family income limits in their own districts. I am sure that if you do, you will be as shocked as I was. These below-market interest rate apartment units yield an indirect Federal subsidy of between \$20 and \$30 per month to eligible families.

There is no excuse for this type of abuse of congressional intent.

I earnestly ask for your support in my effort to get this program back to where it will benefit truly low- and moderate-income families. To do less would be inexcusable.

Mr. FARBSTEIN. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman from New York.

Mr. FARBSTEIN. Mr. Chairman, is there any limitation upon the number of children in the family, a family whose only income amounts to \$150 a week?

Mr. BROCK. Mr. Chairman, the limitation is, of course, dependent upon the number of children, and that would vary.

Mr. FARBSTEIN. And, Mr. Chairman, if the gentleman from Tennessee will yield further, if a family has an income of \$7,500, without a limitation on the number of children—

Mr. BROCK. That is correct. The top limit regardless of number of children would be \$7,500 in income.

Mr. FARBSTEIN. And if a family has eight children, under the proposed amendment which has been offered by the gentleman from Tennessee it would, if adopted, only permit an income of \$7,500? This is unrealistic; do you not think so?

Mr. BROCK. Regardless of area, regardless of children, no family could qualify for interest subsidy if its income exceeded \$7,500. The limit is now \$6,000 in many communities of the United States, and this would not be effected by my amendment. It merely sets a maximum ceiling.

And, Mr. Chairman, unless we limit income allowed a family receiving a subsidy—I am talking of a family unit of five or six, a mother and father and three or four children—unless we limit it to \$7,500, the people who have poverty level incomes will not obtain assistance under this program. In other words, today's bill permits subsidies to people with incomes of \$10,000, \$11,000, or \$12,000.

Mr. Chairman, it seems to me it is only the better part of wisdom to limit the application of this program to those whose incomes do not exceed the national medium by more than 10 percent. I do not believe this is unreasonable.

Mr. Chairman, I ask the support of the Committee of the Whole House on the State of the Union for my amendment.

Mr. ASHLEY. Mr. Chairman, I rise in opposition to the amendment.

(Mr. ASHLEY asked and was given permission to revise and extend his remarks.)

Mr. ASHLEY. Mr. Chairman, I simply want to say that the committee has heard no testimony upon this proposal.

Mr. Chairman, the gentleman's amendment as proposed does not take into account the size of a family unit. Furthermore, this is the first indication of interest which I know about on the part of the gentleman from Tennessee [Mr. BROCK] as manifested in his proposed amendment. It is the first indication to the committee of the gentleman's interest.

Mr. Chairman, I would simply suggest, in view of the fact that the gentleman from Tennessee did not bring it before the Committee on Banking and Currency, the amendment should be voted down at this time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Tennessee.

The amendment was rejected.

AMENDMENT OFFERED BY MR. SIKES

Mr. SIKES. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SIKES: On page 125, after line 12, insert the following new section:

"LEASING OF FACILITIES FOR HOUSING BACHELOR MILITARY PERSONNEL

"SEC. 914. Notwithstanding any other provision of law, the Secretary of a military department may acquire by lease in the United States, its territories or possessions, structures and real property relating thereto that are not located on a military base and that are needed for housing bachelor military personnel. A lease under the authority of this section may not be for a period of more than fifteen years."

And renumber the succeeding sections accordingly.

The CHAIRMAN. The gentleman from Florida [Mr. SIKES], is recognized for 5 minutes in support of his amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. SIKES. Mr. Chairman, I yield to the distinguished gentleman, the chairman of the committee.

Mr. PATMAN. Mr. Chairman, the members of the full committee and I have discussed this amendment fully, and we are thoroughly familiar with it. We have no objection to it and we would be glad to accept it if it is agreeable to the minority.

Mr. BROCK. Mr. Chairman, if the gentleman would yield, I would appreciate the gentleman explaining the amendment.

Mr. SIKES. Mr. Chairman, I will be happy to do so.

This would constitute a voluntary program. It carries no appropriation. It would stimulate private industry by making it possible for suitable quarters to be erected for bachelor military personnel by private individuals whose investment would have the protection of a lease for a scheduled period not to exceed 15 years. Presumably the quarters allowance would pay for the program.

As everyone here knows, there is a serious deficit in the number of adequate on-base quarters for military personnel at the present time. A great many military personnel have to live in very substandard facilities. At the present rate that we are replacing the substandard quarters with modern facilities, it is going to take a lifetime to give them a decent place to live. My proposal would bring in the resources of private industry in an effort to speed up that process.

Mr. BARRETT. Mr. Chairman, I ask unanimous consent that we vote immediately on the amendment.

Mr. WIDNALL. Mr. Chairman, may I ask, did the chairman of the subcommittee say he would accept the amendment?

The CHAIRMAN. Yes, he did.

Mr. WIDNALL. We will accept it on this side.

The CHAIRMAN. The question is on the amendment offered by the gentleman from California [Mr. SIKES].

The amendment was agreed to.

AMENDMENT OFFERED BY MRS. DWYER

Mrs. DWYER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mrs. DWYER: Page 102, after line 4, insert the following new section:

Requirement of Referendum on Proposed Urban Renewal Projects in Communities of 150,000 or Less

"SEC. 704. Section 101 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(f) Notwithstanding any other provision of this title, no contract shall be entered into for a loan or capital grant under this title with respect to any urban renewal project to be carried out in a municipality having a population of 150,000 or less according to the most recent decennial census less such project shall have been submitted to the inhabitants of the municipality and approved by a majority of them in a referendum held for that purpose by the local governing body."

The CHAIRMAN. The gentlewoman from New Jersey [Mrs. DWYER] is recognized.

Mr. PATMAN. Mr. Chairman, will the gentlewoman yield for a unanimous-consent request, and I hope it will not be taken out of her time.

Mrs. DWYER. I yield to the gentleman.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that all debate on the bill, and all amendments thereto, close in 30 minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. DINGELL. I object.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that all debate on the bill, and all amendments thereto, close in 35 minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas [Mr. PATMAN]?

Mr. DINGELL. Mr. Chairman, I object.

Mr. PATMAN. Mr. Chairman, I move that all debate on the bill, and all amendments thereto, close in 40 minutes.

The CHAIRMAN. The gentleman from Texas moves that all debate close in 40 minutes, and the Chair takes for granted that this is after the time of the gentlewoman from New Jersey?

Mr. PATMAN. Yes, sir.

The CHAIRMAN. The gentleman from Texas [Mr. PATMAN] moves that all debate on the bill, and all amendments thereto, close in 40 minutes.

Mr. DOW. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state the parliamentary inquiry.

Mr. DOW. Mr. Chairman, does this mean that certain amendments will be eliminated?

The CHAIRMAN. No, no; it does not mean that. It means that all amendments will be read, but if the time has expired, that is if the motion of the gentleman from Texas is adopted, and 40 minutes is the time limit, if that time has been used, then all amendments that have not been called up by that time will be read but they cannot be debated.

Mr. DOW. I thank the Chairman.

Mr. WIDNALL. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state the parliamentary inquiry.

Mr. WIDNALL. Mr. Chairman, is it possible to determine the number of amendments that are at the clerk's desk?

The CHAIRMAN. The Chair thinks so. Will the Clerk report to us?

I am advised that there are approximately 23.

Mr. PATMAN. Mr. Chairman, of course, that includes amendments that will not be presented. I know some of these amendments will not be presented. I have some amendments of mine that will not be presented. The gentleman from Tennessee [Mr. ANDERSON] has one that has to do with agriculture which will not be presented. There are many other amendments also.

Some of these amendments will not be contested and some of them will be accepted.

So, Mr. Chairman, I renew my motion.

Mr. ASHLEY. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state the parliamentary inquiry.

Mr. ASHLEY. Mr. Chairman, I was in the cloak room at the time this request motion was made. I have an amendment. Am I counted among those who have amendments at the desk?

The CHAIRMAN. We have not counted anyone. The Chair has just stated that there are so many amendments at the Clerk's desk. And if the gentleman has an amendment at the Clerk's desk it has been included in the number.

The question is on the motion offered by the gentleman from Texas [Mr. PATMAN] that all debate on the bill, and

all amendments thereto, close in 40 minutes.

The motion was agreed to.

The CHAIRMAN. I am sure that all Members who are standing are not seeking recognition. Will those seeking recognition remain standing so that the Clerk can note their names.

Mr. O'NEILL of Massachusetts. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. O'NEILL of Massachusetts. Mr. Chairman, in what order will the Chair recognize Members to offer their amendments?

The CHAIRMAN. That is up to the Chairman. The Chair always recognizes Members in a difficult situation like this by seniority and, of course, going from one side to the other, naturally.

Mr. IRWIN. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. IRWIN. Mr. Chairman, will Members who have amendments at the desk be recognized before other Members?

The CHAIRMAN. Oh, yes. As far as the Chair is concerned, any Member who has an amendment here—and, of course, this is not a necessary procedure—but the Chair assures you that the Chair will recognize Members who have an amendment at the desk before recognizing Members to strike out the last word. It is not necessary but I will so rule.

Mr. DEL CLAWSON. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. DEL CLAWSON. Will members of the committee be recognized before other Members?

The CHAIRMAN. Members of the Committee on Banking and Currency, under the rules, will be recognized before any other Member.

Mr. DEL CLAWSON. I thank the Chair.

The CHAIRMAN. If they have amendments at the desk.

The Chair observed standing Mr. HARVEY of Michigan, Mr. O'NEILL of Massachusetts, Mr. WIDNALL of New Jersey, Mr. DOWDY of Texas, Mr. DELANEY of New York, Mr. DINGELL of Michigan, Mr. O'BRIEN of New York, Mr. HANNA of California, Mr. PATMAN of Texas, Mr. PICKLE of Texas, Mr. GERALD R. FORD of Michigan, Mr. WILLIAM D. FORD of Michigan, Mr. RUMSFELD of Illinois, Mr. McDADE of Pennsylvania, Mr. BOLAND of Massachusetts, Mr. CAHILL of New Jersey, Mr. BROOMFIELD of Michigan, Mr. DEL CLAWSON of California, Mr. TALCOTT of California, Mr. ANDERSON of Illinois, Mr. STUBBLEFIELD of Kentucky, Mr. REUSS of Wisconsin, Mr. MOORHEAD of Pennsylvania, Mr. BARRETT of Pennsylvania, Mr. FRASER of Minnesota, Mr. IRWIN of Connecticut, Mr. SCHEUER of New York, Mr. DOW of New York, and Mr. HARDY of Virginia.

Is there anyone who is standing and whose name the Clerk did not record?

Mr. DEL CLAWSON. Mr. Chairman, the gentleman from Tennessee [Mr. BROCK] was standing in the aisle. He

had been called for a long-distance telephone.

The CHAIRMAN. We will add the gentleman from Tennessee [Mr. BROCK].

Mr. ASHLEY. Mr. Chairman, I was standing at the time and my name was not called.

The CHAIRMAN. The gentleman from Ohio [Mr. ASHLEY] will be added.

The gentlewoman from New Jersey, who has been very patiently waiting, I might add, is recognized for 5 minutes.

Mrs. DWYER. Mr. Chairman, this is not an antiurban renewal amendment. I have supported urban renewal legislation throughout my service in Congress, and I believe that, wisely administered, urban renewal can make increased contributions toward the rebuilding of urban areas.

As a practical matter, however, there is probably more popular antagonism toward the program today than ever before—the result, in part, of both misunderstanding and of projects poorly designed and carried out. It is necessary, therefore, to renew public confidence in urban renewal.

My amendment would help restore this confidence in several ways:

It would give people an opportunity to vote on specific urban renewal projects in their own communities.

It would force local governing bodies and redevelopment agencies to do a better job of "selling" their local programs in order to win referendums.

It would involve the entire community in the process of making the basic decision on urban renewal, after weighing the pros and cons—and this is supposed to be a fundamental objective of urban redevelopment legislation.

And it would encourage redevelopment agencies to do maximum planning in advance of any referendum in order to justify the project, thereby reducing administrative delays which have been major factors in public disaffection with urban renewal.

A referendum would be required, under my amendment, Mr. Chairman, only in communities with populations of 150,000 or less, for the following reasons:

First, the bigger the city, the higher and more prohibitive the cost of a referendum would be;

Second, a single urban renewal project in a larger city does not directly affect or interest the population as a whole; it is more of a neighborhood problem;

Third, in a smaller community, an urban renewal project would involve the people of the community as a whole, and their vote in a referendum would be meaningful; and

Fourth, many of the most serious urban renewal problems have occurred in smaller communities, so it is here that the protections and benefits of a referendum are most needed, and most feasible.

To my knowledge, only two significant objections have been raised to the referendum requirement: First, the theoretical one that a referendum interferes with the concept of representative government in which elected local officials have the responsibility of making urban renewal decisions, and second, the practical one that most communities would defeat urban renewal referendums.

Neither objection is convincing in my judgment. The country has a long history of submitting public questions to a referendum, including such issues as State constitutional amendments, local school budgets, bond issues, and so forth, as well as urban renewal in certain States and localities. No discernible damage to the principle of representative government has resulted. Nor, judging from the record during the past 3 years of urban renewal, bond issue, and related questions submitted to local referendums, do communities invariably reject them. Of 60 such referendums, in the past 3 or 4 years, 30 have received majorities and 30 have been defeated.

It is a question of trusting the people. As they do in other elections, people tend to vote on the merits of a referendum issue as they see them. I am confident that, given a sound urban renewal plan and the expectation of a competent job of administration, the people will vote accordingly.

In view of the fact that the present bill includes an authorization of \$250 million for urban renewal, over and above existing authorizations, this is an appropriate opportunity to strengthen the urban renewal program by giving the people the right to participate in decisions that have such a fundamental impact on the future of their communities.

I urge the adoption of the amendment.

Mr. DOWDY. Mr. Chairman, I rise in support of Mrs. DWYER's amendment just offered.

Many of the States of the Union give to their communities the privilege of having referendums on questions of this sort. I believe sincerely that the Congress of the United States ought to be as willing to give to the people of the various communities the privilege of deciding for themselves whether they should have an urban renewal project in their city.

We must realize that whenever one of these projects is set up people lose their homes. Their homes are taken without their consent, and in many places and many times they are left without places to live and without a place to go. We have seen that happen here in the city of Washington when a large area was torn down and the people, having no place to go, crowded into another area and made that a worse slum than the one torn down.

I certainly believe, from the depths of my heart, that people who are to lose their homes, many without adequate compensation, should have the right to vote as to whether there is to be an urban renewal project in their city.

Surely anyone who believes in our form of government, and has faith in the intelligence of the American people, will support this amendment offered by Mrs. DWYER. Why should this Congress give any bureaucrat the dictatorial authority to cast American citizens from their homes—particularly when a majority of them object. After all, this amendment merely gives the people the right to vote, and provides that the majority shall prevail.

I urge the adoption of the amendment.

Mr. BARRETT. Mr. Chairman, as much as I dislike doing so, I rise in opposition to the amendment.

I want to point out that this amendment has been brought before the subcommittee and was turned down at that time almost unanimously. We had it before the full Committee on Banking and Currency, and on that occasion it was likewise turned down substantially. This would do a tremendous amount of harm to the urban renewal program. Certainly where there are referendums asked for, it would prevent what we considered in our meeting as doing something that would do the greatest good for the greatest number.

Mr. Chairman, I do hope we can vote this down and vote on it immediately.

Mr. TALCOTT. Mr. Chairman, I rise in favor of the amendment.

Mr. Chairman, I would like to rise in support of this amendment, and because of the situation that is now occurring, which is typical whenever the Committee on Banking and Currency has a bill before the House, and the very limited time, I simply ask unanimous consent to revise and extend my remarks.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. TALCOTT. Mr. Chairman, there are many compelling, general and special, reasons for this amendment to the Housing Act of 1949. I intend to present only a few today.

I am not opposed to the principle of urban renewal. We need to renew our dilapidated urban areas—this is a constant task which should concern and involve every citizen and segment of the community. Blighted areas should be eradicated. Deterioration should be stemmed. One section of our environment cannot be permitted to unnecessarily spoil another. But we must also preserve functional and pleasant residential, business, and industrial areas.

These goals cannot be accomplished without cooperation and some coordination. Urban renewal can provide a vehicle otherwise unavailable—especially when the various private property owners in a substandard section cannot, or will not, get together—in a common effort for the public necessity.

But the urban renewal project must fit and suit the community. Bureaucrats in Washington, far removed from the persons involved, unknowledgeable about the local habits, attitudes, and wishes should not be making the basic decisions.

Individual persons are the most important ingredient of a community. Urban renewal must deal primarily with people—not just with slums, buildings, and property.

Urban renewal must be personal, compassionate—but unfortunately, it has not always been.

Urban renewal should serve the needs of the whole community, but unfortunately, it has not always done so.

Advocates of Federal urban renewal have too often flooded the news media with good intentions and platitudes.

Urban renewal now exists upon large

amounts of public moneys and Government power, but too little public or individual support.

Urban renewal is expensive.

Urban renewal is not a free Federal bonanza. We pay dearly for its through Federal taxes. The local community pays heavily also. Urban renewal projects are not done cheaply. Enormous profits have been made in urban renewal, but not for the community and the taxpayer who cares about the expense.

The typical urban renewal project destroys a great many homes, at least 126,000 between 1950 and 1960; 25,000 of these were in good condition. In the 1950 decade, no more than 30,000 units were constructed in urban renewal project areas; 126,000 down, 30,000 up. Unfortunately, for the dislocated families who must find a place to live the 30,000 put up were out of the reach of their pocketbooks. The community cares about this.

Families displaced from an urban renewal area find it practically impossible to move back into the area. Rents in the renewed area go up, but the tenant's wherewithal does not. Many of the displaced families must move to less favorable homes—less space, worse conditions—but they pay higher rents, for less desirable locations. Thus, the net effect of urban renewal in the field of housing has not been helpful. The community cares about its displaced persons.

At least 1 million persons have been evicted. The manner of the eviction is not always pleasant or decent. You should know about the infamous Patania case in my district. The urban renewal project is 6 years old. Mr. Patania is 72. He and his wife lived in their modest home for 42 years. It was in good condition, but in an area designated for commercial urban renewal. They were offered the "fair market value" of their home—\$12,500, I think—not nearly adequate to replace their home today. They declined. They were ordered evicted. They refused to leave. The sheriff was ordered to evict them. Mrs. Patania was forcibly subdued, placed in a straitjacket, and removed via stretcher—under the gaze of nationwide TV and other reporters. Mr. Patania was forcibly removed also. Then, to add to their ignominy, both were jailed until their home was bulldozed to the ground to prevent their reentry. They have also been sued for contempt of court and damages for the costs of the evictions and the special, premature demolition of their home. Urban renewal had little compassion for this old couple who could not speak English and who only wanted to keep their most valuable and precious possession—next to life itself—their home of 42 years. Urban renewal did not have compassion. Urban renewal could not devise a better way to relocate the Patanias. Urban renewal did not care about people; it cared only about clearing property.

Now the community should and does care about evicted people and how it is done and where they relocate. Relocation is not just a worry for the evicted family, but a concern and burden of the

community which cannot be discharged simply by paying money. The community cares.

In every urban renewal project which forces people from their homes, the evicted persons suffer severe anguish. Sentimental attachments to homes, areas, and neighbors developed through years of association are not severed by pronouncement from an urban renewal agency. The public good must truly be great to justify such inhuman cruelty to fellow man.

In their exuberance to create something better, have developers and agency personnel neglected to consider some basic rights which were at one time considered fundamental to our society?

Justice C. J. Bell, of the Pennsylvania Superior Court, in his concurring opinion in the decision remanding the case of Tony Foranda against the Redevelopment Authority of Lancaster, Pa., to the court of common pleas, has very poignantly set forth the issues.

What single step can we take to promote best the socially desirable goals of urban renewal which genuinely renews decayed and decaying cities but eliminates the heart-rending eviction of thousands from their homes, which can be better rehabilitated through other means?

I recommend the incorporation of a community referendum in the project approval process.

The people in the community are smart enough, concerned enough, and wise enough to make the decisions which are best for them and their communities.

The whole community should understand, approve, and support worthy urban renewal projects—but this, unfortunately, has not always been so.

It is not inconsistent with democracy, representative government, or citizen participation to require proposed urban renewal projects to be approved by majority referendum.

A referendum would serve three essential purposes almost wholly lacking now: First, marshal public support; second, encourage community involvement in public affairs; and third, put urban renewal proponents on their mettle and force them to develop and sell a project which has merit and will serve the total public interest, rather than benefit a small coterie of speculators at public expense and the diminution of the rights of individual persons and businesses.

If a renewal project is not well enough planned or explained to satisfy a majority of the community which will be expected to pay a heavy portion of the million dollar costs and share a portion of the burdens as well as enjoy the benefits, then there is no justification of it in our present-day community.

If a slum area needs to be renewed and there are two competing proposals, the community should have a direct voice in the choice.

Elections are a small cost to insure free public knowledge and support. The many economic and social manifestations of any renewal project affects the whole community. The whole community should be intimately involved to insure

success. A referendum is the best method for obtaining support and insuring this success.

Referendums have been held in a number of communities on some phase of an urban renewal project—bond issue, establishment of a local renewal authority, or project approval—over the past few years.

Mr. Chairman, support for this amendment has come from many quarters in almost every congressional district.

The whole urban renewal program will be immeasurably strengthened by passage of the Dwyer amendment providing for a public referendum for urban renewal projects in communities of less than 150,000. I urge the committee's support.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. TALCOTT. I yield to the gentleman from Tennessee.

Mr. BROCK. I would just like to comment briefly on what the chairman said, that this is for the greatest good of the greatest number. How can it be that if the majority do not want it?

Mr. TALCOTT. You are correct. It is not accurate. Neither is it accurate that we voted on this amendment in our committee, because we did not.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey [Mrs. DWYER].

The question was taken; and on a division (demanded by Mr. TALCOTT) there were—ayes 26, noes 56.

So the amendment was rejected.

Mr. ASHBROOK. Mr. Chairman, I make the point of order that a quorum is not present.

The CHAIRMAN. The gentleman from Ohio makes the point of order that a quorum is not present. The Chair will count. [After counting.] One hundred and eight Members are present, a quorum.

AMENDMENT OFFERED BY MR. ASHLEY

Mr. ASHLEY. Mr. Chairman, I offer an amendment:

The Clerk read as follows:

Amendment offered by Mr. ASHLEY: Page 103, after line 17, insert the following new section:

"SEC. 807. (a) Section 501(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: ", and (4) to an owner described in clause (1), (2), or (3) for refinancing indebtedness which—

"(A) was incurred for an eligible purpose described in such clause,

"(B) if not refinanced, is likely to result at an early date in loss of the applicant's necessary dwelling or essential farm service buildings.

"(C) is not held or insured by the United States or any agency thereof, and

"(D) was incurred prior to the enactment of this clause."

"(b) Section 501(c) of such Act is amended by inserting before the semicolon at the end of clause (1) the following: ', or that he is the owner of a farm or other real estate in a rural area who needs refinancing of indebtedness described in clause (4) of subsection (a)'"

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I shall be glad to yield to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, I know the problems which the amendment of the gentlemen from Ohio is designed to meet. It would simply save the homes of those families in rural areas who are faced with the problem of refinancing their interim loans on their homes. Without this amendment many of those families would lose their homes. This provision has been worked out with the Farmers Home Administration which has no objection to it and I hope it will be adopted.

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. Mr. Chairman, I yield to the gentleman from New Jersey.

Mr. WIDNALL. Mr. Chairman, on this side of the aisle we accept the amendment which has been offered by the gentleman from Ohio [Mr. ASHLEY].

The CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio [Mr. ASHLEY].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. HARVEY OF MICHIGAN

Mr. HARVEY of Michigan. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. HARVEY of Michigan: Strike out page 75, line 10, and all that follows down through page 79, line 20, and redesignate the succeeding titles and sections (and the reference on page 125, line 2) accordingly.

The CHAIRMAN. The gentleman from Michigan [Mr. HARVEY] is recognized for 2½ minutes in support of his amendment.

Mr. HARVEY of Michigan. Mr. Chairman, this is a very simple amendment. It would strike title IV from this bill which is the new towns and new communities section. Under that particular section I call to your attention that we insure loans up to \$25 million for any new town or new subdivision.

Let me point out that my amendment is supported by the mayors of the United States of America, and the mayors' conference. My amendment is supported by the National Homebuilders' Association as the Members know, because of the letter I put in the RECORD yesterday.

Let me point out further, Mr. Chairman, that this is not a new title. Actually it was in the 1964 bill. Then it was taken out by both the Senate and the House subcommittees.

It was put in the 1965 bill and it was taken out by both the Senate and the House subcommittees.

Somehow or other it has found its way back into the 1966 bill. As far as I am concerned, the only ones in favor of it are the department people down at HUD. The mayors are against it. The homebuilders are against it. Why are they against it? Ladies and gentleman, they are against it for two reasons.

First of all, this new title providing help for new towns is totally inconsistent with the thrust of this bill which is to help and to rehabilitate the older established cities. What we are doing is taking help from them and giving it to the others—the new towns.

Mr. Chairman, the homebuilders, as I say, are also opposed to it. Why are

they opposed to it? They are opposed to it because of the tight money situation that they find themselves in today.

Let me point out that the House just recently approved and directed money through FNMA into the homebuilding industry and into the residential real estate market. If you pass this bill, with this title IV in it, what you are doing is taking money from the money that we allotted to FNMA and instead of it going into the homebuilding market, it is going into these \$25 million in loans on new towns.

Do not try to tell me that this is simply insuring loans, because it is not. Section 405 of this bill—mind you, provides for FNMA to purchase these loans after they are insured. I do not have to tell you what that means. That means that FNMA then takes the loan and goes over to the Treasury and gets the \$25 million.

So I say to the Members that this particular section would be defeating the purpose of the entire act. The mayors of America are against it and want to see it defeated, because they want the help to go into the cities that need the help. The homebuilders want to see it defeated because they want this money to go into the homebuilding market and into the residential area market.

So I hope that the Members will see fit to support this very worthy amendment.

The CHAIRMAN. The time of the gentleman from Michigan has expired.

Mr. REUSS. Mr. Chairman, I move to strike out the last word, and I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from Wisconsin is recognized for 1¼ minutes.

Mr. REUSS. Mr. Chairman, I vigorously oppose this amendment because it would take out of the bill one of the most vital and important parts of the bill, the section which would insure private developers who wish to build whole new communities, one of the things that this country most needs. This is an important and responsible part of President Johnson's program.

And lest it be thought that this is purely a Democratic measure, let me quote the following from the Senate Republican Policy Committee paper which was put into the RECORD by Senator HICKENLOOPER just a few days ago:

The buildup of suburban areas continues unabated. This is where the majority of American voters—particularly the young ones—expect to live. Thus it is a better answer to plan and develop whole communities—new towns—shaped, defined, protected, and served by systems of transportation over which people easily flow to their multiple destinations.

Mr. Chairman, I hope the amendment is voted down.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Michigan [Mr. HARVEY].

The question was taken; and on a division (demanded by Mr. HARVEY of Michigan), there were—ayes 26, noes 53.

So the amendment was rejected.

The CHAIRMAN. For what purpose does the gentleman from California, a member of the committee, rise?

AMENDMENT OFFERED BY MR. DEL CLAWSON

Mr. DEL CLAWSON. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DEL CLAWSON: On page 110, strike out line 15 and all that follows down through page 113, line 8, and redesignate the succeeding sections and the reference on page 125, line 2, accordingly.

(Mr. DEL CLAWSON asked and was given permission to revise and extend his remarks.)

Mr. DEL CLAWSON. Mr. Chairman, a memorandum was made available by the Housing Subcommittee which describes itself as a brief summary of S. 3708. After summarizing committee action on the bill, the memorandum takes a positive approach toward explaining what the bill would do title by title.

The first two titles, concerned with demonstration cities and planned metropolitan development, get 50 percent of the explanation: The seven remaining titles get two or three lines each at the most. Mr. Chairman, my remarks are directed to the explanation for title IX of two and a half lines, as follows:

Among other provisions, title IX would authorize FNMA to make construction loans for certain FHA programs and would authorize assistance to home owners who suffered loss through the closing of military bases.

This title is the one for miscellaneous items and is abbreviated "Misc." It is my purpose to focus attention on one section only, and if my interpretation is correct, and I believe it is, the abbreviation for this portion of the title at least, might appropriately stand for "mis-chief." This is section 911 of title IX dubbed "Urban Environmental Studies." Normally, I would not—as I am sure 90 percent of the other Members of the House would not—boggle at this title and I am aware that the Secretary has complained in the latest issue of the magazine *House & Home* that the Congress has not given him "a red cent for basic research." But under the wide open language of this section, we are providing the Secretary of Housing and Urban Development, whoever he may be, with a ready made campaign fund and precinct organization with which to support or oppose any Member of this House. This would also apply in the case of the Senate. To my knowledge this power and authority was not requested by the present Secretary nor do I believe he would desire it.

No hint of anything like this is contained in the subcommittee's summary so I think the Congress can ask.

How serious is this?

In my opinion, quite serious. Either by accident or design, the Secretary of HUD has been handed an unlimited campaign fund which he can exercise as he sees fit—if this legislation passes and is funded—for the next 2 years. He can not only enter general elections, but primaries as well as an active participant. Primaries, I repeat for the benefit of majority Members, particularly those who have disputed with the Secretary. The Secretary, under this proposed legislation would have only his own leanings

and interests to guide him in either supporting or opposing any Member of this or subsequent Congresses.

If any of the honorable Members of the House believe to the contrary, and I am sure some who have not read section 911 of the bill might very well question such a sweeping statement, let me read a few passages from section 911. May I suggest that Members also read this section beginning on page 110 of the printed copy of the bill.

Section 911(b) (3) reads as follows and authorizes and directs the Secretary to—

(3) establish a system of collecting and receiving information and data on urban ecological research and evaluations which are in process or are being planned by public or private agencies, or individuals.

Note the "public, private agencies, or individuals." Without doubt that covers the well known waterfront. The Secretary could hire the services of the Gallup or the Harris poll organizations; he could contract with the Nielson rating service; he could employ the Democratic or Republican precinct organizations of Philadelphia, Pa., or those of any city down to a population of 2,500. Public agencies—private agencies or individuals—every Member must recognize the implications and potential power, politically, economically and socially, held in the hands of the Secretary with this broad authority. What could happen if it were abused or misused?

Then there is section (b) (4) of 911.

Once again the Secretary is authorized and directed to—

(4) evaluate and disseminate information pertaining to urban ecology to public and private agencies or organizations, or individuals, in the form of reports or otherwise.

Once again the waterfront is covered by this subsection. Note that it mentions the dissemination of materials, to both public and private agencies or organizations, that may be in the form of reports or otherwise. Otherwise is a rather comprehensive word. There is not anyone he could not propagandize—he has full rein—and he can go any direction he wishes.

To continue, under (c) (1)—

The Secretary is authorized to establish such advisory committees as he deems desirable for the purpose of rendering advice and submitting recommendations for carrying out the purpose of this section. Such advisory committees shall render such advice to the Secretary upon his request and may submit such recommendations to the Secretary at any time on their own initiative. The Secretary may designate employees of the Department of Housing and Urban Development to assist such committees.

There is—please note—no limit to the number or size of committees that the Secretary can set up under this subsection. He may detail any or all of HUD's employees to help them. The committees can report at his call or on their own initiative.

Now as to pay—there is section (c) (2):

Members of such advisory committees shall receive not to exceed \$100 per day when engaged in the actual performance of their duties, in addition to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

If any of these people are certified as working 365 days a year, and there may be some who would be willing to so certify, they could be paid under this section 911, \$36,500 plus expenses.

Take a second look at the lush contract possibilities which can run for 2 years—or the length of the next congressional and presidential campaign. Permit me to further read section (d) of 911:

The Secretary is authorized to carry out the studies, surveys, research, and analyses authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for work under this subsection to continue not more than two years from the date of any such contract.

As to appropriations listen to section (e):

(e) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. All funds so appropriated shall remain available until expended when so provided in appropriation acts.

Do you need a better description than the language of the bill itself for an open-ended legislative provision? I do not think so.

Let me sum it up for the House. If this bill, with section 911 passes, the Secretary will no longer need approval of this Congress. The Congress will need his.

Mr. Chairman, I urge the adoption of this amendment.

Mrs. BOLTON. Mr. Chairman, there has been a great deal of discussion during this past year over finding ways and means to cut down the considerable expense entailed by political campaigns. We have been searching for a solution. The bill just passed provides a solution. In section 911 we have delegated all responsibility to the Secretary of Department of Housing and Urban Development.

Section 911 refers to urban environmental studies.

This is a pretty crude camouflage for so very many things.

Under a stated purpose to investigate every living creature including flies, rats, roaches, and all such within urban environmental studies, we are in this bill empowering the Secretary of HUD with or without the Harris poll to enter our campaigns whether they be primaries or general elections. The bill says that he can hire whoever he pleases and how many he pleases and makes it possible if this legislation becomes law, for him to pay them in excess of \$30,000 a year each.

Furthermore, the bill gives him contractual rights and allows him to hire whom he wants. This can be any polling organization, any precinct organization, or any extremist group that he may so designate. The funds authorized are unlimited and remain available until expended. Now the majority can say this was not the intention of the Secretary. I say to them if it was not his intention or their intention, they are guilty of very careless draftsmanship. These things

are easily possible under the bill and all who read section 911 will know it.

I think it is time that we look at ourselves and realized what in these high pressured, confused closing days of the Congress, can be accomplished by hiding in the provisions of a housing bill something which should be considered at great length.

I have seen many radical proposals presented to the Congress in the years that I have served here, but never before have I seen a time when the Congress was willing to delegate so much power to a member of the executive branch which he can wield, if he so desires, as a club against every Member of this body. The Congress is, in fact, digging its own grave.

The CHAIRMAN. The question is on the amendment offered by the gentleman from California [Mr. DEL CLAWSON].

The amendment was rejected.

The CHAIRMAN. The gentleman from California [Mr. HANNA] is recognized.

AMENDMENT OFFERED BY MR. HANNA

Mr. HANNA. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. HANNA: Page 107, after line 5, insert the following new section:

"FEDERAL NATIONAL MORTGAGE ASSOCIATION
SPECIAL ASSISTANCE FOR FINANCING LOW-COST
HOMES

"SEC. 906. The Congress hereby finds that the sharp decline in new home construction over the past year threatens to undercut our present high level of prosperity and employment as such declines have in the past; that the substantial reduction which has taken place has had its greatest impact on families of modest income who are seeking to achieve the goal of home ownership; that this decline in home building is due primarily to the shortage of mortgage financing on terms which moderate income families can afford; and that our national policy objectives in the field of housing and community development are thereby being thwarted. The Congress therefore expresses its intent that the special assistance funds made available to the Federal National Mortgage Association for the financing of new low-cost homes by the Act of September 10, 1966 (Public Law 89-556), should be released immediately to halt the continuing decline in the construction of new homes for families of moderate income."

And renumber the succeeding sections accordingly.

Mr. HANNA (interrupting the reading). Mr. Chairman, I ask unanimous consent that the reading of the amendment be dispensed with and that it be printed in the RECORD at this point.

The CHAIRMAN. Without objection, it is so ordered.

There was no objection.

Mr. HANNA. Mr. Chairman, I can give you the sense of the amendment in one quick sentence. The amendment would express the intent of Congress that the special assistance funds that were made available for financing new low-cost homes under the FNMA program back in September would be made available.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. HANNA. I yield to the distinguished chairman of the committee.

Mr. PATMAN. We have examined the gentleman's amendment, and the Members on this side are willing to accept it.

The CHAIRMAN. The question is on the amendment of the gentleman from California.

The amendment was agreed to.

The CHAIRMAN. Does the gentleman from Tennessee [Mr. BROCK] have an amendment?

Mr. BROCK. Mr. Chairman, I have no amendment to offer.

The CHAIRMAN. At the request of the leaders of the committee, I should like to make this observation. I address this to the chairman of the full committee. We have a list of the amendments that remain at the desk. Are there amendments that can be agreed to and accepted without debate?

Mr. PATMAN. Yes, Mr. Chairman, there are several such amendments. I will ask that the Members who desire to offer them seek recognition. They know which ones have been accepted. They will be considered first.

AMENDMENT OFFERED BY MR. O'NEILL OF MASSACHUSETTS

Mr. O'NEILL of Massachusetts. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. O'NEILL of Massachusetts: Page 102, after line 4, insert the following new section:

"EXPENDITURES BY EDUCATIONAL INSTITUTIONS
AND HOSPITALS

"SEC. 704. Section 112(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: 'Provided further, That no such expenditure shall be deemed ineligible as a local grant-in-aid in connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project (or within such greater distance from the project as the Secretary may specify in the case of an expenditure and project which the Secretary determines meet the objectives of this section but cannot be encompassed within the one-mile limitation)'."

Mr. O'NEILL of Massachusetts. Mr. Chairman, this amendment has been accepted by the gentleman from New Jersey and by the gentleman from Pennsylvania.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Massachusetts [Mr. O'NEILL].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. McDADE

Mr. McDADE. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. McDADE: Page 102, after line 4, insert the following:

"THREE-FOURTHS GRANTS FOR PROJECTS IN CERTAIN REDEVELOPMENT AREAS

"SEC. 704. Section 103(a)(2)(B) of the Housing Act of 1949 is amended by inserting

after 'to avoid hardship,' the following: 'or at any time after such contract or contracts are entered into and prior to the time the final grant payment has been made pursuant thereto,'"

(Mr. McDADE asked and was given permission to revise and extend his remarks.)

Mr. McDADE. Mr. Chairman, the amendment which I have offered has a very clear purpose. That purpose is to force the Department of Urban Affairs to give full implementation to the Housing Act of 1965 which this House passed by a substantial vote.

We made an effort in that act—as well as housing acts passed in the 88th and 87th Congresses to provide that the percentage of Federal contribution in an urban renewal project would be three-fourths and not two-thirds if the project was being conducted in an area that suffered from substantial or persistent unemployment.

The city of Scranton and the county of Lackawanna in Pennsylvania are so designated and the unemployment rate was about 14 percent when the urban renewal contracts were signed.

Yet, the Urban Renewal Administration has refused to convert all our urban renewal contracts into three-fourths financed projects.

The amendment which I have offered will effect such a conversion.

If you, the members of this Committee, believe that the executive branch must be responsive to the Congress, then you will support my amendment.

And those of you who wish to see justice done will vote for my amendment for it directs the Department of Urban Affairs to abandon an unwarranted and restrictive approach to our legislative acts.

This amendment will encourage the men and women of my congressional district to continue their unparalleled efforts at self-help which has meant so much to our economic rebirth. We are building a new area that enjoys the warm sunshine of new jobs and new prosperity.

This amendment, which I have written, will be of substantial help as we strive to attain a new era of prosperity.

I urge its adoption.

Mr. McDADE. Mr. Chairman, this amendment is acceptable to both my colleagues, the gentleman from New Jersey [Mr. WIDNALL] and the gentleman from Pennsylvania [Mr. BARRETT] who is the chairman of the subcommittee.

The CHAIRMAN. The question is on the amendment of the gentleman from Pennsylvania [Mr. McDADE].

The amendment was agreed to.

(The proceedings of the House of Representatives are continued in Part 2 of today's RECORD.)

Daily Digest

HIGHLIGHTS

Senate passed bills on rivers and harbors—flood control, State-Justice-Commerce appropriations, and suspension of investment credit.

House passed the Demonstration Cities and Metropolitan Development Act; and a bill providing for the establishment of the Indiana Dunes National Lakeshore.

Senate

Chamber Action

Routine Proceedings, pages 25670-25721

Bills Introduced: Five bills and one resolution were introduced as follows: S. 3911-3915; and S. Res. 314.

Page 25670

Bills Reported: Reports were made as follows:

The following two bills were reported during Senate adjournment on October 13 under prior authority:

H.R. 11631, clarifying responsibility of the VA with respect to the training and education of health service personnel, with amendments (S. Rept. 1727); and

S. 2877, to establish a National Community Senior Service Corps, with amendment (S. Rept. 1728).

The following bills were reported today:

H.R. 16114, to include annual premium pay as basic pay for the purpose of computing benefits for retirement and insurance, with amendments (S. Rept. 1729);

H.R. 15727, authorizing Executive Salary Schedule positions in levels 4 and 5 for four officers of the Smithsonian Institution, with amendment (S. Rept. 1730);

H.R. 2600, to establish the Ansley-Wilcox House in Buffalo as a national historic site, with amendments (S. Rept. 1731);

S. Con. Res. 109, to print certain hearings of the Anti-trust and Monopoly Subcommittee of the Committee on the Judiciary (S. Rept. 1732);

S. Con. Res. 110, to print additional copies of hearings by the Special Committee on Aging on "Detection and Prevention of Chronic Disease Utilizing Multiphasic Health Screening Techniques" (S. Rept. 1733);

S. Res. 307, to print as a Senate document the final report of the Woodrow Wilson Commission (S. Rept. 1734);

S. Res. 312, to print as a Senate document a report entitled "Profile of Youth—1966" (S. Rept. 1735);

S. Res. 313, to print as a Senate document a study entitled "Aspects of Intellectual Ferment in the Soviet Union" (S. Rept. 1736);

H. Con. Res. 1007, to print copies of a report on international education by the House Committee on Education and Labor (S. Rept. 1737);

H. Con. Res. 1017, to print additional hearings and other material by House Committee on Agriculture (S. Rept. 1738);

H. Con. Res. 1022, to print as a House document a pamphlet entitled "Our American Government. What Is It? How Does It Function?" (S. Rept. 1739);

S. Res. 311, continuing authority of the Special Committee on the Organization of the Congress through January 1967 (S. Rept. 1740);

S. Res. 305, to appoint a special subcommittee of the Committee on the Judiciary to study encroachments by the executive and judicial branches upon the powers of the Congress, with amendments (S. Rept. 1741);

S. 2080, increasing from \$75 to \$100 per month amount of benefits payable to widows of certain former employees of the Lighthouse Service, with amendments (S. Rept. 1742);

H.R. 14517, a private bill (S. Rept. 1743);

S. 2205, a private bill (S. Rept. 1744); and

S. Res. 314, providing for payment of gratuity to survivor of deceased Senate employee (no written report).

Pages 25669-25670

Bill Referred: H.R. 12047, to amend the Internal Security Act with respect to obstruction of Armed Forces, was referred to Committee on the Judiciary.

Page 25819

Rivers and Harbors—Flood Control: Senate passed (motion to reconsider tabled) S. 3906, authorizing funds for rivers and harbors and flood control projects, after adopting the following amendments:

Mansfield amendment relative to transfer of certain funds for school purposes in area of Libby Dam and Reservoir, Mont.; Holland amendment designating a navigation lock of the central and southern Florida flood control project as the W. P. Franklin lock and control structure; and Dirksen amendment declaring the policy

PROCEEDINGS AND DEBATES OF THE 89th CONGRESS, SECOND SESSION

Vol. 112

WASHINGTON, FRIDAY, OCTOBER 14, 1966

No. 177—Part 2

House of Representatives

(Proceedings of the House of Representatives continued from Part 1.)

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

The House in Committee of the Whole House on the State of the Union continued consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

AMENDMENT OFFERED BY MR. DELANEY

Mr. DELANEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DELANEY: Page 125, in line 14 insert "(a)" after "Sec. 914", and after line 16 insert the following:

"(b) Section 401(d) of such Act is amended by inserting before the period at the end thereof the following: 'and, notwithstanding the first proviso of this subsection, the amount of this annual increase which is not utilized for loans for hospitals may be utilized for loans for other educational facilities, as defined herein'."

(Mr. DELANEY asked and was given permission to revise and extend his remarks.)

Mr. DELANEY. Mr. Chairman, I understand this amendment has been examined by both sides and is acceptable.

Mr. Chairman, the amendment which I have offered is needed to give parity to our great downtown colleges and universities. It involves no increase in the existing authorization for the college housing loan fund, but would simply permit greater flexibility in the use of the loan funds already authorized.

In a great many cases, downtown community colleges draw a high proportion of their student body from the cities in which they are located, so the students are able to live at home even though they may be some distance from the university. For these schools, dormitories may not be their most pressing problem. However, they are still faced with an urgent need for dining facilities for students and faculty, and student recreation and assembly halls to provide wholesome

surroundings for students between classes, and a focal point for campus activity. An important part of college is the spirit of the student body, and their identification with the university. Because of this, a student recreation building is not a luxury. It is an important part of the college process.

In recognition of the importance of these facilities, the Congress has authorized a set-aside of \$30 million out of the total \$300 million authorized for college loans for such facilities. But, because of the heavy volume of applications for this kind of loan, the Department has set restrictive regulations.

In addition, the Congress has authorized the use of \$30 million for student nurse and intern housing. However, the demand for these loans has been running at less than half that amount.

My amendment would not change these set-asides. It would simply say that in a year when the full amount is not needed for the second set-aside, the excess could be used for student recreation and assembly halls. Let me emphasize that these funds could be transferred only if not needed for student nursing and intern housing.

Mr. Chairman, this amendment is important to all universities, but particularly to our downtown community colleges. I hope it will be adopted.

Mr. PATMAN. Mr. Chairman, we accept the amendment, on both sides.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. DELANEY].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. IRWIN

Mr. IRWIN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. IRWIN: On page 75, strike out "Sec. 313" on line 6 and insert in lieu thereof "Sec. 313(a)"; and insert after line 9 the following new subsection:

"(b) (1) The first sentence of section 810 (e) of such Act is amended by inserting before the period at the end thereof 'or other mortgagor approved by the Commissioner'."

"(2) The third sentence of section 810(e) of such Act is amended by inserting after 'or trust' the following 'or other mortgagor'."

Mr. IRWIN. Mr. Chairman, under existing law, section 810 armed service

housing rental projects may be sponsored only by private corporations, associations, cooperative societies, or trusts. Private individuals and partnerships are precluded from sponsoring such projects.

Private individuals and partnerships are eligible sponsors of multifamily rental projects under all other FHA programs. This amendment, essentially technical in nature, would extend the benefits of FHA mortgage insurance under the section 810 program to projects owned by sponsors now eligible under all other FHA programs.

Mr. Chairman, the chairman of the full committee and the minority have accepted the amendment.

Mr. PATMAN. Mr. Chairman, we accept the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Connecticut [Mr. IRWIN].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. HARDY

Mr. HARDY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. HARDY: Page 77, lines 21 and 22, strike out "and are regulated in a manner acceptable to him" and insert in lieu thereof the following: "and are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary."

Page 78, line 6, strike out "and are regulated in a manner acceptable to him" and insert in lieu thereof the following: "and which are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary."

Page 78, lines 13 through 15, strike out "which will be regulated, during the period of such ownership, in a manner acceptable to him" and insert in lieu thereof the following: "which during the period of such ownership will be regulated or supervised by the State or political subdivision or an agency thereof or (in the absence of such State or local regulation or supervision) will be otherwise regulated in a manner acceptable to the Secretary."

Mr. HARDY (interrupting the reading). Mr. Chairman, I ask unanimous consent that further reading of the amendment be dispensed with and that

it be printed in the Record. It is in three parts which are identical.

The CHAIRMAN. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. PATMAN. Mr. Chairman, we are willing to accept the amendment on this side.

Mr. HARDY. I hope it is acceptable to the other side.

Mr. HARVEY of Michigan. Mr. Chairman, we would like to hear the amendment explained.

Mr. HARDY. Mr. Chairman, this amendment to title IV will not permit the Secretary to override State regulatory agencies. The amendment is in three parts, and in each it has the identical objective. It applies first to subsection (a) of section 1006. The language in the bill would permit the Secretary to regulate the user rates and charges, capital structure and method of operation and other conditions with respect to the operation of private water systems.

Mr. Chairman, I do not think the Secretary has any business regulating these matters if there is a State agency which is supervising or regulating them. My amendment simply provides that, where regulation is provided by a State or political subdivision or an agency thereof, the Secretary's authority would not be permitted to override that regulation. In like manner, the other two parts of the amendment accomplish this identical purpose with respect to subsection (b) 1 and (b) 2.

I am grateful to the chairman of the committee [Mr. PATMAN], for accepting this amendment, and I trust that it will be acceptable to the gentleman from New Jersey and that it will be adopted.

It does that in three places in the same section, section 1006.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. HARDY. I yield to the gentleman.

Mr. BROCK. The first part constitutes the State?

Mr. HARDY. That is right.

Mr. BROCK. That is not preemptable by the Secretary if the State has regulations that are enforceable?

Mr. HARDY. That is right.

Mr. BROCK. Mr. Chairman, we accept the amendment.

(Mr. HARDY asked and was given permission to revise and extend his remarks.)

The CHAIRMAN. The question is on the amendment offered by the gentleman from Virginia [Mr. HARDY].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. DINGELL

Mr. DINGELL. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DINGELL: Page 102, after line 4, insert the following new section:

"REQUIREMENT OF SEPARATE SEWER SYSTEMS IN REDEVELOPMENT OF URBAN RENEWAL AREA

"SEC. 704. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

"(g) The urban renewal area will be served to the maximum extent feasible after its redevelopment by a storm sewer system or systems separate from and independent of the area's sanitary sewer system or systems."

(Mr. DINGELL asked and was given permission to revise and extend his remarks.)

Mr. DINGELL. Mr. Chairman, the purpose of my amendment is to put a halt to the expenditure of Federal funds for projects which perpetuate and make worse our already bad water pollution problem.

During the last decade, Congress made major advances in developing a program that looks to the elimination of the water pollution problem. In 1956, we adopted the Federal Water Pollution Control Act. We expanded this program with the wide-ranging Federal Water Pollution Control Act amendments of 1961. The Water Quality Act of 1965 authorized additional funds and enforcement procedures. And, we will soon be taking final action on S. 2947, a bill authorizing additional billions of dollars to carry out the purposes of the Federal Water Pollution Control Act.

From this it is obvious that Congress wants to clean up the Nation's streams, lakes, and shore areas.

However, the Housing Act of 1949 still permits Federal funds to be expended on combined sanitary and storm sewer systems.

A recent study by the Department of Health, Education, and Welfare—the preliminary report was issued in November 1964—shows that one of the most important sources of impairment to water is the storm water and overflow from combined sewers.

This study showed that some 60 million persons live in U.S. communities now served by sewer systems which allow overflows. During storms, this overflow contains as much as 95 percent untreated sewage.

HEW stated:

The quality of the overflows reflects a high degree of pollutional load to water courses as measured by the usual standards of biochemical oxygen demand, coliform organisms, solids, etc. Stormwater alone was demonstrated to carry significant amounts of pollutional load, particularly in the early portions of storms when a flushing action occurs.

The study continues:

Effects (of these overflows) were found to be uniformly adverse and it was learned that control measures do exist. Complete separation of sanitary and storm sewers and treatment is now considered to be the ultimate solution. This includes separation of all sources of stormwater from the sanitary system.

There is no question that the cost of providing complete separation of storm and sanitary sewers throughout the country would be substantial. Present estimates put the cost at about \$30 billion. The cost of providing such a system for New York City would be about \$4 billion; for Detroit, Mich., about \$1.3 billion; for Chicago, about \$2.3 billion; Spokane, Wash., about \$50 million; Washington, D.C., about \$214 million; Concord, N.H., about \$8 million; and

New Haven, Conn., about \$10 million. These are all large sums of money and needless to say these projects would have to be carried out over a protracted period of time. But, we should get started with the job, and a good place to start would be in our urban renewal programs.

My amendment would require that after an urban renewal area has been redeveloped, it must be served to the maximum extent feasible by sewer systems which make provision for the separate conveyance and disposition of storm water and sanitary sewage. We are going to have sewer systems of one sort or another and I see no reason for not building the best possible systems. It is true that the cost of building a combined system is less than the cost of separate systems. But then, if we were interested only in the cost of sewage disposal, we could handle the problem quite nicely by digging a little ditch along the road and let the sewage flow where it would.

On this matter of costs, the House Government Operations Subcommittee on Natural Resources and Power, of which the gentleman from Alabama [Mr. JONES] is chairman, has provided us with some data in its excellent report, "Separating Storm and Sanitary Sewers in Urban Renewal." The report noted that the separate sewers to be built in a large Cleveland, Ohio, urban renewal area would cost about 50 percent more than the combined system which was first planned. The cost estimate for a system of separate sewers was \$1,166,280, while the cost estimate for the combined system was \$740,714. It is true that the difference in construction costs is significant, but it certainly is not prohibitive. And, for the extra \$425,566 we would be making a start on correcting a situation which has gone far in making Lake Erie America's "Dead Sea."

In accomplishing the objectives I seek with my amendment, I am, of course, concerned with the best utilization of Federal funds, as well as State and local funds. If the research programs we in Congress have authorized provide us with new and less costly devices or means to accomplish the objectives of assuring clean water, I would be the first to urge the utilization of these new devices and means. But, until such time as these hoped-for improvements are a fact rather than a mere hope, I believe that we must make use of known techniques.

The Federal Water Pollution Control Administration, through enforcement activities affecting Detroit, Cleveland, Buffalo, New York City, and other great urban centers, is attempting to cope with the critical effects of overflows from combined sewers. Through the facilities demonstration program the Administration is seeking to alleviate that major pollution problem. It makes sense to me, in acting on this great demonstration cities bill, that the House put the urban renewal program solidly in line with the national goal of cleaner waters for America. To this end, I urge adoption of my amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. DINGELL. I am happy to yield to the chairman.

Mr. PATMAN. We have accepted the amendment and I understand the other side has accepted it.

Mr. DINGELL. That is correct. The gentleman from New Jersey, Mr. WIDNALL, has agreed to the amendment.

Mr. HARVEY of Michigan. Mr. Chairman, we will accept the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Michigan [Mr. DINGELL].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. STUBBLEFIELD

Mr. STUBBLEFIELD. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. STUBBLEFIELD: On page 99, line 21, insert "(a)" after "SEC. 701."

On page 100, after line 11, insert the following: "(b) Notwithstanding the date of the commencement of construction of the Earlington High School, in Earlington, Kentucky, local expenditures made in connection with the construction of such school shall, to the extent otherwise eligible, be counted as local grants-in-aid toward urban renewal project Kentucky R-60 in accordance with the provisions of title I of the Housing Act of 1949."

On page 134, after line 9, insert the following new section:

"LOCAL GRANTS-IN-AID FOR SPECIFIC URBAN RENEWAL PROJECT

"SEC. 920. Notwithstanding the date of the commencement of construction of the Earlington High School, in Earlington, Kentucky, local expenditures made in connection with the construction of such school shall, to the extent otherwise eligible, be counted as local grants-in-aid toward urban renewal project Kentucky R-60 in accordance with the provisions of title I of the Housing Act of 1949."

And renumber the succeeding sections accordingly.

(Mr. STUBBLEFIELD asked and was given permission to revise and extend his remarks.)

Mr. STUBBLEFIELD. Mr. Chairman, I am asking that the legislation before us be amended to provide that certain expenses incurred by the city of Earlington, Ky., be made eligible as local grants-in-aid for purposes of title I of the Housing Act of 1949.

The reason for this requested amendment is that the urban renewal project of Earlington, Ky., which is an area containing approximately 41 acres located adjacent to the new high school, is almost totally dependent on the city's being able to use the noncash credits established through 100-percent locally financed projects—the main one being the benefits to be derived from the construction of the Earlington High School.

When the noncash credit in the approximate amount of \$80,000 from construction of this high school expired in January 1966, based on the fact that such a credit expires 3 years after work begins unless the allocation order for the loan and grant is executed before the 3-year period expires, a reduction in size and cost of the initial project was necessary in order to make the project financially feasible. However, when the planner submitted a preliminary of part I application for loan and grant to the

Atlanta, Ga., regional office of the Housing and Urban Development Department in June 1966, it was noted that increased project costs—due to higher value on real estate purchases—revealed by acquisition appraisals—increased the local share estimate by about \$36,300 over the amount planned for just 6 months before as the local share.

There is no question that the Earlington project's success is totally dependent on the recovery of this lost credit since the local financial situation is such that cash moneys are simply not available for use as matching funds without jeopardizing further capital improvements needed. Since similar exceptions have been made through congressional action in the past, I feel that Earlington should likewise receive this consideration and ask that my amendment be accepted.

Mr. PATMAN. Mr. Chairman, will the gentleman yield to me?

Mr. STUBBLEFIELD. I will be happy to yield.

Mr. PATMAN. This is a special bill for a special purpose. The gentleman will get consideration from our committee in a special bill, but if you attempt to put it in here, there are 1,429 others that are comparable to it and would have the same claim. We would never get through with this bill then, I will say to the distinguished gentleman from Kentucky. I hope you do not urge it.

Mr. STUBBLEFIELD. Mr. Chairman, I appreciate those remarks, but I feel obligated to offer the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Kentucky [Mr. STUBBLEFIELD].

The amendment was rejected.

The CHAIRMAN. There are now no members of the committee with amendments. The Chair now recognizes with what he hopes is some semblance of seniority the various Members. The Chair recognizes the gentleman from Michigan [Mr. BROOMFIELD].

AMENDMENT OFFERED BY MR. BROOMFIELD

Mr. BROOMFIELD. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. BROOMFIELD: Page 102, after line 4, insert the following new section:

"RETURN OF DISPLACED HOMEOWNERS TO PROJECT AREA AFTER REDEVELOPMENT

"SEC. 704. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

"(g) The urban renewal plan shall provide that in the redevelopment of the project area (1) suitable housing (within the financial means of the individuals and families involved) within the boundaries of the project area for all homeowners who are displaced by the project and who desire to relocate within the area after its redevelopment, and (2) residential construction and rehabilitation will be given priority, to the maximum extent feasible, over other activities."

(Mr. BROOMFIELD asked and was given permission to revise and extend his remarks.)

Mr. BROOMFIELD. Mr. Chairman, the amendment I am offering is quite simple.

It provides that in any urban renewal project in which there are homeowners

who will be displaced by the project, that suitable housing must be provided for those who desire it within the boundaries of the project area.

The amendment further provides that, where feasible, construction of such housing for those displaced will be given top priority during the construction phase of the project.

The differences between the amendment I am offering and existing law are these:

Present law requires that suitable housing must be provided for those who are displaced by an urban renewal project. However, it does not say where.

My amendment would require that as far as homeowners who live in their homes are concerned, those who express the desire to remain must be offered adequate housing within their financial reach, and this housing must be located specifically within the project area.

It further instructs the Housing and Urban Development Department that first priority for this housing must be given to construction of this housing for the displaced homeowner.

Mr. Chairman, I believe that the reasons why this amendment is necessary are the same reasons why we are considering the demonstration cities bill today.

If, after 15 years, the Federal urban renewal program could be considered a success, there would be no need for consideration of a demonstration cities bill today.

The failure is stated in the original law in which Federal urban renewal was created, the Housing Act of 1949, in which the stated objectives are to:

Eliminate substandard and other inadequate housing through clearance of slums and blighted areas.

Stimulate housing production and community development sufficient to remedy the housing shortage.

Realize the goal of a decent home and suitable living environment for every American family.

Now, I ask this question: After 15 years and billions of dollars, which of these goals can we say that urban renewal has attacked successfully?

On the elimination of substandard housing, I think that urban renewal might be able to make a case for itself.

Almost every one of us has in his congressional district at least one example of this phase of urban renewal.

There are sections of our cities which have been wiped out, demolished, destroyed as completely as those blocks of London hit by Hitler's buzzbombs during World War II.

There certainly can be no question of the destroyer power of urban renewal. The next question is, can it create? And if it can create, can it create that which is useful as well as that which is beautiful; that which is necessary as well as that which is desired?

Has urban renewal, in other words, become the tool for the creation of unlivable Brazilia's marble and concrete monuments to nothingness at the expense of those for whom this program was designed in the first place?

This program, urban renewal, was to provide decent, vermin-free, livable

housing, particularly for the low- and middle-income groups, in a healthy environment.

Urban renewal often creates the environment envisioned under this act. The only trouble is that it does not let anybody live there. Urban renewal has had a net loss of housing during the 15 years it has been in business. Think of it. That means that urban renewal not only is not solving the housing problem, it is actually making it worse.

Furthermore, the housing which is being built under urban renewal is more often than not the \$300-a-month apartments or the \$100,000 town houses into which our distinguished Vice President recently moved.

Mr. Chairman, I am not urging the abolishment of urban renewal with my amendment. I am not urging that its funds be cut or its programs be trimmed. I am urging, indeed I am pleading, that this first tiny step be taken right here, today, to head urban renewal toward its stated goals, and these are to provide decent housing for every American.

Let us not let this program compound our urban problems by compressing our explosive housing problems with increasing pressure. Let us work toward the goal of making urban renewal a solution rather than a gesture.

Urban renewal should not—indeed must not—have as its primary goal the creation of pretty places for pretty people.

It should be a device to fill a growing, monumental need—decent housing—rather than the creation of meaningless monuments.

Mr. Chairman, I urge adoption of this amendment.

Mr. HARVEY of Michigan. Mr. Chairman, will the gentleman yield?

Mr. BROOMFIELD. I am delighted to yield to the gentleman from Michigan.

Mr. HARVEY of Michigan. Mr. Chairman, I want to tell the gentleman from Michigan that I believe the gentleman has put his finger upon one of the major faults which now exist in the urban renewal program.

Mr. Chairman, it is my opinion that the amendment which has been offered by the gentleman from Michigan [Mr. BROOMFIELD] is very worth while and I certainly want to commend the gentleman for his interest in this subject and wish to tell the gentleman that I accept his amendment wholeheartedly.

Mr. Chairman, the amendment which has been offered by the gentleman from Michigan [Mr. BROOMFIELD] is accepted on this side of the aisle.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. BROOMFIELD. I yield to the gentleman from Ohio.

Mr. ASHLEY. Mr. Chairman, I thank the gentleman from Michigan for yielding.

However, Mr. Chairman, I will say that this amendment is not dissimilar to the amendment which was previously offered by the gentleman from New Jersey [Mr. WIDNALL], which was accepted.

However, this proposed amendment goes considerably further than the amendment which was offered by the

gentleman from New Jersey [Mr. WIDNALL], and on this basis, Mr. Chairman, we oppose the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Michigan [Mr. BROOMFIELD].

The amendment was rejected.

AMENDMENT OFFERED BY MR. MULTER

Mr. MULTER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MULTER: On page 65, after line 13, insert the following new section:

"INCREASED MORTGAGE LIMITATIONS UNDER SECTION 220(d)(3)(B) FOR SMALL PROJECTS CONTAINING LARGER FAMILY DWELLING UNITS

"SEC. 306. (a) Section 220(d)(3)(B)(iii) of the National Housing Act is amended by inserting after '; and except that' the following: 'with respect to rehabilitation projects involving not more than five family units, the Secretary may by regulation increase by 25 per centum any of the foregoing dollar amount limitations contained in this clause which are applicable to units with two, three, or four or more bedrooms: *Provided, That*'.

"(b) Section 220(d)(3)(B)(iii) of such Act is further amended—

"(1) by inserting immediately before 'by not to exceed 45 per centum' the following: '(as determined after the application of the preceding proviso)'; and

"(2) by striking out '*provided, That nothing*' and inserting in lieu thereof '*Provided further, That nothing*'."

And renumber the succeeding sections accordingly.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. MULTER] in support of his amendment.

Mr. MULTER. Mr. Chairman, this amendment improves the bill. It is the amendment which has been circulated to the members of the committee by our colleague from New York [Mr. RYAN]. The language, not the intent or purport, but the language as such has been approved by the agency. I am not implying that the agency approves the amendment. However, I do understand they can live with the amendment, as they put it. It will improve the bill. It is necessary in the city of New York and other large cities so rehabilitation projects can go ahead. Without it, we will run into difficulty in approving projects for those old buildings, which contain five or less family units. I urge its adoption.

Mr. Chairman, I yield to the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. Mr. Chairman, I thank the gentleman from yielding.

As the mortgage allowances are now secured when a man rebuilds a home, it makes sense for him to rehabilitate the home into small units, into one or two efficiencies and perhaps a one-bedroom unit, rather than a several-bedroom unit, where the mortgage allowance is less.

Mr. Chairman, if this amendment passes it will make owners of homes more receptive to rehabilitating the home into several large suites of two bedrooms or more. This will enable them to provide moderate housing in New York and other large urban areas for middle-class families with children, so that they can stay

in the urban center rather than forcing them to go to the suburbs, which in now the unfortunate situation that we face in these areas.

(Mr. RYAN asked and was given permission to revise and extend his remarks at this point in the RECORD.)

Mr. RYAN. Mr. Chairman, because of the lateness of the hour and the rigid limitation upon debate under which we are operating, and in order to achieve my objective of amending this bill to increase the mortgage limitations in rehabilitation projects under section 220 (d) (3) (B) (iii), I have waived to a member of the committee, on my right, as the author of this amendment, to offer it. I appreciate the support which I have received from those members who understand the problem and recognize the need for an adjustment of the mortgage limitations so that living accommodations can be provided for families with children.

The purpose of this amendment is to encourage the creation of family-size apartments—two and three bedrooms—in a rehabilitation project which contains five units or less.

Under section 220(d)(3)(B)(iii) the mortgage limits make it economically more attractive to create efficiency and one-bedroom apartments rather than two- or three-bedroom apartments.

In New York City in my district we have a major urban renewal program underway—the west side urban renewal project. An integral part of this project is the rehabilitation of brownstones, which will help to achieve economic and racial integration and stabilize the neighborhood. This kind of housing should help keep families in the city instead of driving them to the suburbs.

Under present law a sponsor can get a mortgage for \$18,125 for a one-bedroom apartment. If he uses a floor for two small one-bedroom apartments, he can get \$36,250. On the other hand, if he uses the same space for a two-bedroom apartment, the permissible mortgage is \$21,750. There is a \$14,450 economic incentive to subdivide—two one-bedroom apartments instead of one two-bedroom apartment. Or worse two efficiencies may be created. The result is that family-size apartments are not being planned.

I drafted the amendment now pending before us in consultation with the Department of Housing and Urban Development. It is frankly a compromise which does not go as far as my bill H.R. 7311, which I introduced in April 1965, and which provided an equal mortgage for equal space, but it is addressed to the same problem, and I have discussed it at length with the distinguished chairman of the subcommittee [Mr. BARRETT] and with Secretary Weaver. With respect to rehabilitation projects involving not more than five family units, it permits the Secretary by regulation to increase by 25 percent the mortgage limitations for units with two, three, or four, or more bedrooms.

I urge its adoption.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. MULTER].

The amendment was agreed to.

The CHAIRMAN. The Chair recognizes the gentleman from Illinois [Mr. RUMSFELD].

Mr. RUMSFELD. Mr. Chairman, I yield my time to the gentleman from Illinois [Mr. ANDERSON].

The CHAIRMAN. Without objection, the gentleman from Illinois [Mr. RUMSFELD], yields his time to Mr. ANDERSON of Illinois.

There was no objection.

AMENDMENT OFFERED BY MR. ANDERSON OF ILLINOIS

Mr. ANDERSON of Illinois. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. ANDERSON of Illinois: On page 66, line 6, strike out "Single".

On page 66, line 7, insert "(a)" after "Sec. 308."

On page 66, after line 14, insert the following:

"(b) Section 221(f) of such Act is further amended by adding at the end thereof (after the sentence added by subsection (a) of this section) the following new sentence: 'For purposes of determining eligibility for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3) which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5), a family or person with an annual income of more than \$10,000 shall in no case be considered to be a family or person of low or moderate income.'"

(Mr. ANDERSON of Illinois asked and was given permission to revise and extend his remarks.)

Mr. ANDERSON of Illinois. Mr. Chairman, those of you who were present earlier this afternoon in the Committee of the Whole will recognize that this amendment is a restatement in a slightly different form of the amendment offered by the gentleman from Tennessee [Mr. BROCK].

All I seek to do is to impose an income ceiling or an income limitation of \$10,000 for those families who would be eligible for admission to projects constructed under section 221(d)(3), the below market rate of interest program.

To me, it is fantastic that anyone would even have to stand up in the well of the House this evening and propose that a limitation of this kind be imposed on this program.

This illustrates the extent to which the Congress has lost its control of the 221(d)(3) program. I propose to recapture at least some portion of that lost control.

I did some research earlier today, and I find that in my own home town in northwest Illinois, Rockford, Ill., under this below market interest rate program, a family of five could qualify for admission to one of these so-called middle income subsidized housing projects, if they have an income of \$9,600.

I cannot go home to my constituents and propose that we grant a subsidy that I am informed amounts to about between \$20 and \$30 a month on every single apartment constructed pursuant to this below market interest rate program.

I cannot go home and propose that we continue to grant a subsidy of between \$20 and \$30 a month of that kind when in this House not many months ago 188

of you voted to deny rent supplements to families with incomes low enough so that they had to qualify, as you recall, for public housing before they could be granted rent supplements.

One hundred and eighty-eight Members of this House voted against that program which was for an appropriation, as I recall it, of only \$20 million.

Now unless you adopt this amendment and put at least some limitation—a \$10,000 ceiling on this kind of program, then I submit that you are helping people who do not need the help while you are ignoring those who may have some right and some claim to this kind of assistance from the Federal Treasury.

To date \$1,800 million has been authorized in direct loans out of the special assistance fund of the Federal National Mortgage Association—Fannie Mae—to fund this program.

It has all been backdoor financing, coming out of the Federal Treasury. It amounts to \$1,800 million.

I would suggest to my colleagues, and I am fully conscious of the fact that we want to finish this bill, that this is an amendment with a serious purpose and I would urge you to adopt this amendment putting a \$10,000 ceiling on this program.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois [Mr. ANDERSON].

The amendment was agreed to.

The CHAIRMAN. The Chair recognizes the gentleman from Tennessee [Mr. ANDERSON].

The Chair hearing no response, the Chair recognizes the gentleman from Michigan [Mr. WILLIAM D. FORD].

Does the gentleman from Michigan have an amendment?

Mr. WILLIAM D. FORD. Mr. Chairman, I withdraw my amendment and ask unanimous consent to yield my time to the chairman of the committee, the gentleman from Texas [Mr. PATMAN].

The CHAIRMAN. Without objection, it is so ordered.

There was no objection.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. DOW].

Does the gentleman from New York [Mr. Dow] have an amendment?

AMENDMENT OFFERED BY MR. DOW

Mr. DOW. Mr. Chairman, yes, I have an amendment and I offer the amendment at this time.

The Clerk read as follows:

Amendment offered by Mr. Dow: On page 108, after line 5, insert a new section as follows:

"GRANTS FOR BASIC WATER AND SEWER FACILITIES

"SEC. 909. (a) Section 702 of the Housing and Urban Development Act of 1965 is amended by adding at the end thereof a new subsection as follows:

"(d) If, prior to the commencement of construction of any project to provide basic public water or sewer facilities and in advance of the availability of funds for a grant under this section, the Secretary of Housing and Urban Development approves such project as meeting the requirements of this section, and the local public body or agency thereafter constructs such project and submits an application to the Secretary for a grant for such project, the Secretary, upon his approval of such application, is author-

ized to make a grant under this section for such project to be paid from future appropriations made pursuant to Section 708(a) (1). No such grant shall be made (1) unless the provisions of this section have been complied with to the same extent and with the same effect as though the grant were to be made for future construction of the project, or (2) in an amount exceeding a grant which would otherwise be made under this section for the future construction of such project. Neither an approval of a project by the Secretary prior to construction, nor the making of a grant by the Secretary for such project to be paid from a future appropriation, nor any other provision of this subsection shall be construed to constitute a commitment or obligation of the United States to provide funds to make or pay any grant for such project."

"(b) The amendment made by subsection (a) of this section shall apply to any project on which construction is initiated after June 30, 1966; except that in the case of any project on which construction was initiated after June 30, 1966, and before the date of enactment of this Act, the Secretary may approve such project for the purposes of Section 702 (d) of the Housing and Urban Development Act of 1965 subsequent to the commencement of construction."

Renumber the succeeding sections accordingly.

Mr. DOW. Mr. Chairman, I have acquainted all Members with this amendment during the past week or two.

Mr. Chairman, my amendment would, commencing on July 1, 1966, allow a community to go ahead with the construction of lateral sewers and water systems without disqualification to receive Federal funding at a later date.

Only \$100 million is now available under current appropriations to fill applications aggregating \$2.6 billion. There is a great backlog of facilities needing to be funded. These are disqualified for Federal funding under existing law if construction is commenced.

I understand that the conference report on the Federal Water Pollution Control Act to be submitted next week will carry such a provision, as I understand. All such projects must be approved by the Federal Government before construction commences, but that contains no guarantee of Federal funding. It merely establishes eligibility. This amendment will not cost additional amounts of Federal funds.

Mr. Chairman, I move the adoption of the amendment.

Mr. BOLAND. Mr. Chairman, I rise in opposition to the amendment. I dislike opposing the amendment offered by the gentleman from New York. I am conscious of his concern and his persistency on matters of pollution and basic water and sewage facilities. I commend him for his excellent record in these areas. But actually what would happen is that the amendment would constitute a lien against future projects. The Housing and Urban Development Department would be put in the position to obligate these projects on a priority basis. This is not good procedure.

Mr. Chairman, there are 4,500 communities in the United States that have applications for basic sewer and water facilities pending before HUD. The total dollar amount of the applications is approximately \$2.7 billion. It is all right

to say that this does not constitute an obligation, but in a sense it would, because if HUD approves these applications, there is no question about the fact that in the days, months, and years to come there will be terrific pressure on HUD to come in and finance those applications that have been approved and where the local community has gone ahead and constructed facilities.

The 1966 budget carries an appropriation of \$100 million under section 702.

The 1967 budget carries an appropriation of \$100 million under section 702.

The administration did not ask for the total authorization of \$200 million for either year. This amendment is a quiet back-door approach to the Treasury. It ought not to be adopted.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. Dow].

The amendment was rejected.

The CHAIRMAN. All amendments that were on the desk have now been heard and disposed of.

I now recognize the gentleman from New Jersey [Mr. CAHILL], for 1¼ minutes.

Mr. CAHILL. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The Chair recognizes the gentleman from Minnesota [Mr. FRASER], for 1¼ minutes.

AMENDMENT OFFERED BY MR. FRASER

Mr. FRASER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FRASER: In section 702, page 100, line 18, after the word "industrial", insert a comma and the words "open space or other"

And on line 22 after the word "industrial", insert a comma and the words "open space or other".

Mr. FRASER. Mr. Chairman, this amendment has been shown—

Mr. BARRETT. Mr. Chairman, will the gentleman yield to me?

Mr. FRASER. I am glad to yield to the gentleman from Pennsylvania.

Mr. BARRETT. Earlier this evening I cooperated with you. We know very little about the amendment you are now offering. It would certainly necessitate some study, and I hope the gentleman will not offer the amendment.

Mr. FRASER. I have checked with a number of Members, including the gentleman from New Jersey [Mr. WIDNALL], the gentleman from Tennessee [Mr. Brock], the gentleman from New York [Mr. MULTER], and others, and they apparently found no objection to it.

Does the gentleman feel that he is still constrained to object?

Mr. BARRETT. I hope the gentleman will withdraw the amendment. We can talk about it.

Mr. FRASER. Mr. Chairman, I ask unanimous consent to withdraw the amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

The CHAIRMAN. The Chair recognizes the gentleman from Pennsylvania [Mr. MOORHEAD].

(By unanimous consent, Mr. MOORHEAD yielded his time to Mr. PATMAN.)

The CHAIRMAN. The Chair recognizes the gentleman from Texas [Mr. PICKLE].

(Mr. PICKLE asked and was given permission to revise and extend his remarks.)

Mr. PICKLE. Mr. Chairman, I have asked for this time to point out to the House that one title in this measure had been considered by a committee of this House previously and had not been recommended. It ought to come out of that committee, rather than come under this particular bill.

Title V, Mortgage Insurance for Group Practice Facilities, was introduced in the first session of the Congress as H.R. 2987. It was referred to the House Committee on Interstate and Foreign Commerce.

This is the caption of that bill:

To authorize mortgage insurance and loans to help finance the cost of constructing and equipping facilities for the group practice of medicine and dentistry.

At this hour I shall not offer an amendment. I had thought that one probably would be offered. I believe it would be futile to do so at this point, but this bill or title should come out of the House Committee on Interstate and Foreign Commerce, where the jurisdiction lies and to which it was previously referred. It has no more business in this bill than, we might say, home rule.

I believe this will take away a prerogative of the House Commerce Committee.

Mr. HARVEY of Michigan. Mr. Chairman, will the gentleman yield?

Mr. PICKLE. I yield to the gentleman from Michigan.

Mr. HARVEY of Michigan. I agree wholeheartedly. I have an amendment here which I intended to offer, but since I was limited to one amendment I could do nothing else.

Mr. PICKLE. I want to make it plain that when we get into a discussion of group practice insurance a great many of us would want to discuss the merits and demerits of it. I do not want to say whether it is good or bad in itself, but it gets into prepayments of groups to patients and subscribers. It is a highly technical matter, and ought to be heard by our full committee.

Mr. PATMAN. Mr. Chairman, I am glad the motion to strike title IV of the bill was rejected by this body.

This land development and new communities title would amend the new title X added to the National Housing Act last year. Title X has as its principal aim to stimulate the production of an increased supply of well-planned and improved residential building sites. It stems from the need, overwhelmingly supported by testimony before the committee, to provide new ways of avoiding the disordered sprawl which has marked recent metropolitan development.

The program approved in 1965 has gained much attention and support throughout the country. As of August 31, the Department of Housing and Urban Development had received 275 applications for insurance under title X,

involving more than 80 percent of the FHA offices throughout the country.

This figure would undoubtedly be far higher if it were not for the present tight money market. Project sponsors have even been going to the extreme of asking the FHA to hold up approval until fund sources can be obtained. This is yet another indication of the need for this Congress and administration to put a stop to the present profiteering from high interest rates.

Title IV of the bill we are considering would extend the scope of the existing land development program. It would make FHA mortgage insurance available for land acquisition and site development costs for whole new communities, in addition to the large subdivisions which can now be assisted.

Such new communities are already underway in limited number throughout the country. This is an important and promising development.

We all must face the fact that most of the future growth of this country will take place on the fringes of our large metropolitan concentrations. We cannot stand idly by as this precious land is developed in a helter-skelter manner. New community planning by private developers provides an opportunity for private enterprise to meet this challenge and to contribute to effective development—for recreation, industry, shopping, and all the other land uses needed in new urban areas.

I see this legislation as primarily of benefit to small- and medium-sized builders. New community development has, so far, been the province of large corporate developers, who have the financial resources to assemble the large tracts of land required, and who can then sustain the large capital outlay required for basic improvements to the land before residential construction can start. This new provision would open up to medium- and small-size builders, also, the possibility of engaging in this same sort of large-scale activity. They could do this cooperatively or by buying improved building sites from land developers who make use of the new provisions. In fact, this title of the bill includes specific directions to the Secretary to assure participation by small- and medium-volume builders.

Mr. Chairman, if private enterprise is not given the assistance it needs to create improved land for new communities, I predict that local governments will be increasingly driven to take over this job themselves. I am happy title IV of the bill was not deleted.

Mr. ANDERSON of Tennessee. Mr. Chairman, as I understand it, the demonstration cities bill represents an effort to cure a most serious national cancer—the blight, despair, hopelessness, and crime which has spread through our cities.

The distinguished chairman of the House Committee on Banking and Currency has characterized this cancer as the most central and critical domestic problem of this time. Twenty-two giants of American industry and banking have likewise said that it is the single most

important domestic issue before Congress. Cancer, then, is not too strong a word.

The bill before us will probably pass the House today. In a few days we will be going home to give an accounting to the people, and because of the seriousness of problems facing us across the land, we will not be unlike the surgeon who goes from the operating room to report to waiting relatives on the removal of a cancerous growth in a loved one. Just as the surgeon, we will inevitably be asked, "Did you get it all?" And no matter how good the bill is before us, and how much related good legislation has passed the House this Congress, we are going to have to say, "No, we did not get it all."

To solve the problems of our cities we must first look to the countryside. The cities are in trouble because the countryside got into trouble. With poor utilities, poor roads, poor housing, poor schools, high unemployment, poor incomes, low industrialization, meager recreation and community facilities of all kinds, and less and less satisfaction from family farming, people from small towns and rural areas have flocked to the cities and compounded their problems.

With our population to double in just 33 years, this country is going to have to spread out, and the plight of our cities today tells us we are already late in getting started.

Mr. Chairman, the essence of the problem is that we are in the same boat whether we dwell in the cities or in the countryside. I consider it most distressing that some Members seem to view the problems I have referred to in terms of competition for attention and funds between the urban and rural areas. I hope the matter before us and the debate which is being made will show everyone that the demonstration cities and metropolitan development plan should be followed on an urgent basis by a comprehensive program of rural community planning and development. As I have pointed out, if we can make the countryside and the small town blossom, our cities will have found a new broad avenue of deliverance from many, if not most, of their ills.

Therefore, I appeal to the Members and to the administration to get going and do something to get started with a comprehensive and strong program of rural development. While some excellent things have been done in this regard, our rural planning and development is in mesh neither with the severity nor the urgency of the overall national domestic problems we face.

I have joined in the introduction and support of a rural community development bill which has been thoroughly worked out and which has the support of the administration. This bill, S. 2934, has already passed the Senate by a 2 to 1 majority with bipartisan support. It has been favorably reported on by the House Committee on Agriculture. It is a modest proposal, a pilot program of 3 years' authorization and its entire purpose is to make available to rural communities the same type of assistance and development planning as is now available to urban areas under section 701 of the Housing

Act of 1954 as amended. Not more than \$5 million would be spent on this program the first year. We have been spending about six times as much each year for urban planning and will, of course, spend a great deal more if the demonstration cities bill is enacted.

This proposal would vest in State governments the responsibility for designating community development districts at the request of local governments. State governments would be responsible also for receiving and disbursing Federal planning grants. I understand the proposal is endorsed by quite a number of Governors, including Governor Connally of Texas, Governor Romney of Michigan, and my own Governor, Governor Clement of Tennessee. Many major organizations have expressed approval. Among them, the Farmers Union, the National Grange, the National Rural Electric Cooperative Association, the National Association of Counties, and the National League of Cities.

Mr. Chairman, I urge that the 89th Congress do something about our present fragmented planning in rural America. I believe the rural community development bill will be a most worthwhile step in that direction, to the great benefit not only of rural America but urban America as well.

Mr. DONOHUE. Mr. Chairman, I urge and hope that this House, after full discussion and debate, will overwhelmingly approve this bill, S. 3708, the Demonstration Cities and Metropolitan Development Act of 1966, without any suffocating amendments.

As all Members are aware this measure includes both the demonstration cities and metropolitan development proposals, together with the more general provisions contained in this year's omnibus housing legislation so it is necessarily long and somewhat complex. However, all the titles and provisions have been clearly and completely explained by the most able floor managers on both sides and any intempered repetition now would be both burdensome and superfluous.

In summary, the basic purpose of this measure is an attempted reorganization and coordination of the existent single-purpose urban programs currently being projected to help solve the increasingly varied and complex problems of our cities.

Too many of our city governments are being too much and too often challenged and sometimes baffled by the multiplicity of new Federal programs and the technicalities of city unit relationships with dozens of Federal agencies dealing with hundreds of different Federal assistance programs.

The great and inherent value of this measure is that it provides a beginning toward the more orderly arrangement of all these Federal programs so that their individual aids can be combined into a coordinated plan for the most effective use in the most economical manner.

The bill, as we all know, has been overwhelmingly endorsed by most of the recognized authorities, at all levels, on city problems and it has the unique endorsement of some of America's most respected and acclaimed industrial lead-

ers who have realistically commended the measure as a "fiscally responsible" approach to the "most pressing domestic problem of our time."

Mr. Chairman, the urgent need for the Federal Government to assist in comprehensive city demonstration programs for rebuilding in slum and blighted areas and providing the public facilities and services required to improve the general welfare of the people in these areas and to assist and encourage planned metropolitan government is so obvious throughout this country that it has not even been questioned here.

If there are any deficiencies in this bill it would be that this proposal has been too long delayed and its present containment is too modest for the great purposes intended. It is nevertheless a beginning and, by the voice of authority, a wise and prudent beginning in the best interests of all the people of the United States.

As a first step toward the rejuvenation of large numbers of our people and the reinvigoration of major sectors within this great Nation let us overwhelmingly approve this measure.

Mr. WOLFF. Mr. Chairman, I support the demonstration cities bill. Because of my great concern over the incubation of crime that stems from the intolerable conditions that exist in a great many cities of this Nation, I feel this bill is a meaningful step in crime prevention.

Recently the mayor of New York City, John Lindsay, made the statement that he needs \$50 billion to bring New York City to a point where it will be a decent place to live. Certainly we cannot provide the fantastic amount of funds necessary to do the total job. But unless we take some steps to improve the conditions of our cities, we will add fuel to the fires of crime that will ultimately make a "hell" of our suburbs.

We on Long Island find a spillover of criminals from New York who prey on our populace.

Crime spawns in poverty, in want, and in poor housing. It is time that those who shout so loudly of the lack of law and order in our society, make their deeds match their words, and find it in their hearts to bring order out of the chaos, by supporting this bill, instead of putting phony obstacles in its path. This bill will cut crime off at its source.

There has been attached to this bill—by certain people politically motivated—the unfounded charge that it would encourage the busing of schoolchildren from one area to another, or that it would permit the merging of suburban and city school districts—the debate today proved nothing is further from the true facts.

However, to once again put to rest these spurious politically inspired charges—as has been the case with the recent education bill and now the demonstration cities bill—we have added amendments to each title of the bill so that it is impossible for anyone, or any agency to misinterpret the intent of Congress. These amendments specifically bar busing or any incentive to achieve racial balance through the use of any section of this bill.

It is indeed a sorry state of affairs that "political pool" is being played with the needs of our people by those who seek to ply prejudice for votes. The groundless charges of busing—which never really existed in fact, or was intended in this, or the education bill—is a sophisticated "racist ruse" that threatened a necessary bill. Hopefully this fiction is now put to rest by the amendments, and the benefits of building our cities and the surrounding areas will proceed without further impediment.

Mr. TENZER. Mr. Chairman, I rise in support of S. 3708 and I would like to read a letter from the Honorable Eugene H. Nickerson, county executive of Nassau County, N.Y., and chairman of the Urban Area Problems Committee of the National Association of Counties:

OFFICE OF THE EXECUTIVE,

NASSAU COUNTY EXECUTIVE BUILDING,

Mineola, N.Y., October 11, 1966.

Hon. HERBERT TENZER,
House Office Building,
Washington, D.C.

DEAR HERBERT: In my capacity as Nassau County Executive and as Chairman of the Urban Area Problems Committee of the National Association of Counties, I urge you to give your full support to the Demonstration Cities Bill which is scheduled for debate and vote October 13 and 14.

There is no question in my mind that this program will have a major effect on the quality of life, not only for those in the demonstration areas, but, through development of new materials and techniques, for all our citizens. The problems of the cities inevitably reach out into the suburbs and beyond. County governments are instrumentalities which cannot be neglected in the search for a better society more able to cope with the problems of housing, slums, poverty, air and water pollution and transportation.

The Demonstration Cities Bill can give us the technique and experience to correct the errors of the past and avoid the pitfalls of the future. Passage of this bill will bring further credit to the productive, forward-looking 89th Congress.

With kind regards.

Sincerely yours,

EUGENE H. NICKERSON.

Mr. BOLAND. Mr. Chairman, New England cities, too, are beset by the great problems of central city decay. We are an old part of this Nation.

One of every 10 housing units in my own area of Springfield was rated substandard at last report. That involves 12,600 dwellings and at least that number of families. Multiply the families by an average of 4 persons, and you have over 50,000 people affected by substandard conditions in one community alone.

This substandardness blights the lives of some 4 million families in cities throughout our land. It is this blight to which the demonstration cities program is directed.

I urge, Mr. Chairman, that we approve the demonstration cities program.

Many, many cities throughout the country need the help that this bill can provide—and they need it urgently.

For the first time, in the evolution of Federal programs of urban assistance, we have reached the stage at which we can hope to attack total city blight and make durable improvements.

The key to that likely is provided by this demonstration cities legislation, which is based on a recognition of the

root-problem which we all know exists—the fact that there is an inescapable relationship between the conditions of the slums and the conditions of the people who live in them.

Demonstration cities programing will enable a massed, coordinated approach to these complex problems, with the programs of rehabilitation and reconstruction, and with effective programs for social rehabilitation. The net effect cannot help but be an improvement on our past record of achievements.

In addition to providing a greater supply of adequate housing at low and moderate cost, this program will help make it possible for our cities to go into the neglected places in our communities, and to provide a balanced range of necessary public facilities and educational, health and social services. Without these services and facilities, our problem areas will remain out of balance and will be a city blight, more damaging to our urban health, than any physical dilapidation with which we may have to deal.

A comprehensive, well-planned demonstration cities program cannot help but have a speedy up-grading effect in our cities. It will contribute measurably to replacing idleness with jobs, and with an equivalent cutback in welfare costs.

Recreation facilities will encourage healthy play and help to get idle youngsters off the streets and into productive ways of doing and thinking. Centers for neighborhood activity will serve as meeting places for young and old—for here can be located the social services for the neighborhoods; health services, youth-serving activities, and special programs for the elderly.

Let me stress that, while the Federal Government is providing vitally needed funds, it is the cities themselves which must initiate and develop and carry out their demonstration programs. This is a local effort—that is the heart of the program.

The Demonstration Cities Act provides the vehicle needed for an intensive drive against the various barriers that stand between us and the full realization of our democratic heritage. It expresses our national resolve that we are a people who apply our thoughts, our resources, and our wills to tackling any job that will promote the common well-being.

Because this is our heritage—in word and practice—it is all the more puzzling that Republican Party spokesmen are opposing this legislation to meet our critical housing problems.

Mr. Chairman, frankly I do not understand the position of my friends on the other side of the aisle. In a recently issued policy statement the Republicans agree that our cities are faced with a major crisis. Here is a chance in this bill for my Republican friends to do something positive. The Republicans agree that crime is increasing. The Republicans agree that slums and blighted areas demand immediate attention. Here is a chance in this bill for my Republican friends to do something positive. The Republicans agree that public transportation must be expanded and improved. The Republicans agree that educational and social services have not kept pace with the growing population.

Mr. Chairman, this bill will help the cities of America face the crisis that is before them. This bill will give the cities of America yet another tool to do something about slums and blighted areas. This bill, Mr. Chairman, will encourage the cities to do something about the social services which my Republican friends say have not kept pace with the growing population.

Mr. Chairman, the Republicans also say that the taxes collected by the cities have proven inadequate as urban blight has drained at the property tax base and yet when we try to do something to aid the cities, we find that our Republican friends say that this is not the year to do it. They say wait until later. They say this, this year; they said it with the rent supplement program last year; and I regret to say, Mr. Chairman, they have said it on any number of occasions in the years past. The Republicans have said, Mr. Chairman, that many of the upper and middle income groups who formerly provided leadership and stability have moved to the suburbs. Yet, Mr. Chairman, I do not see what our Republican friends are doing to reverse this trend.

This bill, Mr. Chairman, is not going to provide a one-step solution to all of our urban problems. It is essentially an experimental program one, which if it can succeed—and I know it will succeed—will provide our cities with the answers to many of the problems now before them.

We are at a crossroads in our national life, and in the lives of our cities.

The problems we face may be described, without any exaggeration, as being key to our survival—and to the future form of nation and cities to which we will commit generations to come.

There can be no dispute about the scope of the urban problem—even its adversaries of this act are frank to state that it is complex, of great magnitude, and demanding of attention.

We have no legislation—or program—with which to tackle them. We do have at hand the most advised guidance which our urban professionals are able to give us.

We have it before us with committee recommendations which, on the one hand, give the program enough support for an honest effort at filling its promise—and on the other with a very adequate reserve of time, in which the Congress and the Nation can survey the movement of the demonstration cities program through the next fiscal year, before committing large budgets to be spent.

Let us pass this bill, Mr. Chairman and start a program that points the way to solving and attempting to solve some of the crushing burdens that weight the cities of this country.

Mr. DADDARIO. Mr. Chairman, I want to commend the committee for inclusion in this legislation of section 1914, which would amend the Housing Act of 1950 to strike out a limitation imposed by description of educational institutions eligible for certain college housing aid to "public" institutions.

Our States, seeking to strengthen the educational structure with the warm encouragement of the Congress, have, in

some instances, instructed State agencies, authorities, or other instrumentalities to provide or finance housing. Under the existing language, these qualified borrowers may be restricted to just dealing with public institutions, and some doubt has arisen regarding the means to help many institutions.

In Connecticut, we have a great tradition of private education. Schools have existed since prior to the Revolutionary War, and have grown and strengthened with the years. I find, in reviewing the legislative history of the college housing, that the purpose of the act was to help all educational institutions, and the use of the word "public" was originally inserted as one example.

The Connecticut Educational Facilities Authority was established in 1965 to provide financing for institutions in Connecticut. Similar authorities exist in New York and Vermont. The Connecticut authority is set up by law to provide financing for both public and private institutions.

This amendment would remove any question as to the legality of the authority dealing with the private institution on the same footing as the public institution, and would make the borrowing more efficient, less costly and simpler by combining financing under the college housing program. It does not remove the need to justify all college requirements for the funds. It is distinctly in the public interest.

Mr. HOLLAND. Mr. Chairman, these remarks, which are in support of the bill in general, should have been made yesterday during general debate. But I was present yesterday, and listening carefully to the general debate, and I felt that I would wait until I had had a chance to read the RECORD this morning, because I did not really believe my ears when I thought over the arguments that had been advanced against this very worthwhile bill. But, when I read this morning's RECORD, there they were, in all their glory. The arguments I thought I heard yesterday were actually made.

First we were told, Mr. Chairman, that this bill would not make it possible to solve all the problems of all the cities because the amount of funds was limited. The gentleman advancing this argument did not feel that these problems ought not to be attacked, nor did they seem to suggest that the programs set forth in the bill were unwise investments. No, their argument was directed to the fact—the obvious fact, Mr. Chairman—that the bill does not contain enough money to make it possible to undertake programs in all American cities. So far, the arguments made sense. I expected, then, to hear my friends on the other side of the aisle propose that the funds be increased, so that more cities could be covered. But to my amazement, they contended instead that the bill ought to be totally defeated because it was not a guaranteed solution for all the problems of all the cities.

Am I completely mistaken, Mr. Chairman, in suggesting that this argument, in effect, says that if we cannot do every-

thing the first time we should do nothing at all? That is what it sounds like to me.

My hopes and dreams for my country are perhaps more modest, Mr. Chairman. I have, as Justice Holmes once said, "No faith in panaceas and almost none in sudden ruin." Though I hope to be here in several Congresses to come, I do not expect to see the millennium achieved in my time in the Congress. In the unforgettable words of our late beloved President:

All this will not be finished in the first 100 days. Nor will it be finished in the first 1,000 days, nor in the life of this administration, nor even perhaps in our lifetime on this planet. But let us begin.

So, in that spirit, I say to those who would have us defeat this bill because it does not hold out the promise of total victory over the problems that beset our cities, "Let us begin." I do not know, Mr. Chairman, whether Pittsburgh will immediately get anything out of this bill or not. Maybe she will. Maybe not. But the problems of the cities of this country are not limited to Pittsburgh. I will not vote against a bill to begin meeting some of the most crucial challenges facing our Nation just because that bill does not have some "pork" in it for my district.

If we can begin to solve our problems, if we can find ways and means of meeting the challenges which urbanization has brought with it, then every city, every town, every individual in this Republic will gain from our efforts. I have voted here for flood control and reclamation projects in States a thousand miles from Pittsburgh—not because I thought my vote for them would persuade their Representatives to vote for projects in my district, but because I thought, and I still think, that flood control and reclamation is good for the whole country. The provisions of this bill, Mr. Chairman, are good for the entire country. My district, Mr. Chairman, is not an island—but I will not paraphrase all of John Donne's famous truism, except to say that we need not send to ask whom the urban problems of the Nation threaten—they threaten us all.

But that, Mr. Chairman, was not the only argument. We also heard, as we have been hearing for some time, that this bill, somewhere between its lines, in some mysterious, unprinted section, visible only to those of particularly pure insight, threatens all kinds of dictatorial power over our local governments. As I understood this argument, when it was stripped of the thinly clad racism which characterized much of it, the bill will enable the Federal Government to help local governments improve educational and other public facilities for their own citizens, if they wish to do so. And, in the name of "preserving local self-government," we are urged to make sure that there is no Federal help to the local government even to do the things they want to do. Mr. Chairman, if that reasoning is difficult for you to follow, you have my complete sympathy. I found it difficult to follow, too.

This bill requires nothing of any city

which does not wish to participate. It requires very little of any city which does. But if a city wants to attack some of the problems which are festering in the heart of every one of our great urban centers, I do not really think we are safeguarding local rights by withholding assistance. I do not really think the Federal Government poses such a threat if it offers assistance.

This is, of course, an old argument. Those who like the status quo are always fighting efforts to meet new challenges by arguing about jurisdiction. It is easier to mouth slogans about "local self-government" than it is to honestly come out in opposition to the substance of new programs designed to make local self-government more responsive to the people, and local conditions more bearable. But I trust this House has heard this argument often enough not to be fooled. I trust this House is mature enough a body to recognize a "red herring" and to make its decisions on what is actually in a bill, not what someone dreams may someday be in some other bill. We were told, Mr. Chairman, that this bill would destroy the neighborhood school, put rent supplement housing in every suburb throughout America, and let Secretary Weaver draw up civil rights and open housing ordinances in every American city. I read the report. I read the bill. I listened with care to the debate, and I could not imagine where these arguments originated. But now, Mr. Chairman, I think I know. The Members who advanced these arguments, Mr. Chairman, probably won them as third prize in a lottery.

Well, Mr. Chairman, I do not believe in legislating by lottery. I believe in voting on the facts. And the facts are that this bill deserves the support of this House and the enthusiastic blessing of the American people. I will vote for it.

Mr. KUPFERMAN. Mr. Chairman, the leaders of business are to be commended for their interest in aid to our cities.

The bill under discussion before us, S. 3708, putting aside for the moment possible objections to some of the sections, presents a step forward in the fight against urban decay.

It is encouraging to see businessmen leading the fight, and I commend to my colleagues the article in the New York Times of Tuesday, October 11, which discusses it.

DEMONSTRATION CITIES BILL URGED BY 22 TOP BUSINESS EXECUTIVES

(By Robert B. Semple, Jr.)

WASHINGTON, October 10—A group of 22 chief executives of major American corporations—including David Rockefeller and Henry Ford 2d—joined the drive today to insure Congressional passage of the Administration's demonstration cities bill.

The bill, regarded by President Johnson as the main weapon in his attack on urban blight and poverty, passed the Senate by a wide margin but faces a severe test in the House. Debate is scheduled to begin Thursday, and a vote is forecast for Friday.

In a statement issued here early this afternoon, the business group said that urban decay constituted "the most pressing domestic

problem of our time." The statement described the bill as an "imaginative" response to this problem and urged "prompt passage" by the House.

GATES AND M'CONE ON LIST

In addition to Mr. Rockefeller, president of the Chase Manhattan Bank, and Mr. Ford, chairman of the board of the Ford Motor Company, the group included several leading Republicans, among John A. McCone, investment banker and former director of Central Intelligence; Thomas S. Gates Jr., chairman of the board of the Morgan Guaranty Trust Company and former Defense Secretary in the Eisenhower Administration; and Thomas J. Watson Jr., chairman of the International Business Machines Corporation.

The guiding spirit behind the two-page statement was said to be Edgar F. Kaiser, president of Kaiser Industries and a member of a Presidential study group that developed the demonstration cities proposals.

White House officials, who welcomed the statement, said that Mr. Johnson himself had not promoted the gesture in any way and that it had been undertaken at Mr. Kaiser's initiative.

"Our cities are being submerged by a rising tide of confluent forces—disease and despair, joblessness and hopelessness, excessive dependence on welfare payments and the grim threats of crime, disorder and delinquency," the group declared.

Accordingly, the businessmen said, "America needs the demonstration cities act."

They said they were mindful of inflationary pressures and the need to hold down Federal expenditures. But they argued that the measure was "fiscally responsible" and that in any case the problems of the city presented a "crucial" and unavoidable "challenge."

"In our business judgment," the statement concluded, "it deserves to be ranked as high on any list of national priorities as any program we know."

The bill as passed by the Senate would authorize about \$900-million over three years to help selected "demonstration" cities develop and carry out comprehensive plans for rebuilding blighted neighborhoods.

The plan would go beyond urban renewal as traditionally practiced in the sense that it would incorporate the welfare and social programs of the Great Society in any rebuilding program.

The Administration is now thought to have sufficient strength to pass the bill by a slim margin if it can persuade enough Representatives to return to the capital in time for the vote. Many are home campaigning for the elections Nov. 8.

Congressional mail on the bill has recently taken a favorable turn. One Administration strategist said that what he termed "right-wing" mail opposing the bill had dropped off and had been replaced by letters supporting it.

A check of Congressional offices confirmed that although the mail was light—as it often is on complex pieces of legislation—it generally favored the measure.

However, Administration sources would make no firm predictions on the outcome, acknowledging that much depended on Representatives who had declared themselves undecided.

Other signers of the businessmen's statement were as follows:

Stephen D. Bechtel, chairman, Bechtel Corporation.

Fred J. Borch, president, General Electric.

Howard L. Clark, president, the American Express Company.

Donald Cook, president, American Electric Power Service Corporation.

Justin Dart, president, Rexall Drug Company.

R. Gwin Follis, chairman, Standard Oil of California.

Ben Heineman, chairman, Chicago & North Western Railway and also a member of the Presidential study group.

David Kennedy, chairman, Continental Illinois National Bank and Trust Company.

Robert Lehman, chairman, Lehman Brothers, investment bankers.

Cyril J. Magnin, president, Joseph Magnin Company.

Stanley Marcus, president, Neiman-Marcus.

Alfred E. Perlman, president, Pennsylvania-New York Central Transportation Company.

Herman H. Pevler, president, Norfolk & Western Railway.

Herbert R. Silverman, chairman, James Talcott, Inc.

Jack I. Strauss, chairman, R.H. Macy, Inc.

Opposition stems partly from those who are reluctant to vote \$900 million in new authorizations at a time of inflationary pressure; and partly from those who fear that one section of the bill, Title II, would promote busing of pupils to achieve racial balance in schools.

The Administration has angrily and repeatedly denied that the bill grants such authority.

Mr. MACHEN. Mr. Chairman, I wish to express my support for S. 3708 the measure now pending before this House, and particularly to call attention to section 919 which is virtually identical to H.R. 5044, a bill I introduced in the first session of this Congress.

Legislation similar to H.R. 5044 has been pending in the Congress for many years with the result that the Board of County Commissioners of Prince Georges County have had to wait with their plans to construct an underground emergency operating center for civil defense purposes to insure the continuity of county government in the event of an emergency.

The Prince Georges County commissioners have been leaders in the field of civil defense for many years, as they have in so many areas. Passage of the pending measure including section 919 will permit them to continue this leadership by allowing them to proceed with their plans for this valuable civil defense center.

At this time I also wish to extend my sincere appreciation to the gentleman from Texas [Mr. PATMAN] and the gentleman from Pennsylvania [Mr. BARRETT] for their generous leadership in incorporating my bill, H.R. 5044, into the measure now before us.

The CHAIRMAN. At this time the Chair recognizes, to close debate for the minority, the minority leader of the committee, the gentleman from New Jersey [Mr. WIDNALL].

Mr. WIDNALL. I thank the Chairman.

I should like to commend the Chairman for having presided during the 2 long days of debate with the utmost of good humor and with full recognition of the rights of the minority and the rights of the majority and of all the individual Members.

I am sure we have tried hard to have the House work its will on this legislation.

I regret very much, of course, that we reach a point, when housing legislation is under consideration, of closing out the time on the bill, limiting debate and not having as complete a record as we should have.

I hope that someday a housing bill will come up before the end of the session, because then we could do a far better job than we do in the late hours of the session, such as today.

I believe we have improved the bill, since it came to the House floor. We have certainly discussed very fully some of the major sections.

I urge the Members to fully consider the motion to recommit which will be offered and then to vote their will with respect to it. I believe it is something which requires the best of consideration of each individual Member.

PREFERENTIAL MOTION OFFERED BY MR. GERALD R. FORD

Mr. GERALD R. FORD. Mr. Chairman, I offer a preferential motion.

The Clerk read as follows:

Mr. GERALD R. FORD moves that the Committee do now rise and report the bill back to the House with the recommendation that the enacting clause be stricken out.

Mr. GERALD R. FORD. Mr. Chairman, I do not take this time for the purpose of having the basic issue decided on this particular time. I do take this time because I wish to explain the motion to recommit.

Mr. Chairman, the motion to recommit will be offered by the gentleman from Tennessee [Mr. BROCK]. It will be a motion that will strike from title I the authorization of \$400 million for fiscal year 1968. It will also strike from title I the authorization for fiscal year 1969 of \$500 million. It will leave intact the remaining portions of title I, which includes \$24 million for planning. This \$24 million is there to see whether or not this kind of a program should be undertaken and, if so, it will provide the wherewithal for some reasonable, intelligent, constructive determination of policies.

Mr. Chairman, I might point out that the House Committee on Appropriations just concluded action today, as I understand it, on the supplemental appropriation bill for 1967. There is not one penny of obligational authority included in this final supplemental appropriation bill for the demonstration cities program. Naturally, it could not be included, because the program is not authorized.

Let me make one other comment if I might. The motion to recommit will include striking title II, the metro portion of the proposed bill. As I understand it from listening to the debate on the floor of the House, there are only two metro organizations or governmental units in the total United States at the present time. Such proposed metro programs for one area or another have repeatedly been rejected by the voters of the affected areas. Now, if you have the so-called Federal metro program included in this legislation, there will be Federal funds used to tempt voters in these local areas to do things because of the lure of Federal money that they have not done in the past and should not do. It is, therefore, my strong recommendations that the title II portion of this bill, the metro section, be deleted. This provision will be included in the motion to recommit.

May I make one final observation. In the last 2 hours we have seen a very deplorable demonstration, in my judgment, of sound parliamentary procedures. Here is a very substantial bill involving billions that came from the Committee on Banking and Currency, we assume after careful consideration, and after adequate hearings. Yet this afternoon in the last 2 hours we have seen a score or more of amendments that have been offered on the floor and accepted virtually without discussion that obviously have never been considered at any time by the Committee on Banking and Currency.

Mr. Chairman, it seems to me that these amendments should have been brought to the attention of the committee. If justifiable on the merits they should have been accepted in the usual manner by the committee.

Mr. Chairman, instead we see the very unwise action taking place here today, where the Committee is accepting amendments that were never considered, and on this basis of this slipshod procedure, as well as others, this legislation should be defeated.

Mr. BOGGS. Mr. Chairman, I rise in opposition to the preferential motion.

Mr. Chairman, I would first like to take exception to the remarks of the distinguished minority leader relative to the debate with respect to this proposed legislation.

Mr. Chairman, I am always somewhat amazed to see how people can take any side of an argument that happens to fit the particular occasion.

Now, Mr. Chairman, sometimes we bring in proposals here under what we call a closed rule, and the objection is made, because there is no debate provided on amendments.

Now, Mr. Chairman, here tonight we hear objections because amendments have been offered and debated—and some have been accepted—and I do not know how you would legislate in any better fashion than that.

Mr. Chairman, the idea that we would cut off a Member from offering an amendment is that the criticism would be we were trying to stifle full debate thereon.

Mr. Chairman, the alternative thereto is to permit amendments, and those that have been good, we have adopted; those that we felt were not good, after debate, have been rejected.

Now, Mr. Chairman, let us take a look at this motion to recommit, what it does, and what it seeks to do, and what is behind it.

Mr. Chairman, as I understand the motion to recommit, it proposes to strike title I almost entirely. If adopted, it would reduce the authorization from \$900 million which, incidentally, represents a reduction over the original request by the other body, and I might say in that connection that the other body passed this proposal by an overwhelming vote of 53 to 22, which was bipartisan in nature.

Mr. Chairman, what this motion will do, if adopted, would be to strike the \$900 million from the bill and leave a small sum of money for planning purposes.

Therefore, Mr. Chairman, the effect of the adoption of this motion would be to

gut this bill. That is what it will do and that is what it is intended to do and we may as well understand that objective.

Mr. Chairman, let us take a look at the other objectives contained in the motion to recommit.

Mr. Chairman, if this motion to recommit is adopted, it would strike title II. What does title II do? It, if adopted, tries to help the metropolitan areas in this country.

Mr. Chairman, all of us know that through the inventive genius of our country, people have moved to the suburbs and have gone to the urban centers, to the point that 70 percent of our population of almost 200 million is now living in metropolitan centers.

Mr. Chairman, one of our great problems pending before this Nation is a decline of our cities and the problem which comes about as a result of this great influx of new people.

Mr. Chairman, this represents a modest program directed toward doing something about one of the basic problems facing the United States in 1966.

Mr. Chairman, what the minority leader proposes is a negative approach in each instance and provides no solution to the problem whatsoever.

Mr. Chairman, I would say that this is not unique, nor the first time.

Mr. Chairman, the gentleman from New Hampshire, I believe, complained on yesterday about the fact that they have made much of the device of the motion to recommit.

It is a device that can be used as a motion to recommit to gut the bill, and then if the motion does not prevail, vote for the bill on final passage. Then when you get around to explaining it, you can be on both sides.

Mr. Chairman, we have the same thing here that we have had on medicare, that we have had on the wage and hour bill, that we have had on the housing bill, that we have had on social security, on education, and so on.

I say to you, Mr. Chairman, that if there was ever the charge of a motion to recommit being used as a device to gut a constructive piece of legislation and also negativism, we have it here tonight. Mr. Chairman, I hope the House will resoundingly reject this motion to recommit.

The CHAIRMAN. The question is on the preferential motion offered by the gentleman from Michigan [Mr. GERALD R. FORD].

The question was taken and on a division, demanded by Mr. PATMAN, there were—ayes 75, noes 116.

So the preferential motion was rejected.

AMENDMENT OFFERED BY MR. PATMAN

Mr. PATMAN. Mr. Chairman, I offer a technical amendment to correct certain obsolete references in the bill.

The CHAIRMAN. The Clerk will report the amendment offered by the gentleman from Texas [Mr. PATMAN], chairman of the Committee on Banking and Currency.

Mr. PATMAN. Mr. Chairman, the minority has a copy of this amendment, and I ask unanimous consent that the reading of the amendment be dispensed with. It is just a technical amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. BROCK. Mr. Chairman, reserving the right to object, I would like to simply ask the chairman, Am I correct in my assumption that there is no substantive change involved whatsoever?

Mr. PATMAN. The gentleman is correct. There is no substantive change.

Mr. WIDNALL. Mr. Chairman, reserving the right to object, as I understand it these are suggestions that have been made by counsel to the committee?

Mr. HAYS. Mr. Chairman, I object. Mr. TALCOTT. I object.

The CHAIRMAN. Objection is heard.

The Clerk will report the amendment offered by the gentleman from Texas [Mr. PATMAN].

The Clerk read as follows:

Amendment offered by Mr. PATMAN: On page 136, after line 8, add the following new section:

"CONFORMING NOMENCLATURE AND STATUTES TO DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT ACT

"Sec. 922—

Mr. PATMAN. Mr. Chairman, since there was objection to the request to dispense with the full reading of the amendment, and since the amendment is over 25 pages long, I ask unanimous consent to withdraw the amendment.

The CHAIRMAN. Without objection, the amendment is withdrawn.

There was no objection.

The CHAIRMAN. The question is on the committee amendment, as amended.

The committee amendment, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker having resumed the chair, Mr. FLOOD, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee having had under consideration the bill (S. 3708) to assist comprehensively city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, pursuant to House Resolution 1023, he reported the bill back to the House with an amendment adopted in the Committee of the Whole.

The SPEAKER. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER. The question is on engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. BROCK. Mr. Speaker, I offer a motion to recommit.

The SPEAKER. Is the gentleman opposed to the bill?

Mr. BROCK. I am, Mr. Speaker.

The SPEAKER. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. BROCK moves to recommit the bill (S. 3708) to the Committee on Banking and Currency with instructions to report the same back to the House forthwith with the following amendments:

"Strike out page 46, line 25, and all that follows down through page 47, line 5.

"On page 47, line 6, strike out '(c)' and insert '(b)'.

"Strike out title II (beginning on page 49, line 1, and ending on page 61, line 16), and redesignate the succeeding titles and sections (and the references on page 77, lines 5 and 10, and page 125, line 2) accordingly."

The SPEAKER. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER. The question is on the motion to recommit.

Mr. BROCK. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The question was taken; and there were—yeas 149, nays 175, answered "present" 1, not voting 107, as follows:

So the motion to recommit was rejected.

The Clerk announced the following pairs:

On this vote:

Mr. Hébert for, with Mr. Thompson of New Jersey against.

Mr. Cabell for, with Mr. Matsunaga against.

Mr. Foley for, with Mr. Evins of Tennessee against.

Mr. Shipley for, with Mr. Evans of Colorado against.

Mr. Fuqua for, with Mr. Conte against.

Mr. Abernethy for, with Mr. Chelf against.

Mr. Hicks for, with Mr. Zablocki against.

Mr. Schmidhauser for, with Mr. White of Idaho against.

Mr. Stephens for, with Mr. Craley against.

Mr. Johnson of Oklahoma for, with Mr. Mackie against.

Mr. Roush for, with Mr. Denton against.

Mr. Selden for, with Mr. Albert against.

Mr. Scott for, with Mr. Aspinall against.

Mr. Schisler for, with Mr. Blatnik against.

Mr. Moeller for, with Mr. Fallon against.

Mr. Hagan of Georgia for, with Mr. Hansen of Iowa against.

Mr. Fisher for, with Mr. Mackay against.

Mr. Duncan of Oregon for, with Mr. Moss against.

Mr. Cooley for, with Mr. Toll against.

Mr. Smith of California for, with Mr. Corman against.

Mr. Wyatt for, with Mr. Daniels against.

Mr. Hall for, with Mr. Ullman against.

Mr. Baring for, with Mr. Trimble against.

Mr. Battin for, with Mr. Clark against.

Mr. Don H. Clausen for, with Mr. Gray against.

Mr. Burton of Utah for, with Mr. Pucinski against.

Until further notice:

Mr. Bandstra with Mr. Adair.

Mr. Rogers of Texas with Mr. Berry.

Mr. Jennings with Mr. Broyhill of Virginia.

Mr. Karh with Mr. Don H. Clausen.

Mr. Edmondson with Mr. Devine.

Mr. Pool with Mr. Glenn Andrews.

Mr. Purcell with Mr. Hansen of Idaho.

Mr. Willis with Mr. Quillen.

Mr. Todd with Mr. Findley.

Mr. Roncalio with Mr. Erlenborn.

Mr. Culver with Mr. Reinecke.

Mr. Davis of Georgia with Mr. Michel.

Mr. Flynt with Mr. Nelsen.

Mr. Redlin with Mr. Roudebush.

Mrs. Green of Oregon with Mr. Clancy.

Mr. Greigg with Mr. Skubitz.

Mr. Murray with Mr. Dickinson.

Mr. DULSKI changed his vote from "yea" to "nay."

Mr. GROVER changed his vote from "nay" to "yea."

Mr. ROUSH. Mr. Speaker, I have a live pair with the gentleman from Indiana [Mr. DENTON]. If he were present he would have voted "nay." I voted "yea." I withdraw my vote and vote "present."

The result of the vote was announced as above recorded.

The SPEAKER. The question is on passage of the bill.

Mr. GERALD R. FORD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The question was taken; and there were—yeas 178, nays 141, answered "present" 3, not voting 111, as follows:

ANSWERED "PRESENT"—3

Everett Leggett Roush

So the bill was passed.

The Clerk announced the following pairs:

On this vote:

Mr. Denton for, with Mr. Roush against.
Mr. Evins of Tennessee for, with Mr. Everett against.
Mr. Moss for, with Mr. Leggett against.
Mr. Thompson of New Jersey for, with Mr. Moeller against.

Mr. Matsunaga for, with Mr. Hicks against.
Mr. Conte for, with Mr. Hebert against.
Mr. Chelf for, with Mr. Schisler against.
Mr. Zablocki for, with Mr. Foley against.
Mr. White of Idaho for, with Mr. Hagan of Georgia against.

Mr. Cooley for, with Mr. Baring against.
Mr. Mackay for, with Mr. Shipley against.
Mr. Corbett for, with Mr. Fuqua against.
Mr. Mackie for, with Mr. Abernethy against.

Mr. Clark for, with Mr. Battin against.
Mr. Albert for, with Mr. Stephens against.
Mr. Mathias for, with Mr. Duncan of Oregon against.

Mr. Aspinall for, with Mr. Johnson of Oklahoma against.

Mr. Corman for, with Mr. Schmidhauser against.

Mr. Kluczynski for, with Mr. Cabell against.

Mr. Trimble for, with Mr. Cooley against.

Mr. Kee for, with Mr. Fisher against.

Mr. Daniels for, with Mr. Selden against.

Mr. Evans of Colorado for, with Mr. Adair against.

Mr. Fallon for, with Mr. Hall against.

Mr. Gallagher for, with Mr. Erlenborn against.

Mr. Gray for, with Mr. Nelsen against.

Mr. Hansen of Iowa for, with Mr. Quillen against.

Mr. Pucinski for, with Mr. Roudebush against.

Mr. Ullman for, with Mr. Skubitz against.

Mr. Toll for, with Mr. Wyatt against.

Until further notice:

Mr. Jennings with Mr. Glenn Andrews.
Mr. Culver with Mr. Berry.

Mr. Davis of Georgia with Mr. Don H. Clausen.

Mr. Bandstra with Mr. Davis of Wisconsin.
Mr. Rogers of Texas with Mr. Hansen of Idaho.

Mr. Scott with Mr. Reifel.
Mr. Karth with Mr. Pirnie.

Mr. Purcell with Mr. Reinecke.
Mr. Pool with Mr. Walker of Mississippi.

Mrs. Green of Oregon with Mr. Saylor.
Mr. Flynt with Mr. Dickinson.
Mr. Greigg with Mr. Smith of California.
Mr. Redlin with Mr. Stafford.
Mr. Tuten with Mr. Michel.
Mr. Todd with Mr. Burton of Utah.
Mr. Slack with Mr. Clancy.
Mr. Roncalio with Mr. Devine.
Mr. Thompson of Texas with Mr. McCulloch.

Mr. Willis with Mr. Martin of Massachusetts.

Mr. Edmondson with Mr. Johnson of Pennsylvania.

Mr. Murray with Mr. Findley.

Mr. LEGGETT. Mr. Speaker, I have a live pair with the gentleman from California [Mr. Moss]. If he were present, he would have voted "yea." I voted "nay," and withdraw my vote of "nay," and vote "present."

Mr. ROUSH. Mr. Speaker, I have a live pair with the gentleman from Indiana [Mr. Denton]. Had he been present, he would have voted "yea." I voted "nay," therefore I withdraw my vote of "nay," and vote "present."

Mr. EVERETT. Mr. Speaker, on this vote I have a live pair with the gentleman from Tennessee [Mr. Evins]. If he were present, he would vote "yea." I voted "nay." I withdraw my vote of "nay," and vote "present."

Mr. MIZE changed his vote from "present" to "nay."

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

A similar House bill, H.R. 15890 was laid on the table.

APPOINTMENT OF CONFEREES ON DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

Mr. PATMAN. Mr. Speaker, I ask unanimous consent that the House insist on its amendment to the bill, S. 3708, to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, and request a conference with the Senate.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Texas [Mr. PATMAN]? The Chair hears none and appoints the following conferees: MESSRS. PATMAN, MULTER, BARRETT, MRS. SULLIVAN and MESSRS. REUSS, and ASHLEY, WIDNALL, FINO, and MRS. DWYER.

GENERAL LEAVE TO EXTEND REMARKS

Mr. PATMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to extend their remarks and include extraneous matter on the bill just passed.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Arlington, one of its clerks, announced that the Senate had passed without amendment bills of the House of the following titles:

H.R. 14355. An act to amend the Railroad Retirement Act of 1937, the Railroad Unemployment Insurance Act, and the Railroad Retirement Tax Act to make certain technical changes, to provide for survivor benefits to children ages 18 to 21, inclusive, and for other purposes; and

H.R. 17285. An act to amend the Railroad Retirement Act of 1937 and the Railroad Retirement Tax Act, and for other purposes.

The message also announced that the Senate had passed, with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 13103. An act to amend the Internal Revenue Code of 1954 to provide equitable tax treatment for foreign investment in the United States;

H.R. 14643. An act to provide for the strengthening of American educational resources for international studies and research; and

H.R. 17607. An act to suspend the investment credit and the allowance of accelerated depreciation in the case of certain real property.

The message also announced that the Senate insists upon its amendments to the bill (H.R. 17607) entitled "An act to suspend the investment credit and the allowance of accelerated depreciation in the case of certain real property," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. LONG of Louisiana, Mr. SMATHERS, Mr. ANDERSON, Mr. WILLIAMS of Delaware, and Mr. CARLSON to be the conferees on the part of the Senate.

The message also announced that the Senate insists upon its amendments to the bill (H.R. 13103) entitled "An act to amend the Internal Revenue Code of 1954 to provide equitable tax treatment for foreign investment in the United States," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. LONG of Louisiana, Mr. SMATHERS, Mr. ANDERSON, Mr. MCCARTHY, Mr. CARLSON, and Mr. BENNETT to be the conferees on the part of the Senate.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2720) entitled "An act to authorize the Secretary of the Interior to develop, through the use of experiment and demonstration plants, practicable and economic means for the production by the commercial fishing industry of fish protein concentrate."

The message also announced that the Senate agrees to the amendments of the House to a bill of the Senate of the following title:

S. 2338. An act to authorize the erection of a memorial in the District of Columbia to Gen. John J. Pershing.

ELEMENTARY AND SECONDARY EDUCATION AMENDMENTS OF 1966

Mr. POWELL. Mr. Speaker, I ask unanimous consent that the Republican conferees on the bill (H.R. 13161) to strengthen and improve programs of assistance for our elementary and secondary schools, be excused, and that the Speaker be empowered to appoint new Republican conferees.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. GERALD R. FORD. Mr. Speaker, reserving the right to object, is the gentleman from New York going to submit the names of the additional conferees?

The SPEAKER. As the gentleman from Michigan knows, the Chair makes the appointment. The Chair always seeks the counsel and advice of the chairman, assuming that the chairman has in turn conferred with the members of his own committee on both sides. The Chair will state that he has four names.

Mr. GERALD R. FORD. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. WILLIAMS. Mr. Speaker, reserving the right to object, I think perhaps the House should have an explanation of what this is all about.

The SPEAKER. This is simply to excuse certain Republican conferees heretofore appointed on the secondary and elementary school bill from serving, and appointing other Republican conferees in lieu thereof.

Mr. WILLIAMS. That is with the concurrence of the Republican leadership, I presume.

Mr. GERALD R. FORD. Mr. Speaker, will the gentleman yield?

Mr. POWELL. I yield to the gentleman from Michigan.

Mr. GERALD R. FORD. This has our full approval.

Mr. WILLIAMS. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from New York? The Chair hears none, and appoints the following conferees: Messrs. AYRES, QUIE, GOODELL, and BELL, and the Senate will be so notified.

HIGHER EDUCATION FACILITIES ACT OF 1963

Mr. POWELL. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 14644), to amend the Higher Education Facilities Act of 1963 to extend it for 3 years, and for other purposes; and to authorize assistance to developing institutions for an additional year, with Senate amendments thereto, disagree to the Senate amendments, and agree to the conference asked by the Senate.

The SPEAKER. Is there objection to the request of the gentleman from New York? The Chair hears none, and appoints the following conferees: Mr. POWELL, Mrs. GREEN of Oregon, Messrs.

BRADEMAS, SICKLES, GIBBONS, CAREY, HATHAWAY, BURTON of California, AYRES, QUIE, REID of New York, and ERLÉNBOHN.

LEGISLATIVE PROGRAM FOR THE WEEK OF OCTOBER 17, 1966

(Mr. GERALD R. FORD asked and was given permission to address the House for 1 minute.)

Mr. GERALD R. FORD. Mr. Speaker, I take this time for the purpose of inquiring of the distinguished majority leader the program for the remainder of this week and for next.

Mr. BOGGS. Mr. Speaker, will the gentleman yield?

Mr. GERALD R. FORD. I yield to the gentleman from Louisiana.

Mr. BOGGS. Mr. Speaker, in response to the question of the gentleman from Michigan, it is my intention to ask that when the House adjourns today, that it adjourn to meet on Monday next. So there is no program for tomorrow.

On Monday we will call up the Consent Calendar plus 14 suspension bills, as follows:

H.R. 18231, comprehensive health planning;

S. 1861, Disaster Relief Act of 1966;

H.R. 9339, Children's Summer Lunch Program Act;

H.R. 14323, amending the Vocational Rehabilitation Act;

H.R. 11089, increasing authorization for airports at national parks;

S. 3389, Joseph H. Hirshhorn Museum and Sculpture Garden;

S. 1349, concerning certain vessels on inland waterways;

S. 3391, exemptions from Shipping Act, 1916;

H.R. 18217, home leave for Federal seafaring personnel;

S. 688, to provide for additional means and measures for land conservation and land utilization;

S. 3675, claims of U.S. nationals against the Chinese Communist regime;

S. 3230, relating to concessions at National Zoological Park;

H.R. 14249, in lieu payments on property transferred by Reconstruction Finance Corporation to other Government agencies; and

S. 1760, settlement of Greek loans.

On Tuesday the Private Calendar will be called.

On Tuesday also, and the balance of the week the following bills and resolutions will be considered:

H.R. 18381, supplemental appropriations bill, fiscal year 1967;

Three contempt citations—Committee on Un-American Activities;

House Resolution 1047, authorizing the Committee on House Administration to sit, hold hearings, and issue subpoenas in carrying out its duties;

House Resolution 1043, supplemental investigative authority, Committee on Banking and Currency;

House Resolution 1044, supplemental investigative authority, Committee on Education and Labor;

Oct. 17, 1966

16. RIVERS. Concurred in the Senate amendments to H. R. 13955, to establish the past and present location of a certain portion of the Colorado River (pp. 25999-600). This bill will now be sent to the President.
17. WATER POLLUTION. Both Houses agreed to the conference report on S. 2947, to amend and improve the Water Pollution Control Act (H. Rept. 2947) (pp. 26069-80, 26182-6). This bill will now be sent to the President.
Rep. Howard praised Rep. Blatnik for his work on the clean water bill. pp. 26118-9
18. HEALTH SERVICES. Passed with amendment S. 3008, to amend the Public Health Service Act to promote and assist in the extension and improvement of comprehensive health planning and public health services, to provide for a more effective use of available Federal funds for such planning and services. H. R. 18231, a similar bill which had been passed earlier under suspension of the rules, was tabled. pp. 26013-24
19. FOREIGN TRADE. Rep. Lipscomb spoke against any weakening of controls on goods going to the Communist bloc. pp. 26087-91
20. PERSONNEL. Passed with amendments S. 1496, to repeal section 3342 of title 5, USC, relating to the prohibition of employee details from the field service to the departmental service. p. 26010
Rep. Watson urged enactment of legislation to protect Government employees from undue harassment and encroachments upon their private lives before adjournment of Congress. pp. 26113-4
Rep. Patman expressed appreciation for the "great and dedicated service to the rural families of America" of Robert C. Leary, an employee of this Department. pp. 26120-1
Rep. Olsen, Mont., and Rep. Nelsen, Minn., and private citizens Robert Ramspeck, Md., and Charles O. Jones, Ariz., were appointed members of the Commission on Political Activity of Government Personnel. p. 26046

SENATE

21. APPROPRIATIONS. Received from the President a request for supplemental appropriation, for fiscal year 1967, which includes the following item for the Department: School lunch program \$9,000,000, of which \$4,000,000 is for special assistance to needy schools, \$3,000,000 for the pilot school breakfast program, \$1,000,000 for non-food assistance, and \$1,000,000 for State administration expenses (S. Doc. 117). pp. 26146-7
22. CONGRESSIONAL REORGANIZATION. Agreed to S. Res. 311, to continue authority for the Special Committee on the Organization of the Congress through Jan. 1967. p. 26153
23. DAIRY. Sen. McGovern commended Secretary Freeman's announcement "that price support will continue at the present \$4 per hundredweight level," and inserted a USDA press release on the subject. p. 26188
24. PERSONNEL. Sen. Ervin spoke against "unwarranted intrusions" on the privacy of Federal employees and inserted articles on the subject. pp. 26172-82
Passed as reported H. R. 16114, to correct inequities with respect to the determination of basic compensation of Federal employees for purposes of certain employment benefits. pp. 26221-2

25. LEGISLATIVE POWERS. Agreed to with amendment S. Res. 305, providing for the appointment of a special subcommittee of the Judiciary Committee to study encroachments by the executive and judicial branches upon the powers of the Congress. p. 26221
26. CITIES; LOANS. Conferees were appointed on S. 3708, the proposed Demonstration Cities and Metropolitan Development Act of 1966, which includes amendments to the rural-housing law. House conferees have been appointed. pp. 26204-17
27. MILITARY CONSTRUCTION. Agreed to the conference report on H. R. 17637, the military construction appropriation bill. This bill will now be sent to the President. pp. 26218-20
28. FOOD PRICES. Sen. Hart discussed a boycott of 5 supermarket firms by Denver housewives in protest against "exorbitant food prices," and inserted an article on the subject. pp. 26231-2
29. CONGRESSIONAL ACCOMPLISHMENTS. At the request of Sen. Mansfield consent was granted for the printing as a Senate document the yearend report of the accomplishments and statistics for the 89th Congress, 2nd session, with a statement by the Senator. p. 26222

ITEMS IN APPENDIX

30. WAGE-PRICE CONTROLS. Extension of remarks of Rep. Bray asking for an explanation of the reasons behind the order, "Assigning Emergency Preparedness Functions to the Attorney General," which would "institute wage and price controls, rationing," etc. pp. A5340-1
31. LEGISLATIVE RECORD. Extension of remarks of Speaker McCormack and Rep. Jacobs reviewing the legislative accomplishments of the 89th Congress. pp. A5342-6, A5354-6
32. FARM PROGRAM. Extension of remarks of Rep. Dole commending LeRoux's resignation and summarizing his booklet, "The Farmers' Worst 5 Years." p. A5351
33. DISASTER RELIEF. Speech in the House by Rep. Dwyer in support of the proposed Disaster Relief Act of 1966. p. A5358

BILLS INTRODUCED

34. RECLAMATION. H. R. 18401 by Rep. McFall, to authorize the Secretary of the Interior to construct and to provide for operation and maintenance of the Peripheral Canal unit of the Delta division of the Central Valley project, California; to Interior and Insular Affairs Committee.
35. PERSONNEL. H. R. 18404 by Rep. Watson, to protect the employees of the executive branch of the U. S. Government of their constitutional rights and to prevent unwarranted governmental invasions of their privacy; to Post Office and Civil Service Committee.

ian service to those not choosing—or not required for—military service. Such a universal draft could be seen merely as the extension of the present ten years of compulsory education to eleven or twelve. But, though a Gallup poll published in July shows 72 per cent of the people favoring such compulsory universal service, there appears to be little political support for it.

Probably not by one great new National Service Corps, either. Although Marion K. Sanders gave a good case for this in the New York Times Magazine on August 7, most of the proponents of national service prefer some form of programed diversity. Instead of a centralized bureaucracy, they seek a scheme that would be based on and would further release the power of the independent sector in American life. This would fit both the American tradition of diversity and the anti-bureaucratic mood of the younger generation.

Among ideas that the President's Advisory Commission might consider are:

Volunteer Service Fellowships. These fellowships would provide living allowances and possibly, later, educational assistance to volunteers from age sixteen and up who work in voluntary service programs, at home or abroad. Like the GI Bill of Rights, which enable individual veterans to enroll in the college or university of their choice, this program would enable individuals to seek enrollment in a wide variety of volunteer efforts, both private and public. With such volunteers available, churches, civic organizations, students associations, colleges and universities, school boards, and new institutions set up for this purpose would be encouraged to design new volunteer projects.

Volunteer Service Summers. Three-month programs would be designed for all Americans at the time they leave high school. Drawing on the experience of Outward Bound, the CCC camps, Peace Corps-VISTA training, and military basic training, they would bring together young people of all backgrounds; involve some actual service, whether in construction, conservation, or teaching; and through films, readings, discussions, and personal encounters present the wide range of volunteer opportunities open in the military, the Peace Corps, VISTA, and private programs.

A National Volunteer Registry. Every American, while in high school could be asked—but not compelled—to register in a nationally-run roster, which would then be kept up to date in later life. Registrants would record their interests, skills, volunteer experience, and available periods for service. Various volunteer agencies could use that information to recruit volunteers, sending news of relevant opportunities to the registrants at appropriate times.

Local Voluntary Service Boards. These could be established by the President to work alongside the present Selective Service Boards. They could include civic leaders, representatives of voluntary service organizations, and former Peace Corps or VISTA volunteers. They would work in the community to provide information on volunteer service opportunities, both overseas and at home.

Academic Credit for Volunteer Service. High schools, colleges, and universities could encourage students to enlist in voluntary nonmilitary programs or in the armed forces before or during their higher education. In admitting students, colleges and universities could give weight to such a period of service—or possibly even require it as a condition for admission. Or they could incorporate periods of service into their curriculum, a modification of the present "junior-year-abroad." Instead of study in Europe, students would work and learn in difficult assignments in developing areas at home or abroad, for a summer, a quarter, a semester,

a year, or the regular two-year Peace Corps term. Antioch College has pioneered work-study programs, and two colleges—Western Michigan and Franconia—have introduced five-year "Peace Corps B.A.s," in which Peace Corps service is given approximately one year's academic credit. Graduate degree programs, especially for masters in teaching, agriculture, community development, and public health, could include periods of service.

In all of these proposed programs, special consideration will have to be given to designing opportunities for noncollege high-school graduates or dropouts. William James's quaint list of duties for his "army enlisted against Nature" will not be very helpful. Our "gilded youths," he wrote, would go off "according to their choice" to "coal and iron mines, to freight trains, to fishing fleets in December, to dishwashing, clothes-washing, and window-washing, to road-building and tunnel-making, to foundries and stoke-holes, and to the frames of skyscrapers."

Neither Congress nor anybody else is going to finance the fishing fleets in December. There are, however, needs, not so exotic, which younger volunteers could help meet. One of them might even involve washing dishes and clothes. Millions of working mothers, especially in poverty-stricken families, desperately need some system of good day-care for their children. Volunteers just out of high school could be trained to provide this on assignments in homes or special day-care centers.

In many of the domestic programs for college students, high school graduates could serve as part of a team, or on their own. Arranging worthwhile assignments for the high school dropouts, the ones who fail the Army's minimal examinations, and especially those demoralized by slum living and racial discrimination, will be much more difficult. So far, the Job Corps is the main social invention in this field. We must be still more inventive if universal service is to be a reality.

How does all this affect the draft? None of the above requires a revision of the draft, but without some revision no set of new programs could approach universal voluntary service. For the present draft selection and deferment system discourages nonmilitary volunteering. As one of the members of the Marshall Commission, Kingman Brewster of Yale, has said, it encourages a "cynical avoidance of service" by imposing "involuntary military service upon those who cannot hide in the endless catacombs of formal education."

Currently, uncertainty hangs over the lives of millions of men waiting until they are twenty-six or older to know if they must go into the army. A man who volunteers for the Peace Corps knows that he may still be drafted upon his return. He may be ready to spend two years of his life in some kind of service, but for many the prospect of a combined four years of service seems too long. If the call to military service, whether by lot or the present peculiar arrangement, could come for all men right after they were eighteen, then the shadow of uncertainty would be lifted. There still might be educational deferments for those called, but these would be real deferments involving a clear commitment to serve upon graduation. Those not called would be free to volunteer for nonmilitary service without the threat of being drafted later.

The President has gone further than this. On August 19, he said he was asking the Marshall Commission to consider this specific question: "Can we—without harming national security—establish a practical system of nonmilitary alternatives to the draft?"

If such alternative service were offered to the minority of men called in the draft—not imposed upon all young men but given as an option to the fraction of men called up

to serve—this would be a quantum jump for volunteering. The recent Gallup finding suggests that the armed forces would be able to get enough men under this system. Serving in Europe and America, as most military men do, or even in Vietnam, might have more appeal to many than two or three years in American slums or Asian, African, or Latin American villages. (One proposal is for three years of nonmilitary service to be an alternative to two years in the armed forces.)

This step would still only mean "moving toward" universal service, as the President and McNamara propose. Two-thirds or more of the men subject to the draft, and all women, would be affected only if they chose to volunteer. The growth of volunteering might be only tenfold in the first years of the program—not the hundredfold increase required for truly universal service. A practical way to begin would be to increase the Peace Corps to Jack Vaughn's goal of 50,000, to turn VISTA into an organizing and supervising agency for another 50,000 domestic volunteers; to increase the Job Corps to about 50,000 and add a component of service to its work; and to begin a GI-bill kind of fellowship program for another 50,000 volunteers.

If this happened, and the idea of volunteer service spread, those drafted into the Army would soon be the minority. Then, instead of talking about exemptions for Peace Corps Volunteers, we would find the problem turned upside down. It could be said that those drafted for military service were exempt from the system of universal voluntary service. In fact, if practically all young Americans came to feel the obligation to volunteer for some kind of service, the draft might be put out of business altogether. All the calculations of the high cost of putting the military on an entirely volunteer basis leave out the possibility of universal voluntary service.

How much would such a volunteer service program cost? Not as much in a year as one month of the war in Vietnam. Not as much as doing nothing—as failing to mobilize the talents and labor of the younger generation. Not as much as hiring professional teachers or social workers or construction men—if we could find enough of them—to do what these volunteers could also do. The cost may vary from a few hundred dollars per volunteer to the Peace Corps' annual per-volunteer cost of about \$8,000. It is the cost of adding a year or two of essential public education for all American students.

This may seem high to Congressional armed service committees. Their legislative center of gravity is on defense rather than on matters concerned with education and development. Even Secretary McNamara might feel ill at ease making his case that defense is development before them—as ill at ease as Allen Ginsberg telling Congress about LSD. But Burke Marshall is a lawyer of far-ranging vision and he has a Commission of opinion-making men. They should appreciate the "fundamental question" that Secretary McNamara said he was asking:

"Who is Man? Is he a rational animal? . . . He draws blueprints for Utopia. But never quite gets it built. . . . Coercion, after all, merely captures Man. Freedom captivates him."

THE BRAIN DRAIN

Mr. MONDALE. Mr. President, I have recently received a most thoughtful and provocative letter on the brain drain, a subject to which I have addressed myself increasingly in recent months, from Mr. Frank L. Mott, a manpower analyst in the Labor Department's Office of Manpower, Automation, and Training. The views he expresses are

not intended to necessarily represent those of his Department, but rather, as he states, he is providing some of his "own personal, unofficial thoughts on the subject."

I believe that this letter is worthy of a much wider audience, and I ask unanimous consent that it be printed at this point in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF LABOR, OFFICE OF MANPOWER, AUTOMATION AND TRAINING,

Washington, D.C.

Senator WALTER F. MONDALE,
Old Senate Office Building,
Washington, D.C.

DEAR SENATOR MONDALE: In response to your letter of September 9, I wish first of all to compliment you on your excellent exposition of the complex problems generated by the "brain drain" of talented individuals from some of the less developed nations of the world. As you noted in your statement, this problem does not lend itself to easy solution. However, I am happy to give you some of my own personal, unofficial thoughts on the subject.

There is unquestionably a basic conflict between our desire not to inhibit the inherent right of individuals to move freely among the nations of the world while at the same time encouraging the continued development of the technologically less advanced nations—a development clearly dependent on a continuing supply of highly skilled technical manpower.

My personal feeling is that the only truly permanent solution to this problem is a long-range one which would involve basic institutional changes in the secondary and higher educational systems of many of these countries. As you noted in your statement, many young men and women who come to this country for their higher education pursue fields of study which are not in great demand in their home country and then, quite naturally, on completing their education, have no desire to return to a home which offers them no chance to practice in their chosen profession. Ultimately, the solution to this specific aspect of the "brain drain" problem must come from the countries themselves—through an intelligent restructuring of their secondary school programs to encourage more youth to enter fields of study more closely related to their occupational demands.

There are some things, however, which I believe we can do in this country, which might have a more immediate impact. These suggestions relate principally to those youths who enter this country on temporary student visas, but then change to permanent status and never return home. These are the youth who must be their country's "leaders of tomorrow" if the high hopes of these less developed countries are to be fulfilled.

I think in certain situations it would pay for this country to expedite the building of technical institutes for sub-professional study in underdeveloped countries even if these institutes do not match up to the quality of an established institute in this country. We might even supply many of the key personnel to run these institutes. It would be an investment well spent as the needs of many of these countries are basic and it may be better at this time for them to turn out large numbers of sub-professional workers who then are immediately available in their home country than a much smaller number of very highly trained engineers and scientists who on receiving their training in this country often do not even go home.

Analogously, perhaps we might put a larger part of our funds in this area into expediting the construction of two-year colleges in these foreign countries. In this way a relatively large number of youths would be able to receive some college level training which they would immediately be able to put into practice. The alternative, which we have at present, is in many cases "overtraining" a smaller number of youths in this country to a skill level above most technical tasks in their home country.

Another possible way to cut down on this drain of young scholars would be to stipulate that all youth who come to this country on a student visa must return home for a specified period on completing their education before being eligible for immigrant status. While this might work hardships on individuals in some cases it nevertheless would be relatively equitable to the extent that all youth would know of this stipulation before they come to this country to study. In all likelihood, once these youth did return home for, let us say, a year or two, many would remain. I think that a provision of this nature, if implemented, should be complemented by intensive efforts by private and public sources to provide adequate "reindoctrination" for the youth before he goes back home to a culture which in many ways may have become more "foreign" to him during his absence than our own.

Also, I wonder what the possibilities would be for allowing foreign students to participate in our Peace Corps, or other advisory type, programs and then serve either in their home country or in a similar country with which they surely have a greater familiarity than most of their American counterparts?

In general, I would favor methods which are of a voluntary nature to solve this problem rather than legislative provisions, as being more in keeping with our traditional policies favoring the free international movement of individuals.

Sincerely yours,

FRANK MOTT.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Is there further morning business? If not, morning business is concluded.

Mr. MUSKIE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MUSKIE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS

Mr. MUSKIE. Mr. President, I move that the Senate stand in recess subject to the call of the Chair.

The motion was agreed to; and (at 12 o'clock and 46 minutes p.m.) the Senate took a recess subject to the call of the Chair.

At 1 o'clock and 27 minutes p.m., the Senate reassembled, when called to order by the Presiding Officer (Mr. HART in the chair).

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Bartlett, one of its

reading clerks, announced that the House had passed, without amendment, the following bills of the Senate:

S. 84. An act to provide for reimbursement to the State of Wyoming for improvements made on certain lands in Sweetwater County, Wyo., if and when such lands revert to the United States;

S. 1556. An act to authorize the Board of Governors of the Federal Reserve System to delegate certain of its functions, and other purposes;

S. 2829. An act to amend section 301(a) (7) of the Immigration and Nationality Act;

S. 2979. An act to extend coverage of the State Technical Services Act of 1965 to the territory of Guam; and

S. 3391. An act to amend the Shipping Act, 1916, as amended, to authorize exemption from the provisions of the act.

The message also announced that the House had agreed to the amendments of the Senate to the bill (H.R. 13955) to establish the past and present location of a certain portion of the Colorado River for certain purposes.

The message further announced that the House had disagreed to the amendments of the Senate to the bill (H.R. 13103) to amend the Internal Revenue Code of 1954 to provide equitable tax treatment for foreign investment in the United States; agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and that Mr. MILLS, Mr. KING of California, Mr. BOGGS, Mr. KEOGH, Mr. BYRNES of Wisconsin, Mr. CURTIS, and Mr. UTT were appointed managers on the part of the House at the conference.

The message also announced that the House had disagreed to the amendments of the Senate to the bill (H.R. 17607) to suspend the investment credit and the allowance of accelerated depreciation in the case of certain real property; agreed to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and that Mr. MILLS, Mr. KING of California, Mr. BOGGS, Mr. KEOGH, Mr. BYRNES of Wisconsin, Mr. CURTIS, and Mr. UTT were appointed managers on the part of the House at the conference.

ENROLLED BILLS SIGNED

The message further announced that the Speaker had affixed his signature to the following enrolled bills:

S. 2338. An act to authorize the erection of a memorial in the District of Columbia to Gen. John J. Pershing; and

S. 3298. An act to amend the Federal Hazardous Substances Labeling Act to ban hazardous toys and articles intended for children, and other articles so hazardous as to be dangerous in the household regardless of labeling, and to apply to unpackaged articles intended for household use, and for other purposes.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

Mr. MANSFIELD. Mr. President, on behalf of the distinguished Senator from Alabama [Mr. SPARKMAN], I make the following statement: The House of Representatives has passed Senate bill 3708 with an amendment. It has insisted

upon the House amendment and has requested an immediate conference with the Senate. Conferees on the part of the House have been appointed.

I ask that the Chair lay before the Senate the amendment of the House of Representatives to S. 3708.

The PRESIDING OFFICER (Mr. HART in the chair) laid before the Senate the amendment of the House of Representatives to the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes which was, to strike out all after the enacting clause and insert:

That this Act may be cited as the "Demonstration Cities and Metropolitan Development Act of 1966".

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Findings and declaration of purpose

SEC. 101. The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.

The Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical problems facing them, and that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

Basic authority

SEC. 102. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112(2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.

Eligibility for assistance

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation, and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning for the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title: *Provided*, That the authority of the Secretary under this paragraph shall not be used to impose criteria or establish requirements except those which are related and essential to the specific provisions of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum

flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

(c) The preparation of demonstration city programs should include to the maximum extent feasible (1) the performance of analyses that provide explicit and systematic comparisons of the costs and benefits, financial and otherwise, of alternative possible actions or courses of action designed to fulfill urban needs; and (2) the establishment of programing systems designed to assure effective use of such analyses by city demonstration agencies and by other government bodies.

(d) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program (1) by which pupils now resident in a school district not within the confines of the area covered by the city demonstration program shall be transferred to a school or school district including all or part of such area, or (2) by which pupils now resident in a school district within the confines of the area covered by the city demonstration program shall be transferred to a school or school district not including a part of such area.

Financial assistance for planning comprehensive city demonstration programs

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

Financial assistance for approved comprehensive city demonstration programs

SEC. 105. (a) The Secretary is authorized, to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be

expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

(d) Grant funds, provided pursuant to subsection (c) of this section shall be used for projects or activities assisted under a Federal grant-in-aid program which are undertaken as part of an approved comprehensive city demonstration program, or for other projects or activities undertaken as part of such demonstration program. If used for projects or activities assisted under a Federal grant-in-aid program which are undertaken as part of such demonstration program, funds provided pursuant to subsection (c) shall be credited as part or all of the required non-Federal contribution to such projects or activities. Such grant funds, however, shall not be used—

(1) for the general administration of local governments; or

(2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive city demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

Technical assistance

SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

Relocation requirements and payments

SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of housing for all such families and individuals throughout the city.

(b)(1) To the extent not otherwise authorized under any Federal law, financial assistance extended to a city demonstration agency under section 105 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 105.

(2) The term "relocation payments" means payments by a city demonstration agency to

a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitation (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by section 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date of the enactment of this Act.

Continued availability of Federal grant-in-aid program funds

SEC. 108. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and undertaken in connection with an approved comprehensive city demonstration program shall remain available until expended.

Consultation

SEC. 109. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105.

Labor standards

SEC. 110. (a) All laborers and mechanics employed by contractors or subcontractors in the construction, rehabilitation, alteration, or repair of projects which—

(1) are federally assisted in whole or in part under this title and

(2) are not otherwise subject to section 212 of the National Housing Act, section 16 (2) of the United States Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction, shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5): *Provided*, That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work Hours Standards Act (76 Stat. 357).

Appropriations

SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 104 and 106, not to exceed \$12,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

(c) Appropriations authorized under this section shall remain available until expended.

Definitions

SEC. 112. As used in this title—

(1) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

(3) "City" means any municipality (or two or more municipalities acting jointly) or any county or other public body (or two or more acting jointly) having general governmental powers.

(4) "Local" agencies include State agencies and instrumentalities providing services or resources to a city or locality, and "local" resources include those provided to a city or locality by a State or its agency or instrumentality.

Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

SEC. 113. Section 103(b) of the Housing Act of 1949 is amended by inserting after the first sentence the following new sentence: "In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966."

State limit

SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Findings and declaration of purpose

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this title to provide, through greater coordination of Fed-

eral programs and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive metropolitan planning and programing effective.

Cooperation between Federal agencies

SEC. 202. In order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner—

(1) The Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development, and to assist the President in coordinating the metropolitan development efforts of all Federal agencies; and

(2) all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

Coordination of Federal aids in metropolitan areas

SEC. 203. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—

(1) to any areawide agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used, and which is, to the greatest practicable extent, composed of our responsible to the elected officials of a unit of areawide government or of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning, and

(2) if made by a special purpose unit of local government, to the unit or units of general local government with authority to operate in the area within which the project is to be located.

(b) (1) Except as provided in paragraph (2) of this subsection, each application shall be accompanied (A) by the comments and recommendations with respect to the project involved by the areawide agency and governing bodies of the units of general local government to which the application has been submitted for review, and (B) by a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application. Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this paragraph shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

(2) An application for a Federal loan or grant need not be accompanied by the com-

ments and recommendations and the statements referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before an appropriate areawide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

(3) The requirements of paragraph (1) and (2) shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

(c) The Bureau of the Budget, or such other agency as may be designated by the President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

Grants to assist in planned metropolitan development

SEC. 204. (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

(c) (1) Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities, it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

(2) Where the applicant for a grant under this section is not a unit of general local government, both it and the unit of general

local government having jurisdiction over the location of the project must meet the requirements of this subsection.

(d) In making the determinations required under this section, the Secretary shall obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for comprehensive planning and programing for the metropolitan area.

(e) No grant shall be made under this section with respect to a metropolitan development project for which a Federal grant has been made or a contract of assistance has been entered into, under the legislation referred to in paragraph (2) of section 207, prior to February 21, 1966, or more than one year prior to the date on which the Secretary has made the determinations required under this section with respect to the applicant and to the area in which the project is located: *Provided*, That in the case of a project for which a contract of assistance under the legislation referred to in paragraph (2) of section 207 has been entered into after June 30, 1967, no grant shall be made under this section unless an application for such grant has been made on or before the date of such contract.

(f) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program to achieve a racial balance or to eliminate racial imbalance within school districts within the metropolitanwide area.

Extent of grant

SEC. 205. (a) A grant under section 204 shall not exceed (1) 20 per centum of the cost of the project for which the grant is made; nor (2) the Federal grant made with respect to the project under the legislation referred to in paragraph (2) of section 207. In no case shall the total Federal contributions to the cost of such project be more than 80 per centum. Notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under section 204 shall be eligible for inclusion (directly or through refunds or credits) as part of the financing for such projects: *Provided*, That projects or activities on the basis of which assistance is provided under section 105(c) shall not be eligible for assistance under section 204.

(b) There are authorized to be appropriated for grants under section 204 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

Consultation and certification

SEC. 206. In carrying out his authority under section 204, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 205, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Definitions

SEC. 207. As used in this title—

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open-space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and

land conservation, and other public works facilities.

(2) "Metropolitan development project" means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; title II of the Library Services and Construction Act; section 606 of the Public Health Service Act; section 8 of the Federal Water Pollution Control Act; section 120(a) of title 23, United States Code; section 12 of the Federal Airport Act; section 3 of the Urban Mass Transportation Act of 1964; title VII of the Housing Act of 1961; or section 5(e) of the Land and Water Conservation Fund Act of 1965; or under section 101(a) (1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under any of the other provisions listed above).

(3) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or an agency or instrumentality of any of the foregoing.

(4) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

(5) "Comprehensive planning" includes the following, to the extent directly related to area needs or needs of a unit of general local government: (A) Preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities; (B) programing of capital improvements based on a determination of relative urgency; (C) long-range fiscal plans for implementing such plans and programs; and (D) proposed regulatory and administrative measures which aid in achieving coordination of all related plans of the departments or subdivisions of the governments concerned and intergovernmental coordination of related planned activities among the State and local governmental agencies concerned.

(6) "Hospital" means any public health center or general, tuberculosis, mental, chronic disease, and other type of hospital and related facilities, such as laboratories, outpatient departments, nurses' home and training facilities, and central service facilities normally operated in connection with hospitals, but does not include any hospital furnishing primarily domiciliary care.

(7) "Areawide agency" means an official State or metropolitan or regional agency empowered under State or local laws or under an interstate compact or agreement to perform comprehensive planning in an area; an organization of the type referred to in section 701(g) of the Housing Act of 1954; or such other agency or instrumentality as may be designated by the Governor (or, in the case of metropolitan areas crossing State lines, any one or more of such agencies or instrumentalities as may be designated by the Governors of the States involved) to perform such planning.

(8) "Special purpose unit of local government" means any special district, public-purpose corporation, or other limited-purpose political subdivision of a State, but shall not include a school district.

(9) "Unit of general local government" means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

(10) "Secretary" means the Secretary of Housing and Urban Development.

State limit

SEC. 208. Grants made under section 204 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate

amount of funds authorized to be appropriated pursuant to section 205(b).

TITLE III—FHA INSURANCE OPERATIONS

FHA mortgage financing for veterans

SEC. 301. The next to last sentence of section 203(b) (2) of the National Housing Act is amended by striking out "If the mortgagor is a veteran who has not received any direct, guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home," and inserting in lieu thereof the following: "If the mortgagor is a veteran,".

Areas affected by civil disorders

SEC. 302. (a) Section 203 of the National Housing Act is amended by adding after subsection (1) (added by section 101 of this Act) a new subsection as follows:

"(m) The Secretary is authorized to insure under this section any mortgage meeting the requirements of this section, other than the requirement in subsection (c) relating to economic soundness, if he determines that (1) the dwelling covered by the mortgage is situated in an area in which rioting or other civil disorders have occurred or are threatened, (2) as a result of such actual or threatened rioting or other disorders the property with respect to which the mortgage is executed cannot meet the normal requirements with respect to economic soundness, and (3) such property is an acceptable risk giving due consideration to the need for providing adequate housing for families of low and moderate income in such area."

Cooperative housing insurance fund

SEC. 303. (a) Section 213(m) of the National Housing Act is amended by striking out ", but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe".

(b) Section 213(n) of such Act is amended—

(1) by striking out "insured under this section and sections 207, 231, and 232" and inserting in lieu thereof "the insurance of which is the obligation of either the Management Fund or the General Insurance Fund"; and

(2) by adding at the end thereof the following new sentence: "Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in debentures which are the obligation of either the Management Fund or the General Insurance Fund."

(c) (1) The fourth sentence of section 213(k) of such Act is amended to read as follows: "The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate."

(2) The second proviso in section 213(l) of such Act is amended by striking out "pursuant to subsection (k) or (o)" and inserting in lieu thereof "pursuant to subsection (o)".

Mortgage limits for cooperative housing

SEC. 304. Section 213(b) (2) of the National Housing Act is amended—

(1) by striking out "\$9,000", "\$12,500", "\$15,000", "\$18,500", and "\$21,000" in the matter preceding the first proviso and in-

serting in lieu thereof "\$11,500", "\$15,000", "\$17,500", "\$21,000", and "\$23,500", respectively; and

(2) by striking out "\$10,500", "\$15,000", "\$18,000", "\$22,500" and "\$25,500" in the first proviso and inserting in lieu thereof "\$13,000", "\$17,500", "\$20,500", "\$25,000", and "\$28,000", respectively.

Supplementary financing for cooperative housing

SEC. 305. Section 213(j) (2) (A) of the National Housing Act is amended by adding at the end thereof the following: "except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b)";.

Exterior land improvements under cooperative housing mortgages

SEC. 306. Section 213(b) (2) of the Housing Act is amended by striking out "as defined by the Commissioner" and inserting in lieu thereof "as defined by the Secretary, and the increase in the value of the land subject to the mortgage by reason of off-site special improvements, as defined by the Secretary, which are for the use and benefit of the occupants of the mortgaged property".

Mortgage limits under section 220 sales housing mortgage insurance program

SEC. 307. (a) Section 220(d) (3) (A) (i) of the National Housing Act is amended by striking out "(3) 75 per centum of such replacement cost in excess of \$20,000" and inserting in lieu thereof "(3) 80 per centum of such replacement cost in excess of \$20,000".

(b) Section 220(d) (3) (A) (i) of such Act is further amended by adding before the semicolon at the end thereof the following: "Provided further, That if the mortgagor is a veteran and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (1) 100 per centum of \$15,000 of the Commissioner's estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, and (3) 85 per centum of such replacement cost in excess of \$20,000. As used herein, the term 'veteran' means any person who served on active duty in the Armed Forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable".

Increased mortgage limitations under section 220(d) (3) (B) for small projects containing larger family dwelling units

SEC. 308. (a) Section 220(d) (3) (B) (iii) of the National Housing Act is amended by inserting after "and except that" the following: "with respect to rehabilitation projects involving not more than five family units, the Secretary may by regulation increase by 25 per centum any of the foregoing dollar amount limitations contained in this clause which are applicable to units with two, three, or four or more bedrooms: Provided, That".

(b) Section 220(d) (3) (B) (iii) of such Act is further amended—

(1) by inserting immediately before "by not to exceed 45 per centum" the following: "(as determined after the application of the preceding proviso)"; and

(2) by striking out "Provided, That nothing" and inserting in lieu thereof "Provided further, That nothing".

Mortgage limits for homes under section 221(d)(2)

SEC. 309. Section 221(d)(2)(A) of the National Housing Act is amended by striking out "\$11,000" and "\$18,000" and inserting in lieu thereof "\$12,500" and "\$20,000", respectively.

Nondwelling facilities in section 221 projects in urban renewal areas

SEC. 310. Section 221(f) of the National Housing Act is amended by inserting before the period at the end of the first sentence the following: "Provided, That in the case of any such property or project located in an urban renewal area, the provisions of section 220(d)(3)(B)(iv) shall apply with respect to the nondwelling facilities which may be included in the mortgage if the mortgagor waives the right to receive dividends on its equity investment in the portion thereof devoted to community and shopping facilities".

Occupants in section 221(d)(3) housing

SEC. 311. (a) Section 221(f) of the National Housing Act is amended by adding at the end thereof the following new sentence: "Low- and moderate-income persons who are less than 62 years of age shall be eligible for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3), but not more than 10 per centum of the dwelling units in any such project shall be available for occupancy by such persons."

(b) Section 221(f) of such Act is further amended by adding at the end thereof (after the sentence added by subsection (a) of this section) the following new sentence: "For purposes of determining eligibility for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3) which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5), a family or person with an annual income of more than \$10,000 shall in no case be considered to be a family or person of low or moderate income."

Insurance of mortgages under section 221 to finance purchase and rehabilitation by nonprofit organizations of housing for resale to low-income purchasers.

SEC. 312. (a) Section 221 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(h)(1) In addition to mortgages insured under the other provisions of this section, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

"(2) To be eligible for insurance under paragraph (1) of this subsection, a mortgage shall—

"(A) be executed by a private nonprofit corporation or association approved for purposes of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided;

"(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

"(C) be in a principal amount not exceeding the appraised value of the property

at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

"(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d)(5) at the time of execution;

"(E) provide for complete amortization (subject to paragraph (5)(E)) by periodic payments within such term as the Secretary may prescribe; and

"(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

"(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary that (A) the property to be rehabilitated is located in a neighborhood which is sufficiently stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

"(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

"(5) (A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as 'low-income purchasers') determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c)(1) of the Housing and Urban Development Act of 1965.

"(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

"(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

"(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

"(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

"(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as

though they constituted rental units in a project covered by a mortgage which is insured under subsection (d)(3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5)).

"(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

"(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy the property the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) the nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary."

(b)(1) Section 221(g)(1) of such Act is amended by inserting after "paragraph (2) of subsection (d) of this section" the following: "or paragraph (5) of subsection (h) of this section".

(2) Section 221(g)(2) of such Act is amended by inserting after "paragraph (3) or (4) of subsection (d) of this section" the following: "or paragraph (1) of subsection (h) of this section".

(c) Section 221(f) of such Act is amended by inserting after "Housing Act of 1961," in the fourth sentence "or which meet the requirements of subsection (h)".

(d) Section 305(h) of such Act is amended by striking out "section 221(d)(3)" and inserting in lieu thereof "sections 221(d)(3) and 221(h)".

Application of Davis-Bacon Act to cooperative housing projects insured under section 221(d)(3) and (d)(4) and mortgages insured under section 221(h)(1)

SEC. 313. The third sentence of section 212(a) of the National Housing Act is amended by striking out "subsection (d)(3) or (d)(4)." and inserting in lieu thereof "subsection (d)(3) or (d)(4) and (deeming the term 'construction' as used in the first sentence of this subsection to mean rehabilitation) of any mortgage described in subsection (h)(1) which covers property on which there is located a dwelling or dwellings designed principally for residential use for more than eight families; except that compliance with such provisions may be waived by the Secretary—

"(1) with respect to mortgages described in such subsection (d)(3) or (d)(4), in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construction of the project) voluntarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction, and

"(2) with respect to mortgages described in such subsection (h)(1), in cases or classes of cases where prospective owners of such dwellings voluntarily donate their services without compensation, or other persons (not otherwise employed at any time in the rehabilitation of the property) voluntarily donate their services without compensation, and the Secretary determines that any amounts saved thereby are fully credited to

the nonprofit organization undertaking the rehabilitation."

Waiver of deduction on assignment of property to Secretary in lieu of foreclosure

SEC. 314. Title V of the National Housing Act is amended by adding at the end thereof the following new section:

"Waiver of deduction on assignment of property to Secretary in lieu of foreclosure

"SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Housing and Urban Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multifamily housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage."

Armed services housing mortgage insurance program

SEC. 315. (a) Section 803(a) of the National Housing Act is amended—

(1) by striking out "\$2,300,000,000" and inserting in lieu thereof "\$3,350,000,000";

(2) by striking out "October 1, 1962" and inserting in lieu thereof "October 1, 1969"; and

(3) by striking out "twenty-eight thousand" and inserting in lieu thereof "eighty-eight thousand".

(b) Section 803(b) of such Act is amended—

(1) by striking out "\$16,500" each place it appears in paragraph (3)(B) and inserting in lieu thereof "\$17,500"; and

(2) by striking out "4½ per centum" in the sentence following paragraph (3)(C) and inserting in lieu thereof "5½ per centum".

Increase in units insurable under section 810 program

SEC. 316. (a) Section 810(i) of the National Housing Act is amended by striking out "five thousand dwelling units" and inserting in lieu thereof "ten thousand dwelling units".

(b)(1) The first sentence of section 810(e) of such Act is amended by inserting before the period at the end thereof "or other mortgagor approved by the Commissioner".

(2) The third sentence of section 810(e) of such Act is amended by inserting after "or trust" the following "or other mortgagor".

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

Mortgage insurance for new communities

SEC. 401. Title X of the National Housing Act is amended by inserting after section 1003 the following new section 1004 and redesignating the remaining sections accordingly:

"New communities

"SEC. 1004. (a) New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.

"(b) A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

"(1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;

"(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

"(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

"(4) maximum accessibility to any major central city in the area".

Mortgage amount and term

SEC. 402 (a) Section 1002(c) of the National Housing Act is amended by striking out "\$10,000,000" and inserting in lieu thereof "\$25,000,000".

(b) Section 1002(d)(1) of such Act is amended to read as follows:

"(1) contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;"

Encouragement of small builders

SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting "particularly small builders," after "broad participation by builders,"

Water and sewerage facilities

SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended to read as follows:

"Water and sewerage facilities

"SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

"(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

"(b) in the case of systems of sewerage, the land may be served by—

"(1) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as adequate by the Secretary, and which are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary; or

"(2) if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (A) which he finds consistent with other existing or prospective systems within the area, (B) which during the period of such ownership will be regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) will be otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, and rate of return, and (C) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer."

Federal National Mortgage Association special assistance for new communities

SEC. 405. Section 302(b) of the National Housing Act is amended by inserting after "or title VIII," in the proviso the following: "or under title X with respect to a new community approved under section 1004 thereof,"

Urban planning grants

SEC. 406. Section 701(a)(4) of the Housing Act of 1954 is amended by inserting before

the semicolon at the end thereof the following: ", or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community approved under section 1004 of the National Housing Act".

Public facility loans

SEC. 407. Section 202(b)(4) of the Housing Amendments of 1955 is amended by adding before the period at the end of the second sentence the following: ", or (iii) to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act".

TITLE V—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Purpose

SEC. 501. It is the purpose of this title to assure the availability of credit on reasonable terms to units or organizations engaged in the group practice of medicine, optometry, or dentistry, particularly those in smaller communities, to assist in financing the construction and equipment of group practice facilities.

Establishment of program

SEC. 502. (a) The National Housing Act is amended by adding at the end thereof the following new title:

"TITLE XI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

"Insurance of mortgages

"SEC. 1101. (a) The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.

"(b) To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c).

"(c) The mortgage shall—

"(1) not exceed \$5,000,000;

"(2) not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges incident to construction or rehabilitation and approved by the Secretary;

"(3) have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments within such term as the Secretary shall prescribe; and

"(4) bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum

per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market.

"(d)) Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

"(e) Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgagee, the property will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated.

"(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records.

"Premiums

"Sec. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary.

"Payment of insurance benefits

"Sec. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title.

"Regulations

"Sec. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Secretary of Health, Education, and Welfare with respect to any health or medical aspects of the program under this title which may be involved in such regulations.

"Administration

"Sec. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for any construction of such facilities.

"(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency.

"Definitions

"Sec. 1106. For the purposes of this title—

"(1) The term 'group practice facility' means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine or surgery in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the States, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

"(2) The term 'medical or dental group' means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs, and which partnership or association or group is composed of at least such professional personnel and makes available at least such health services as may be provided in regulations prescribed under this title.

"(3) The term 'group practice unit or organization' means—

"(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis;

"(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to which assistance has been requested under this title available to a medical or dental group for use by it; or

"(C) a medical or dental group.

"(4) The term 'nonprofit organization' means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organization for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

"(5) The term 'State' includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

"(6) The term 'mortgage' means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term 'first mortgage' means such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the realty.

"(7) The term 'mortgagee' means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

"(8) The term 'mortgagor' means the original borrower under a mortgage and his or its successors and assigns."

(b) The first sentence of section 227 of such Act is amended by inserting after "new or rehabilitated multifamily housing" the following: "or a property or project described in title XI".

Labor standards

SEC. 503. Section 212(a) of the National Housing Act is amended by adding at the end thereof the following new sentence: "The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be."

Amendments to other Federal laws

SEC. 504. (a)(1) The sixth sentence of paragraph "Seventh" of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after "Federal Home Loan Banks," the following: "or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act."

(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after "or sections 1471-1484 of title 42," the following: "or which are insured by the Secretary of Housing and Urban

Development pursuant to title XI of the National Housing Act."

(b) Subsection (a) of section 304 of the Trust Indenture Act of 1939 (15 U.S.C. 77ddd) is amended by striking out the word "or" at the end of paragraph (8); by striking out the period at the end of paragraph (9) and inserting in lieu thereof a semicolon and the word "or"; and by adding after paragraph (9) a new paragraph as follows:

"(10) any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c(a)(2))."

(c) Section 263 of chapter X of the Bankruptcy Act (11 U.S.C. 663) is amended by adding at the end thereof the following: "Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act."

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

Preservation of historic structures as part of urban renewal projects

SEC. 601. (a) Section 110(b) of the Housing Act of 1949 is amended by inserting "historic and architectural preservation," after "land acquisition,".

(b) Section 110(c)(6) of such Act is amended by inserting "to promote historic and architectural preservation," after "deterioration,".

(c) Section 110(c) of such Act is further amended by striking out "and" at the end of clause (8), and by striking out clause (9) and inserting in lieu thereof the following:

"(9) relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and

"(10) restoration of acquired properties of historic or architectural value."

Local grant-in-aid credit for relocation and restoration of historic structures

SEC. 602. Clause (2) of section 110(d) of the Housing Act of 1949 is amended by striking out "clause (2) and clause (3)" and inserting in lieu thereof "clauses (2), (3), (9), and (10)".

Grants to National Trust for Historic Preservation to cover restoration costs

SEC. 603. (a) The Secretary of Housing and Urban Development is authorized to make grants to the National Trust for Historic Preservation, on such terms and conditions and in such amounts (not exceeding \$90,000 with respect to any one structure) as he deems appropriate, to cover the costs incurred by such Trust in renovating or restoring structures which it considers to be of historic or architectural value and which it has accepted and will maintain (after such renovation or restoration) for historic purposes.

(b) There are authorized to be appropriated such sums as may be necessary for the grants to be made under subsection (a).

Urban planning grants for surveys of historic structures

SEC. 604. Section 701 of the Housing Act of 1954 is amended by adding at the end thereof the following new subsection:

"(h) In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures

and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the National Register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (9) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved."

Loans for acquisition and rehabilitation of historic structures

SEC. 605. (a) Section 312(a) of the Housing Act of 1964 is amended by inserting "(1)" after "(a)", by striking out the second sentence, and by adding at the end thereof the following new paragraphs:

"(2) To assist in the preservation of historic structures both within and outside of urban renewal areas, the Secretary is also authorized under this section to make loans to the owners or tenants of structures which are determined in accordance with regulations prescribed by him to be of historic or architectural value to finance the rehabilitation or restoration of such structures, and to make loans to other persons to finance the acquisition and rehabilitation or restoration by them of structures which are determined in accordance with such regulations to be of historic or architectural value.

"(3) No loan shall be made under this section unless the Secretary finds (A) that the applicant is unable to secure the necessary funds from other sources upon comparable terms and conditions, and (B) the loan is an acceptable risk, taking into consideration the security available for the loan, the ability of the applicant to repay the loan, and the need for the rehabilitation or restoration involved.

"(4) Nothing in this section shall prevent a person from receiving a loan under this section with respect to property in connection with which he receives a grant under section 115 of the Housing Act of 1949, if and to the extent that such person is otherwise eligible to receive such loan under this section."

(b) (1) The heading of section 312 of such Act is amended to read as follows:

"Loans for rehabilitation or historic preservation"

(2) Section 312(b)(1) of such Act is amended by striking out "or the urban renewal plan" and inserting in lieu thereof "or the urban renewal plan if any,".

(3) Section 312(b)(3) of such Act is amended by striking out "rehabilitation loan" and inserting in lieu thereof "loan".

(4) So much of section 312(c) of such Act as precedes paragraph (1) thereof as amended by striking out "rehabilitation loan" and inserting in lieu thereof "loan".

(5) Section 312(c)(4) of such Act is amended by striking out "the cost of rehabilitation" in subparagraphs (A) and (B) and inserting in lieu thereof in each instance "the cost of the rehabilitation, restoration, or acquisition and restoration".

Grants for historic preservation

SEC. 606. (a) The heading of title VII of the Housing Act of 1961 is amended to read as follows:

"TITLE VII—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION"

(b) Section 701 of such Act is amended by redesignating subsection (c) as subsection (d), and by inserting after subsection (b) a new subsection as follows:

"(c) The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our past history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas."

(c) Section 701(d) of such Act (as redesignated by subsection (b) of this section) is amended—

(1) by inserting after "urban development," the following: "to assist in preserving areas and properties of historic or architectural value,"; and

(2) by striking out "and (2)" and inserting in lieu thereof "(2) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (3)".

(d) Section 702(e) of such Act is amended to read as follows:

"(e) The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this title. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments."

(e) Section 706 of such Act is amended by striking out the proviso.

(f) Section 708 of such Act is amended by inserting "(a)" after "SEC. 708.", by inserting "(b)" before "The" in the second paragraph, and by adding at the end thereof a new subsection as follows:

"(c) Notwithstanding any other provision of this title, the Secretary may use not to exceed \$10,000,000 of the sum authorized for contracts under this title for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this title."

(g) Title VII of such Act is amended by redesignating section 709 as section 710, and by adding after section 708 a new section as follows:

"Grants for historic preservation"

"SEC. 709. The Secretary is authorized to enter into contracts to make grants to States and local public bodies to assist in the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit, in accordance with the comprehensively planned development of the locality. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Secretary, of the assisted activities. The remainder of such cost shall be provided from non-Federal sources."

(h) Commencing three years after the date of the enactment of this Act, no grant shall be made (except pursuant to a contract or commitment entered into less than three years after such date) under section 709 of

the Housing Act of 1961 or section 701(h) of the Housing Act of 1954, or under section 103 of the Housing Act of 1949 to the extent that it is to be used for historic or architectural preservation, except with respect to districts, sites, buildings, structures, and objects which the Secretary of Housing and Urban Development finds meet criteria comparable to those used in establishing the National Register maintained by the Secretary of the Interior pursuant to other provisions of law.

TITLE VII—URBAN RENEWAL

Local grants-in-aid

SEC. 701. Section 110(d) of the Housing Act of 1949 is amended by inserting immediately after the colon at the end of the first proviso the following: "Provided further, That any publicly owned facility, the construction of which was begun not earlier than three years prior to the date of enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility, if such facility (A) is used, or is to be used, by the public predominantly for cultural, exhibition, civic, or municipal purposes; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid."

Air rights sites in urban renewal projects

SEC. 702. (a) Section 110(c)(1) of the Housing Act of 1949 is amended by inserting in clause (iv), between the word "income" and the colon immediately preceding the first proviso, the following: "or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for industrial development".

(b) Section 110(c)(7) of such Act is amended by inserting immediately before the semicolon the following: "or construction of foundations and platforms necessary for the provision of air rights sites for industrial development".

Application of Davis-Bacon Act to multifamily housing construction in urban renewal areas

SEC. 703. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(f) All laborers and mechanics employed by contractors or subcontractors in the construction of any multifamily housing (as defined for purposes of this subsection by the Secretary of Housing and Urban Development or his designee) which may be involved in the redevelopment of the urban renewal area, and which is not subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5). No contract for loan or capital grant shall be entered into under this title with respect to an urban renewal area whose redevelopment will involve the construction of such housing without first obtaining adequate assurance that the labor standards imposed by the preceding sentence (or, in the case of housing which is subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, the labor standards imposed by such provisions) will be maintained upon the construction work. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization

Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 1332-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c)."

Additional requirements for redevelopment of urban renewal area

SEC. 704. (a) Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

"(g) The redevelopment of the urban renewal area unless such redevelopment is for predominantly nonresidential uses, will provide a substantial number of units of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas."

(b) The amendment made by subsection (a) shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act.

Three-fourths grants for projects in certain redevelopment areas

SEC. 705. Section 103(a)(2)(B) of the Housing Act of 1949 is amended by inserting after "to avoid hardship," the following: "or at any time after such contract or contracts are entered into and prior to the time the final grant payment has been made pursuant thereto,".

Expenditures by educational institutions and hospitals

SEC. 706. Section 112(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: "Provided further, That no such expenditure shall be deemed ineligible as a local grant-in-aid connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project (or within such greater distance from the project as the Secretary may specify in the case of an expenditure and project which the Secretary determines meet the objectives of this section but cannot be encompassed within the one-mile limitations)".

Requirement of separate sewer systems in redevelopment of urban renewal area

SEC. 707. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

"(g) The urban renewal area will be served to the maximum extent feasible after its redevelopment by a storm sewer system or systems separate from and independent of the area's sanitary sewer system or systems."

TITLE VIII—RURAL HOUSING

SEC. 801. Section 501(a) of the Housing Act of 1949 is amended by striking out "previously occupied" wherever it appears.

SEC. 802. Section 502(a) of the Housing Act of 1949 is amended by striking out "In cases of applicants who are elderly persons, the" and inserting in lieu thereof "The".

SEC. 803. Section 504 of the Housing Act of 1949 is amended by striking out "\$1,000" and inserting in lieu thereof "\$1,500".

SEC. 804. (a) Section 515(a) of the Housing Act of 1949 is amended by inserting after "income" the following: "or other persons and families of low income".

(b) Section 515(d)(1) of such Act is amended by striking out "elderly persons or elderly families" and inserting in lieu thereof "occupants eligible under this section".

SEC. 805. (a) Subsections (a) and (b) of section 515 of the Housing Act of 1949 are each amended by striking out "rental hous-

ing" and inserting in lieu thereof "rental or cooperative housing".

(b) Section 515(b) of such Act is amended by inserting after "families" the following: "or other persons and families of moderate income".

(c) Section 515(d)(4) of such Act is amended by adding at the end thereof the following: "Such fees and charges may include payments to qualified consulting organizations or foundations which operate on a nonprofit basis and which render services or assistance to nonprofit corporations or consumer cooperatives who provide housing and related facilities."

SEC. 806. Section 517(a)(1) of the Housing Act of 1949 is amended—

(1) by inserting "and" before "(B)"; and

(2) by striking out "and (C)" and all that follows and inserting in lieu thereof the following: "; but no loan under this paragraph shall be insured or made after October 1, 1969, except pursuant to a commitment entered into before that date; and".

SEC. 807. (a) Section 501(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: "and (4) to an owner described in clause (1), (2), or (3) for refinancing indebtedness which—

"(A) was incurred for an eligible purpose described in such clause,

"(B) if not refinanced, is likely to result at an early date in loss of the applicant's necessary dwelling or essential farm service buildings,

"(C) is not held or insured by the United States or any agency thereof, and

"(D) was incurred prior to the enactment of this clause."

(b) Section 501(c) of such Act is amended by inserting before the semicolon at the end of clause (1) the following: "or that he is the owner of a farm or other real estate in a rural area who needs refinancing of indebtedness described in clause (4) of subsection (a)".

TITLE IX—MISCELLANEOUS

Housing for the elderly or handicapped

SEC. 901. Section 105(b) of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting "(1)" after "(b)";

(2) by striking out "Effective with respect to loans made on or after the date of the enactment of this Act, section" and inserting in lieu thereof "Section"; and

(3) by adding at the end thereof a new paragraph as follows:

"(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate."

Low-rent housing in private accommodations for displaced families—Term of lease

SEC. 902. Section 23(d) of the United States Housing Act of 1937 is amended by inserting after "thirty-six months" the following: "(except that it may be for a term of up to sixty months in any case in which the public housing agency determines that the housing to be leased thereunder is needed for displaced families)".

Application of Davis-Bacon Act to low-rent housing projects consisting of privately built housing

SEC. 903. Section 16(2) of the United States Housing Act of 1937 is amended by inserting after "the development of the project involved" the following: "(including a project for the use of privately built housing in any case, other than under the authority of section 23 of this Act, where the public

housing agency and the builder or sponsor enter into an agreement for such use before construction or rehabilitation is commenced), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday of forty hours in the workweek, as the case may be".

Assistance for housing in Alaska

SEC. 904. (a) The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make loans and grants to the State of Alaska, or any duly authorized agency or instrumentality thereof, in accordance with a statewide program prepared by such State, agency, or instrumentality, and approved by the Secretary, to assist in the provision of housing and related facilities for Alaska natives and other Alaska residents who are otherwise unable to finance such housing and related facilities upon terms and conditions which they can afford. The program shall (1) specify the minimum and maximum standards for such housing and related facilities (not to exceed an average of \$7,500 per dwelling unit); (2) to the extent feasible, encourage the proposed users of such housing and related facilities to utilize mutual and self-help in the construction thereof; and (3) provide experience, and encourage continued participation, in self-government and individual home ownership.

(b) Grants under this section shall not exceed 75 per centum of the aggregate cost of the housing and related facilities to be constructed under an approved program.

(c) There is authorized to be appropriated not to exceed \$10,000,000 to carry out the purposes of this section.

Federal National Mortgage Association participation in Federal Housing Administration-insured construction financing

SEC. 905. Section 305 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(1) In any case where the Association makes a commitment to purchase under this section (1) a mortgage insured under section 213, (2) a mortgage insured under section 220, or (3) a mortgage insured under section 221(d)(3) and executed by a cooperative (including an investor-sponsor), a limited dividend corporation, a private non-profit corporation or association, or a mortgagor qualified under section 221(e), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage. The Secretary of Housing and Urban Development shall approve the reasonableness of the fee to be paid a participating mortgagee, taking into account its services and the extent of its participation in the advances."

Federal National Mortgage Association special assistance for financing low-cost homes

SEC. 906. The Congress hereby finds that the sharp decline in new home construction over the past year threatens to undercut our present high level of prosperity and employment as such declines have in the past; that the substantial reduction which has taken place has had its greatest impact on families of modest income who are seeking to achieve the goal of homeownership; that this decline in homebuilding is due primarily to the shortage of mortgage financing on terms which moderate income families can afford; and that our national policy objec-

tives in the field of housing and community development are thereby being thwarted. The Congress therefore expresses its intent that the special assistance funds made available to the Federal National Mortgage Association for the financing of new low-cost homes by the Act of September 10, 1966 (Public Law 89-556), should be released immediately to halt the continuing decline in the construction of new homes for families of moderate income.

Federal National Mortgage Association standby commitments

SEC. 907. Section 304(a) (1) of the National Housing Act is amended by striking out the last sentence.

Planning grants for research on State statutes affecting local governments

SEC. 908. Section 701(b) of the Housing Act of 1954 is amended by inserting before the period at the end thereof the following: ", and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations".

Public facility loans

SEC. 909. Section 202 of the Housing Amendments of 1955 is amended by adding at the end thereof a new subsection as follows:

"(f) The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located."

Use of open-space grants for development of existing open-space land

SEC. 910. (a) Section 701(b) of the Housing Act of 1961 is amended by inserting ", for the development and redevelopment of existing parks and other open space," after "the Nation's urban areas".

(b) (1) The first sentence of section 702(a) of such Act is amended by inserting before the period at the end thereof the following: ", or the development or redevelopment, for open-space uses, of existing open-space land".

(2) The second sentence of section 702(a) of such Act is amended by inserting before the period at the end thereof the following: "or such development or redevelopment".

Applying advances in technology to housing and urban development

SEC. 911. (a) To encourage and assist the housing industry to continue to reduce the cost and improve the quality of housing by the application to home construction of advances in technology, and to encourage and assist the application of advances in technology to urban development activities, the Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is directed to—

(1) conduct research and studies to test and demonstrate new and improved techniques and methods of applying advances in technology to housing construction, rehabilitation, and maintenance, and to urban development activities; and

(2) encourage and promote the acceptance and application of new and improved techniques and methods of constructing, rehabilitating, and maintaining housing, and the application of advances in technology to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public.

(b) Research and studies conducted under

this section shall be designed to test and demonstrate the applicability to housing construction, rehabilitation, and maintenance, and urban development activities, of advances in technology relating to (1) design concepts, (2) construction and rehabilitation methods, (3) manufacturing processes, (4) materials and products, and (5) building components.

(c) The Secretary is authorized to carry out the research and studies authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for research and studies authorized by this section for work to continue not more than two years from the date of any such contract.

(d) There are authorized to be appropriated to carry out the provisions of this section not to exceed \$5,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$10,000,000 for the fiscal year ending June 30, 1968. All funds so appropriated shall remain available until expended.

(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

Urban environmental studies

SEC. 912. (a) The Congress finds that, with the ever-increasing concentration of the Nation's population in urban centers, there has occurred a marked change in the environmental conditions under which most people live and work; that such change is characterized by the progressive substitution of a highly complex, man-contrived environment for an environment conditioned primarily by nature; that the beneficial or malignant influence of environment on all living creatures is well recognized; and that much more knowledge is urgently needed concerning the effect on human beings of highly urbanized surroundings. It is the purpose of this section to authorize a comprehensive program of research, studies, surveys, and analyses to improve understanding of the environmental conditions necessary for the well-being of an urban society, and for the intelligent planning and development of viable urban centers.

(b) In order to carry out the purpose of this section, the Secretary is authorized and directed to—

(1) conduct studies, surveys, research, and analyses with respect to the ecological factors involved in urban living;

(2) document and define urban environmental factors which need to be controlled or eliminated for the well-being of urban life;

(3) establish a system of collecting and receiving information and data on urban ecological research and evaluations which are in process or are being planned by public or private agencies, or individuals;

(4) evaluate and disseminate information pertaining to urban ecology to public and private agencies or organizations, or individuals, in the form of reports or otherwise;

(5) initiate and utilize urban ecological information in urban development projects initiated or assisted by the Department of Housing and Urban Development; and

(6) establish through interagency consultation the coordinated utilization of urban ecological information in projects undertaken or assisted by the Federal Government which affect the growth or development of urban areas.

(c) (1) The Secretary is authorized to establish such advisory committees as he deems desirable for the purpose of rendering advice and submitting recommendations for carrying out the purpose of this section. Such advisory committees shall render such advice to the Secretary upon his request and

may submit such recommendations to the Secretary at any time on their own initiative. The Secretary may designate employees of the Department of Housing and Urban Development to assist such committees.

(2) Members of such advisory committees shall receive not to exceed \$100 per day when engaged in the actual performance of their duties, in addition to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

(d) The Secretary is authorized to carry out the studies, surveys, research, and analyses authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for work under this subsection to continue not more than two years from the date of any such contract.

(e) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. All funds so appropriated shall remain available until expended when so provided in appropriation Acts.

Mortgage relief for certain homeowners

SEC. 913. That part of section 107 of the Housing and Urban Development Act of 1965 which precedes subsection (f) is amended to read as follows:

"Mortgage relief for certain homeowners

"SEC. 107. (a) For the purposes of this section—

"(1) The term 'mortgage' means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(2) The term 'Federal mortgage agency' means—

"(A) the Secretary of Housing and Urban Development when used in connection with mortgages insured under the National Housing Act, and

"(B) the Administrator of Veterans' Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(3) The term 'distressed mortgagor' means an individual who—

"(A) was employed by the Federal Government at, or was assigned as a serviceman to, a military base or other Federal installation and whose employment or service at such base or installation was terminated subsequent to November 1, 1964, as the result of the closing (in whole or in part) of such base or installation; and

"(B) is the owner-occupant of a dwelling situated at or near such base or installation and upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments due under such mortgage.

"(b) (1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments due under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

"(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that such action is necessary to avoid foreclosure.

"(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium

under paragraph (2), the Federal mortgage agency, the mortgagor, and the mortgagee shall enter into a binding agreement under which—

"(A) the mortgagor will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c), together with interest thereon at a rate not to exceed the rate provided in the mortgage; the manner and time in which such payments shall be made to be determined by the Federal mortgage agency having due regard for the purposes sought to be achieved by this section; and

"(B) the Federal mortgage agency will be subrogated to the rights of the mortgagee to the extent of payments made pursuant to such certificate, which rights, however, shall be subject to the prior right of the mortgagee to receive the full amount payable under the mortgage.

"(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

"(A) two years from the date on which such certificate was issued;

"(B) thirty days after the date on which the mortgagor gives notice in writing to the Federal mortgage agency that he is able to resume his obligation to make payments due under his mortgage; or

"(C) thirty days after the date on which the Federal mortgage agency determines that the mortgagor to whom such certificate was issued has ceased to be a distressed mortgagor as defined in subsection (a) (3).

"(c) (1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments due under the mortgage.

"(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor may include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid payments under such mortgage prior to the issuance of such certificate, plus a reasonable allowance for foreclosure costs actually paid by the mortgagee if a foreclosure action was dismissed as a result of the issuance of a moratorium certificate. Payments by the Federal mortgage agency may also include payments of taxes and insurance premiums on the mortgaged property as deemed necessary when these items are not provided for through payments to a tax and insurance account held by the interested mortgagee.

"(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments due under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

"(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

"(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

"(e) There shall be in the Treasury (1) a fund which shall be available to the Secretary of Housing and Urban Development for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c) and for paying administrative expenses incurred in connection with such assistance, and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose, except administrative expenses. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Secretary of Housing and Urban Development, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts."

Acquisition of certain properties situated at or near military bases which have been ordered to be closed

SEC. 914. (a) Notwithstanding any other provision of law, the Secretary of Defense is authorized to acquire title to, hold, manage, and dispose of, or, in lieu thereof, to reimburse for certain losses upon private sale of, or foreclosure against, any property improved with a one- or two-family dwelling which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

(1) that the owner of such property is, or has been, a Federal employee employed at or in connection with such base or installation (other than a temporary employee serving under a time limitation) or a serviceman assigned thereto;

(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at or in connection with such base or installation; and

(3) that as the result of the actual or pending closing of such base or installation, in whole or in part, there is no present market for the sale of such property upon reasonable terms and conditions.

(b) In order to be eligible for the benefits of this section such employees or military personnel must be or have been—

(1) assigned to or employed at or in connection with the installation or activity at the time of public announcement of the closure action,

(2) transferred from such installation or activity, or terminated as employees as a result of reduction-in-force, within six months prior to public announcement of the closure action, or

(3) transferred from the installation or activity on an overseas tour unaccompanied by dependents within fifteen months prior to public announcement of the closure action:

Provided, That, at the time of public announcement of the closure action, or at the time of transfer or termination as set forth above, such personnel or employees must—

(i) have been the owner-occupant of the dwelling, or

(ii) have vacated the owned dwelling as a result of being ordered into on-post housing during a six-month period prior to the closure announcement:

Provided further, That as a consequence of such closure such employees or personnel must—

(i) be required to relocate because of military transfer or acceptance of employment beyond a normal commuting distance from the dwelling for which compensation is sought, or

(ii) be unemployed, not as a matter of personal choice, and able to demonstrate such financial hardship that they are unable to meet their mortgage payments and related expenses.

(c) Such persons as the Secretary of Defense may determine to be eligible under the criteria set forth above shall elect either (1) to receive a cash payment as compensation for losses which may be or have been sustained in a private sale or foreclosure, in an amount not to exceed the difference between (A) 95 per centum of the fair market value of their property prior to public announcement of intention to close all or part of the military base or installation and (B) the fair market value of such property at the time of the sale or foreclosure, or (2) to receive, as purchase price for their property, an amount not to exceed 90 per centum of prior fair market value as such value is determined by the Secretary of Defense, or the amount of the outstanding mortgages. An election to receive a cash payment as compensation for loss sustained in a private sale shall not be effective in any case in which the property at the time of the sale is encumbered by a mortgage loan guaranteed, insured, or held by a Federal agency unless such mortgage loan is paid or otherwise fully satisfied at or prior to the time such cash payment is made, or is assumed by the purchaser (who must be determined to be satisfactory to such Federal agency in the case of a sale occurring after the date of the enactment of this Act). In the event of foreclosure by mortgages commenced prior to the one hundred and twentieth day after the date of the enactment of this Act, the Secretary may pay or reimburse for direct costs of foreclosure, including deficiency judgments.

(d) There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section, which receipts shall be credited to the fund and shall be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray expenses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: *Provided, however,* That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 406(a) of the Act of August 30, 1957 (42 U.S.C. 15941), nor shall it be deemed a transaction within the contemplation of section 2662 of title 10, United States Code.

(e) Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired and held under this section. The amount so paid for any

year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

(f) The title to any property acquired under this section, the eligibility for, and the amounts of, cash payable, and the administration of the preceding provisions of this section, shall conform to such requirements, and shall be administered under such conditions and regulations, as the Secretary of Defense may prescribe. Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

(g) The Secretary of Defense is authorized to enter into such agreement with the Secretary of Housing and Urban Development as may be appropriate for the purposes of economy and efficiency of administration of this section. Such agreement may provide authority to the Secretary of Housing and Urban Development and his designee to make any or all of the determinations and take any or all of the actions which the Secretary of Defense is authorized to undertake pursuant to the preceding provisions of this section. Any such determinations shall be entitled to finality to the same extent as if made by the Secretary of Defense, and; in event the Secretaries of Defense and Housing and Urban Development so elect, the fund established pursuant to subsection (d) of this section shall be available to the Secretary of Housing and Urban Development to carry out the purposes thereof.

(h) Section 223(a)(8) of the National Housing Act is amended to read as follows:

"(8) executed in connection with the sale by the Government of any housing acquired pursuant to section 915 of the Demonstration Cities and Metropolitan Development Act of 1966."

(i) No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation acts.

(j) Section 108 of the Housing and Urban Development Act of 1965 is repealed.

Leasing of facilities for housing bachelor military personnel

SEC. 915. Notwithstanding any other provision of law, the Secretary of a military department may acquire by lease in the United States, its territories or possessions, structures and real property relating thereto that are not located on a military base and that are needed for housing bachelor military personnel. A lease under the authority of this section may not be for a period of more than fifteen years.

College housing

SEC. 916. (a) Section 404(b)(4) of the Housing Act of 1950 is amended by striking out "public" immediately before "educational institution".

(b) Section 401(d) of such Act is amended by inserting before the period at the end thereof the following: "and, notwithstanding the first proviso of this subsection, the amount of this annual increase which is not

utilized for loans for hospitals may be utilized for loans for other educational facilities, as defined herein".

Study concerning relief of homeowners in proximity to airports

SEC. 917. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting "(a)" after "Sec. 1113.";

(2) by striking out "one year after the date of the enactment of this Act" and inserting in lieu thereof "six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966"; and

(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

Hydrology research for urban development

SEC. 918. (a) The Congress finds that there is an increasingly severe impact upon the national economy occasioned by storm water damages and costs of storm drainage control in urban and metropolitan areas; that engineering technology directed toward the specialized storm drainage problems of urbanized areas has not kept pace with the growth of drainage problems in such areas; and that effective areawide comprehensive planning requires efficient planning and design of all elements of urban drainage systems.

(b) The Secretary of Housing and Urban Development is authorized—

(1) by contract with public or private agencies to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology as it relates to storm drainage systems for urban and metropolitan areas and to collection sewers for such areas, and by working agreements with other departments and agencies of the Federal Government to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology;

(2) to evaluate the studies, investigations, research, and demonstrations authorized by this section; and

(3) to make available, through publications and other appropriate means, the information resulting from such studies, investigations, research, and demonstrations.

(c) The Secretary shall annually submit a report to the President and to the Congress concerning the studies, investigations, research, and demonstrations undertaken under this section with such recommendations as he deems desirable for additional legislation to develop the science of urban hydrology and its application.

(d) There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this section.

(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

Quarters and facilities for Federal home loan banks and the Federal Home Loan Bank Board

SEC. 919. (a) The second sentence of section 12 of the Federal Home Loan Bank Act (12 U.S.C. 1432) is amended by striking out "but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease" and inserting in lieu thereof "but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease".

(b) Section 18 of such Act (12 U.S.C. 1438) is amended—

(1) by adding at the end of subsection (b) the following new sentence: "Such assessments may include such amounts as the

board may deem advisable for carrying out the provisions of subsection (c) of this section." and

(2) by adding at the end thereof the following new subsection:

"(c)(1) The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the 'Administrator'), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—

"(A) to acquire, in the name of the United States real property in the District of Columbia, for the purposes set forth in this subsection;

"(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

"(C) to enlarge, remodel, or reconstruct any of the same; and

"(D) to make or enter into contracts for any of the foregoing.

"(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of 4½ per centum per annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

"(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

"(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

"(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term 'property' shall include interests in property.

"(6) With respect to its functions under

this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms 'wholly owned Government corporations' and 'Government corporations', wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413-5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

"(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000, or such greater amount as may be provided in an appropriation Act or other law."

Small Business Act

SEC. 920. Paragraph (1) of section 8(b) of the Small Business Act is amended by inserting "(A)" after "(1)", by inserting "and" after "Administration;" and by adding at the end thereof a new subparagraph as follows:

"(B) to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;"

Use of certain lands for civil defense purposes

SEC. 921. Section 2 of the Act entitled "An Act to provide for the conveyance of a tract of land in Prince Georges County, Maryland, to the State of Maryland for use as a site for a National Guard Armory and for training the National Guard or for other military purposes", approved August 10, 1949 (63 Stat. 592), is amended by striking out "The land" and inserting in lieu thereof "(a) Except as provided in subsection (b) of this section, the land" and by adding at the end thereof the following new subsection:

"(b) The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable."

Mortgage insurance for land development—Clarifying amendments

SEC. 922. Section 1001(d) of the National Housing Act is amended—

(1) by striking out "sewerage disposal installations," and inserting in lieu thereof "sewerage disposal installations, steam, gas, and electric lines and installations;"

(2) by striking out the semicolon after "or common use", and inserting in lieu thereof a period and the following new sentence: "Related uses may include industrial uses, with sites for such uses to be in proper proportion to the size and scope of the development;"

(3) by striking out "but such term" and inserting in lieu thereof: "The term improvements" and

(4) by inserting after "sewerage disposal installation," in clause (1) the following: "or a steam, gas, or electric line or installation."

Miscellaneous and technical amendments

SEC. 923. (a) Section 106(d) of the Housing Act of 1949 is repealed.

(b) Section 227(a) of the National Housing Act is amended by striking out "subsection (b) (2)" in clause (vi) and inserting in lieu thereof "subsection (b)".

(c) The last sentence of section 305(e) of the National Housing Act is amended by striking out "supplementing" and inserting in lieu thereof "supplementary".

(d) Section 308 of the National Housing Act is amended by striking out "(a)".

(e) Section 512 of the National Housing Act is amended by striking out "or IX" and inserting in lieu thereof "IX, X, or XI".

(f) Section 1001(c) of the National Housing Act is amended by striking out "'mortgage'" and inserting in lieu thereof "'mortgagee'".

(g) Section 1 of the National Housing Act is amended by striking out "and X" wherever it appears and inserting in lieu thereof "X, and XI".

(h) Section 102(h) of the Housing Amendments of 1955 is amended by striking out "section 213 of the National Housing Act, as amended, the Commissioner" and inserting in lieu thereof "section 213 of the National Housing Act, section 221(d)(3) of the National Housing Act, and section 101 of the Housing and Urban Development Act of 1965 (insofar as the provisions of such sections relate to cooperative housing), the Secretary of Housing and Urban Development", and by striking out "such section" each place it appears and inserting in lieu thereof "such sections".

Mr. MANSFIELD. Mr. President, I move that the Senate disagree to the amendment of the House and agree to the conference requested by the House on the disagreeing votes of the two Houses thereon, and that the Chair appoint the conferees on the part of the Senate.

The motion was agreed to; and the Presiding Officer appointed Mr. SPARKMAN, Mr. DOUGLAS, Mr. PROXMIRE, Mr. WILLIAMS of New Jersey, Mr. MUSKIE, Mr. LONG of Missouri, Mr. MCINTYRE, Mr. TOWER, Mr. BENNETT, and Mr. HICKENLOOPER conferees on the part of the Senate.

CORRECTION IN ENROLLMENT OF SENATE BILL 3488

Mr. MANSFIELD. Mr. President, the Senate and the House both recently passed a bill which created the Washington Metropolitan Area Transit Regulation Compact. This legislation is, of course, of great importance to the future of transportation in this area.

After the Senate had passed the bill (S. 3488), it was sent to the House, where it passed with several amendments. The Clerk of the House erroneously included in the engrossed copy of the bill one

amendment which had been rejected by the House.

The bill including the rejected amendment was returned to the Senate. This error was unnoticed, and the Senate accepted the bill in the form in which it was returned from the House.

Briefly, therefore, Congress sent to the President a bill embodying an amendment which neither the Senate nor the House desired. I am, therefore, submitting a concurrent resolution that will correct this error, and I ask for its immediate consideration.

The PRESIDING OFFICER. The concurrent resolution will be stated.

The assistant legislative clerk read the concurrent resolution, as follows:

S. CON. RES. 115

Resolved by the Senate (the House of Representatives concurring), That the President of the United States be, and he is hereby, requested to return to the Senate the enrolled bill (S. 3488) entitled "An Act to grant the consent of Congress for the States of Virginia and Maryland and the District of Columbia to amend the Washington Metropolitan Area Transit Regulation Compact to establish an organization empowered to provide transit facilities in the National Capital Region and for other purposes and to enact said amendment for the District of Columbia"; that upon its return, the action of the Speaker of the House of Representatives and the President pro tempore of the Senate in signing the said bill be deemed to be rescinded; and that in the reenrollment of said bill, the Secretary of the Senate be, and he is hereby, authorized and directed to make the following change, viz.: In Section 3 of the engrossed bill, change subsection (a) to read: "To assure uninterrupted progress in the development of the facilities authorized by the National Capital Transportation Act of 1965, the transfer of the functions and duties of the National Capital Transportation Agency (herein referred to as the Agency) to the Washington Metropolitan Area Transit Authority (herein referred to as the Authority) as required by Section 301(b) of the National Capital Transportation Act of 1960 shall take place on September 30, 1967."

The PRESIDING OFFICER. Is there objection to the present consideration of the concurrent resolution?

There being no objection, the concurrent resolution (S. Con. Res. 115) was considered and agreed to.

Mr. MANSFIELD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. STENNIS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. RUSSELL of South Carolina in the chair). Without objection, it is so ordered.

MILITARY CONSTRUCTION—CONFERENCE REPORT

Mr. STENNIS. Mr. President, our friend from Massachusetts [Mr. SALTONSTALL] has taken a very valuable part in legislation on military matters for many years, as well as on every other major phase of this Government. I do not know of any Senator who has attended as many conferences as he has—cer-

tainly in the span of years he has served. This may be the last conference report that may come before us in which he has taken such a conspicuous part during his tenure of office. I have asked him if he would present the conference report.

Mr. SALTONSTALL. Mr. President, the Senator from Mississippi is again acting with his usual courtesy. He and I have been members of the Military Construction Subcommittee for many years. I think he and I have been, for the most part, the Senate representatives on committees of conference on this bill. I appreciate very much his permitting a Member on this side of the aisle to present the conference report. I think it is the first time it has been done for at least 10 years, and it is done now only through his courtesy and generosity. It comes as a great surprise to me. I shall be glad to do it. The conference report was unanimously agreed to, and there was great cooperation on both sides.

Mr. President, I submit a report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 17637) making appropriations for military construction for the Department of Defense, for the fiscal year ending June 30, 1967, and for other purposes. I ask unanimous consent for the present consideration of the report.

The PRESIDING OFFICER. The report will be read for the information of the Senate.

The legislative clerk read the report.

(For conference report, see House proceedings of Oct. 13, 1966, p. 25529, CONGRESSIONAL RECORD.)

The PRESIDING OFFICER. Is there objection to the present consideration of the report?

There being no objection, the Senate proceeded to consider the report.

Mr. SALTONSTALL. Mr. President, the report was signed by all the conferees on the part of the House of Representatives and the Senate and has been agreed to by the House.

The total of the bill as agreed to in conference is \$979,570,000. This is only \$6,948,000 under the sum approved by the Senate and \$39,770,000 below the amount of the House-passed bill. The total amount of reduction from the budget estimated is \$135,377,000.

As is apparent, the Senate position prevailed in most instances. The large reduction made by the Senate of \$40,100,000 for foreign aid construction in South Vietnam which should have been in the foreign aid bill was agreed to by the House. Another large reduction agreed to by the House was \$5,281,000 for protective facilities in Europe. The House also agreed to this reduction.

I may interpolate that on these two large reductions, the conferees agreed that they did not belong in a military construction bill, but, rather, belonged in a foreign aid appropriation bill. The House agreed to that contention.

In the area of minor construction, the conferees restored to the bill \$1,700,000 of an original amount of \$6 million in dispute. This was the largest individual reduction from the Senate position.

For the Army the conferees approved a project at Edgewood Arsenal, Md., for an explosive test chamber in the amount of \$636,000 and a petroleum laboratory at New Cumberland Army Depot, N.J., in the amount of \$55,000.

The Senate position prevailed in projects in the amount of \$290,000 at Naval Shipyard, Portsmouth, N.H., an applied training building at Naval Air Station, Memphis, Tenn., for \$1,188,000, and a commissary costing \$404,000 at Naval Station, Puget Sound, Wash. In addition, the conferees agreed that the community support facilities should be built at Chichi Jima, Bonin Islands, for \$204,000.

In the Air Force, agreement was reached to keep three projects at Hill Air Base amounting to \$870,000. At Tinker Air Force Base, agreement was reached to spend \$450,000 for officers quarters. The original request was for \$956,000. The conferees agreed to go ahead with the maintenance hangar at Holloman Air Force Base for \$1,477,000, as well as alteration of headquarters at Offutt Air Force Base, Nebr., in the amount of \$560,000; a sewage treatment plant at Dover Air Base, Del., \$250,000 and a jet engine test cell, \$473,000 for Tyndall Air Force Base, Fla. The much-needed fleet service facilities costing \$374,000 at Travis Air Force Base, Calif., was approved. Agreement was reached by the conferees on three much-needed projects at Malmstrom Air Force Base, Mont. The sums agreed to were \$300,000 for heated auto storage facilities; a civil engineering facility, \$888,000, and an air-men's dormitory, \$400,000.

Under the housing category, Department of Defense, the reduction of \$4 million made by the Senate was agreed to.

Mr. President, this concludes my summary of the conference. I am sure that the Senator from Mississippi, as I, would be pleased to answer any questions concerning individual projects considered by the conferees.

Mr. President, I ask unanimous consent that a table summarizing the military construction appropriation bill of 1967, as passed, be printed in the Record at the end of these remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

The PRESIDING OFFICER. The question is on agreeing to the conference report.

The conference report was agreed to.

Mr. SALTONSTALL. Mr. President, I thank the Senator from Mississippi [Mr. STENNIS] for permitting me, as a Member of the minority, to make this statement on behalf of the conferees.

I can only say that the conferees were all in agreement, and that, under the leadership of the Senator from Mississippi, the military construction bill has generally been approved by both bodies unanimously over the past few years. It has been an honor and a pleasure to serve with the Senator from Mississippi on that committee as well as on other committees.

Mr. STENNIS. Mr. President, I thank the Senator very much for his very kind and gracious remarks. It has been a

HIGHLIGHTS: Both Houses received and Senate agreed to conference report on demonstration cities bill including rural-housing amendments. House passed supplemental appropriations bill. House received conference report on food for peace bill. Senate committees reported bills to permit sale of grain storage facilities and to provide separate accounting systems for USDA funds. Senate adopted conference report on poverty bill. Senate concurred in House amendment to disaster relief bill. Senate committee voted to report heliport bill.

HOUSE

1. FOOD FOR PEACE. Received a new conference report on H. R. 14929, the food-for-peace bill, with a modified provision regarding trade with North Vietnam and Cuba (H. Rept. 2304). pp. 26430-6
2. APPROPRIATIONS. Passed with amendment H. R. 18381, the supplemental appropriation bill. See Digest 178 for items of interest to this Department. pp. 26333-60
3. HOUSING LOANS. Received the conference report on S. 3708, the proposed Demonstration Cities and Metropolitan Development Act of 1966, which includes amendments to the rural-housing law (see Digest 176 for provisions)(H. Rept. 2301). pp. 26370-84

4. EDUCATION. Received the conference report on H. R. 13161, to strengthen and improve programs of assistance for elementary and secondary schools (H. Rept. 2309). pp. 26464-7

5. TAXATION. Received the conference report on H. R. 17607, to suspend the investment credit and the allowance of accelerated depreciation in the case of certain real property (H. Rept. 2308). pp. 26367-70

The Ways and Means Committee reported with amendments H. R. 7030, to amend the Internal Revenue Code to allow a farmer a deduction from gross income for water assessments levied by irrigation ditch companies, etc. (H. Rept. 2299). p. 26477

6. WATER FOR PEACE. The Rules Committee reported a resolution for consideration of S. J. Res. 167, to enable the U. S. to hold an International Conference on Water for Peace in the U. S. in 1967. p. 26436

7. COMMITTEE ASSIGNMENTS. Rep. Mackie resigned from the Agriculture Committee and was elected to the Public Works Committee. Several other changes in committee assignments were agreed to. pp. 26436-7

8. INTERGOVERNMENTAL RELATIONS. A subcommittee of the Government Operations Committee approved for full committee action H. R. 17955, the proposed Intergovernmental Relations Act of 1966. p. D1019

9. WATERSHEDS. The Public Works Committee approved various watershed reports. p. D1019

SENATE

10. GRAIN STORAGE. The Agriculture and Forestry Committee reported without amendment H. R. 12360, to permit the sale of grain storage facilities to public and private nonprofit agencies and organizations (S. Rept. 1835). p. 26238

11. ACCOUNTING. The Agriculture and Forestry Committee reported without amendment S. 3699, to require the Department and the Budget Bureau to make a separate accounting of funds requested for the Department of Agriculture for programs and activities that primarily stabilize farm income and those that primarily benefit consumers, business men, and the general public (S. Rept. 1836). p. 26238

12. INTERGOVERNMENTAL RELATIONS. The Government Operations Committee reported without amendment H. R. 15335, to amend the act to establish an Advisory Commission on Intergovernmental Relations in order to make several relatively minor amendments to enable the Commission to function more effectively and to reflect certain changes that have occurred since the statute was enacted in 1959. p. 26237

13. POVERTY. Agreed to the conference report on H. R. 15111, to continue and amend various programs under the Economic Opportunity Act. pp. 26295-8

14. LANDS. The Agriculture and Forestry Committee reported without amendment S. 433, to authorize the Secretary of Agriculture to sell certain land in Lander, Wyo. (S. Rept. 1837). p. 26238

15. HOUSING LOANS. Agreed to the conference report on S. 3708, the demonstration cities bill, which includes amendments to the rural-housing law. pp. 26284-8
16. DISASTER RELIEF. Concurred in the House amendment to S. 1861, to provide additional assistance for areas suffering a major disaster (pp. 26313-16). The bill as passed does not contain the section which would have permitted the Secretary of Agriculture under certain conditions to replace income producing livestock or growing crops damaged or destroyed as a result of a major disaster. This bill will now be sent to the President.
17. HEALTH SERVICES. Concurred in House amendment to S. 3008, to amend the Public Health Services Act to promote and assist in the extension and improvement of comprehensive health planning and public health services, to provide for a more effective use of available Federal funds for such planning and services (pp. 26309-13). This bill will now be sent to the President.
18. WATERSHEDS. The Agriculture and Forestry Committee and the Public Works Committee approved various watershed reports. pp. D1016, D1017
19. D. C. HELIPORT. The Public Works Committee voted to report (but did not actually report) H. R. 15024, to establish heliport facilities in D. C. p. D1017
20. FARM PROGRAM. Sen. Ervin spoke on "North Carolina's state in agriculture" and described farm programs of assistance to that State. pp. 26266-7
21. PERSONNEL. Sen. Talmadge inserted testimony by Robert Ramspeck favoring legislation to prohibit psychological testing, telephone tapping, polygraph machines, and questionnaires "invading the privacy of Federal employees." pp. 26272-3
22. TARIFF. Agreed to, without amendment, S. Res 315, to direct the Tariff Commission to investigate the tariff on olives and report their findings to the Senate by Mar. 31, 1967. p. 26284
23. LEGISLATIVE RECORD. Sen. McClellan reported on the activities of the Government Operations Committee. pp. 26300-6
24. WATER. Sen. Moss inserted an article on the possibility of bringing surplus water from Canada and Alaska. pp. 26321-2
25. NATURAL RESOURCES; ORGANIZATION. Sen. Moss spoke in favor of a Department of Natural Resources. pp. 26322-3

ITEMS IN APPENLIX

26. DEMONSTRATION CITIES. Rep. Farbstein inserted his speech in the House in support of the demonstration cities bill. pp. A5376-7
27. FOOD COSTS. Rep. Rhodes commended and inserted an article deploring the high cost of food and other consumer goods. p. A5379
28. POLLUTION. Extension of remarks of Rep. Rumsfeld and insertion of a review of the book entitled "The Pollution Paradox." p. A5380

29. INTERGOVERNMENTAL RELATIONS. Extension of remarks of Rep. Dwyer and insertion of an article on the White House Fellows program which is designed to increase interchange of ideas and experience among levels of government.
p. A5381-2

BILL INTRODUCED

30. HIGHWAYS. H. R. 18427 by Rep. Landrum, to authorize the Secretary of Agriculture to cooperate with States, counties, and local public agencies in the planning and installation of works and measures to control or prevent erosion damages to the roadbeds and rights-of-way of existing State and county roads and highways; to Public Works Committee.

0

COMMITTEE HEARING OCT. 19:

Supplemental appropriations, S. Appropriations (exec).

oOo

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

OCTOBER 18, 1966.—Ordered to be printed

Mr. PATMAN, from the committee of conference, submitted the
following

CONFERENCE REPORT

[To accompany S. 3708]

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following: *That this Act may be cited as the "Demonstration Cities and Metropolitan Development Act of 1966"*.

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

FINDINGS AND DECLARATION OF PURPOSE

SEC. 101. *The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.*

The Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical problems facing them, and that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

BASIC AUTHORITY

SEC. 102. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112(2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.

ELIGIBILITY FOR ASSISTANCE

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all

income levels, adequate public facilities (including those needed for education, health and social services, transportation, and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning for the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title: Provided, That the authority of the Secretary under this paragraph shall not be used to impose criteria or establish requirements except those which are related and essential to the specific provisions of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

(c) The preparation of demonstration city programs should include to the maximum extent feasible (1) the performance of analyses that provide explicit and systematic comparisons of the costs and benefits, financial and otherwise, of alternative possible actions or courses of action designed to fulfill urban needs; and (2) the establishment of programing systems designed to assure effective use of such analyses by city demonstration agencies and by other government bodies.

(d) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a

program (1) by which pupils now resident in a school district not within the confines of the area covered by the city demonstration program shall be transferred to a school or school district including all or part of such area, or (2) by which pupils now resident in a school district within the confines of the area covered by the city demonstration program shall be transferred to a school or school district not including a part of such area.

FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE CITY
DEMONSTRATION PROGRAMS

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE CITY
DEMONSTRATION PROGRAMS

SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: Provided, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban

Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

(d) Grant funds provided to assist projects and activities included within an approved comprehensive city demonstration program pursuant to subsection (c) of this section shall be made available to assist new and additional projects and activities not assisted under a Federal grant-in-aid program. To the extent such funds are not necessary to support fully such new and additional projects and activities, they may be used and credited as part or all of the required non-Federal contribution to projects or activities, assisted under a Federal grant-in-aid program, which are part of an approved comprehensive city demonstration program. Such grant funds, however, shall not be used—

(1) for the general administration of local governments; or

(2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive city demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

TECHNICAL ASSISTANCE

SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

RELOCATION REQUIREMENTS AND PAYMENTS

SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of housing for all such families and individuals throughout the city.

(b)(1) To the extent not otherwise authorized under any Federal law, financial assistance extended to a city demonstration agency under section 105 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 105.

(2) The term "relocation payments" means payments by a city demonstration agency to a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time

such payments are approved, by section 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date of the enactment of this Act.

CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID PROGRAM FUNDS

SEC. 108. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and undertaken in connection with an approved comprehensive city demonstration program shall remain available until expended.

CONSULTATION

SEC. 109. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105.

LABOR STANDARDS

SEC. 110. (a) All laborers and mechanics employed by contractors or subcontractors in the construction, rehabilitation, alteration, or repair of projects which—

(1) are federally assisted in whole or in part under this title and

(2) are not otherwise subject to section 212 of the National Housing Act, section 16(2) of the United States Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction,

shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5): Provided, That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 1332-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work Hours Standards Act (76 Stat. 357).

APPROPRIATIONS

SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 104 and 106, not to exceed \$12,000,000 for the fiscal year ending June 30,

1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

(c) Appropriations authorized under this section shall remain available until expended.

DEFINITIONS

SEC. 112. As used in this title—

(1) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

(3) "City" means any municipality (or two or more municipalities acting jointly) or any county or other public body (or two or more acting jointly) having general governmental powers.

(4) "Local" agencies include State agencies and instrumentalities providing services or resources to a city or locality, and "local" resources include those provided to a city or locality by a State or its agency or instrumentality.

GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS WHICH ARE PART OF APPROVED COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 113. Section 103(b) of the Housing Act of 1949 is amended by inserting after the first sentence the following new sentence: "In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: Provided, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966."

STATE LIMIT

SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

FINDINGS AND DECLARATION OF PURPOSE

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this title to provide through greater coordination of Federal programs and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive metropolitan planning and programing effective.

COOPERATION BETWEEN FEDERAL AGENCIES

SEC. 202. In order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner—

(1) the Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development, and to assist the President in coordinating the metropolitan development efforts of all Federal agencies; and

(2) all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

METROPOLITAN EXPEDITERS

SEC. 203. Upon the request of the duly authorized local officials of the central city in any metropolitan area, and after consultation with local governmental authorities throughout the metropolitan area with respect to whether or not the Secretary should make an appointment under this section (and with respect to the individuals who might be so appointed), the Secretary may appoint a metropolitan expeditor for such area whenever he finds a need for the services specified in this section. The metropolitan expeditor shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

COORDINATION OF FEDERAL AIDS IN METROPOLITAN AREAS

SEC. 204. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—

(1) to any areawide agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used, and which is, to the greatest practicable extent, composed of or responsible to the elected officials of a unit of areawide government or of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning, and

(2) if made by a special purpose unit of local government, to the unit or units of general local government with authority to operate in the area within which the project is to be located.

(b)(1) Except as provided in paragraph (2) of this subsection, each application shall be accompanied (A) by the comments and recommendations with respect to the project involved by the areawide agency and governing bodies of the units of general local government to which the application has been submitted for review, and (B) by a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application. Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this paragraph shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

(2) An application for a Federal loan or grant need not be accompanied by the comments and recommendations and the statements referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before an appropriate areawide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

(3) The requirements of paragraphs (1) and (2) shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

(c) The Bureau of the Budget, or such other agency as may be designated by the President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

GRANTS TO ASSIST IN PLANNED METROPOLITAN DEVELOPMENT

SEC. 205. (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or inter-jurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

(c)(1) Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities, it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or inter-jurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

(2) Where the applicant for a grant under this section is not a unit of general local government, both it and the unit of general local government having jurisdiction over the location of the project must meet the requirements of this subsection.

(d) In making the determinations required under this section, the Secretary shall obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for comprehensive planning and programing for the metropolitan area.

(e) No grant shall be made under this section with respect to a metropolitan development project for which a Federal grant has been made, or a contract of assistance has been entered into, under the legislation referred to in paragraph (2) of section 208, prior to February 21, 1966, or more than one year prior to the date on which the Secretary has made the determinations required under this section with respect to the applicant and to

the area in which the project is located: *Provided, That in the case of a project for which a contract of assistance under the legislation referred to in paragraph (2) of section 208 has been entered into after June 30, 1967, no grant shall be made under this section unless an application for such grant has been made on or before the date of such contract.*

(f) *Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program to achieve a racial balance or to eliminate racial imbalance within school districts within the metropolitanwide area.*

EXTENT OF GRANT

SEC. 206. (a) *A grant under section 205 shall not exceed (1) 20 per centum of the cost of the project for which the grant is made; nor (2) the Federal grant made with respect to the project under the legislation referred to in paragraph (2) of section 208. In no case shall the total Federal contributions to the cost of such project be more than 80 per centum. Notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under section 205 shall be eligible for inclusion (directly or through refunds or credits) as part of the financing for such projects: Provided, That projects or activities on the basis of which assistance is provided under section 105(c) shall not be eligible for assistance under section 205.*

(b) *There are authorized to be appropriated for grants under section 205 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.*

CONSULTATION AND CERTIFICATION

SEC. 207. *In carrying out his authority under section 205, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 206, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.*

DEFINITIONS

SEC. 208. *As used in this title—*

(1) *"Metropolitan development" means all projects or programs for the acquisition, use, and development of open-space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.*

(2) *"Metropolitan development project" means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; title II of the Library Services and Construction Act; section 606 of the Public Health Service Act; section 8 of the Federal Water Pollution Control Act; section 120(a) of title 23, United States Code; section 12 of the Federal Airport Act; section 3 of the Urban Mass Transportation*

Act of 1964; title VII of the Housing Act of 1961; or section 5(e) of the Land and Water Conservation Fund Act of 1965; or under section 101 (a)(1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under any of the other provisions listed above).

(3) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or an agency or instrumentality of any of the foregoing.

(4) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

(5) "Comprehensive planning" includes the following, to the extent directly related to area needs or needs of a unit of general local government: (A) preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities; (B) programing of capital improvements based on a determination of relative urgency; (C) long-range fiscal plans for implementing such plans and programs; and (D) proposed regulatory and administrative measures which aid in achieving coordination of all related plans of the departments or subdivisions of the governments concerned and intergovernmental coordination of related planned activities among the State and local governmental agencies concerned.

(6) "Hospital" means any public health center or general, tuberculosis, mental, chronic disease, or other type of hospital and related facilities, such as laboratories, outpatient departments, nurses' home and training facilities, and central service facilities normally operated in connection with hospitals, but does not include any hospital furnishing primarily domiciliary care.

(7) "Areawide agency" means an official State or metropolitan or regional agency empowered under State or local laws or under an interstate compact or agreement to perform comprehensive planning in an area; an organization of the type referred to in section 701(g) of the Housing Act of 1954; or such other agency or instrumentality as may be designated by the Governor (or, in the case of metropolitan areas crossing State lines, any one or more of such agencies or instrumentalities as may be designated by the Governor of the States involved) to perform such planning.

(8) "Special purpose unit of local government" means any special district, public-purpose corporation, or other limited-purpose political subdivision of a State, but shall not include a school district.

(9) "Unit of general local government" means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

(10) "Secretary" means the Secretary of Housing and Urban Development.

STATE LIMIT

SEC. 209. Grants made under section 205 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated pursuant to section 206(b).

TITLE III—FHA INSURANCE OPERATIONS

FHA MORTGAGE FINANCING FOR VETERANS

SEC. 301. The next to last sentence of section 203(b)(2) of the National Housing Act is amended by striking out "If the mortgagor is a veteran who has not received any direct, guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home," and inserting in lieu thereof the following: "If the mortgagor is a veteran,".

AREAS AFFECTED BY CIVIL DISORDERS

SEC. 302. Section 203 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(l) The Secretary is authorized to insure under this section any mortgage meeting the requirements of this section, other than the requirement in subsection (c) relating to economic soundness, if he determines that (1) the dwelling covered by the mortgage is situated in an area in which rioting or other civil disorders have occurred or are threatened, (2) as a result of such actual or threatened rioting or other disorders the property with respect to which the mortgage is executed cannot meet the normal requirements with respect to economic soundness, and (3) such property is an acceptable risk giving due consideration to the need for providing adequate housing for families of low and moderate income in such area."

COOPERATIVE HOUSING INSURANCE FUND

SEC. 303. (a) Section 213(m) of the National Housing Act is amended by striking out ", but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe".

(b) Section 213(n) of such Act is amended—

(1) by striking out "insured under this section and sections 207, 231, and 232" and inserting in lieu thereof "the insurance of which is the obligation of either the Management Fund or the General Insurance Fund"; and

(2) by adding at the end thereof the following new sentence: "Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in debentures which are the obligation of either the Management Fund or the General Insurance Fund."

(c)(1) The fourth sentence of section 213(k) of such Act is amended to read as follows: "The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate."

(2) The second proviso in section 213(l) of such Act is amended by striking out "pursuant to subsection (k) or (o)" and inserting in lieu thereof "pursuant to subsection (o)".

SUPPLEMENTARY FINANCING FOR COOPERATIVE HOUSING

SEC. 304. Section 213(j)(2)(A) of the National Housing Act is amended by adding at the end thereof the following: "except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b);".

MORTGAGE LIMITS UNDER SECTION 220 SALES HOUSING MORTGAGE INSURANCE PROGRAM

SEC. 305. (a) Section 220(d)(3)(A)(i) of the National Housing Act is amended by striking out "(3) 75 per centum of such replacement cost in excess of \$20,000" and inserting in lieu thereof "(3) 80 per centum of such replacement cost in excess of \$20,000".

(b) Section 220(d)(3)(A)(i) of such Act is further amended by adding before the semicolon at the end thereof the following: "Provided further, That if the mortgagor is a veteran and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (1) 100 per centum of \$15,000 of the Commissioner's estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, and (3) 85 per centum of such replacement cost in excess of \$20,000. As used herein, the term 'veteran' means any person who served on active duty in the Armed Forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable".

INCREASED MORTGAGE LIMITATIONS UNDER SECTION 220(d)(3)(B) FOR SMALL PROJECTS CONTAINING LARGER FAMILY DWELLING UNITS

SEC. 306. (a) Section 220(d)(3)(B)(iii) of the National Housing Act is amended by inserting after "; and except that" the following: "with respect to rehabilitation projects involving not more than five family units, the Secretary may by regulation increase by 25 per centum any of the foregoing dollar amount limitations contained in this clause which are applicable to units with two, three, or four or more bedrooms: Provided, That".

(b) Section 220(d)(3)(B)(iii) of such Act is further amended—

(1) by inserting immediately before "by not to exceed 45 per centum" the following: "(as determined after the application of the preceding proviso)"; and

(2) by striking out "Provided, That nothing" and inserting in lieu thereof "Provided further, That nothing".

MORTGAGE LIMITS FOR HOMES UNDER SECTION 221(d)(2)

SEC. 307. Section 221(d)(2)(A) of the National Housing Act is amended by striking out "\$11,000" and "\$18,000" and inserting in lieu thereof "\$12,500" and "\$20,000", respectively.

NONDWELLING FACILITIES IN SECTION 221 PROJECTS IN URBAN RENEWAL AREAS

SEC. 308. Section 221(f) of the National Housing Act is amended by inserting before the period at the end of the first sentence the following: "Provided, That in the case of any such property or project located in an urban renewal area, the provisions of section 220(d)(3)(B)(iv) shall apply with respect to the nondwelling facilities which may be included in the mortgage if the mortgagor waives the right to receive dividends on its equity investment in the portion thereof devoted to community and shopping facilities".

SINGLE OCCUPANTS IN SECTION 221(d)(3) HOUSING

SEC. 309. Section 221(f) of the National Housing Act is amended by adding at the end thereof the following new sentence: "Low- and moderate-income persons who are less than 62 years of age shall be eligible for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3), but not more than 10 per centum of the dwelling units in any such project shall be available for occupancy by such persons."

INSURANCE OF MORTGAGES UNDER SECTION 221 TO FINANCE PURCHASE AND REHABILITATION BY NONPROFIT ORGANIZATIONS OF HOUSING FOR RESALE TO LOW-INCOME PURCHASERS

SEC. 310. (a) Section 221 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(h)(1) In addition to mortgages insured under the other provisions of this section, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

"(2) To be eligible for insurance under paragraph (1) of this subsection, a mortgage shall—

"(A) be executed by a private nonprofit corporation or association approved for purposes of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided;

"(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

“(C) be in a principal amount not exceeding the appraised value of the property at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

“(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d)(5) at the time of execution;

“(E) provide for complete amortization (subject to paragraph (5)(E)) by periodic payments within such term as the Secretary may prescribe; and

“(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

“(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary that (A) the property to be rehabilitated is located in a neighborhood which is sufficiently stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

“(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

“(5)(A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as ‘low-income purchasers’) determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c)(1) of the Housing and Urban Development Act of 1965.

“(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

“(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

“(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

“(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

“(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage

insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as though they constituted rental units in a project covered by a mortgage which is insured under subsection (d)(3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5)).

“(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

“(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy the property the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) the nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary.”

(b)(1) Section 221(g)(1) of such Act is amended by inserting after “paragraph (2) of subsection (d) of this section” the following: “or paragraph (5) of subsection (h) of this section”.

(2) Section 221(g)(2) of such Act is amended by inserting after “paragraph (3) or (4) of subsection (d) of this section” the following: “or paragraph (1) of subsection (h) of this section”.

(c) Section 221(f) of such Act is amended by inserting after “Housing Act of 1961,” in the fourth sentence “or which meet the requirements of subsection (h),”.

(d) Section 305(h) of such Act is amended by striking out “section 221(d)(3)” and inserting in lieu thereof “sections 221(d)(3) and 221(h)”.

APPLICATION OF DAVIS-BACON ACT TO COOPERATIVE HOUSING PROJECTS INSURED UNDER SECTION 221 (d)(3) AND (d)(4) AND MORTGAGES INSURED UNDER SECTION 221(h)(1)

SEC. 311. The third sentence of section 212(a) of the National Housing Act is amended by striking out “subsection (d)(3) or (d)(4).” and inserting in lieu thereof “subsection (d)(3) or (d)(4) and (deeming the term ‘construction’ as used in the first sentence of this subsection to mean rehabilitation) of any mortgage described in subsection (h)(1) which covers property on which there is located a dwelling or dwellings designed principally for residential use for more than eight families; except that compliance with such provisions may be waived by the Secretary—

“(1) with respect to mortgages described in such subsection (d)(3) or (d)(4) in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construction of the project) voluntarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and

the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction, and

“(2) with respect to mortgages described in such subsection (h)(1), in cases or classes of cases where prospective owners of such dwellings voluntarily donate their services without compensation, or other persons (not otherwise employed at any time in the rehabilitation of the property) voluntarily donate their services without compensation, and the Secretary determines that any amounts saved thereby are fully credited to the nonprofit organization undertaking the rehabilitation.”

WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO SECRETARY IN LIEU OF FORECLOSURE

SEC. 312. Title V of the National Housing Act is amended by adding at the end thereof the following new section:

“WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO SECRETARY IN LIEU OF FORECLOSURE

“SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multi-family housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage.”

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

EXPERIMENTAL MORTGAGE INSURANCE PROGRAM FOR NEW COMMUNITIES

SEC. 401. (a) Title X of the National Housing Act is amended by inserting after section 1003 the following new section 1004 and redesignating the remaining sections accordingly:

“NEW COMMUNITIES

“SEC. 1004. (a) New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.

“(b) A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

“(1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;

“(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

“(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

“(4) maximum accessibility to any major central city in the area.

“(c) No development shall be approved as a new community by the Secretary under this section unless the construction of such development has been approved by the local governing body or bodies of the locality or localities in which it will be located and by the Governor of the State in which such locality or localities are situated: Provided, That if such locality or localities have been delegated general powers of local self-government by State law or State constitution, as determined by the Secretary, the approval of the Governor shall not be required.

“(d) The aggregate amount of mortgages insured under this title with respect to new communities approved under this section and outstanding at any one time shall not exceed \$250,000,000.”

(b) No mortgage shall be insured under title X of the National Housing Act with respect to a new community approved under section 1004 of such Act (as added by subsection (a) of this section) after October 1, 1972, except pursuant to a commitment to insure entered into before that date.

MORTGAGE AMOUNT AND TERM

SEC. 402. (a) Section 1002(c) of the National Housing Act is amended by striking out “\$10,000,000” and inserting in lieu thereof “\$25,000,000”.

(b) Section 1002(d)(1) of such Act is amended to read as follows:

“(1) contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;”.

ENCOURAGEMENT OF SMALL BUILDERS

SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting “particularly small builders,” after “broad participation by builders,”.

WATER AND SEWERAGE FACILITIES

SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended to read as follows:

“WATER AND SEWERAGE FACILITIES

“SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

“(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

“(b) in the case of systems for sewerage, the land may be served by—

“(1) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as

adequate by the Secretary, and which are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary; or

"(2) if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (A) which he finds consistent with other existing or prospective systems within the area, (B) which during the period of such ownership will be regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) will be otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, and rate of return, and (C) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer."

FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL ASSISTANCE FOR NEW COMMUNITIES

SEC. 405. Section 302(b) of the National Housing Act is amended by inserting after "or title VIII," in the proviso the following: "or under title X with respect to a new community approved under section 1004 thereof,".

URBAN PLANNING GRANTS

SEC. 406. Section 701(a)(4) of the Housing Act of 1954 is amended by inserting before the semicolon at the end thereof the following: ", or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community approved under section 1004 of the National Housing Act".

PUBLIC FACILITY LOANS

SEC. 407. Section 202(b)(4) of the Housing Amendments of 1955 is amended by adding before the period at the end of the second sentence the following: ", or (iii) to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act".

TITLE V—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

PURPOSE

SEC. 501. It is the purpose of this title to assure the availability of credit on reasonable terms to units or organizations engaged in the group practice of medicine, optometry, or dentistry, particularly those in smaller communities and those sponsored by cooperative or other nonprofit organizations, to assist in financing the construction and equipment of group practice facilities.

ESTABLISHMENT OF PROGRAM

SEC. 502. (a) The National Housing Act is amended by adding at the end thereof the following new title:

"TITLE XI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

"INSURANCE OF MORTGAGES

"SEC. 1101. (a) *The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.*

"(b) *To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c).*

"(c) *The mortgage shall—*

"(1) *not exceed \$5,000,000;*

"(2) *not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges incident to construction or rehabilitation and approved by the Secretary;*

"(3) *have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments within such term as the Secretary shall prescribe; and*

"(4) *bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market.*

"(d) *Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.*

"(e) *Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgagee, the prop-*

erty will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated.

"(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records.

"PREMIUMS

"SEC. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary.

"PAYMENT OF INSURANCE BENEFITS

"SEC. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title.

"REGULATIONS

"SEC. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Secretary of Health, Education, and Welfare with respect to any health or medical aspects of the program under this title which may be involved in such regulations.

"ADMINISTRATION

"SEC. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined

in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for and construction of such facilities.

"(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency.

"DEFINITIONS

"SEC. 1106. For the purposes of this title—

"(1) The term 'group practice facility' means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

"(2) The term 'medical or dental group' means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs, and which partnership or association or group is composed of at least such professional personnel and make available at least such health services as may be provided in regulations prescribed under this title.

"(3) The term 'group practice unit or organization' means—

"(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis; or

"(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to which assistance has been requested under this title available to a medical or dental group for use by it.

"(4) The term 'nonprofit organization' means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organi-

zation for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

"(5) The term 'State' includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

"(6) The term 'mortgage' means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term 'first mortgage' means such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the realty.

"(7) The term 'mortgagee' means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

"(8) The term 'mortgagor' means the original borrower under a mortgage and his or its successors and assigns."

(b) The first sentence of section 227 of such Act is amended by inserting after "new or rehabilitated multifamily housing" the following: "or a property or project described in title XI".

LABOR STANDARDS

SEC. 503. Section 212(a) of the National Housing Act is amended by adding at the end thereof the following new sentence: "The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be."

AMENDMENTS TO OTHER FEDERAL LAWS

SEC. 504. (a)(1) The sixth sentence of paragraph "Seventh" of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after "Federal Home Loan Banks," the following: "or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act".

(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after "or sections 1471-1484 of title 42," the following: "or which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act,".

(b) Subsection (a) of section 304 of the Trust Indenture Act of 1939 (15 U.S.C. 77ddd) is amended by striking out the word "or" at the end

of paragraph (8); by striking out the period at the end of paragraph (9) and inserting in lieu thereof a semicolon and the word "or"; and by adding after paragraph (9) a new paragraph as follows:

"(10) any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c(a)(2))."

(c) Section 263 of chapter X of the Bankruptcy Act (11 U.S.C. 663) is amended by adding at the end thereof the following: "Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act."

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

PRESERVATION OF HISTORIC STRUCTURES AS PART OF URBAN RENEWAL PROJECTS

SEC. 601. (a) Section 110(b) of the Housing Act of 1949 is amended by inserting "historic and architectural preservation," after "land acquisition,".

(b) Section 110(c)(6) of such Act is amended by inserting "to promote historic and architectural preservation," after "deterioration,".

(c) Section 110(c) of such Act is further amended by striking out "and" at the end of clause (8), and by striking out clause (9) and inserting in lieu thereof the following:

"(9) relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and

"(10) restoration of acquired properties of historic or architectural value."

LOCAL GRANT-IN-AID CREDIT FOR RELOCATION AND RESTORATION OF HISTORIC STRUCTURES

SEC. 602. Clause (2) of section 110(d) of the Housing Act of 1949 is amended by striking out "clause (2) and clause (3)" and inserting in lieu thereof "clauses (2), (3), (9), and (10)".

GRANTS TO NATIONAL TRUST FOR HISTORIC PRESERVATION TO COVER RESTORATION COSTS

SEC. 603. (a) The Secretary of Housing and Urban Development is authorized to make grants to the National Trust for Historic Preservation, on such terms and conditions and in such amounts (not exceeding \$90,000 with respect to any one structure) as he deems appropriate, to cover the costs incurred by such Trust in renovating or restoring structures which it considers to be of historic or architectural value and which it has accepted and will maintain (after such renovation or restoration) for historic purposes.

(b) There are authorized to be appropriated such sums as may be necessary for the grants to be made under subsection (a).

URBAN PLANNING GRANTS FOR SURVEYS OF HISTORIC STRUCTURES

SEC. 604. Section 701 of the Housing Act of 1954 is amended by adding at the end thereof the following new subsection:

"(h) In addition to the other grants authorized by this section the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the National Register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (9) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved."

GRANTS FOR HISTORIC PRESERVATION

SEC. 605. (a) The heading of title VII of the Housing Act of 1961 is amended to read as follows:

"TITLE VII—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION"

(b) Section 701 of such Act is amended by redesignating subsection (c) as subsection (d), and by inserting after subsection (b) a new subsection as follows:

"(c) The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our past history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas."

(c) Section 701(d) of such Act (as redesignated by subsection (b) of this section) is amended—

(1) by inserting after "urban development," the following: "to assist in preserving areas and properties of historic or architectural value,"; and

(2) by striking out "and (2)" and inserting in lieu thereof "(2) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (3)".

(d) Section 702(e) of such Act is amended to read as follows:

"(e) The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this title. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status

of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments."

(e) Section 706 of such Act is amended by striking out the proviso.

(f) Section 708 of such Act is amended by inserting "(a)" after "SEC. 708.", by inserting "(b)" before "The" in the second paragraph, and by adding at the end thereof a new subsection as follows:

"(c) Notwithstanding any other provision of this title, the Secretary may use not to exceed \$10,000,000 of the sum authorized for contracts under this title for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this title."

(g) Title VII of such Act is amended by redesignating section 709 as section 710, and by adding after section 708 a new section as follows:

"GRANTS FOR HISTORIC PRESERVATION

"SEC. 709. The Secretary is authorized to enter into contracts to make grants to States and local public bodies to assist in the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit, in accord with the comprehensively planned development of the locality. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Secretary, of the assisted activities. The remainder of such cost shall be provided from non-Federal sources."

(h) Commencing three years after the date of the enactment of this Act, no grant shall be made (except pursuant to a contract or commitment entered into less than three years after such date) under section 709 of the Housing Act of 1961 or section 701(h) of the Housing Act of 1954, or under section 103 of the Housing Act of 1949 to the extent that it is to be used for historic or architectural preservation, except with respect to districts, sites, building, structures, and objects which the Secretary of Housing and Urban Development finds meet criteria comparable to those used in establishing the National Register maintained by the Secretary of the Interior pursuant to other provisions of law.

TITLE VII—URBAN RENEWAL

LOCAL GRANTS-IN-AID

SEC. 701. Section 110(d) of the Housing Act of 1949 is amended by inserting immediately after the colon at the end of the first proviso the following: "Provided further, That any publicly owned facility, the construction of which was begun not earlier than three years prior to the date of enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility,

or \$3,500,000, whichever is less, if such facility (A) (i) is used, or is to be used, by the public predominantly for cultural, exhibition, or civic purposes, or is a city hall or a public safety building, or (ii) is a facility, constructed or rehabilitated by a public university, which is or will be devoted to the treatment of physical or mental disabilities and illness or to medical research; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid."

AIR RIGHTS SITES IN URBAN RENEWAL PROJECTS

SEC. 702. (a) Section 110(c)(1) of the Housing Act of 1949 is amended by inserting in clause (iv), between the word "income" and the colon immediately preceding the first proviso, the following: "or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for industrial development".

(b) Section 100(c)(7) of such Act is amended by inserting immediately before the semicolon the following: "or construction of foundations and platforms necessary for the provision of air rights sites for industrial development".

ADDITIONAL REQUIREMENTS FOR REDEVELOPMENT OF URBAN RENEWAL AREA

SEC. 703. (a) Section 105 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(f) The redevelopment of the urban renewal area, unless such redevelopment is for predominantly nonresidential uses, will provide a substantial number of units of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas."

(b) The amendment made by subsection (a) shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act.

THREE-FOURTHS GRANTS FOR PROJECTS IN CERTAIN REDEVELOPMENT AREAS

SEC. 704. Section 103(a)(2)(B) of the Housing Act of 1949 is amended by inserting after "to avoid hardship," the following: "or at any time after such contract or contracts are entered into and prior to the time the final grant payment has been made pursuant thereto,".

EXPENDITURES BY EDUCATIONAL INSTITUTIONS AND HOSPITALS

SEC. 705. Section 112(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: "Provided further, That no such expenditure shall be deemed ineligible as a local grant-in-aid in connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project".

REQUIREMENT OF SEPARATE SEWER SYSTEMS IN REDEVELOPMENT OF
URBAN RENEWAL AREA

SEC. 706. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

“(g) Consideration has been given to development of a sewer system to serve the urban renewal area which will, to the maximum extent feasible, provide for effective control of storm and sanitary wastes.”

TITLE VIII—RURAL HOUSING

SEC. 801. Section 501(a) of the Housing Act of 1949 is amended by striking out “previously occupied” wherever it appears.

SEC. 802. Section 502(a) of the Housing Act of 1949 is amended by striking out “In cases of applicants who are elderly persons, the” and inserting in lieu thereof “The”.

SEC. 803. Section 504 of the Housing Act of 1949 is amended by striking out “\$1,000” and inserting in lieu thereof “\$1,500”.

SEC. 804. (a) Section 515(a) of the Housing Act of 1949 is amended by inserting after “income” the following: “or other persons and families of low income”.

(b) Section 515(d)(1) of such Act is amended by striking out “elderly persons or elderly families” and inserting in lieu thereof “occupants eligible under this section”.

SEC. 805. (a) Subsections (a) and (b) of section 515 of the Housing Act of 1949 are each amended by striking out “rental housing” and inserting in lieu thereof “rental or cooperative housing”.

(b) Section 515(b) of such Act is amended by inserting after “families” the following: “or other persons and families of moderate income”.

(c) Section 515(d)(4) of such Act is amended by adding at the end thereof the following: “Such fees and charges may include payments to qualified consulting organizations or foundations which operate on a nonprofit basis and which render services or assistance to nonprofit corporations or consumer cooperatives who provide housing and related facilities.”

SEC. 806. Section 517(a)(1) of the Housing Act of 1949 is amended—

(1) by inserting “and” before “(B)”;

(2) by striking out “, and (C)” and all that follows and inserting in lieu thereof the following: “; but no loan under this paragraph shall be insured or made after October 1, 1996, except pursuant to a commitment entered into before that date; and”.

SEC. 807. (a) Section 501(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: “, and (4) to an owner described in clause (1), (2), or (3) for refinancing indebtedness which—

“(A) was incurred for an eligible purpose described in such clause,

“(B) if not refinanced, is likely to result at an early date in loss of the applicant’s necessary dwelling or essential farm service buildings,

“(C) is not held or insured by the United States or any agency thereof, and

“(D) was incurred prior to the enactment of this clause.”

(b) Section 501(c) of such Act is amended by inserting before the semicolon at the end of clause (1) the following: “, or that he is the owner of a

farm or other real estate in a rural area who needs refinancing of indebtedness described in clause (4) of subsection (a)''.

TITLE IX—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

PURPOSE

SEC. 901. It is the purpose of this title to assist States to make available information and data on urban needs and assistance programs and activities, and to provide technical assistance, to small communities with respect to the solution of urban problems.

GRANT AUTHORITY

SEC. 902. (a) The Secretary is authorized to make grants to States to help finance programs to provide information and data on urban needs and assistance programs and activities, and to provide technical assistance, to small communities with respect to the solution of local problems. Activities aided by such grants may include—

(1) the assembly, correlation, and dissemination of urban physical, social, and economic development information and data for the purpose of informing local governments of small communities, and interested organizations and individuals, of the availability and status of Federal, State, and local programs and other resources and data for the solution of urban problems; and

(2) providing technical assistance with respect to the solution of urban problems to any small community requesting such assistance.

(b) A program assisted under this section shall—

(1) specify the information and technical assistance activities to be carried on and justify the needs for the costs of such activities; and

(2) represent substantially increased or improved activities on the part of the applicant State agency.

AMOUNT OF GRANT

SEC. 903. (a) A grant under this section shall not exceed 50 per centum of the cost of the activities carried on under an approved urban information and technical assistance program.

(b) No grant shall be made under this title to assist in assembling data, or providing information, to be used primarily in the day to day operations of State or local governing bodies and agencies.

COOPERATION AND COORDINATION

SEC. 904. (a) Federal departments and agencies shall cooperate with States in providing information to assist in carrying out the purpose of this title.

(b) In the administration of this title, the Secretary shall seek to ensure the greatest practicable coordination of urban information and technical assistance programs established under this title.

DEFINITIONS

SEC. 905. As used in this title—

(1) "State" means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or an agency or instrumentality designated by the chief executive of any of the foregoing, or a statewide agency or instrumentality of its political subdivisions designated by such chief executive.

(2) "Secretary" means the Secretary of Housing and Urban Development.

(3) "Small communities" means communities having populations of less than one hundred thousand according to the most recent decennial census.

APPROPRIATIONS

SEC. 906. There are authorized to be appropriated for the purpose of carrying out the provisions of this title not to exceed \$2,500,000 for the fiscal year ending June 30, 1967, and not to exceed \$5,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

TITLE X—MISCELLANEOUS

HOUSING FOR THE ELDERLY OR HANDICAPPED

SEC. 1001. Section 105(b) of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting "(1)" after "(b)";

(2) by striking out "Effective with respect to loans made on or after the date of the enactment of this Act, section" and inserting in lieu thereof "Section"; and

(3) by adding at the end thereof a new paragraph as follows:

"(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate."

LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS—TERM OF LEASE

SEC. 1002. Section 23(d) of the United States Housing Act of 1937 is amended by striking out "thirty-six months" and inserting in lieu thereof "sixty months".

APPLICATION OF DAVIS-BACON ACT TO LOW-RENT HOUSING PROJECTS
CONSISTING OF PRIVATELY BUILT HOUSING

SEC. 1003. Section 16(2) of the United States Housing Act of 1937 is amended by inserting after "the development of the project involved" the following: "(including a project for the use of privately built housing in any case, other than under the authority of section 23 of this Act, where the public housing agency and the builder or sponsor enter into an agreement for such use before construction or rehabilitation is commenced), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked

in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be."

ASSISTANCE FOR HOUSING IN ALASKA

SEC. 1004. (a) The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make loans and grants to the State of Alaska, or any duly authorized agency or instrumentality thereof, in accordance with a statewide program prepared by such State, agency, or instrumentality, and approved by the Secretary, to assist in the provision of housing and related facilities for Alaska natives and other Alaska residents who are otherwise unable to finance such housing and related facilities upon terms and conditions which they can afford. The program shall (1) specify the minimum and maximum standards for such housing and related facilities (not to exceed an average of \$7,500 per dwelling unit); (2) to the extent feasible, encourage the proposed users of such housing and related facilities to utilize mutual and self-help in the construction thereof; and (3) provide experience, and encourage continued participation, in self-government and individual home ownership.

(b) Grants under this section shall not exceed 75 per centum of the aggregate cost of the housing and related facilities to be constructed under an approved program.

(c) There is authorized to be appropriated not to exceed \$10,000,000 to carry out the purposes of this section.

FEDERAL NATIONAL MORTGAGE ASSOCIATION PARTICIPATION IN FEDERAL HOUSING ADMINISTRATION-INSURED CONSTRUCTION FINANCING

SEC. 1005. Section 305 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(i) In any case where the Association makes a commitment to purchase under this section (1) a mortgage insured under section 213, (2) a mortgage insured under section 220, or (3) a mortgage insured under section 221(d)(3) and executed by a cooperative (including an investor-sponsor), a limited dividend corporation, a private non-profit corporation or association, or a mortgagor qualified under section 221(e), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage. The Secretary of Housing and Urban Development shall approve the reasonableness of the fee to be paid a participating mortgagee, taking into account its services and the extent of its participation in the advances."

FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL ASSISTANCE FOR FINANCING LOW-COST HOMES

SEC. 1006. The Congress hereby finds that the sharp decline in new home construction over the past year threatens to undercut our present high level of prosperity and employment as such declines have in the past; that the substantial reduction which has taken place has had its greatest impact on families of modest income who are seeking to achieve the goal

of homeownership; that this decline in homebuilding is due primarily to the shortage of mortgage financing on terms which moderate income families can afford; and that our national policy objectives in the field of housing and community development are thereby being thwarted. The Congress therefore expresses its intent that the special assistance funds made available to the Federal National Mortgage Association for the financing of new low-cost homes by the Act of September 10, 1966 (Public Law 89-556), should be released immediately to halt the continuing decline in the construction of new homes for families of moderate income.

FEDERAL NATIONAL MORTGAGE ASSOCIATION STANDBY COMMITMENTS

SEC. 1007. Section 304(a)(1) of the National Housing Act is amended by striking out the last sentence.

PLANNING GRANTS FOR RESEARCH ON STATE STATUTES AFFECTING LOCAL GOVERNMENTS

SEC. 1008. Section 701(b) of the Housing Act of 1954 is amended by inserting before the period at the end thereof the following: “, and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations”.

PUBLIC FACILITY LOANS

SEC. 1009. Section 202 of the Housing Amendments of 1955 is amended by adding at the end thereof a new subsection as follows:

“(f) The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located.”

APPLYING ADVANCES IN TECHNOLOGY TO HOUSING AND URBAN DEVELOPMENT

SEC. 1010. (a) To encourage and assist the housing industry to continue to reduce the cost and improve the quality of housing by the application to home construction of advances in technology, and to encourage and assist the application of advances in technology to urban development activities, the Secretary of Housing and Urban Development (hereinafter referred to as the “Secretary”) is directed to—

(1) conduct research and studies to test and demonstrate new and improved techniques and methods of applying advances in technology to housing construction, rehabilitation, and maintenance, and to urban development activities; and

(2) encourage and promote the acceptance and application of new and improved techniques and methods of constructing, rehabilitating, and maintaining housing, and the application of advances in technology to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public.

(b) Research and studies conducted under this section shall be designed to test and demonstrate the applicability to housing construction, rehabilitation, and maintenance, and urban development activities, of advances in technology relating to (1) design concepts, (2) construction and rehabilitation methods, (3) manufacturing processes, (4) materials and products, and (5) building components.

(c) The Secretary is authorized to carry out the research and studies authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for research and studies authorized by this section for work to continue not more than two years from the date of any such contract.

(d) There are authorized to be appropriated to carry out the provisions of this section not to exceed \$5,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$10,000,000 for the fiscal year ending June 30, 1968. All funds so appropriated shall remain available until expended.

(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

URBAN ENVIRONMENTAL STUDIES

SEC. 1011. (a) The Congress finds that, with the ever-increasing concentration of the Nation's population in urban centers, there has occurred a marked change in the environmental conditions under which most people live and work; that such change is characterized by the progressive substitution of a highly complex, man-contrived environment for an environment conditioned primarily by nature; that the beneficent or malignant influence of environment on all living creatures is well recognized; and that much more knowledge is urgently needed concerning the effect on human beings of highly urbanized surroundings. It is the purpose of this section to authorize a comprehensive program of research, studies, surveys, and analyses to improve understanding of the environmental conditions necessary for the well-being of an urban society, and for the intelligent planning and development of viable urban centers.

(b) In order to carry out the purpose of this section, the Secretary is authorized and directed to—

(1) conduct studies, surveys, research, and analyses with respect to the ecological factors involved in urban living;

(2) document and define urban environmental factors which need to be controlled or eliminated for the well-being of urban life;

(3) establish a system of collecting and receiving information and data on urban ecological research and evaluations which are in process or are being planned by public or private agencies, or individuals;

(4) evaluate and disseminate information pertaining to urban ecology to public and private agencies or organizations, or individuals, in the form of reports or otherwise;

(5) initiate and utilize urban ecological information in urban development projects initiated or assisted by the Department of Housing and Urban Development; and

(6) establish through interagency consultation the coordinated utilization of urban ecological information in projects undertaken or assisted by the Federal Government which affect the growth or development of urban areas.

(c)(1) *The Secretary is authorized to establish such advisory committees as he deems desirable for the purpose of rendering advice and submitting recommendations for carrying out the purpose of this section. Such advisory committees shall render such advice to the Secretary upon his request and may submit such recommendations to the Secretary at any time on their own initiative. The Secretary may designate employees of the Department of Housing and Urban Development to assist such committees.*

(2) *Members of such advisory committees shall receive not to exceed \$100 per day when engaged in the actual performance of their duties, in addition to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.*

(d) *The Secretary is authorized to carry out the studies, surveys, research, and analyses authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for work under this subsection to continue not more than two years from the date of any such contract.*

(e) *There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. All funds so appropriated shall remain available until expended when so provided in appropriation Acts.*

MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

SEC. 1012. *That part of section 107 of the Housing and Urban Development Act of 1965 which precedes subsection (f) is amended to read as follows:*

"MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

"SEC. 107. (a) *For the purposes of this section—*

"(1) *The term 'mortgage' means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.*

"(2) *The term 'Federal mortgage agency' means—*

"(A) *the Secretary of Housing and Urban Development when used in connection with mortgages insured under the National Housing Act, and*

"(B) *the Administrator of Veterans' Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.*

"(3) *The term 'distressed mortgagor' means an individual who—*

"(A) *was employed by the Federal Government at, or was assigned as a serviceman to, a military base or other Federal installation and whose employment or service at such base or installation was terminated subsequent to November 1, 1964, as the result of the closing (in whole or in part) of such base or installation; and*

"(B) *is the owner-occupant of a dwelling situated at or near such base or installation and upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments due under such mortgage.*

"(b)(1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments due under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

"(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that such action is necessary to avoid foreclosure.

"(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency, the mortgagor, and the mortgagee shall enter into a binding agreement under which—

"(A) the mortgagor will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c), together with interest thereon at a rate not to exceed the rate provided in the mortgage; the manner and time in which such payments shall be made to be determined by the Federal mortgage agency having due regard for the purposes sought to be achieved by this section; and

"(B) the Federal mortgage agency will be subrogated to the rights of the mortgagee to the extent of payments made pursuant to such certificate, which rights, however, shall be subject to the prior right of the mortgagee to receive the full amount payable under the mortgage.

"(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

"(A) two years from the date on which such certificate was issued;

"(B) thirty days after the date on which the mortgagor gives notice in writing to the Federal mortgage agency that he is able to resume his obligation to make payments due under his mortgage; or

"(C) thirty days after the date on which the Federal mortgage agency determines that the mortgagor to whom such certificate was issued has ceased to be a distressed mortgagor as defined in subsection (a)(3).

"(c)(1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments due under the mortgage.

"(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor may include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid payments under such mortgage prior to the issuance of such certificate, plus a reasonable allowance for foreclosure costs actually paid by the mortgagee if a foreclosure action was dismissed as a result of the issuance of a moratorium certificate. Payments by the Federal mortgage agency may also include payments of taxes and insurance premiums on the mortgaged property as deemed necessary when these items are not provided for through payments to a tax and insurance account held by the interested mortgagee.

"(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments due under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

"(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

"(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

"(e) There shall be in the Treasury (1) a fund which shall be available to the Secretary of Housing and Urban Development for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c) and for paying administrative expenses incurred in connection with such assistance, and (2) a fund which shall be available to the Administrator of Veterans' Affairs, for the same purpose, except administrative expenses. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Secretary of Housing and Urban Development, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts."

ACQUISITION OF CERTAIN PROPERTIES SITUATED AT OR NEAR MILITARY BASES WHICH HAVE BEEN ORDERED TO BE CLOSED

SEC. 1013. (a) Notwithstanding any other provision of law, the Secretary of Defense is authorized to acquire title to, hold, manage, and dispose of, or, in lieu thereof, to reimburse for certain losses upon private sale of, or foreclosure against, any property improved with a one- or two-family dwelling which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

(1) that the owner of such property is, or has been, a Federal employee employed at or in connection with such base or installation (other than a temporary employee serving under a time limitation) or a serviceman assigned thereto;

(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at or in connection with such base or installation; and

(3) that as the result of the actual or pending closing of such base or installation, in whole or in part, there is no present market for the sale of such property upon reasonable terms and conditions.

(b) In order to be eligible for the benefits of this section such employees or military personnel must be or have been—

(1) assigned to or employed at or in connection with the installation or activity at the time of public announcement of the closure action,

(2) transferred from such installation or activity, or terminated as employees as a result of reduction-in-force, within six months prior to public announcement of the closure action, or

(3) transferred from the installation or activity on an overseas tour unaccompanied by dependents within fifteen months prior to public announcement of the closure action:

Provided, That, at the time of public announcement of the closure action, or at the time of transfer or termination as set forth above, such personnel or employees must—

(i) *have been the owner-occupant of the dwelling, or*

(ii) *have vacated the owned dwelling as a result of being ordered into on-post housing during a six-month period prior to the closure announcement:*

Provided further, That as a consequence of such closure such employees or personnel must—

(i) *be required to relocate because of military transfer or acceptance of employment beyond a normal commuting distance from the dwelling for which compensation is sought, or*

(ii) *be unemployed, not as a matter of personal choice, and able to demonstrate such financial hardship that they are unable to meet their mortgage payments and related expenses.*

(c) *Such persons as the Secretary of Defense may determine to be eligible under the criteria set forth above shall elect either (1) to receive a cash payment as compensation for losses which may be or have been sustained in a private sale, in an amount not to exceed the difference between (A) 95 per centum of the fair market value of their property (as such value is determined by the Secretary of Defense) prior to public announcement of intention to close all or part of the military base or installation and (B) the fair market value of such property (as such value is so determined) at the time of the sale, or (2) to receive, as purchase price for their property, an amount not to exceed 90 per centum of prior fair market value as such value is determined by the Secretary of Defense, or the amount of the outstanding mortgages. Cash payment as compensation for losses sustained in a private sale shall not be made in any case in which the property is encumbered by a mortgage loan guaranteed, insured, or held by a Federal agency unless such mortgage loan is paid, assumed by a purchaser satisfactory to such Federal agency, or otherwise fully satisfied at or prior to the time such cash payment is made. Except in cases of payment as compensation for losses, in the event of foreclosure by mortgagees commenced on or after public announcement of intention to close all or part of the military base or installation and prior to the one hundred and twentieth day after the enactment of this Act, the Secretary of Defense may reimburse or pay on account of eligible persons such sums as may be paid or be otherwise due and owing by such persons as the result of such foreclosure, including (without limiting the generality of the foregoing) direct costs of judicial foreclosure, expenses and liabilities enforceable according to the terms of their mortgages or promissory notes, and the amount of debts, if any, established against such persons by a Federal agency in the case of loans made, guaranteed, or insured by such agency following liquidation of the security for such loans.*

(d) *There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section, which receipts shall be credited to the fund and shall*

be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray expenses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: Provided, however, That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 406(a) of the Act of August 30, 1957 (42 U.S.C. 1594i), nor shall it be deemed a transaction within the contemplation of section 2662 of title 10, United States Code.

(e) Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired and held under this section. The amount so paid for any year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

(f) The title to any property acquired under this section, the eligibility for, and the amounts of, cash payable, and the administration of the preceding provisions of this section, shall conform to such requirements, and shall be administered under such conditions and regulations, as the Secretary of Defense may prescribe. Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

(g) The Secretary of Defense is authorized to enter into such agreement with the Secretary of Housing and Urban Development as may be appropriate for the purposes of economy and efficiency of administration of this section. Such agreement may provide authority to the Secretary of Housing and Urban Development and his designee to make any or all of the determinations and take any or all of the actions which the Secretary of Defense is authorized to undertake pursuant to the preceding provisions of this section. Any such determinations shall be entitled to finality to the same extent as if made by the Secretary of Defense, and, in event the Secretaries of Defense and Housing and Urban Development so elect, the fund established pursuant to subsection (d) of this section shall be available to the Secretary of Housing and Urban Development to carry out the purposes thereof.

(h) Section 223(a)(8) of the National Housing Act is amended to read as follows:

"(8) executed in connection with the sale by the Government of any housing acquired pursuant to section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966."

(i) No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

(j) Section 108 of the Housing and Urban Development Act of 1965 is repealed.

COLLEGE HOUSING

SEC. 1014. (a) Section 404(b)(4) of the Housing Act of 1950 is amended by striking out "public" immediately before "educational institution".

(b) Section 401(d) of such Act is amended by inserting before the period at the end thereof the following: "and, notwithstanding the first proviso of this subsection, the amount of this annual increase which is not utilized for loans for hospitals may be utilized for loans for other educational facilities, as defined herein".

STUDY CONCERNING RELIEF OF HOMEOWNERS IN PROXIMITY TO AIRPORTS

SEC. 1015. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting "(a)" after "SEC. 1113.";

(2) by striking out "one year after the date of the enactment of this Act" and inserting in lieu thereof "six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966"; and

(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

QUARTERS AND FACILITIES FOR FEDERAL HOME LOAN BANKS AND THE FEDERAL HOME LOAN BANK BOARD

SEC. 1016. (a) The second sentence of section 12 of the Federal Home Loan Bank Act (12 U.S.C. 1432) is amended by striking out "but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease" and inserting in lieu thereof "but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease".

(b) Section 18 of such Act (12 U.S.C. 1438) is amended—

(1) by adding at the end of subsection (b) the following new sentence: "Such assessments may include such amounts as the board may deem advisable for carrying out the provisions of subsection (c) of this section."; and

(2) by adding at the end thereof the following new subsection:

"(c) (1) The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the 'Administrator'), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—

"(A) to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;

"(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to

provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

"(C) to enlarge, remodel, or reconstruct any of the same; and

"(D) to make or enter into contracts for any of the foregoing.

"(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of $4\frac{1}{2}$ per centum per annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

"(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

"(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

"(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in the subsection, the term 'property' shall include interests in property.

"(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms 'wholly owned Government corporations' and 'Government corporations', wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. The first budget program shall be for the first full fiscal year beginning on or after the date

of the enactment of this subsection, and the first audit shall be for the remainder of the fiscal year in which this subsection is enacted. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413—5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

"(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000, or such greater amount as may be provided in an appropriation Act or other law."

SMALL BUSINESS ACT

SEC. 1017. Paragraph (1) of section 8(b) of the Small Business Act is amended by inserting "(A)" after "(1)", by inserting "and" after "Administration;", and by adding at the end thereof a new subparagraph as follows:

"(B) to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;"

USE OF CERTAIN LANDS FOR CIVILIAN DEFENSE PURPOSES

SEC. 1018. Section 2 of the Act entitled "An Act to provide for the conveyance of a tract of land in Prince Georges County, Maryland, to the State of Maryland for use as a site for a National Guard Armory and for training the National Guard or for other military purposes", approved August 10, 1949 (63 Stat. 592), is amended by striking out "The land" and inserting in lieu thereof "(a) Except as provided in subsection (b) of this section, the land" and by adding at the end thereof the following new subsection:

"(b) The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable."

MORTGAGE INSURANCE FOR LAND DEVELOPMENT— CLARIFYING AMENDMENTS

SEC. 1019. Section 1001(d) of the National Housing Act is amended—

(1) by striking out "sewerage disposal installations," and inserting in lieu thereof "sewage disposal installations, steam, gas, and electric lines and installations,";

(2) by striking out the semicolon after "or common use", and inserting in lieu thereof a period and the following new sentence: "Related uses may include industrial uses, with sites for such uses to be in proper proportion to the size and scope of the development.";

(3) by striking out "but such term" and inserting in lieu thereof: "The term improvements"; and

(4) by inserting after "sewage disposal installation," in clause (1) the following: "or a steam, gas, or electric line or installation,".

MISCELLANEOUS AND TECHNICAL AMENDMENTS

SEC. 1020. (a) Section 106(d) of the Housing Act of 1949 is repealed.

(b) Section 227(a) of the National Housing Act is amended by striking out "subsection (b)(2)" in clause (vi) and inserting in lieu thereof "subsection (b)".

(c) The last sentence of section 305(e) of the National Housing Act is amended by striking out "supplementing" and inserting in lieu thereof "supplementary".

(d) Section 308 of the National Housing Act is amended by striking out "a".

(e) Section 512 of the National Housing Act is amended by striking out "or IX" and inserting in lieu thereof "IX, X, or XI".

(f) Section 1001(c) of the National Housing Act is amended by striking out "mortgage" and inserting in lieu thereof "mortgagee".

(g) Section 1 of the National Housing Act is amended by striking out "and X" wherever it appears and inserting in lieu thereof "X, and XI".

(h) Section 102(h) of the Housing Amendments of 1955 is amended by striking out "section 213 of the National Housing Act, as amended, the Commissioner" and inserting in lieu thereof "section 213 of the National Housing Act, section 221(d)(3) of the National Housing Act, and section 101 of the Housing and Urban Development Act of 1965 (insofar as the provisions of such sections relate to cooperative housing), the Secretary of Housing and Urban Development", and by striking out "such section" each place it appears and inserting in lieu thereof "such sections".

And the House agree to the same.

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

The House struck out all of the Senate bill after the enacting clause and inserted a substitute amendment. The committee of conference has agreed to a substitute for both the House amendment and the Senate bill. Except for technical, clarifying, and conforming changes, the following statement explains the differences between the House amendment and the substitute agreed to in conference.

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Priority of use of demonstration grant funds

The House amendment provided that grants under the demonstration cities program would be used either for federally assisted projects or for other projects undertaken as part of such a program. The Senate bill provided that such grants shall be used to assist new projects not federally assisted and only if not necessary for such projects may they be used for federally assisted projects. The conference report contains the Senate language.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Metropolitan expediter

The Senate bill contained a provision not included in the House amendment authorizing the appointment of a metropolitan expediter upon request of local officials and after consultation with local officials. The conference report contains the Senate language with a modification requiring that the central city in any metropolitan area must request the appointment of such an official. The conferees wish to emphasize that this expediter is intended to be the servant of the cities in the metropolitan area, and his functions are limited to providing information, data, and assistance to local authorities and private individuals and entities in the area.

TITLE III—FHA INSURANCE OPERATIONS

Cooperative housing

The House amendment contained provisions increasing each of the per family unit limitations under FHA section 213, cooperative housing program by \$2,500 and authorizing additional exterior land improvement to be financed under that program. The Senate bill contained neither provision and none is contained in the conference report.

Eligibility for occupancy for section 221(d)(3) below-market-interest-rate housing

The House amendment contained a provision prohibiting occupancy of section 221(d)(3) below-market-interest-rate housing by families with an annual income of \$10,000 or more. The Senate bill contained no such provision and none is contained in the conference report. The conferees, however, wish to emphasize that they expect the Secretary of Housing and Urban Development to limit this program to families of greatest need. The conferees recognize, of course, that higher ceilings are necessary in high-cost areas and for large families.

Armed services housing mortgage insurance program

The House amendment contained a provision which would have reactivated the Capehart FHA insurance program for the armed services. There was no such provision in the Senate bill and none is contained in the conference report.

FHA section 810 program

The House amendment contained a provision increasing from 5,000 to 10,000 the maximum number of units which may be covered by mortgages insured under FHA's program for off-base rental housing for the military. The House amendment would also have permitted additional types of mortgagors under this program. There were no comparable provisions in the Senate bill and none are contained in the conference report.

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

The House amendment contained a provision not included in the Senate bill increasing the maximum mortgage from \$10 million to \$25 million which FHA can insure for land development and authorizing this assistance for entire new communities. The conference report contains the House provision with three amendments which would terminate this authority on October 1, 1972; would require approval of any new community by the local governing body and by the Governor of the State (except in "home rule" cases); and would limit the total amount of insurance which can be outstanding under this provision at any one time to \$250 million.

TITLE V—MORTGAGE INSURANCE FOR GROUP MEDICAL PRACTICE FACILITIES

The House amendment contained a provision authorizing FHA mortgage insurance for group practice medical facilities. The conference report retains this provision, with an amendment providing

that, while both profitmaking and nonprofit groups may participate in the program, the actual mortgagor under the new program must be a private nonprofit corporation.

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

Loans for acquisition and rehabilitation of historic structures

The House amendment contained a provision authorizing the use of below-market interest rate loans under section 312 of the Housing Act of 1964 for historic preservation purposes. There was no such provision in the Senate bill and none is contained in the conference report.

TITLE VII—URBAN RENEWAL

Local grants-in-aid

The House amendment contained a provision authorizing the Secretary to count as local credit for urban renewal purposes 25 percent of the cost of public facilities for cultural, exhibition, civic, or municipal purposes subject to certain other requirements. The conference report retains this provision with two amendments. First, the word "municipal" is stricken and the phrase "city hall or public safety building" is inserted, and second, certain medical facilities and mental health facilities could be included. Such credit would be limited to 25 percent of the cost of such facility or \$3.5 million, whichever is less. The conferees wish to emphasize that this provision is not intended as a "blank check" for the inclusion of such projects for urban renewal credit purposes and the provision includes the requirement that any such local project must "contribute materially to the objectives of the urban renewal plan or plans for such project or projects." The conferees further expect the Department of Housing and Urban Development to report back to the Congress by January of 1967 on the potential cost of section 701 of this act, together with recommendations for changes in existing law affecting local grants-in-aid.

Application of prevailing wage requirements to multifamily housing in urban renewal areas

The House amendment contained a provision which would have applied the Davis-Bacon Act prevailing wage requirement to conventionally financed multifamily housing built in urban renewal areas. There was no such provision in the Senate bill and none is contained in the conference report.

Grant-in-aid credit under section 112 of the Housing Act of 1941

The House amendment contained a provision defining the term "in the vicinity" as used in connection with local credits under urban renewal for certain expenditures by universities and hospitals to mean 1 mile and further giving the Secretary discretion to recognize expenditures beyond the 1-mile limit where he felt the facts justified it. The conference report contains the 1-mile provision but does not contain the discretionary authority beyond 1 mile.

Sewer systems in urban renewal areas

The House amendment contained a provision which would have required urban renewal areas to be served by storm sewer systems separate from sanitary sewer systems. There was no such provision

in the Senate bill. The conference report contains a provision requiring that to the maximum extent feasible urban renewal areas must be served by effective systems for the treatment of storm and sanitary wastes.

TITLE IX—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

The Senate bill contained a provision authorizing matching grants (limited to appropriations of \$5 million for fiscal year 1967 and \$10 million for fiscal 1968) to States and metropolitan area agencies for the establishment of urban information and technical assistance centers. The conference report contains a provision authorizing matching grants through the States for technical assistance for communities up to 100,000 population, and authorizes the appropriation of \$2.5 million in fiscal 1967 and \$5 million for fiscal 1968 for this purpose.

TITLE X—MISCELLANEOUS

Low-rent housing in private accommodations

The House amendment contained a provision extending the maximum term of lease from 36 months to 60 months for private accommodations to be used as public housing but restricted the longer term to housing needed for displaced families. The conference report retained the increase in the maximum term to 60 months but does not restrict it to housing for displaced families.

Open-space grants for development of existing open-space land

The House amendment had a provision authorizing grants under the open space program for the development of land already owned by a municipality. There was no such provision in the Senate bill and none is contained in the conference report.

Acquisition of property in areas affected by the closing of military bases

The House amendment had a provision authorizing the Secretary of Defense to acquire the homes of property owners in areas affected by the closing of military bases or to make certain payments where the property had already been sold by the owner or the owner had lost it through foreclosure. The conference report contains the House amendment with perfecting modifications.

Leasing of housing for bachelor military personnel

The House amendment contained a provision authorizing the Secretary of Defense to lease for periods of up to 15 years appropriate housing for use as bachelor officer quarters. There was no comparable provision in the Senate bill and none is contained in the conference report.

Hydrology research

The House amendment contained a provision authorizing HUD to conduct studies and research concerning urban hydrology. There was no comparable provision in the Senate bill and none is contained in the conference report.

Studies of State laws affecting cities

The House amendment contained a provision authorizing the limited use of urban planning grant funds for studies of State laws affecting municipalities. This is retained in the conference report but the conferees wish to make clear that it is not intended that these funds be used in any way for lobbying State legislatures.

Certain items not included in the conference report

The Senate conferees strongly urged the adoption of five provisions approved by the Senate. These were: FHA mortgage insurance for seasonal homes, fellowships for graduate training in historic preservation, clarification of existing authority for the leasing of privately built housing for use as public housing, authority for FNMA to purchase mortgages insured or guaranteed prior to August 2, 1954, and a provision to conform to nomenclature used in various housing laws to reflect the creation of the Department of Housing and Urban Development. While the House conferees were impressed with the merits of these provisions, it was felt that they could not be accepted at this time, but there was agreement that the House Committee on Banking and Currency would take prompt action on them early next year.

WRIGHT PATMAN,
ABRAHAM J. MULTER,
WM. A. BARRETT,

HENRY S. REUSS,
THOMAS L. ASHLEY,
WILLIAM B. WIDNALL,

Managers on the Part of the House.

pollution control facilities, by the Secretary of the Interior. Under Senate amendment no. 22, the certification with respect to air pollution control facilities is to be made by Secretary of Health, Education, and Welfare. The House recedes.

RAILROAD ROLLING STOCK AND HIGHWAY TRAILERS AND SEMITRAILERS

Amendment No. 23: Under this amendment, property which is railroad rolling stock designed to carry freight solely or highway trailers and semitrailers of the type used in commercial freight transportation would be treated as property which is not suspension period property.

The Senate recedes.

CERTAIN OTHER RAILROAD ROLLING STOCK

Amendment No. 24: Under this amendment, railroad rolling stock especially designed and used for local or suburban commuter services would be treated as property which is not suspension period property. The Senate recedes.

NEW UHF TELEVISION STATIONS

Amendment No. 25: Under this amendment, certain property constructed, reconstructed, erected, or acquired for an ultra-high frequency television station which had been authorized by the Federal Communications Commission before October 10, 1966, would be treated as property which is not suspension period property.

The Senate recedes.

CARGO AIRCRAFT

Amendment No. 26: Under this amendment, certain cargo aircraft acquired for use by air carriers and to be delivered after July 1, 1968, would be treated as property which is not suspension period property.

The Senate recedes.

REPLACEMENT PROPERTY

Amendment No. 27: Under this amendment, property constructed, reconstructed, erected, or acquired by the taxpayer, to the extent it is placed in service to replace property which is destroyed or damaged by fire, storm, shipwreck, or other casualty, or is stolen, is to be treated as property which is not suspension period property.

The House recedes with an amendment. Under the conference agreement, the rule contained in the proposed section 48(h) (13) of the code is to apply only to the extent that the basis (in the case of new replacement property) or the cost (in the case of used replacement property) does not exceed the adjusted basis of the property which is destroyed, damaged, or stolen.

EXEMPTION FROM SUSPENSION

Amendment No. 29: The bill as passed by the House provides, in the proposed new section 48(i) of the code, that property, which would otherwise be suspension period property, acquired by the taxpayer by purchase for use in his trade of business is not to be treated as suspension period property to the extent of items (selected by the taxpayer) having an aggregate cost of \$15,000 for the suspension period. Senate amendment No. 29 increased this exemption to \$25,000.

The House recedes with an amendment under which the amount of the exemption is \$20,000.

CERTAIN LEASED PROPERTY

Amendment No. 33: This amendment adds a new sentence to section 48(d) of the code (relating to certain leased property) which provides that where (1) section 38 property is leased after October 9, 1966 (except pursuant to a binding contract in effect on such date), (2) the property is not suspension period property in the hands of the lessor but would be suspension period property if acquired by the lessee, and (3) the property is of the same kind that the lessor ordinarily sold to customers before October 10, 1966 (or ordinarily leased and made the election under

section 48(d) of the code), the lessor will be deemed to have made an election under section 48(d) with respect to such property. Thus, the lessee will be deemed to have acquired such property and the lessor will not be eligible for the investment credit with respect to such property. The House recedes.

EXEMPTION FROM DENIAL OF ACCELERATED DEPRECIATION

Amendment No. 35: Under the bill as passed by the House a new subsection (i) is added to section 167 of the code (relating to depreciation). The new subsection denies (with certain exceptions) the accelerated methods of computing depreciation with respect to new property which were first permitted by the enactment of the 1954 code if (1) the physical construction, reconstruction, or erection of the property by any person begins during the suspension period, or (2) an order for such construction, reconstruction, or erection is placed by any person during the suspension period.

Senate amendment No. 35 exempted from this rule any item of real property selected by the taxpayer if the cost of such property (when added to the cost of other items selected by the taxpayer) does not exceed \$100,000.

The House recedes with an amendment under which the amount of this exemption is \$50,000.

HOUSING BUILT ON NONNAVIGABLE WATERS

Amendment No. 36: This amendment provided an exception to the rule for denial of accelerated depreciation (described with respect to Senate amendment No. 35) for any item of real property on which housing is built if such housing could not have been provided but for the enactment of section 307 or 309 of Public Law 89-286.

The Senate recedes.

RETIREMENT AND SAVINGS BONDS

Amendment No. 40: This amendment adds a new section 22A to the Second Liberty Bond Act authorizing the issuance of United States retirement and savings bonds.

The new series of retirement and savings bonds (1) may be issued only on a discount basis (2) shall have maturities of not less than 10 nor more than 30 years, and (3) shall be redeemable before maturity on such terms and conditions as the Secretary of the Treasury may prescribe. If held to maturity, the new bonds would provide an investment yield (as prescribed by the Secretary of the Treasury) of not more than 5 percent per annum, compounded semiannually, or a higher rate if so prescribed by the Secretary with the approval of the President. The Secretary is authorized to limit the amount of the new bonds issued in any one year which may be held by any individual (but not below \$3,000).

Other provisions of the new section 22A of the Second Liberty Bond Act are similar, in general, to the provisions of law applicable to series E savings bonds.

The House recedes with clarifying amendments and with an amendment which eliminates the authority of the Secretary of the Treasury, with the approval of the President, to prescribe a rate of investment yield for the new retirement and savings bonds in excess of 5 percent per annum, compounded semiannually.

PROFESSIONAL FOOTBALL LEAGUES

Amendment No. 41: This amendment adds a new section to the bill which amends the Internal Revenue Code of 1954 and the Act of September 30, 1961, with respect to professional football leagues.

Section 501(c) (6) of the code provides, in effect, exemption from income tax for business leagues, chambers of commerce, real estate boards, or boards of trade, not organized for profit and no part of the net earn-

ings of which inures to the benefit of any private shareholder or individual. Professional football leagues, which are not organized for profit and no part of the net earnings of which inures to the benefit of any private shareholder or individual, have been held to qualify for tax exemption under this provision of the code.

Subsection (a) of the new section amends this provision to include, among the organizations specifically enumerated, professional football leagues, whether or not administering a pension fund for football players. Thus, under the amendment, in determining for purposes of section 506(c) (6) of the code whether any part of the net earnings of a professional football league inures to the benefit of any private shareholder or individual, there is not to be taken into account the fact that the league administers a pension fund for football players.

Subsection (b) of the new section amends section 512(b) of the code to provide that, in determining the unrelated business taxable income of organizations subject to the tax imposed by section 511 of the code, there was to be excluded all income derived from promoting or sponsoring any professional football game if such promotion or sponsorship does not occur more than four times during the taxable year with respect to any team.

Paragraph (1) of subsection (c) of the new section amends section 1 of the Act of September 30, 1961 (75 Stat. 732; 15 U.S.C. 1291). The amendment provides that the antitrust laws, as defined in section 1 of the Act of October 15, 1914, as amended, or in the Federal Trade Commission Act, as amended, shall not apply to a joint agreement by which the member clubs of two or more professional football leagues, which are exempt from income tax under section 501(c) (6) of the Internal Revenue Code of 1954, combine their operations in an expanded single league so exempt from income tax, if such agreement increases rather than decreases the number of professional football clubs so operating, and the provisions of which are directly relevant thereto.

The amendment to the Act of September 30, 1961, would not extend to the combined league any greater antitrust immunity than that now existing for the existing professional football leagues. The amendment does not seek to resolve any of the antitrust problems of professional football or the other professional team sports. It is the intent of the conferees, both on the part of the House and of the Senate, that the new league will commence operations with no greater antitrust immunity than the existing individual leagues now enjoy. The sole effect of this amendment to the Act of September 30, 1961, is to permit the combination of the two leagues to go forward without fear of antitrust challenge based upon a joint agreement between the member clubs of two leagues to combine in a single league and to conduct their affairs as members of a single league.

Paragraph (2) of subsection (c) of the new section makes a technical conforming amendment to section 2 of the Act of September 30, 1961.

Paragraph (3) of subsection (c) of the new section amends section 3 of the Act of September 30, 1961, to extend to high schools the same protection from telecasting of professional football games that is accorded to colleges. This protection prohibits the telecasting of a professional football game from a telecasting station located within 75 miles of the game site of a college or high school game. The protection extends from 6:00 p.m. on Friday (beginning with the second Friday in September of each year) through Saturday of each week (ending on the second Saturday in December of each year).

Subsection (d) of the new section provides that the amendments made by this section

to the Internal Revenue Code are to apply to taxable years ending after the date of the enactment of the bill.

The House recedes with clerical and conforming amendments and with an amendment which strikes out the amendment described above to section 512(b) of the code.

REDUCTION IN FEDERAL CIVILIAN EMPLOYMENT

Amendment No. 42: This amendment added a new section to the bill which would require, in effect, that, with certain exceptions, only 25 percent of the vacancies occurring in civilian positions in the executive branch of the Government could be filled during any month if at the end of the preceding month the number of civilian employees exceeded a number equal to the number of such employees on September 30, 1966, minus 200,000.

The Senate recedes.

W. D. MILLS,

LEGISLATIVE PROGRAM

(Mr. BOGGS asked and was given permission to address the House for 1 minute.)

Mr. BOGGS. Mr. Speaker, I would like to announce that when time permits, a number of bills that have been reported unanimously by the Committee on Ways and Means will be called up and I ask unanimous consent that the list of bills be printed in the RECORD.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

The bills are as follows:

H.R. 5950 (PELLEY)—free importation of limestone used in cement.

H.R. 7030 (BATTIN)—certain assessments for depreciable property.

H.R. 8244 (HERLONG)—computation of cigar tax.

H.R. 9280 (TALCOTT)—exempting from excise tax shells and cartridges used in preventing crop damage by birds.

H.R. 11158 (MILLS)—working capital fund for Treasury.

H.R. 11753 (BRAY)—spectrometer, Indiana U.

H.R. 12110 (MINSHALL)—ship model, Lutheran Church.

H.R. 12197 (McCORMACK)—rheogoniometer, Tufts U.

H.R. 13035 (RUMSFELD)—rheogoniometer, Northwestern U.

H.R. 13190 (CONTE)—carillon, Northfield, etc.

H.R. 13363 (KING of California)—extending filing time for TSUS refunds.

H.R. 13455 (RHODES of Pennsylvania)—payment of podiatrists' services under SML.

H.R. 13739 (NIX)—spectrograph, Pennsylvania U.

H.R. 14388 (THOMPSON, N.J.)—spectrometer, Princeton U.

H.R. 14610 (ICHORD)—diffractometer, Missouri U.

H.R. 14893 (ROSTENKOWSKI)—ionosonde, Illinois U.

H.R. 15888 (TUNNEY)—carillon, California U.

H.R. 16077 (BOGGS)—free importation of dicyandiamide.

H.R. 16160 (ULLMAN)—tariff classification of Chinese gooseberries.

H.R. 17271 (BYRNES of Wisconsin)—tax treatment, combat pay.

H.R. 18085 (MILLS)—widow's and step-child's benefits.

H.R. 18230 (WATTS)—indirect purchase of stock (liquidation of subsidiaries).

S. 1013 (SALTONSTALL)—requiring annual Treasury report re national debt and tax structure.

H.R. 13116 (GRIFFITHS)—Duty on certain nonmalleable iron castings.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

Mr. PATMAN submitted the following conference report and statement on the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes:

CONFERENCE REPORT (H. REPT. NO. 2301)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the House amendment insert the following:

"That this Act may be cited as the 'Demonstration Cities and Metropolitan Development Act of 1966'.

"TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Findings and declaration of purpose

"Sec. 101. The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.

"The Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical problems facing them, and that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

"The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand

housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

"Basic authority

"Sec. 102. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112(2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.

"Eligibility for assistance

"Sec. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

"(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

"(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

"(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation, and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

"(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning for the entire urban or metropolitan area; and the locality will

maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

"(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title: Provided, That the authority of the Secretary under this paragraph shall not be used to impose criteria or establish requirements except those which are related and essential to the specific provisions of this title.

"(b) In implementing this title the Secretary shall—

"(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

"(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

"(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

"(c) The preparation of demonstration city programs should include to the maximum extent feasible (1) the performance of analyses that provide explicit and systematic comparisons of the costs and benefits, financial and otherwise, of alternative possible actions or courses of action designed to fulfill urban needs; and (2) the establishment of programing systems designed to assure effective use of such analyses by city demonstration agencies and by other government bodies.

"(d) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program (1) by which pupils now resident in a school district not within the confines of the area covered by the city demonstration program shall be transferred to a school or school district including all or part of such area, or (2) by which pupils now resident in a school district within the confines of the area covered by the city demonstration program shall be transferred to a school or school district not including a part of such area.

"Financial assistance for planning comprehensive city demonstration programs"

"SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

"(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

"Financial assistance for approved comprehensive city demonstration programs"

"SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

"(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

"(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

"(d) Grant funds provided to assist projects and activities included within an approved comprehensive city demonstration program pursuant to subsection (c) of this section shall be made available to assist new and additional projects and activities not assisted under a Federal grant-in-aid program. To the extent such funds are not necessary to support fully such new and additional projects and activities, they may be used and credited as part or all of the required non-Federal contribution to projects or activities, assisted under a Federal grant-in-aid program, which are part of an approved comprehensive city demonstration program. Such grant funds, however, shall not be used—

"(1) for the general administration of local governments; or

"(2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive city demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

"Technical assistance"

"SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, tech-

nical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

"Relocation requirements and payments"

"SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of housing for all such families and individuals throughout the city.

"(b) (1) To the extent not otherwise authorized under any Federal law, financial assistance extended to a city demonstration agency under section 105 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 105.

"(2) The term 'relocation payments' means payments by a city demonstration agency to a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by section 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

"(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date of the enactment of this Act.

"Continued availability of Federal grant-in-aid program funds"

"SEC. 108. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and undertaken in connection with an approved comprehensive city demonstration program shall remain available until expended.

"Consultation"

"SEC. 109. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105.

"Labor standards"

"SEC. 110. (a) All laborers and mechanics employed by contractors or subcontractors in the construction, rehabilitation, alteration, or repair of projects which—

"(1) are federally assisted in whole or in part under this title and

"(2) are not otherwise subject to section 212 of the National Housing Act, section 16(2) of the United States Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction,

shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5): *Provided*, That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

"(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work Hours Standards Act (76 Stat. 357).

"Appropriations

"SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 104 and 106, not to exceed \$12,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

"(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

"(c) Appropriations authorized under this section shall remain available until expended.

"Definitions

"SEC. 112. As used in this title—

"(1) 'Federal grant-in-aid program' means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

"(2) 'City demonstration agency' means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

"(3) 'City' means any municipality (or two or more municipalities acting jointly) or any county or other public body (or two or more acting jointly) having general governmental powers.

"(4) 'Local' agencies include State agencies and instrumentalities providing services or resources to a city or locality, and 'local' resources include those provided to a city or locality by a State or its agency or instrumentality.

"Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

"SEC. 113. Section 103(b) of the Housing Act of 1949 is amended by inserting after the first sentence the following new sentence: 'In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration

program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966.'

"State limit

"SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

"TITLE II—PLANNED METROPOLITAN DEVELOPMENT

"Findings and declaration of purpose

"SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

"It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

"It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

"It further finds that present requirements for areawide planning and programming in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

"(b) It is the purpose of this title to provide, through greater coordination of Federal programs and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive metropolitan planning and programming effective.

"Cooperation between Federal agencies

"SEC. 202. In order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner—

"(1) the Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development, and to assist the President in coordinating the metropolitan development efforts of all Federal agencies; and

"(2) all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

"Metropolitan expeditors

"SEC. 203. Upon the request of the duly authorized local officials of the central city in any metropolitan area, and after consultation with local governmental authorities throughout the metropolitan area with respect to whether or not the Secretary should make an appointment under this section (and with respect to the individuals who might be so appointed), the Secretary may appoint a metropolitan expeditor for such area whenever he finds a need for the services specified in this section. The metropolitan expeditor shall provide information,

data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

"Coordination of Federal aids in metropolitan areas

"SEC. 204. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—

"(1) to any areawide agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used, and which is, to the greatest practicable extent, composed of or responsible to the elected officials of a unit of areawide government or of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning, and

"(2) if made by a special purpose unit of local government, to the unit or units of general local government with authority to operate in the area within which the project is to be located.

"(b) (1) Except as provided in paragraph (2) of this subsection, each application shall be accompanied (A) by the comments and recommendations with respect to the project involved by the areawide agency and governing bodies of the units of general local government to which the application has been submitted for review, and (B) by a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application. Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this paragraph shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

"(2) An application for a Federal loan or grant need not be accompanied by the comments and recommendations and the statements referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before an appropriate areawide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

"(3) The requirements of paragraphs (1) and (2) shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

"(c) The Bureau of the Budget, or such other agency as may be designated by the

President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

"Grants to assist in planned metropolitan development"

"SEC. 205. (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

"(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

"(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

"(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

"(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

"(c) (1) Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities, it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

"(2) Where the applicant for a grant under this section is not a unit of general local government, both it and the unit of general local government having jurisdiction over the location of the project must meet the requirements of this subsection.

"(d) In making the determinations required under this section, the Secretary shall obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for comprehensive planning and programing for the metropolitan area.

"(e) No grant shall be made under this section with respect to a metropolitan development project for which a Federal grant has been made, or a contract of assistance has been entered into, under the legislation referred to in paragraph (2) of section 208, prior to February 21, 1966, or more than one year prior to the date on which the Secretary has made the determinations required under this section with respect to the appli-

cant and to the area in which the project is located: *Provided*, That in the case of a project for which a contract of assistance under the legislation referred to in paragraph (2) of section 208 has been entered into after June 30, 1967, no grant shall be made under this section unless an application for such grant has been made on or before the date of such contract.

"(f) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program to achieve a racial balance or to eliminate racial imbalance within school districts within the metropolitanwide area.

"Extent of grant"

"SEC. 206. (a) A grant under section 205 shall not exceed (1) 20 per centum of the cost of the project for which the grant is made; nor (2) the Federal grant made with respect to the project under the legislation referred to in paragraph (2) of section 208. In no case shall the total Federal contributions to the cost of such project be more than 80 per centum. Notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under section 205 shall be eligible for inclusion (directly or through refunds or credits) as part of the financing for such projects: *Provided*, That projects or activities on the basis of which assistance is provided under section 105(c) shall not be eligible for assistance under section 205.

"(b) There are authorized to be appropriated for grants under section 205 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

"Consultation and certification"

"SEC. 207. In carrying out his authority under section 205, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 206, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

"Definitions"

"SEC. 208. As used in this title—

"(1) 'Metropolitan development' means all projects or programs for the acquisition, use, and development of open-space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

"(2) 'Metropolitan development project' means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; title II of the Library Services and Construction Act; section 606 of the Public Health Service Act; section 8 of the Federal Water Pollution Control Act; section 120(a) of title 23, United States Code; section 12 of the Federal Airport Act; section 3 of the Urban Mass Transportation Act of 1964; title VII of the Housing Act of 1961; or section 5(e) of the Land and Water Conservation Fund Act of 1965; or under section 101(a)(1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under any of the other provisions listed above).

"(3) 'State' means any State of the United

States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or an agency or instrumentality of any of the foregoing.

"(4) 'Metropolitan area' means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

"(5) 'Comprehensive planning' includes the following, to the extent directly related to area needs or needs of a unit of general local government: (A) preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities; (B) programing of capital improvements based on a determination of relative urgency; (C) long-range fiscal plans for implementing such plans and programs; and (D) proposed regulatory and administrative measures which aid in achieving coordination of all related plans of the departments or subdivisions of the governments concerned and intergovernmental coordination of related planned activities among the State and local governmental agencies concerned.

"(6) 'Hospital' means any public health center or general, tuberculosis, mental, chronic disease, or other type of hospital and related facilities, such as laboratories, outpatient departments, nurses' home and training facilities, and central service facilities normally operated in connection with hospitals, but does not include any hospital furnishing primarily domiciliary care.

"(7) 'Areawide agency' means an official State or metropolitan or regional agency empowered under State or local laws or under an interstate compact or agreement to perform comprehensive planning in an area; an organization of the type referred to in section 701(g) of the Housing Act of 1954; or such other agency or instrumentality as may be designated by the Governor (or, in the case of metropolitan areas crossing State lines, any one or more of such agencies or instrumentalities as may be designated by the Governors of the States involved) to perform such planning.

"(8) 'Special purpose unit of local government' means any special district, public-purpose corporation, or other limited-purpose political subdivision of a State, but shall not include a school district.

"(9) 'Unit of general local government' means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

"(10) 'Secretary' means the Secretary of Housing and Urban Development.

"State limit"

"SEC. 209. Grants made under section 205 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated pursuant to section 206(b).

"TITLE III—FHA INSURANCE OPERATIONS"

"FHA mortgage financing for veterans"

"SEC. 301. The next to last sentence of section 203(b)(2) of the National Housing Act is amended by striking out 'If the mortgagor is a veteran who has not received any direct, guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home,' and inserting in lieu thereof the following: 'If the mortgagor is a veteran,'

"Areas affected by civil disorders"

"SEC. 302. Section 203 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(1) The Secretary is authorized to insure under this section any mortgage meeting the

requirements of this section, other than the requirement in subsection (c) relating to economic soundness, if he determines that (1) the dwelling covered by the mortgage is situated in an area in which rioting or other civil disorders have occurred or are threatened, (2) as a result of such actual or threatened rioting or other disorders the property with respect to which the mortgage is executed cannot meet the normal requirements with respect to economic soundness, and (3) such property is an acceptable risk giving due consideration to the need for providing adequate housing for families of low and moderate income in such area.

"Cooperative housing insurance fund"

"SEC. 303. (a) Section 213(m) of the National Housing Act is amended by striking out 'but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe'.

"(b) Section 213(n) of such Act is amended—

"(1) by striking out 'insured under this section and sections 207, 231, and 232' and inserting in lieu thereof 'the insurance of which is the obligation of either the Management Fund or the General Insurance Fund'; and

"(2) by adding at the end thereof the following new sentence: 'Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in debentures which are the obligation of either the Management Fund or the General Insurance Fund.'

"(c) (1) The fourth sentence of section 213(k) of such Act is amended to read as follows: 'The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate.'

"(2) The second proviso in section 213(1) of such Act is amended by striking out 'pursuant to subsection (k) or (o)' and inserting in lieu thereof 'pursuant to subsection (o)'.

"Supplementary financing for cooperative housing"

"SEC. 304. Section 213(j) (2) (A) of the National Housing Act is amended by adding at the end thereof the following: 'except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b)';

"Mortgage limits under section 220 sales housing mortgage insurance program"

"SEC. 305. (a) Section 220(d) (3) (A) (1) of the National Housing Act is amended by striking out '(3) 75 per centum of such replacement cost in excess of \$20,000' and inserting in lieu thereof '(3) 80 per centum of such replacement cost in excess of \$20,000'.

"(b) Section 220(d) (3) (A) (1) of such Act is further amended by adding before the semicolon at the end thereof the following: 'Provided further, That if the mortgagor is

a veteran and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (1) 100 per centum of \$15,000 of the Commissioner's estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, and (3) 85 per centum of such replacement cost in excess of \$20,000. As used herein, the term 'veteran' means any person who served on active duty in the Armed Forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable'.

"Increased mortgage limitations under section 220(d) (3) (B) for small projects containing larger family dwelling units"

"SEC. 306. (a) Section 220(d) (3) (B) (iii) of the National Housing Act is amended by inserting after 'and except that' the following: 'with respect to rehabilitation projects involving not more than five family units, the Secretary may be regulation increase by 25 per centum any of the foregoing dollar amount limitations contained in this clause which are applicable to units with two, three, or four or more bedrooms: *Provided, That*'.

"(b) Section 220(d) (3) (B) (iii) of such Act is further amended—

"(1) by inserting immediately before 'by not to exceed 45 per centum' the following: '(as determined after the application of the preceding proviso)'; and

"(2) by striking out '*Provided, That nothing*' and inserting in lieu thereof '*Provided further, That nothing*'.

"Mortgage limits for homes under section 221(d) (2)"

"SEC. 307. Section 221(d) (2) (A) of the National Housing Act is amended by striking out '\$11,000' and '\$18,000' and inserting in lieu thereof '\$12,500' and '\$20,000', respectively.

"Nondwelling facilities in section 221 projects in urban renewal areas"

"SEC. 308. Section 221(f) of the National Housing Act is amended by inserting before the period at the end of the first sentence the following: 'Provided, That in the case of any such property or project located in an urban renewal area, the provisions of section 220(d) (3) (B) (iv) shall apply with respect to the nondwelling facilities which may be included in the mortgage if the mortgagor waives the right to receive dividends on its equity investment in the portion thereof devoted to community and shopping facilities'.

"Single occupants in section 221(d) (3) housing"

"SEC. 309. Section 221(f) of the National Housing Act is amended by adding at the end thereof the following new sentence: 'Low- and moderate-income persons who are less than 62 years of age shall be eligible for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d) (3), but not more than 10 per centum of the dwelling units in any such project shall be available for occupancy by such persons.'

"INSURANCE OF MORTGAGES UNDER SECTION 221 TO FINANCE PURCHASE AND REHABILITATION BY NONPROFIT ORGANIZATIONS OF HOUSING FOR RESALE TO LOW-INCOME PURCHASERS"

"SEC. 310. (a) Section 221 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(h) (1) In addition to mortgages insured under the other provisions of this sec-

tion, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

"(2) To be eligible for insurance under paragraph (1) of this subsection, a mortgage shall—

"(A) be executed by a private nonprofit corporation or association approved for purposes of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided;

"(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

"(C) be in a principal amount not exceeding the appraised value of the property at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

"(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d) (5) at the time of execution;

"(E) provide for complete amortization (subject to paragraph (5) (E)) by periodic payments within such term as the Secretary may prescribe; and

"(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

"(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary that (A) the property to be rehabilitated is located in a neighborhood which is sufficiently stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

"(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

"(5) (A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as 'low-income purchasers') determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c) (1) of the Housing and Urban Development Act of 1965.

"(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

"(i) be in a principal amount equal to that portion of the unpaid balance of the

principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

"(11) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

"(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

"(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as though they constituted rental units in a project covered by a mortgage which is insured under subsection (d) (3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d) (5)).

"(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

"(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy the property the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) then nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary.

"(b) (1) Section 221(g) (1) of such Act is amended by inserting after 'paragraph (2) of subsection (d) of this section' the following: 'or paragraph (5) of subsection (h) of this section'.

"(2) Section 221(g) (2) of such Act is amended by inserting after 'paragraph (3) or (4) of subsection (d) of this section' the following: 'or paragraph (1) of subsection (h) of this section'.

"(c) Section 221(f) of such Act is amended by inserting after 'Housing Act of 1961,' in the fourth sentence 'or which meet the requirements of subsection (h),'.

"(d) Section 305(h) of such Act is amended by striking out 'section 221(d) (3)' and inserting in lieu thereof 'sections 221(d) (3) and 221(h)'.

"Application of Davis-Bacon Act to cooperative housing projects insured under section 221 (d) (3) and (d) (4) and mortgages insured under section 221(h) (1)

"SEC. 311. The third sentence of section 212(a) of the National Housing Act is amended by striking out 'subsection (d) (3) or (d) (4),' and inserting in lieu thereof 'subsection (d) (3) or (d) (4) and deeming the term "construction" as used in the first sentence of this subsection to mean rehabilitation) of any mortgage described in subsection (h) (1) which covers property on which there is located a dwelling or dwellings designed principally for residential use for more than eight families; except that compliance with such provisions may be waived by the Secretary—

"(1) with respect to mortgages described in such subsection (d) (3) or (d) (4), in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construction of the project) voluntarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction, and

"(2) with respect to mortgages described in such subsection (h) (1), in cases or classes of cases where prospective owners of such dwellings voluntarily donate their services without compensation, or other persons (not otherwise employed at any time in the rehabilitation of the property) voluntarily donate their services without compensation, and the Secretary determines that any amounts saved thereby are fully credited to the nonprofit organization undertaking the rehabilitation."

"Waiver of deduction on assignment of property to Secretary in lieu of foreclosure"

"SEC. 312. Title V of the National Housing Act is amended by adding at the end thereof the following new section:

"Waiver of deduction on assignment of property to Secretary in lieu of foreclosure"

"SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multifamily housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage."

"TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES"

"Experimental mortgage insurance program for new communities"

"SEC. 401(a). Title X of the National Housing Act is amended by inserting after section 1003 the following new section 1004 and redesignating the remaining sections accordingly:

"New communities"

"SEC. 1004. (a) New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.

"(b) A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

"(1) substantial economies, made possible through large-scale development in the provision of improved residential sites;

"(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

"(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

"(4) maximum accessibility to any major central city in the area.

"(c) No development shall be approved as a new community by the Secretary under this section unless the construction of such development has been approved by the local governing body or bodies of the locality or localities in which it will be located and by the Governor of the State in which such locality or localities are situated: *Provided*, That if such locality or localities have been delegated general powers of local self-government by State law or State constitution, as determined by the Secretary, the approval of the Governor shall not be required.

"(d) The aggregate amount of mortgages insured under this title with respect to new communities approved under this section and outstanding at any one time shall not exceed \$250,000,000."

"(b) No mortgage shall be insured under title X of the National Housing Act with respect to a new community approved under section 1004 of such Act (as added by subsection (a) of this section) after October 1, 1972, except pursuant to a commitment to insure entered into before that date.

"Mortgage amount and term"

"SEC. 402 (a) Section 1002(c) of the National Housing Act is amended by striking out '\$10,000,000' and inserting in lieu thereof '\$25,000,000'.

"(b) Section 1002(d) (1) of such Act is amended to read as follows:

"(1) contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;."

"Encouragement of small builders"

"SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting 'particularly small builders,' after 'broad participation by builders,'.

"Water and sewerage facilities"

"SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended to read as follows:

"SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

"(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

"(b) in the case of systems for sewerage, the land may be served by—

"(1) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as ade-

quate by the Secretary, and which are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary; or

"(2) if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (A) which he finds consistent with other existing or prospective systems within the area, (B) which during the period of such ownership will be regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) will be otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, and rate of return, and (C) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer."

"Federal National Mortgage Association special assistance for new communities"

"Sec. 405. Section 302(b) of the National Housing Act is amended by inserting after 'or title VIII,' in the proviso the following: 'or under title X with respect to a new community approved under section 1004 thereof.'"

"Urban planning grants"

"Sec. 406. Section 701(a) (4) of the Housing Act of 1954 is amended by inserting before the semicolon at the end thereof the following: ', or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community approved under section 1004 of the National Housing Act'."

"Public facility loans"

"Sec. 407. Section 202(b) (4) of the Housing Amendments of 1955 is amended by adding before the period at the end of the second sentence the following: ', or (iii) to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act'."

"TITLE V—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES"

"Purpose"

"Sec. 501. It is the purpose of this title to assure the availability of credit on reasonable terms to units or organizations engaged in the group practice of medicine, optometry, or dentistry, particularly those in smaller communities and those sponsored by cooperative or other nonprofit organizations, to assist in financing the construction and equipment of group practice facilities."

"Establishment of program"

"Sec. 502. (a) The National Housing Act is amended by adding at the end thereof the following new title:

"TITLE XI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES"

"Insurance of mortgages"

"Sec. 1101. (a) The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date."

"(b) To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible

and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c)."

"(c) The mortgage shall—

"(1) not exceed \$5,000,000;

"(2) not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges incident to construction or rehabilitation and approved by the Secretary; "(3) have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments within such term as the Secretary shall prescribe; and

"(4) bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market."

"(d) Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee."

"(e) Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgagee, the property will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated."

"(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records."

"Premiums"

"Sec. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a

proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary."

"Payment of insurance benefits"

"Sec. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title."

"Regulations"

"Sec. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Secretary of Health, Education, and Welfare with respect to any health or medical aspects of the program under this title which may be involved in such regulations."

"Administration"

"Sec. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for and construction of such facilities."

"(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency."

"Definitions"

"Sec. 1106. For the purposes of this title—

"(1) The term 'group practice facility' means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group."

"(2) The term 'medical or dental group' means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such

persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs, and which partnership or association or group is composed of at least such professional personnel and make available at least such health services as may be provided in regulations prescribed under this title.

"(3) The term 'group practice unit or organization' means—

"(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis; or

"(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to which assistance has been requested under this title available to a medical or dental group for use by it.

"(4) The term 'nonprofit organization' means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organization for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

"(5) The term 'State' includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

"(6) The term 'mortgage' means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term 'first mortgage' means such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the realty.

"(7) The term 'mortgagee' means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

"(8) The term 'mortgagor' means the original borrower under a mortgage and his or its successors and assigns."

"(b) The first sentence of section 227 of such Act is amended by inserting after 'new or rehabilitated multifamily housing' the following: 'or a property or project described in title XI'."

"Labor standards

"SEC. 503. Section 212(a) of the National Housing Act is amended by adding at the end thereof the following new sentence: 'The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be.'

"Amendments to other Federal laws

"SEC. 504. (a) (1) The sixth sentence of paragraph 'Seventh' of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after 'Federal Home Loan Banks,' the following: 'or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act'.

"(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after 'or sections 1471-1484 of title 42,' the following: 'or which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act'.

"(b) Subsection (a) of section 304 of the Trust Indenture Act of 1939 (15 U.S.C. 77ddd) is amended by striking out the word 'or' at the end of paragraph (8); by striking out the period at the end of paragraph (9) and inserting in lieu thereof a semicolon and the word 'or'; and by adding after paragraph (9) a new paragraph as follows:

"(10) any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c(a)(2))."

"(c) Section 263 of chapter X of the Bankruptcy Act (11 U.S.C. 663) is amended by adding at the end thereof the following: 'Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act.'

"TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

"Preservation of historic structures as part of urban renewal projects

"SEC. 601. (a) Section 110(b) of the Housing Act of 1949 is amended by inserting 'historic and architectural preservation,' after 'land acquisition'.

"(b) Section 110(c)(6) of such Act is amended by inserting 'to promote historic and architectural preservation,' after 'deterioration'.

"(c) Section 110(c) of such Act is further amended by striking out 'and' at the end of clause (8), and by striking out clause (9) and inserting in lieu thereof the following:

"(9) relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and

"(10) restoration of acquired properties of historic or architectural value."

"Local grant-in-aid credit for relocation and restoration of historic structures

"SEC. 602. Clause (2) of section 110(d) of the Housing Act of 1949 is amended by striking out 'clause (2) and clause (3)' and

inserting in lieu thereof 'clauses (2), (3), (9), and (10)'."

"Grants to National Trust for Historic Preservation to cover restoration costs

"SEC. 603. (a) The Secretary of Housing and Urban Development is authorized to make grants to the National Trust for Historic Preservation, on such terms and conditions and in such amounts (not exceeding \$90,000 with respect to any one structure) as he deems appropriate, to cover the costs incurred by such Trust in renovating or restoring structures which it considers to be of historic or architectural value and which it has accepted and will maintain (after such renovation or restoration) for historic purposes.

"(b) There are authorized to be appropriated such sums as may be necessary for the grants to be made under subsection (a).

"Urban planning grants for surveys of historic structures

"SEC. 604. Section 701 of the Housing Act of 1954 is amended by adding at the end thereof the following new subsection:

"(h) In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the National Register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (9) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved."

"Grants for historic preservation

"SEC. 605. (a) The heading of title VII of the Housing Act of 1961 is amended to read as follows:

"TITLE VII—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION"

"(b) Section 701 of such Act is amended by redesignating subsection (c) as subsection (d), and by inserting after subsection (b) a new subsection as follows:

"(c) The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our past history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas."

"(c) Section 701(d) of such Act (as redesignated by subsection (b) of this section) is amended—

"(1) by inserting after 'urban development,' the following: 'to assist in preserving areas and properties of historic or architectural value;'; and

"(2) by striking out 'and (2)' and inserting in lieu thereof '(2) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (3)'."

"(d) Section 702(e) of such Act is amended to read as follows:

"(e) The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this title. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments."

"(e) Section 706 of such Act is amended by striking out the proviso.

"(f) Section 708 of such Act is amended by inserting '(a)' after 'Sec. 708.', by inserting '(b)' before 'The' in the second paragraph, and by adding at the end thereof a new subsection as follows:

"(c) Notwithstanding any other provision of this title, the Secretary may use not to exceed \$10,000,000 of the sum authorized for contracts under this title for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this title."

"(g) Title VII of such Act is amended by redesignating section 709 as section 710, and by adding after section 708 a new section as follows:

"Grants for historic preservation

"Sec. 709. The Secretary is authorized to enter into contracts to make grants to States and local public bodies to assist in the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit, in accord with the comprehensively planned development of the locality. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Secretary, of the assisted activities. The remainder of such cost shall be provided from non-Federal sources."

"(h) Commencing three years after the date of the enactment of this Act, no grant shall be made (except pursuant to a contract or commitment entered into less than three years after such date) under section 709 of the Housing Act of 1961 or section 701(h) of the Housing Act of 1954, or under section 103 of the Housing Act of 1949 to the extent that it is to be used for historic or architectural preservation, except with respect to districts, sites, buildings, structures, and objects which the Secretary of Housing and Urban Development finds meet criteria comparable to those used in establishing the National Register maintained by the Secretary of the Interior pursuant to other provisions of law.

"TITLE VII—URBAN RENEWAL

"Local grants-in-aid

"Sec. 701. Section 110(d) of the Housing Act of 1949 is amended by inserting immediately after the colon at the end of the first proviso the following: 'Provided further, That any publicly owned facility, the construction of which was begun not earlier than three years prior to the date of enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the

total benefits of such facility, or \$3,500,000, whichever is less, if such facility (A) (i) is used, or is to be used, by the public predominantly for cultural, exhibition, or civic purposes, or is a city hall or a public safety building, or (ii) is a facility, constructed or rehabilitated by a public university, which is or will be devoted to the treatment of physical or mental disabilities and illness or to medical research; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid."

"Air rights sites in urban renewal projects

"Sec. 702. (a) Section 110(c) (1) of the Housing Act of 1949 is amended by inserting in clause (iv), between the word "income" and the colon immediately preceding the first proviso, the following: "or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for industrial development".

"(b) Section 110(c) (7) of such Act is amended by inserting immediately before the semicolon the following: ', or construction of foundations and platforms necessary for the provision of air rights sites for industrial development'."

"Additional requirements for redevelopment of urban renewal area

"Sec. 703. (a) Section 105 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(f) The redevelopment of the urban renewal area, unless such redevelopment is for predominantly nonresidential uses, will provide a substantial number of units of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas."

"(b) The amendment made by subsection (a) shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act.

"Three-fourths grants for projects in certain redevelopment areas

"Sec. 704. Section 103(a) (2) (B) of the Housing Act of 1949 is amended by inserting after 'to avoid hardship,' the following: 'or at any time after such contract or contracts are entered into and prior to the time the final grant payment has been made pursuant thereto'."

"Expenditures by educational institutions and hospitals

"Sec. 705. Section 112(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: "Provided further, That no such expenditure shall be deemed ineligible as a local grant-in-aid in connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project."

"Requirement of separate sewer systems in redevelopment of urban renewal area

"Sec. 706. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection:

"(g) Consideration has been given to development of a sewer system to serve the urban renewal area which will, to the maximum extent feasible, provide for effective control of storm and sanitary wastes."

"TITLE VIII—RURAL HOUSING

"Sec. 801. Section 501(a) of the Housing Act of 1949 is amended by striking out 'previously occupied' wherever it appears.

"Sec. 802. Section 502(a) of the Housing Act of 1949 is amended by striking out 'In cases of applicants who are elderly persons, the' and inserting in lieu thereof 'The'."

"Sec. 803. Section 504 of the Housing Act of 1949 is amended by striking out '\$1,000' and inserting in lieu thereof '\$1,500'."

"Sec. 804. (a) Section 515(a) of the Housing Act of 1949 is amended by inserting after 'income' the following: 'or other persons and families of low income'."

"(b) Section 515(d) (1) of such Act is amended by striking out 'elderly persons or elderly families' and inserting in lieu thereof 'occupants eligible under this section'."

"Sec. 805. (a) Subsections (a) and (b) of section 515 of the Housing Act of 1949 are each amended by striking out 'rental housing' and inserting in lieu thereof 'rental or cooperative housing'."

"(b) Section 515(b) of such Act is amended by inserting after 'families' the following: 'or other persons and families of moderate income'."

"(c) Section 515(d) (4) of such Act is amended by adding at the end thereof the following: 'Such fees and charges may include payments to qualified consulting organizations or foundations which operate on a nonprofit basis and which render services or assistance to nonprofit corporations or consumer cooperatives who provide housing and related facilities.'"

"Sec. 806. Section 517(a) (1) of the Housing Act of 1949 is amended—

"(1) by inserting 'and' before '(b)'; and

"(2) by striking out ', and (C)' and all that follows and inserting in lieu thereof the following: 'but no loan under this paragraph shall be insured or made after October 1, 1969, except pursuant to a commitment entered into before that date; and'."

"Sec. 807. (a) Section 501(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: ', and (4) to an owner described in clause (1), (2), or (3) for refinancing indebtedness which—

"(A) was incurred for an eligible purpose described in such clause,

"(B) if not refinanced, is likely to result at an early date in loss of the applicant's necessary dwelling or essential farm service buildings,

"(C) is not held or insured by the United States or any agency thereof, and

"(D) was incurred prior to the enactment of this clause."

"(b) Section 501(c) of such Act is amended by inserting before the semicolon at the end of clause (1) the following: ', or that he is the owner of a farm or other real estate in a rural area who needs refinancing of indebtedness described in clause (4) of subsection (a)'."

"TITLE IX—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

"Purpose

"Sec. 901. It is the purpose of this title to assist States to make available information and data on urban needs and assistance programs and activities, and to provide technical assistance, to small communities with respect to the solution of urban problems."

"Grant authority

"Sec. 902. (a) The Secretary is authorized to make grants to States to help finance programs to provide information and data on urban needs and assistance programs and activities, and to provide technical assistance, to small communities with respect to the solution of local problems. Activities aided by such grants may include—

"(1) the assembly, correlation, and dissemination of urban physical, social, and economic development information and data for the purpose of informing local governments of small communities, and interested organizations and individuals, of the availability and status of Federal, State, and local

programs and other resources and data for the solution of urban problems; and

"(2) providing technical assistance with respect to the solution of urban problems to any small community requesting such assistance.

"(b) A program assisted under this section shall—

"(1) specify the information and technical assistance activities to be carried on and justify the needs for the costs of such activities; and

"(2) represent substantially increased or improved activities on the part of the applicant State agency.

"Amount of grant

"SEC. 903. (a) A grant under this section shall not exceed 50 per centum of the cost of the activities carried on under an approved urban information and technical assistance program.

"(b) No grant shall be made under this title to assist in assembling data, or providing information, to be used primarily in the day to day operations of State or local governing bodies and agencies.

"Cooperation and coordination

"SEC. 904. (a) Federal departments and agencies shall cooperate with States in providing information to assist in carrying out the purpose of this title.

"(b) In the administration of this title, the Secretary shall seek to ensure the greatest practicable coordination of urban information and technical assistance programs established under this title.

"Definitions

"SEC. 905. As used in this title—

"(1) 'State' means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or an agency or instrumentality designated by the chief executive of any of the foregoing, or a statewide agency or instrumentality of its political subdivisions designated by such chief executive.

"(2) 'Secretary' means the Secretary of Housing and Urban Development.

"(3) 'Small communities' means communities having populations of less than one hundred thousand according to the most recent decennial census.

"Appropriations

"SEC. 906. There are authorized to be appropriated for the purpose of carrying out the provisions of this title not to exceed \$2,500,000 for the fiscal year ending June 30, 1967, and not to exceed \$5,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

"TITLE X—MISCELLANEOUS

"Housing for the elderly or handicapped

"SEC. 1001. Section 105(b) of the Housing and Urban Development Act of 1965 is amended—

"(1) by inserting '(1)' after '(b)';

"(2) by striking out 'Effective with respect to loans made on or after the date of the enactment of this Act, section' and inserting in lieu thereof 'Section'; and

"(3) by adding at the end thereof a new paragraph as follows:

"(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate."

"Low-rent housing in private accommodations—Term of lease

"SEC. 1002. Section 23(d) of the United States Housing Act of 1937 is amended by striking out 'thirty-six months' and inserting in lieu thereof 'sixty months.'

"Application of Davis-Bacon Act to low-rent housing projects consisting of privately built housing

"SEC. 1003. Section 16(2) of the United States Housing Act of 1937 is amended by inserting after 'the development of the project involved' the following: '(including a project for the use of privately built housing, in any case, other than under the authority of section 23 of this Act, where the public housing agency and the builder or sponsor enter into an agreement for such use before construction or rehabilitation is commenced), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be'.

"Assistance for housing in Alaska

"SEC. 1004. (a) The Secretary of Housing and Urban Development (hereinafter referred to as the 'Secretary') is authorized to make loans and grants to the State of Alaska, or any duly authorized agency or instrumentality thereof, in accordance with a statewide program prepared by such State, agency, or instrumentality, and approved by the Secretary, to assist in the provision of housing and related facilities for Alaska natives and other Alaska residents who are otherwise unable to finance such housing and related facilities upon terms and conditions which they can afford. The program shall (1) specify the minimum and maximum standards for such housing and related facilities (not to exceed an average of \$7,500 per dwelling unit); (2) to the extent feasible, encourage the proposed users of such housing and related facilities to utilize mutual and self-help in the construction thereof; and (3) provide experience and encourage continued participation, in self-government and individual homeownership.

"(b) Grants under this section shall not exceed 75 per centum of the aggregate cost of the housing and related facilities to be constructed under an approved program.

"(c) There is authorized to be appropriated not to exceed \$10,000,000 to carry out the purposes of this section.

"Federal National Mortgage Association participation in Federal Housing Administration-insured construction financing

"SEC. 1005. Section 305 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(1) In any case where the Association makes a commitment to purchase under this section (1) a mortgage insured under section 213, (2) a mortgage insured under section 220, or (3) a mortgage insured under section 221(d)(3) and executed by a co-operative (including an investor-sponsor), a limited dividend corporation, a private non-profit corporation or association, or a mortgagor qualified under section 221(e), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage. The Secretary of Housing and Urban Development

shall approve the reasonableness of the fee to be paid a participating mortgagee, taking into account its services and the extent of its participation in the advances."

"Federal National Mortgage Association special assistance for financing low-cost homes

"SEC. 1006. The Congress hereby finds that the sharp decline in new home construction over the past year threatens to undercut our present high level of prosperity and employment as such declines have in the past; that the substantial reduction which has taken place has had its greatest impact on families of modest income who are seeking to achieve the goal of homeownership; that this decline in homebuilding is due primarily to the shortage of mortgage financing on terms which moderate income families can afford; and that our national policy objectives in the field of housing and community development are thereby being thwarted. The Congress therefore expresses its intent that the special assistance funds made available to the Federal National Mortgage Association for the financing of new low-cost homes by the Act of September 10, 1966 (Public Law 89-556), should be released immediately to halt the continuing decline in the construction of new homes for families of moderate income.

"Federal National Mortgage Association standby commitments

"SEC. 1007. Section 304(a)(1) of the National Housing Act is amended by striking out the last sentence.

"Planning grants for research on State statutes affecting local governments

"SEC. 1008. Section 701(b) of the Housing Act of 1954 is amended by inserting before the period at the end thereof the following: ', and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations'.

"Public facility loans

"SEC. 1009. Section 202 of the Housing Amendments of 1955 is amended by adding at the end thereof a new subsection as follows:

"(f) The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located."

"Applying advances in technology to housing and urban development

"SEC. 1010. (a) To encourage and assist the housing industry to continue to reduce the cost and improve the quality of housing by the application to home construction of advances in technology, and to encourage and assist the application of advances in technology to urban development activities, the Secretary of Housing and Urban Development (hereinafter referred to as the 'Secretary') is directed to—

"(1) conduct research and studies to test and demonstrate new and improved techniques and methods of applying advances in technology to housing construction, rehabilitation, and maintenance, and to urban development activities; and

"(2) encourage and promote the acceptance and application of new and improved

techniques and methods of constructing, rehabilitating, and maintaining housing, and the application of advances in technology to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public.

"(b) Research and studies conducted under this section shall be designed to test and demonstrate the applicability to housing construction, rehabilitation, and maintenance, and urban development activities, of advances in technology relating to (1) design concepts, (2) construction and rehabilitation methods, (3) manufacturing processes, (4) materials and products, and (5) building components.

"(c) The Secretary is authorized to carry out the research and studies authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for research and studies authorized by this section for work to continue not more than two years from the date of any such contract.

"(d) There are authorized to be appropriated to carry out the provisions of this section not to exceed \$5,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$10,000,000 for the fiscal year ending June 30, 1968. All funds so appropriated shall remain available until expended.

"(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

"Urban environmental studies"

"SEC. 1011. (a) The Congress finds that, with the ever-increasing concentration of the Nation's population in urban centers, there has occurred a marked change in the environmental conditions under which most people live and work; that such change is characterized by the progressive substitution of a highly complex, man-contrived environment for an environment conditioned primarily by nature; that the beneficent or malignant influence of environment on all living creatures is well recognized; and that much more knowledge is urgently needed concerning the effect on human beings of highly urbanized surroundings. It is the purpose of this section to authorize a comprehensive program of research, studies, surveys, and analyses to improve understanding of the environmental conditions necessary for the well-being of an urban society, and for the intelligent planning and development of viable urban centers.

"(b) In order to carry out the purpose of this section, the Secretary is authorized and directed to—

"(1) conduct studies, surveys, research, and analyses with respect to the ecological factors involved in urban living;

"(2) document and define urban environmental factors which need to be controlled or eliminated for the well-being of urban life;

"(3) establish a system of collecting and receiving information and data on urban ecological research and evaluations which are in process or are being planned by public or private agencies, or individuals;

"(4) evaluate and disseminate information pertaining to urban ecology to public and private agencies or organizations, or individuals, in the form of reports or otherwise;

"(5) initiate and utilize urban ecological information in urban development projects initiated or assisted by the Department of Housing and Urban Development; and

"(6) establish through interagency consultation the coordinated utilization of urban ecological information in projects

undertaken or assisted by the Federal Government which affect the growth or development of urban areas.

"(c) (1) The Secretary is authorized to establish such advisory committees as he deems desirable for the purpose of rendering advice and submitting recommendations for carrying out the purpose of this section. Such advisory committees shall render such advice to the Secretary upon his request and may submit such recommendations to the Secretary at any time on their own initiative. The Secretary may designate employees of the Department of Housing and Urban Development to assist such committees.

"(2) Members of such advisory committees shall receive not to exceed \$100 per day when engaged in the actual performance of their duties, in addition to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

"(d) The Secretary is authorized to carry out the studies, surveys, research, and analyses authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for work under this subsection to continue not more than two years from the date of any such contract.

"(e) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. All funds so appropriated shall remain available until expended when so provided in appropriation Acts.

"Mortgage relief for certain homeowners"

"SEC. 1012. That part of section 107 of the Housing and Urban Development Act of 1965 which precedes subsection (f) is amended to read as follows:

"*"Mortgage relief for certain homeowners"*
"(SEC. 107. (a) For the purposes of this section—

"(1) The term "mortgage" means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(2) The term "Federal mortgage agency" means—

"(A) the Secretary of Housing and Urban Development when used in connection with mortgages insured under the National Housing Act, and

"(B) the Administrator of Veterans' Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(3) The term "distressed mortgagor" means an individual who—

"(A) was employed by the Federal Government at, or was assigned as a serviceman to, a military base or other Federal installation and whose employment or service at such base or installation was terminated subsequent to November 1, 1964, as the result of the closing (in whole or in part) of such base or installation; and

"(B) is the owner-occupant of a dwelling situated at or near such base or installation and upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments due under such mortgage.

"(b) (1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments due under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

"(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that such action is necessary to avoid foreclosure.

"(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency, the mortgagor, and the mortgagee shall enter into a binding agreement under which—

"(A) the mortgagor will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c), together with interest thereon at a rate not to exceed the rate provided in the mortgage; the manner and time in which such payments shall be made to be determined by the Federal mortgage agency having due regard for the purposes sought to be achieved by this section; and

"(B) the Federal mortgage agency will be subrogated to the rights of the mortgagee to the extent of payments made pursuant to such certificate, which rights, however, shall be subject to the prior right of the mortgagee to receive the full amount payable under the mortgage.

"(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

"(A) two years from the date on which such certificate was issued;

"(B) thirty days after the date on which the mortgagor gives notice in writing to the Federal mortgage agency that he is able to resume his obligation to make payments due under his mortgage; or

"(C) thirty days after the date on which the Federal mortgage agency determines that the mortgagor to whom such certificate was issued has ceased to be a distressed mortgagor as defined in subsection (a) (3).

"(c) (1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments due under the mortgage.

"(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor may include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid payments under such mortgage prior to the issuance of such certificate, plus a reasonable allowance for foreclosure costs actually paid by the mortgagee if a foreclosure action was dismissed as a result of the issuance of a moratorium certificate. Payments by the Federal mortgage agency may also include payments of taxes and insurance premiums on the mortgaged property as deemed necessary when these items are not provided for through payments to a tax and insurance account held by the interested mortgagee.

"(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments due under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

"(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expira-

tion of any certificate of moratorium issued by it under this section.

"(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

"(e) There shall be in the Treasury (1) a fund which shall be available to the Secretary of Housing and Urban Development for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c) and for paying administrative expenses incurred in connection with such assistance, and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose, except administrative expenses. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Secretary of Housing and Urban Development, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts."

"Acquisition of certain properties situated at or near military bases which have been ordered to be closed"

"SEC. 1013. (a) Notwithstanding any other provision of law, the Secretary of Defense is authorized to acquire title to, hold, manage, and dispose of, or, in lieu thereof, to reimburse for certain losses upon private sale of, or foreclosure against, any property improved with a one- or two-family dwelling which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

"(1) that the owner of such property is, or has been, a Federal employee employed at or in connection with such base or installation (other than a temporary employee serving under a time limitation) or a serviceman assigned thereto;

"(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at or in connection with such base or installation; and

"(3) that as the result of the actual or pending closing of such base or installation, in whole or in part, there is no present market for the sale of such property upon reasonable terms and conditions.

"(b) In order to be eligible for the benefits of this section such employees or military personnel must be or have been—

"(1) assigned to or employed at or in connection with the installation or activity at the time of public announcement of the closure action,

"(2) transferred from such installation or activity, or terminated as employees as a result of reduction-in-force, within six months prior to public announcement of the closure action, or

"(3) transferred from the installation or activity on an overseas tour unaccompanied by dependents within fifteen months prior to public announcement of the closure action;

Provided, That, at the time of public announcement of the closure action, or at the time of transfer or termination as set forth above, such personnel or employees must—

"(1) have been the owner-occupant of the dwelling, or

"(2) have vacated the owned dwelling as a result of being ordered into on-post housing during a six-month period prior to the closure announcement;

Provided further, That as a consequence of such closure such employees or personnel must—

"(1) be required to relocate because of military transfer or acceptance of employment beyond a normal commuting distance from the dwelling for which compensation is sought, or

"(2) be unemployed, not as a matter of personal choice, and able to demonstrate such financial hardship that they are unable to meet their mortgage payments and related expenses.

"(c) Such persons as the Secretary of Defense may determine to be eligible under the criteria set forth above shall elect either (1) to receive a cash payment as compensation for losses which may be or have been sustained in a private sale, in an amount not to exceed the difference between (A) 95 per centum of the fair market value of their property (as such value is determined by the Secretary of Defense) prior to public announcement of intention to close all or part of the military base or installation and (B) the fair market value of such property (as such value is so determined) at the time of the sale, or (2) to receive, as purchase price for their property, an amount not to exceed 90 per centum of prior fair market value as such value is determined by the Secretary of Defense, or the amount of the outstanding mortgages. Cash payment as compensation for losses sustained in a private sale shall not be made in any case in which the property is encumbered by a mortgage loan guaranteed, insured, or held by a Federal agency unless such mortgage loan is paid, assumed by a purchaser satisfactory to such Federal agency, or otherwise fully satisfied at or prior to the time such cash payment is made. Except in cases of payment as compensation for losses, in the event of foreclosure by mortgagees commenced on or after public announcement of intention to close all or part of the military base or installation and prior to the one hundred and twentieth day after the enactment of this Act, the Secretary of Defense may reimburse or pay on account of eligible persons such sums as may be paid or be otherwise due and owing by such persons as the result of such foreclosure, including (without limiting the generality of the foregoing) direct costs of judicial foreclosure, expenses and liabilities enforceable according to the terms of their mortgages or promissory notes, and the amount of debts, if any, established against such persons by a Federal agency in the case of loans made, guaranteed, or insured by such agency following liquidation of the security for such loans.

"(d) There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section, which receipts shall be credited to the fund and shall be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray expenses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: *Provided, however*,

That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 406(a) of the Act of August 30, 1957 (42 U.S.C. 1594i), nor shall it be deemed a transaction within the contemplation of section 2662 of title 10, United States Code.

"(e) Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired and held under this section. The amount so paid for any year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

"(f) The title to any property acquired under this section, the eligibility for, and the amounts of, cash payable, and the administration of the preceding provisions of this section, shall conform to such requirements, and shall be administered under such conditions and regulations, as the Secretary of Defense may prescribe. Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

"(g) The Secretary of Defense is authorized to enter into such agreement with the Secretary of Housing and Urban Development as may be appropriate for the purposes of economy and efficiency of administration of this section. Such agreement may provide authority to the Secretary of Housing and Urban Development and his designee to make any or all of the determinations and take any or all of the actions which the Secretary of Defense is authorized to undertake pursuant to the preceding provisions of this section. Any such determinations shall be entitled to finality to the same extent as if made by the Secretary of Defense, and, in event the Secretaries of Defense and Housing and Urban Development so elect, the fund established pursuant to subsection (d) of this section shall be available to the Secretary of Housing and Urban Development to carry out the purposes thereof.

"(h) Section 223(a)(8) of the National Housing Act is amended to read as follows:

"(8) executed in connection with the sale by the Government of any housing acquired pursuant to section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966."

"(i) No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

"(j) Section 108 of the Housing and Urban Development Act of 1965 is repealed.

"College housing"

"Sec. 1014. (a) Section 404(b)(4) of the Housing Act of 1950 is amended by striking out 'public' immediately before 'educational institution'.

"(b) Section 401(d) of such Act is amended by inserting before the period at the end thereof the following: 'and, notwithstanding the first proviso of this subsection, the amount of this annual increase which is not utilized for loans for hospitals may be

utilized for loans for other educational facilities, as defined herein'.

"Study concerning relief of homeowners in proximity to airports"

"SEC. 1015. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

"(1) by inserting '(a)' after 'Sec. 1113.';

"(2) by striking out 'one year after the date of the enactment of this Act' and inserting in lieu thereof 'six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966'; and

"(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

"Quarters and facilities for Federal home loan banks and the Federal Home Loan Bank Board"

"SEC. 1016. (a) The second sentence of section 12 of the Federal Home Loan Bank Act (12 U.S.C. 1432) is amended by striking out 'but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease' and inserting in lieu thereof 'but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease'.

"(b) Section 18 of such Act (12 U.S.C. 1438) is amended—

"(1) by adding at the end of subsection (b) the following new sentence: 'Such assessments may include such amounts as the board may deem advisable for carrying out the provisions of subsection (c) of this section.'; and

"(2) by adding at the end thereof the following new subsection:

"(c) (1) The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the "Administrator"), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—

"(A) to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;

"(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

"(C) to enlarge, remodel, or reconstruct any of the same; and

"(D) to make or enter into contracts for any of the foregoing.

"(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of 4½ per centum per annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the

United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

"(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

"(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

"(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term 'property' shall include interests in property.

"(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms "wholly owned Government corporations" and "Government corporations", wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. The first budget program shall be for the first full fiscal year beginning on or after the date of the enactment of this subsection, and the first audit shall be for the remainder of the fiscal year in which this subsection is enacted. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413—5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

"(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000, or such greater amount as may be provided in an appropriation Act or other law."

"Small Business Act"

"SEC. 1017. Paragraph (1) of section 8(b) of the Small Business Act is amended by inserting '(A)' after '(1)', by inserting 'and' after 'Administration'; and by adding at the end thereof a new subparagraph as follows:

"(B) to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;."

"Use of certain lands for civil defense purposes"

"SEC. 1018. Section 2 of the Act entitled 'An Act to provide for the conveyance of a tract of land in Prince Georges County, Maryland, to the State of Maryland for use as a site for a National Guard Armory and for training the National Guard or for other military purposes', approved August 10, 1949 (63 Stat. 592), is amended by striking out 'The land' and inserting in lieu thereof '(a) Except as provided in subsection (b) of this section, the land' and by adding at the end thereof the following new subsection:

"(b) The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable."

"Mortgage insurance for land development—Clarifying amendments"

"SEC. 1019. Section 1001(d) of the National Housing Act is amended—

"(1) by striking out 'sewerage disposal installations,' and inserting in lieu thereof 'sewage disposal installations, steam, gas, and electric lines and installations.';

"(2) by striking out the semicolon after 'or common use', and inserting in lieu thereof a period and the following new sentence: 'Related uses may include industrial uses, with sites for such uses to be in proper proportion to the size and scope of the development.';

"(3) by striking out 'but such term' and inserting in lieu thereof: 'The term improvements'; and

"(4) by inserting after 'sewage disposal installation,' in clause (1) the following: 'or a steam, gas, or electric line or installation.'"

"Miscellaneous and technical amendments"

"SEC. 1020. (a) Section 106(d) of the Housing Act of 1949 is repealed.

"(b) Section 227(a) of the National Housing Act is amended by striking out "subsection (b) (2)" in clause (vi) and inserting in lieu thereof 'subsection (b)'.

"(c) The last sentence of section 305(e) of the National Housing Act is amended by striking out 'supplementing' and inserting in lieu thereof 'supplementary'.

"(d) Section 308 of the National Housing Act is amended by striking out '(a)'.

"(e) Section 512 of the National Housing Act is amended by striking out 'or IX' and inserting in lieu thereof 'IX, X, or XI'.

"(f) Section 1001(c) of the National Housing Act is amended by striking out "'mortgage'" and inserting in lieu thereof "'mortgagee'"."

"(g) Section 1 of the National Housing Act is amended by striking out 'and X' wherever it appears and inserting in lieu thereof 'X, and XI'.

"(h) Section 102(h) of the Housing Amendments of 1955 is amended by striking out 'section 213 of the National Housing Act, as amended, the Commissioner' and inserting in lieu thereof 'section 213 of the National Housing Act, section 221(d) (3) of

the National Housing Act, and section 101 of the Housing and Urban Development Act of 1965 (insofar as the provisions of such sections relate to cooperative housing), the Secretary of Housing and Urban Development', and by striking out 'such section' each place it appears and inserting in lieu thereof 'such sections'."

And the House agreed to the same.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

The House struck out all of the Senate bill after the enacting clause and inserted a substitute amendment. The committee of conference has agreed to a substitute for both the House amendment and the Senate bill. Except for technical, clarifying, and conforming changes, the following statement explains the differences between the House amendment and the substitute agreed to in conference.

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Priority of use of demonstration grant funds

The House amendment provided that grants under the demonstration cities program would be used either for federally assisted projects or for other projects undertaken as part of such a program. The Senate bill provided that such grants shall be used to assist new projects not federally assisted and only if not necessary for such projects may they be used for federally assisted projects. The conference report contains the Senate language.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Metropolitan expediter

The Senate bill contained a provision not included in the House amendment authorizing the appointment of a Metropolitan Expediter upon request of local officials and after consultation with local officials. The conference report contains the Senate language with a modification requiring that the central city in any metropolitan area must request the appointment of such an official. The conferees wish to emphasize that this expediter is intended to be the servant of the cities in the metropolitan area, and his functions are limited to providing information, data and assistance to local authorities and private individuals and entities in the area.

TITLE III—FHA INSURANCE OPERATIONS

Cooperative housing

The House amendment contained provisions increasing each of the per family unit

limitations under FHA section 213, cooperative housing program by \$2,500 and authorizing additional exterior land improvement to be financed under that program. The Senate bill contained neither provision and none is contained in the conference report.

Eligibility for occupancy for section 221 (d) (3) below-market interest rate housing

The House amendment contained a provision prohibiting occupancy of section 221-(d) (3) below-market interest rate housing by families with an annual income of \$10,000 or more. The Senate bill contained no such provision and none is contained in the conference report. The conferees, however, wish to emphasize that they expect the Secretary of Housing and Urban Development to limit this program to families of greatest need. The conferees recognize, of course, that higher ceilings are necessary in high cost areas and for large families.

Armed services housing mortgage insurance program

The House amendment contained a provision which would have reactivated the Capehart FHA insurance program for the armed services. There was no such provision in the Senate bill and none is contained in the conference report.

FHA section 810 program

The House amendment contained a provision increasing from 5,000 to 10,000 the maximum number of units which may be covered by mortgages insured under FHA's program for off-base rental housing for the military. The House amendment would also have permitted additional types of mortgagors under this program. There were no comparable provisions in the Senate bill and none are contained in the conference report.

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

The House amendment contained a provision not included in the Senate bill increasing the maximum mortgage from \$10 million to \$25 million which FHA can insure for land development and authorizing this assistance for entire new communities. The conference report contains the House provisions with three amendments which would terminate this authority on October 1, 1972; would require approval of any new community by the local governing body and by the governor of the State (except in "home rule" cases); and would limit the total amount of insurance which can be outstanding under this provision at any one time to \$250 million.

TITLE V—MORTGAGE INSURANCE FOR GROUP MEDICAL PRACTICE FACILITIES

The House amendment contained a provision authorizing FHA mortgage insurance for group practice medical facilities. The conference report retains this provision, with an amendment providing that, while both profit-making and non-profit groups may participate in the program, the actual mortgagor under the new program must be a private non-profit corporation.

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

Loans for acquisition and rehabilitation of historic structures

The House amendment contained a provision authorizing the use of below-market interest rate loans under section 312 of the Housing Act of 1964 for historic preservation purposes. There was no such provision in the Senate bill and none is contained in the conference report.

TITLE VII—URBAN RENEWAL
Local grants-in-aid

The House amendment contained a provision authorizing the Secretary to count as local credit for urban renewal purposes 25 percent of the cost of public facilities for cultural, exhibition, civic or municipal purposes subject to certain other requirements. The conference report retains this provision

with two amendments. First, the word "municipal" is stricken and the phrase "city hall or public safety building" is inserted, and second, certain medical facilities and mental health facilities could be included. Such credit would be limited to 25 percent of the cost of such facility or \$3.5 million, whichever is less. The conferees wish to emphasize that this provision is not intended as a "blank check" for the inclusion of such projects for urban renewal credit purposes and the provision includes the requirement that any such local project must "contribute materially to the objectives of the urban renewal plan or plans for such project or projects." The conferees further expect the Department of HUD to report back to the Congress by January of 1967 on the potential cost of section 701 of this Act, together with recommendations for changes in existing law affecting local grants-in-aid.

Application of prevailing wage requirements to multifamily housing in urban renewal areas

The House amendment contained a provision which would have applied the "Davis-Bacon Act" prevailing wage requirement to conventionally financed multifamily housing built in urban renewal areas. There was no such provision in the Senate bill and none is contained in the conference report.

Grant-in-aid credit under section 112 of the Housing Act of 1941

The House amendment contained a provision defining the term "in the vicinity" as used in connection with local credits under urban renewal for certain expenditures by universities and hospitals to mean one mile and further giving the Secretary discretion to recognize expenditures beyond the one mile limit where he felt the facts justified it. The conference report contains the one mile provision but does not contain the discretionary authority beyond one mile.

Sewer systems in urban renewal areas

The House amendment contained a provision which would have required urban renewal areas to be served by storm sewer systems separate from sanitary sewer systems. There was no such provision in the Senate bill. The conference report contains a provision requiring that to the maximum extent feasible urban renewal areas must be served by effective systems for the treatment of storm and sanitary wastes.

TITLE IX—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

The Senate bill contained a provision authorizing matching grants (limited to appropriations of \$5 million for fiscal year 1967 and \$10 million for fiscal 1968) to states and metropolitan area agencies for the establishment of urban information and technical assistance centers. The conference report contains a provision authorizing matching grants through the states for technical assistance for communities up to 100,000 population, and authorizes the appropriation of \$2.5 million in fiscal 1967 and \$5 million for fiscal 1968 for this purpose.

TITLE X—MISCELLANEOUS

Low-rent housing in private accommodations

The House amendment contained a provision extending the maximum term of lease from 36 months to 60 months for private accommodations to be used as public housing but restricted the longer term to housing needed for displaced families. The conference report retained the increase in the maximum term to 60 months but does not restrict it to housing for displaced families.

Open-space grants for development of existing open-space land

The House amendment had a provision authorizing grants under the open space program for the development of land already owned by a municipality. There was no such provision in the Senate bill and none is contained in the conference report.

Acquisition of property in areas affected by the closing of military bases

The House amendment had a provision authorizing the Secretary of Defense to acquire the homes of property owners in areas affected by the closing of military bases or to make certain payments where the property had already been sold by the owner or the owner had lost it through foreclosure. The conference report contains the House amendment with perfecting modifications.

Leasing of housing for bachelor military personnel

The House amendment contained a provision authorizing the Secretary of Defense to lease for periods of up to 15 years appropriate housing for use as bachelor officer quarters. There was no comparable provision in the Senate bill and none is contained in the conference report.

Hydrology research

The House amendment contained a provision authorizing HUD to conduct studies and research concerning urban hydrology. There was no comparable provision in the Senate bill and none is contained in the conference report.

Studies of State laws affecting cities

The House amendment contained a provision authorizing the limited use of urban planning grant funds for studies of State laws affecting municipalities. This is retained in the conference report but the conferees wish to make clear that it is not intended that these funds be used in any way for lobbying State legislatures.

Certain items not included in the conference report

The Senate conferees strongly urged the adoption of five provisions approved by the Senate. These were: FHA mortgage insurance for seasonal homes, fellowships for graduate training in historic preservation, clarification of existing authority for the leasing of privately built housing for use as public housing, authority for FNMA to purchase mortgages insured or guaranteed prior to August 2, 1954, and a provision to conform to nomenclature used in various housing laws to reflect the creation of the Department of Housing and Urban Development. While the House conferees were impressed with the merits of these provisions, it was felt that they could not be accepted at this time, but there was agreement that the House Committee on Banking and Currency would take prompt action on them early next year.

WRIGHT PATMAN,

Managers on the Part of the House.

PROCEEDINGS AGAINST MILTON MITCHELL COHEN

Mr. WILLIS. Mr. Speaker, I rise on a question of the privilege of the House, and by direction of the Committee on Un-American Activities I submit a privileged report—House Report No. 2302.

Mr. YATES. Mr. Speaker, a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. YATES. At what point is it in order for me to present a point of order to the resolution?

The SPEAKER. After the report is read.

The Clerk read as follows:

PROCEEDINGS AGAINST MILTON MITCHELL COHEN

The Committee on Un-American Activities, as created and authorized by the House of Representatives, through the enactment of Public Law 601 of the 79th Congress, section 121, subsection (q) (2), under House Resolution 8 of the 89th Congress, duly authorized and issued a subpoena to Milton Mitchell Cohen. The subpoena directed Milton Mitchell Cohen to be and appear before the said Committee on Un-American Activities, of which the Honorable EDWIN E. WILLIS is chairman, or a duly appointed subcommittee thereof, on Tuesday, May 25, 1966, at the hour of 10:30 a.m., at the U.S. Courthouse and Federal Office Building, Ceremonial Courtroom, 25th floor, 219 South Dearborn Street, Chicago, Ill., then and there to testify touching matters of inquiry committed to said committee, and not to depart without leave of said committee. The subpoena served upon Milton Mitchell Cohen is set forth in words and figures as follows:

"UNITED STATES OF AMERICA

"CONGRESS OF THE UNITED STATES

"To Milton Mitchell Cohen, Greeting:

"PURSUANT to lawful authority, YOU ARE HEREBY COMMANDED to be and appear before the Committee on Un-American Activities of the House of Representatives of the United States, or a duly appointed subcommittee thereof, on May 25th (Tuesday), 1966, at 10:30 o'clock, a.m., U.S. Court House & Fed. Office Bldg., Ceremonial Court Room, 25th Floor, 219 S. Dearborn Street, Chicago, Ill., then and there to testify touching matters of inquiry committed to said committee, and not to depart without leave of said committee.

"HEREOF FAIL NOT, as you will answer your default under the pains and penalties in such cases made and provided.

"To Martin A. Walsh, to serve and return. "GIVEN under my hand this 6th day of May, in the year of our Lord, 1965.

/s/ "E. E. WILLIS,

"Chairman—Chairman of Subcommittee—Member Designate of the Committee on Un-American Activities of the House of Representatives.

"If you desire a conference with a representative of the Committee prior to the date of the hearing, please call or write to: Staff Director, Committee on Un-American Activities, Washington 25, D.C., Telephone: Capitol 4-3121—Ext. 3051."

This subpoena was duly served as appears by the return thereon made by Martin A. Walsh, who was duly authorized to serve it. The return of service of said subpoena is set forth in words and figures as follows:

"I made service of the within subpoena by hand to the within-named Milton Mitchell Cohen on the street in front of his home at 5322 S. Kimbark Avenue, Chicago, Illinois, at 8:25 o'clock, a.m., on the 11th day of May, 1965.

"Dated May 11, 1965.

/s/ "Martin A. Walsh."

The said Milton Mitchell Cohen, summoned as aforesaid, appeared and was called as a witness on May 26, 1965, to give testimony, as required by the said subpoena, at a meeting of a duly authorized subcommittee of the Committee on Un-American Activities at the Old U.S. Court of Appeals Building in Chicago, Ill. He was accompanied by his counsel, Richard Orlikoff, Esquire.

Having been sworn as a witness, he was asked to state his full name and residence for the record, to which he responded, giving same. He was then asked whether he was represented by counsel, to which he replied that he was.

Thereafter, the witness refused to answer any other questions touching matters of inquiry committed to said subcommittee. The witness then departed the hearing room without leave of said subcommittee.

The foregoing refusal by Milton Mitchell Cohen to answer any further questions, and his willful departure without leave, deprived the Committee on Un-American Activities of pertinent testimony regarding matters which the said committee was instructed by law and House resolution to investigate, and place the said Milton Mitchell Cohen in contempt of the House of Representatives of the United States.

Pursuant to resolution of the Committee on Un-American Activities duly adopted at a meeting held January 13, 1966, the facts relating to the aforesaid failures of Milton Mitchell Cohen are hereby reported to the House of Representatives, to the end that the said Milton Mitchell Cohen may be proceeded against for contempt of the House of Representatives in the manner and form provided by law.

The record of the proceedings before the said subcommittee, so far as it relates to the appearance of the said Milton Mitchell Cohen, including the statement by the chairman of the subject and matter under inquiry, is set forth in Appendix I, attached hereto and made a part hereof.

Other pertinent committee proceedings are set forth in Appendix II, and made a part hereof.

APPENDIX I

Tuesday, May 25, 1965

UNITED STATES HOUSE OF REPRESENTATIVES, SUBCOMMITTEE OF THE COMMITTEE ON UN-AMERICAN ACTIVITIES,

Chicago, Illinois.

PUBLIC HEARINGS

A subcommittee of the Committee on Un-American Activities met, pursuant to call, at 10:30 a.m., in the Old United States Court of Appeals Building, 1212 North Lake Shore Drive, Chicago, Illinois, Hon. EDWIN E. WILLIS (chairman) presiding.

(Subcommittee members: Representatives EDWIN E. WILLIS, of Louisiana, Chairman; JOE R. POOL, of Texas; CHARLES L. WELTNER, of Georgia; JOHN M. ASHBROOK, of Ohio; and DEL CLAWSON, of California.)

Subcommittee members present: Representatives WILLIS, POOL, WELTNER, and CLAWSON.

Staff members present: Francis J. McNamara, director; William Hitz, general counsel; Alfred M. Nittle, counsel; and Neil E. Wetterman and Philip R. Manuel, investigators.

The CHAIRMAN. The subcommittee will come to order.

Mr. Nittle, will you call the names of the witnesses and hand them a copy of the opening statement?

Mr. NITTLE. Is Milton Mitchell Cohen in attendance?

Come forward, please.

Louis Diskin.

David Englestein.

Benjamin Max Friedlander.

Dorothy Mixter Hayes.

Dorothy Mixter Hayes.

Dorothy Mixter Hayes, please come forward.

Yolanda Hall.

Leon Joy Jennings.

Wilberforce Cox Jones.

Versta Miller.

Helen Fotine Queen.

Dr. Jeremiah Stamler.

Charles Fehninger Wilson.

Mr. Chairman, Dorothy Mixter Hayes has not responded. Shall I again call her?

The CHAIRMAN. Please. Three times.

Mr. NITTLE. Dorothy Mixter Hayes, please come forward.

Dorothy Mixter Hayes, please come forward.

Dorothy Mixter Hayes, please come forward.

a negotiated settlement of the Vietnam war.

As the editorial correctly observes, the responsibility rests squarely on the shoulders of Hanoi and Communist China—where it has rested all the time.

The administration has once again—on the eve of the Manila Conference—bent over backward to make our position clear and simple. Let us hope that it may evoke some signal of responsiveness.

Mr. President, I ask unanimous consent that the editorial be printed at this point in the RECORD.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

ESCALATING THE PEACE OFFENSIVE

It has now become abundantly clear that the United States, through all available channels, is engaged in a genuine search for the high road out of Viet Nam. The sincerity of the effort should be apparent not only to the American people and our allies, but to the leaders in Hanoi, Peking and Moscow as well.

The escalation of the peace offensive has been in progress since late summer. It has been reflected in official pronouncements by high administration officials and in the increasing efforts by friendly and non-aligned governments to elicit some favorable response to our overtures; efforts which were, in turn, unquestionably prompted by covert diplomatic activity.

Now, the activity has been climaxed by a speech by Secretary of State Dean Rusk, setting forth in very precise terms exactly what we would accept as the basis for a peaceful solution. If, Rusk said, North Viet Nam will withdraw its regular army units from South Viet Nam, and if Hanoi will stop supplying the Viet Cong, the American forces will be withdrawn. The indigenous Communist forces and the Saigon government would then be left to settle their differences by negotiation or continued war.

The public announcement was noteworthy for two reasons. First, it answered the question of exactly what was meant by our repeated statements that if aggression from the North would cease, we would pull our men out. Second, the statement set forth terms for a peaceful way out of the confrontation that need not necessarily involve formal peace talks. If the Hanoi government is as loath as it appears to be to come to the conference table, there would be no necessity for it to do so. And since Hanoi has persisted in denying that any regular troops are operating in South Viet Nam and that no arms are being sent to the guerrillas south of the demarcation line, there would be no loss of face in the withdrawal of forces and cutting off of supplies.

What remains is to convince the government in Hanoi that these are not empty words, and that we mean exactly what we say. This effort, it is clear, is going ahead through the sequence of talks between President Johnson and top level representatives of France, Russia, and Laos.

Will the effort work? It would seem incredible that Hanoi has not gotten the message, loud and clear, or that the leadership there can continue seriously to doubt this nation's motives. It would seem equally unlikely that North Viet Nam can still harbor any hope of dislodging the United States forces by armed strength. If these two conditions do exist, as they appear to, the next logical step would be an encouraging sign from Hanoi—a signal that would almost certainly be acknowledged by a halt in the bombing north of the demarcation line.

That is the logical sequence of events. But logic, in this instance, may not be the deciding factor. For also in the picture is the vast and possibly disruptive influence of Communist China. If China believes that she cannot afford to cap her recent series of diplomatic setbacks with an aborted "war of liberation" in Viet Nam, the war will go on. If, on the other hand, China decides that the best way out is to cut Hanoi loose to act as free agent, the end may not be long delayed.

BUSING FAILS TO IMPROVE NEGRO PUPILS

Mr. BYRD of West Virginia. Mr. President, I wish to insert in the RECORD an article, entitled "Busing Fails To Improve Negro Pupils, Trial Told," which appeared in the October 18, 1966, edition of the Washington Post.

There being no objection, the item was ordered to be printed in the RECORD as follows:

BUSING FAILS TO IMPROVE NEGRO PUPILS, TRIAL TOLD

Negroes bused from crowded inner-city schools to undercapacity white schools in Baltimore since 1963 have not improved their performance, an educator testified yesterday in a Washington suit over de facto school segregation.

If anything, the achievement of the 800 Negroes has gone down, said George B. Brain, former Baltimore City school superintendent and now dean of Washington State University's College of Education.

Brain's testimony came as city attorneys began their second week of defending Washington's present school system practices in a suit brought by civil rights activist Julius Hobson in U.S. District Court.

Hobson and his attorney, William Kunstler, contend that the Washington school system is not making a full effort to integrate its faculties or the 7 per cent white and 93 per cent Negro pupil population. They also claim that less money is spent on Negroes. Their education is inferior and academic results show it, they say.

Brain said standardized test patterns in 1964 and 1965 showed "no statistically significant difference in the achievement level" of 800 bused students in Baltimore. But, he added, the pupils remaining in the inner city schools enjoyed a lower teacher-student ratio and increased their achievement level.

Kunstler contended earlier in the three-month-long trial before Judge J. Skelly Wright that achievement tests are white-oriented and cannot be accurately applied to the ghetto Negro.

Asked about the touchy question of integrating urban and suburban pupils, Brain said he had considered busing "disadvantaged" children from the city to surrounding Baltimore County for "assemblies and exchanges . . . but not for permanent classroom attendance."

He said he felt integration was culturally and educationally beneficial for both races.

Busing, changing of school boundaries and providing of compensatory education are only "temporary measures" to improve opportunities for the disadvantaged, he said. A "massive infusion of money and resources" is needed to close the gap ultimately, he said.

PRESIDENT LYNDON B. JOHNSON PRAISED FOR LEADERSHIP IN CONSERVATION OF NATION'S RESOURCES AND BEAUTY

Mr. YARBOROUGH. Mr. President, this 89th Congress has enacted into law

20 major conservation measures in cooperation with the administration and the dedication of President Lyndon B. Johnson toward the cause of preserving for present and future generations the natural resources and beauty of America.

On October 15, 1966, President Johnson signed into law six new conservation bills that illustrate this continuing concern for an America where there is a refuge from the clutter and the clamor of the city. These bills established the Guadalupe Mountains National Park in Texas, the Pictured Rocks National Lake Shore in Michigan, the Bighorn Canyon National Recreation Area in Montana, the Wolf Trap Farm Park in Virginia, and increased the land in the Point Reyes National Seashore in California.

President Johnson often has made plain his interest in conservation. The administration and the Congress have joined hands in open space and urban beautification programs, in the development of outdoor recreation areas through the land and water conservation fund, the Highway Beautification Act and numerous other projects.

This interest is more than a program; President Johnson has called it a crusade. I believe no other President in the history of our Nation has had a deeper concern for conservation, or done more to preserve and improve the face of America.

I ask unanimous consent to have printed at this point in the RECORD the remarks of the President upon the signing of the conservation bills in the Cabinet Room of the White House on October 15, 1966, which I was privileged to attend.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

THE CABINET ROOM,
October 15, 1966.

REMARKS OF THE PRESIDENT UPON SIGNING SIX CONSERVATION BILLS—THE CABINET ROOM, OCTOBER 15, 1966

Secretary Udall, Senator MANSFIELD, Senator JACKSON, Senator BIBLE, Congressman O'BRIEN, Senators from the States involved, Members of Congress, Mrs. Johnson, ladies, and gentlemen, we have come here this morning to give part of our country back to its people.

When our forefathers came here they found nature's masterpiece. They found a beautiful, rich, varied, fertile land, a whole continent to farm and to hunt upon, and to explore.

As Robert Frost said, "The land was ours before we were the land's. She was our land more than a hundred years before we were her people."

Our pioneer fathers made this beautiful land a great nation. But when the wave of settlement reached the Pacific, it turned back upon itself. America began to exploit the land. We chopped down its forests. We abused its soil. We built upon its beaches.

Some Americans realized our loss—Gifford Pinchot, John Muir, Theodore Roosevelt, Franklin Roosevelt, Harold Ickes. They saw that America could be great only as long as Americans could commune with the land. They were the architects of American conservation.

Today our crowded country thanks them—thanks them for their courage and for their vision, and for their generosity.

This year, we reach a milestone in the history of conservation. This year, thanks to the 89th Congress, we will restore more land for more parks, for more playgrounds for our children to use than we will lose to housing ventures, to highways, to airports, and to shopping centers.

We are creating recreation areas where they will do the most good for the greatest number, for all of our people—near our cities, where most of our people live. We are putting national parks and seashores where a man and his family can get to them.

The father that is the mechanic can load his five children in his car, and in an hour or two hours, or three hours, take them to a nearby playground.

The 89th Congress has done all of this. It has enacted 20 major conservation measures. Today we pay tribute to that Congress.

Today we establish by Act of Congress:

The Guadalupe Mountain National Park in Texas. That is a great tribute to the Senator from Texas, Senator YARBOROUGH, who has been the outstanding leader in conservation in that State.

The Pictured Rocks National Lake Shore in Michigan.

The Big Horn Canyon National Recreation Area in Montana.

The Wolf Trap Farm Park in Virginia.

We increase the land in the Point Reyes National Seashore in California. And if we don't stop Mrs. Johnson going out there we will increase it some more, I am afraid.

I am also signing today the Endangered Species Preservation Act and the National Historic Preservation Act. Both of these will help us to preserve for our children the heritage of this great land we call America that our forefathers first saw.

The bills that I will now sign help enrich the spirit of America.

These Acts of Congress help assure that this land of ours—this gift that is outright from God—shall be the most precious legacy that we leave.

I want to express my gratitude to the leaders of the parks movements, the recreation areas, the State commissions and their executive directors, for their enlightened interest, for their support, and particularly for the presence of a good many of them this morning.

CONCLUSION OF MORNING BUSINESS

The VICE PRESIDENT. Is there further morning business? If not, morning business is closed.

Mr. MANSFIELD. Mr. President, I suggest the absence of a quorum.

The VICE PRESIDENT. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The VICE PRESIDENT. Without objection, it is so ordered.

RESOLUTION DIRECTING TARIFF COMMISSION TO CONDUCT A SECTION 332 INVESTIGATION OF OLIVES

Mr. KUCHEL. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of a resolution which I send to the desk.

The VICE PRESIDENT. The resolution will be stated.

The LEGISLATIVE CLERK. A resolution (S. Res. 315) directing the Tariff Com-

mission to conduct a section 332 investigation of olives and to report their findings to the Senate by March 31, 1967.

The VICE PRESIDENT. Is there objection to the present consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. KUCHEL. Mr. President, in the absence of our able minority leader who adorns this parliamentary body, I shall read some comments which he had desired to make with respect to the resolution.

Mr. President, I ask unanimous consent that my name may be added as a co-sponsor of the resolution.

The VICE PRESIDENT. Without objection, it is so ordered.

Mr. KUCHEL. Mr. President, I ask unanimous consent that a statement prepared by the Senator from Illinois [Mr. DIRKSEN] be printed in the RECORD at this point.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT BY SENATOR DIRKSEN

This is a simple resolution that directs the Tariff Commission, pursuant to Section 332 of the Tariff Act of 1930, to make an investigation with respect to the importation of olives into the United States, including (but not limited to) the conditions of competition in the United States between olives bottled or canned in the United States (whether or not grown in the United States) in containers suitable for retail sale and olives bottled or canned outside the United States and imported into the United States in containers suitable for retail sale. The resolution directs the Commission to report back the results of the investigation on or before March 31, 1967.

The reason for this resolution is quite simple. At the time the tariff rate was established there was no packing of foreign olives abroad for shipment to the United States and sale at retail. As a result an extremely low rate of duty, some 20¢ per gallon, was placed on bulk olives. These were purchased by domestic packers who in turn packed them in containers for sale at retail.

The situation has changed somewhat in the last few months and there has been a beginning of importation of olives in containers ready for sale at retail. In the month of September alone, 70,714 cases of stuffed olives in glass containers arrived in this country, and there is another 200 tons in transit. This has caused considerable concern to the domestic packers and as members know, they have requested legislation. However, I do not feel that it would be appropriate to legislate in this field without the benefit of information from the Tariff Commission. That is the sole reason for this resolution; it does not require any recommendations on the part of the Commission, merely a finding of fact.

This resolution could have been in the form of a Finance Committee resolution, but it does not appear that the Committee will meet again this year. For this reason I offer the amendment as a Senate Resolution and ask unanimous consent for immediate consideration.

Mr. KUCHEL. Mr. President, the resolution would simply direct the Tariff Commission to make a study.

Mr. MANSFIELD. Mr. President, I have no objection.

The VICE PRESIDENT. The question is on agreeing to the resolution.

The resolution was agreed to, as follows:

Resolved, That (a) the United States Tariff Commission is directed, pursuant to section 332 of the Tariff Act of 1930, to make an investigation with respect to the importation of olives into the United States, including (but not limited to) the conditions of competition in the United States between olives bottled or canned in the United States (whether or not grown in the United States) in containers suitable for retail sale and olives bottled or canned outside the United States and imported into the United States in containers suitable for retail sale.

(b) For purposes of subsection (a), the Commission may utilize all information and data previously obtained or compiled by it in carrying out the duties and exercising the power conferred on it by section 332 of the Tariff Act of 1930.

(c) The Commission shall report the results of the investigation made by it pursuant to subsection (a) to the Senate on or before March 31, 1967.

Mr. KUCHEL. Mr. President, I move that the vote by which the resolution was agreed to be reconsidered.

Mr. MANSFIELD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

YEAR 1966 AMENDMENTS TO THE HOUSING ACT—CONFERENCE REPORT

Mr. SPARKMAN. Mr. President, I submit a report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes. I ask unanimous consent for the present consideration of the report.

The VICE PRESIDENT. The report will be read for the information of the Senate.

The legislative clerk read the report.

(For conference report, see House proceedings of today.)

The VICE PRESIDENT. Is there objection to the present consideration of the report?

There being no objection, the Senate proceeded to consider the report.

Mr. SPARKMAN. Mr. President, we have had a full and free discussion in an open conference between the House and Senate on the House bill. Previously, the Senate had passed two bills; namely, S. 3708 and S. 3711. However, the House combined the two bills into one. It took up S. 3708 and put a great part of S. 3711 into it as an amendment. However, there were a few items in the Senate bill that they did not include. There were five items that we had to drop because we were advised by the Parliamentarian of the House that they would be subject to a point of order under the Rules of the House.

I think it might be well to enumerate them:

First. Authorizing FHA to insure mortgages on seasonal homes.

Second. Fellowships for graduate training in historic preservation.

Third. Clarifying authority for the leasing of newly constructed housing by public housing authorities.

Fourth. Purchase by FNMA of mortgages dated prior to August 2, 1954.

Fifth. Conforming nomenclature in statutes to include the Department of Housing and Urban Development.

Mr. President, I ask for the yeas and nays on the conference report.

The yeas and nays were ordered.

UNANIMOUS-CONSENT AGREEMENT

Mr. SPARKMAN. Mr. President, I should like to propound a unanimous-consent agreement that the vote on this conference report come not later than 12:45 o'clock p.m.

The VICE PRESIDENT. Is there objection to the request of the Senator from Alabama? The Chair hears none, and it is so ordered.

Mr. SPARKMAN. Mr. President, some of these items which were left out of the House-passed bill were felt by certain Senators to be quite important. The House conferees made a commitment to us, but, of course, it was in the nature of a gentleman's agreement because naturally Members of one Congress cannot bind Members of the next Congress; but they did agree that early next year they would cooperate with us in getting through new legislation for the items that had to be dropped.

I shall be brief in my presentation, but I want to point this out, because a great many Members, I am sure, are interested in this subject.

S. 3708 was a bill for demonstration cities and as passed by the Senate was a much better bill than the one previously introduced. Let me say that this is to the credit of the Senator from Illinois [Mr. DOUGLAS], who introduced the original bill, and to the Senator from Maine [Mr. MUSKIE], who worked so hard in revising the bill and actually managed it on the floor of the Senate.

In that connection, I was opposed to a demonstration cities bill. I voted against it in the committee. I was absent, as I recall, at the time it was taken up by the Senate, but I was paired against it at that time.

Even though I am still opposed to the concept of demonstration cities and the way it would be authorized under the bill, the demonstration cities provision was not in conference because the Senate and the House provisions were virtually identical. The House took the demonstration cities provision as passed by the Senate, almost word for word—there may have been a few technical changes—but the substantive part is identical to what the Senate passed. Therefore, it was not in conference and there was no disagreement and nothing that could have been done by the conferees to change what the two bodies had already agreed on.

The items that were in conference on the bill were those relating to amendments to FHA insurance, amendments to FNMA, amendments to urban renewal and to rural housing—the fact is, we

passed it that way as amendments to existing housing laws, and it was on that basis that S. 3711 was passed.

The great majority of the items which the Senate approved were included in the conference agreement, although some were omitted, as I pointed out, because they would be subject to a point of order in the House.

Some of the items which the House passed that the Senate did not agree to are included. The principal one is the new provision for FHA insurance for new towns.

The Senate Banking and Currency Committee, both the Housing Subcommittee and the full committee and the Senate itself, all have turned down the so-called new town legislation, I believe on three different occasions. We did want to take it this time but found the House conferees adamant and we felt obliged to work something out. The Senate conferees promised they would go along provided certain restrictions were placed on the proposal. The Senate conferees insisted upon it. One was that it would be on an experimental basis and for 5½ years only—that is, until June 30, 1972.

Second, that the program be on a limited basis—that is, by the amount of FHA insurance outstanding; and, third, that before FHA could accept an application for new town insurance in any area, the consent of the local governing body or bodies, as well as the Governor of the State, would have to be obtained.

With these limitations, the Senate conferees reluctantly accepted the new town idea on an experimental basis.

(At this point, Mrs. NEUBERGER took the chair as Presiding Officer.)

Mr. SPARKMAN. Madam President, I believe that covers the items in the bill briefly but completely.

I wonder whether the Senator from Maine [Mr. MUSKIE], who managed the bill, S. 3708, would like to make some remarks at this time?

Mr. MUSKIE. Yes. Madam President, the report which has just been made by the distinguished Senator from Alabama is correct. It gives the substance of what was done in conference. The demonstration cities bill was not in conference because the House version was essentially that which the Senate approved; so that the conference revolved about the differences between the House and Senate versions of the FHA insurance provisions of another bill, and so forth.

What was quite frustrating was the fact that the Senate, having passed the two bills as separate pieces of legislation, and the House having passed similar provisions as one piece of legislation, the second Senate bill was not in conference as such. So that any provisions of the second Senate bill in which we are interested, including in the conference, were subject to a point of order.

We fought hard to include the five items which the distinguished Senator from Alabama has described.

I had a particular interest in the seasonal homes version. The House managers were convinced of the merits of that proposition. On yesterday, agree-

ment was obtained on it and it was concluded tentatively to include that provision in the conference report; but this morning the House Parliamentarian ruled that that provision, not having been included in the House bill, and the Senate bill not being in conference, the seasonal homes provision was not germane to the conference and could not be included or it would be subject to a point of order in the House.

I say this because I know the particular interest of the Senator from Michigan [Mr. HART], as he was the sponsor of the original bill.

We worked it out in the Senate committee and in conference. It is a viable proposition and holds great promise for development of the rural undeveloped areas of his State and my State.

Mr. HART. Madam President, will the Senator yield?

Mr. MUSKIE. I yield.

Mr. HART. I wish to thank the Senator from Alabama and the Senator from Maine and the conferees for going as far as they were able to go. I am glad to know that the House conferees were persuaded as to the merits of it. It promises enactment of it shortly after the beginning of next year's session.

Mr. MUSKIE. Yes. We have gone a long way down the road toward enactment. With the sympathetic reaction we have received, there is great promise for development of relatively undeveloped lake and seashore areas of New England and the Midwest.

Madam President, I think it should be noted that the conference report on S. 3708 preserves the basic provisions and the intent of the Senate version of the demonstration cities title of the housing legislation. You may recall that the Senate Banking and Currency Committee modified the original administration proposal to make the comprehensive city demonstration program truly innovative, responsive to local needs and dependent on local initiative.

The Senate version preserved the intent of President Johnson, making possible:

First. The concentration of available and special resources in sufficient magnitude to demonstrate swiftly what qualified urban communities can do and can become;

Second. The coordination of all available talent and aid on these targets in a way which is impossible where assistance is provided across the board and men and money must be spread thin; and

Third. The mobilization of local leadership and initiative to assure that the key decisions as to the future of American cities are made by the citizens who live there and to commit local leadership, both public and private, to be a comprehensive attack on urban problems, freed from the constraints that have handicapped past efforts and inflated their costs.

The House made several changes in the demonstration cities proposals. Most of them simply made explicit reference to actions the Secretary could not take which were already implicit in the bill. There were two changes made by the House which concerned me. The first

dealt with the use of supplemental grant funds; the second involved the metropolitan expediter proposal.

In the Senate-passed bill it was clear that new, innovative, nonfederally aided programs had first claim on the supplemental grants under the comprehensive city demonstration program. A House committee amendment removed the priority requirements between these new approaches and the traditional grant-in-aid programs. Fortunately, in conference the House conferees agreed to recede, thus restoring the original intent of the legislation.

The House also removed the authorization for metropolitan expeditors. In spite of the explicit provisions of the Senate-passed bill, preventing the appointment of such expeditors except on the request of local officials, some mayors were concerned that they would have the service thrust down their throats. The conferees agreed on compromise language which spells out in more detail the importance of local initiative under this program.

I am pleased to note that the House conferees also agreed to the restoration of a modified version of the Senate's urban information and technical assistance program. This will make it possible for smaller communities to gain the same benefits of coordinated information and technical assistance which the large cities and metropolitan centers can obtain from the metropolitan expeditors. This proposal was developed by the distinguished junior Senator from New Hampshire [Mr. McINTYRE].

Finally, Madam President, I would like to point out that the combination of the demonstration cities, metropolitan planning and development, and urban information and technical assistance programs in this legislation gives us a balanced approach to the problems of our large cities, growing metropolitan areas and small communities. The tools are experimental; the proposals are, in some ways, tentative; but I consider them sound and constructive. I am pleased that they have been incorporated in the compromise version of S. 3708.

Madam President, I think that is about the substance of the conference report. I compliment the Senator from Alabama for his usual patience and effective leadership in conference. We were able, I think, to sustain the Senate's position on most of the items that came before us.

Mr. SPARKMAN. I thank the Senator. I thank him for his fine work and his cooperation.

Mr. COTTON. Madam, President, will the Senator yield for a question?

Mr. SPARKMAN. I first yield 2 minutes to the Senator from Oklahoma [Mr. HARRIS].

Mr. HARRIS. Madam President, this is a different bill from the one which passed the Senate.

I choose to vote "nay" on this conference report in order to indicate my strong belief that we must hold the line on domestic expenditures in the face of mounting costs of the war in Vietnam.

Mr. COTTON. Madam President, will the Senator yield?

Mr. SPARKMAN. I yield to the Senator from New Hampshire.

Mr. COTTON. I gather, from the clear and lucid report of the Senator from Alabama, that, like myself, he is not in favor of demonstration cities at this time.

Mr. SPARKMAN. The conference report goes beyond that.

Mr. COTTON. I say, I gather that.

Mr. SPARKMAN. No, I am not in favor of demonstration cities legislation.

Mr. COTTON. The point is, suppose, in voting on the conference report—

Mr. SPARKMAN. I did not favor "new towns," legislation but I think we have pretty well safeguarded the provisions that we finally agreed to in the bill.

Mr. COTTON. In seeking a rollcall on this matter, Senators who, like myself, would under no circumstances tend to cast any vote on this record to sustain demonstration cities at this time, during the war in Vietnam, are obliged, in a sense, to vote against a good conference report and against what was obtained by the conferees in order to sustain that principle. I am surprised that a rollcall has been requested.

Mr. SPARKMAN. I am not sure the Senator's position is correct because his stand is somewhat like mine. I stand against a new demonstration cities program. We could not do anything about the demonstration cities provision, because it was not in conference. There are many useful items in the bill, one of which has to do with urban renewal credit for expenditures made by cities in the construction of public buildings for different areas. The conferees worked out new general language to give all cities the chance of benefiting from the proposal. I said I would rather have this language, giving all cities credit for 25 percent of the cost of certain specified types of public buildings and save us against a rash of cities coming up each year requesting special exceptions.

Mr. COTTON. Let me put it this way. Even if a majority of the Senate—which is not conceivable, but assuming it did—voted to reject the conference report, and the report were rejected, demonstration cities would still be a fact.

Mr. SPARKMAN. I think that is true.

Mr. COTTON. Is that about the parliamentary situation?

Mr. SPARKMAN. For all practical purposes, that is what it amounts to.

Mr. COTTON. If this report were rejected and if no report were accepted, demonstration cities is already in and will go to the President as an act of Congress?

Mr. SPARKMAN. There are a few technical amendments that would have to be taken out, but the House could do that.

Mr. COTTON. It boils down to the fact that if this report were rejected, a vote for rejection would be a vote for demonstration cities to be rejected.

Mr. SPARKMAN. But with amendments it could be remedied by the House and the bill put through as passed by the Senate without any technical changes.

Mr. COTTON. In a sense, a vote for the conference report would be a vote for demonstration cities.

Mr. SPARKMAN. I do not think so. I stated my opposition to a new demon-

stration cities program, but I do not regard my vote for the conference report as a whole as being a vote for a demonstration cities proposal, because both Houses have acted to approve it and it was not a matter that the conferees could do anything about.

Mr. COTTON. In other words, if the Senator from Alabama voted for the conference report, he could rationalize his own vote, whether he could explain his vote to his constituents or not. To me, I think a vote which needs technical explanation is an unwise vote, if one needs to make a technical explanation to explain that the vote he took was aiding a cause he represented.

I find myself extremely reluctant to vote for the report, even though the conferees did a good job, and even though I understand the demonstration cities is not involved. I find it difficult to cast a vote which can be taken as approval, at any stage of the game, of demonstration cities, which, in substance, or because of technicalities which the Senator has mentioned, would make demonstration cities a fact.

Mr. SPARKMAN. I have voted for many conference reports that had material with which I did not agree. In fact, I know of no conference report with respect to which I agreed on everything that was in it. I voted against some of those items, but I voted for the conference report because there were items in it that I wanted to see written into law. I feel that this is the case regarding the bill before us. There are many very good items in this omnibus housing legislation.

Mr. COTTON. We have all done that many times, but when a conference report is offered that—call it what you like—at least clears the decks for the final enactment of demonstration cities—

Mr. SPARKMAN. Through a technicality only, in that the House passed one bill instead of two bills.

Mr. COTTON. I thank the Senator. We understand each other, though we may not agree on the effect.

Mr. HOLLAND. Mr. President, will the Senator yield?

Mr. SPARKMAN. I yield.

Mr. HOLLAND. I find myself in very strong accord with what the Senator from New Hampshire has said. That is so because I have been at a hearing on the supplemental appropriation bill. Yesterday we had items, conditioned on adoption of the conference report, amounting to something over \$24 million for this program. It was made very clear to us that these two items were wholly for planning, and if the planning went through, there would be requests for hundreds of millions of dollars in appropriations.

To me it seems that our approval of the conference report is laying the predicate for the beginning of a large program in the supplemental appropriation bill this year, and what will follow will be the saddling of another very expensive program on the people of the country at a time when I do not think we should be doing it.

The only way I can demonstrate that I think the whole program is unwise is to vote against the conference report. I

do so without casting any reflection upon the conferees.

Mr. SPARKMAN. The matter that the Senator has reference to was not subject to conference.

Mr. HOLLAND. Due to the fact that both Houses had passed some sort of bill. But to vote for that conference report, when it lays the predicate for immediate heavy appropriations, and, very soon, for much enlarged appropriations, is something I cannot consistently and conscientiously do.

I thank the Senator for yielding.

Mr. SPARKMAN. The Senator can understand this: The House passed a bill S. 3708 that was substantially identical with the Senate bill. It had three titles. The House omitted one title. That was put back on by the conferees. I believe the Senator from Florida is referring to titles I and II of that bill, only one of which has to do with the demonstration cities proposal.

Mr. HOLLAND. Madam President, will the Senator yield?

Mr. SPARKMAN. I yield.

Mr. HOLLAND. I understand what has happened. I voted against the bill when it passed the Senate.

Mr. SPARKMAN. So was I against it.

Mr. HOLLAND. I understand. To maintain my position, and particularly to maintain the position which I expect to take in the Appropriations Committee, and which I shall be unable to take on the floor, because there will be an item in the supplemental bill of over \$5 million—and one cannot vote against a bill which contains many worthwhile projects simply because he disagrees with one part of it—and because this is the only time I can show my complete disapproval of this program, I shall vote against the conference report.

Mr. SPARKMAN. Of course, that with which the Senator disagrees is only a small part of this bill; and there is nothing before us so far as disagreement between the two Houses is concerned. I took the position the Senator takes. However, let me say that I do not understand the Senator's figure of \$24 million, when the demonstration cities provision calls for \$12 million next year.

Mr. HOLLAND. Two items, one of \$12 million for planning for so-called demonstration cities, and one for \$12,850,000, I believe it was, for the area planning, are before the committee considering the supplemental appropriation right now.

Mr. SPARKMAN. That second part is not a part of the demonstration cities provision.

Mr. HOLLAND. On which the hearings were held yesterday afternoon. Those two items are but two parts of an otherwise large and fine program. As far as the Senator from Florida is concerned, he does not feel he would be consistent at all to vote now for this conference report, when he has voted against the bill and when he does not wish to enter into this highly expensive program at this time.

I thank the Senator for yielding.

Mr. SPARKMAN. I cannot see any way of stopping it, because both Houses have passed it.

I yield to the Senator from North Carolina.

Mr. ERVIN. Madam President, I appreciate my good friend the Senator from Alabama yielding to me.

I wish to associate myself with the remarks of the distinguished senior Senator from Florida. I think it is unfortunate for the Federal Government to embark now upon a new program which will cost the American taxpayers billions and billions of dollars. I think it is a bad precedent for the Federal Government to interject itself so far into the question of the composition of our municipalities.

I do not think that Congress can justify such a program at this time, when we have the war in South Vietnam, and when the country is threatened with inflation. I think Congress ought not to make any pretension that it has any purpose to fight inflation, if it inaugurates such a new program as this. I want the record to show I am opposed to it. I voted against the bill when it was before the Senate, and I shall also vote against the conference report.

I thank the Senator from Alabama for his kindness in yielding.

Mr. SPARKMAN. Madam President, I repeat that the demonstration cities issue was not in conference. We could not have done anything there that would have turned it down. Even if we rejected it here, it still would go through, because both Houses have passed the same bill. All they would have to do would be separate the bills over there, and put it through.

Mr. ELLENDER. Madam President, will the Senator yield?

Mr. SPARKMAN. I yield.

Mr. ELLENDER. The Senator states \$12 million is being authorized. For what purpose?

Mr. SPARKMAN. For the planning.

The PRESIDING OFFICER. Under the unanimous-consent agreement heretofore entered into, the time for the vote has arrived. The question is on agreeing to the conference report. On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. MANSFIELD (after having voted in the negative). On this vote I have a pair with the Senator from Oklahoma [Mr. MONRONEY]. If he were present and voting, he would vote "yea." If I were at liberty to vote, I would vote "nay." I withdraw my vote.

Mr. LONG of Louisiana. I announce that the Senator from Idaho [Mr. CHURCH], the Senator from Missouri [Mr. LONG], the Senator from Washington [Mr. MAGNUSON], the Senator from Missouri [Mr. SYMINGTON], the Senator from Maryland [Mr. TYDINGS], and the Senator from Tennessee [Mr. GORE] are absent on official business.

I also announce that the Senator from New Mexico [Mr. ANDERSON], the Senator from Alaska [Mr. BARTLETT], the Senator from Maryland [Mr. BREWSTER], the Senator from North Dakota [Mr. BURDICK], the Senator from Nevada [Mr. CANNON], the Senator from Illinois [Mr. DOUGLAS], the Senator from Mis-

issippi [Mr. EASTLAND], the Senator from Arkansas [Mr. FULBRIGHT], the Senator from Alaska [Mr. GRUENING], the Senator from Arizona [Mr. HAYDEN], the Senator from North Carolina [Mr. JORDAN], the Senator from New York [Mr. KENNEDY], the Senator from New Hampshire [Mr. MCINTYRE], the Senator from Montana [Mr. METCALF], the Senator from Minnesota [Mr. MONDALE], the Senator from Oklahoma [Mr. MONRONEY], the Senator from Rhode Island [Mr. PELL], and the Senator from West Virginia [Mr. RANDOLPH] are necessarily absent.

I further announce that, if present and voting, the Senator from Maryland [Mr. BREWSTER], the Senator from Alaska [Mr. GRUENING], the Senator from New York [Mr. KENNEDY], the Senator from Washington [Mr. MAGNUSON], the Senator from Maryland [Mr. TYDINGS], the Senator from West Virginia [Mr. RANDOLPH], the Senator from Nevada [Mr. CANNON], the Senator from Alaska [Mr. BARTLETT], and the Senator from Tennessee [Mr. GORE] would each vote "yea."

On this vote, the Senator from Illinois [Mr. DOUGLAS] is paired with the Senator from Mississippi [Mr. EASTLAND]. If present and voting, the Senator from Illinois would vote "yea," and the Senator from Mississippi would vote "nay."

Mr. KUCHEL. I announce that the Senators from Colorado [Mr. ALLOTT and Mr. DOMINICK], the Senator from New Jersey [Mr. CASE], the Senator from Kentucky [Mr. COOPER], the Senator from Nebraska [Mr. CURTIS], the Senator from Arizona [Mr. FANNIN], the Senator from Michigan [Mr. GRIFFIN], the Senator from Idaho [Mr. JORDAN], the Senator from Iowa [Mr. MILLER], the Senator from South Dakota [Mr. MUNDT], the Senator from California [Mr. MURPHY], the Senator from Kansas [Mr. PEARSON], and the Senator from Texas [Mr. TOWER] are necessarily absent.

The Senator from Illinois [Mr. DIRKSEN] and the Senator from Vermont [Mr. PROUTY] are absent because of illness.

If present and voting, the Senator from California [Mr. MURPHY] would vote "nay."

On this vote, the Senator from Colorado [Mr. ALLOTT] is paired with the Senator from Nebraska [Mr. CURTIS]. If present and voting, the Senator from Colorado would vote "yea," and the Senator from Nebraska would vote "nay."

On this vote, the Senator from New Jersey [Mr. CASE] is paired with the Senator from Colorado [Mr. DOMINICK]. If present and voting, the Senator from New Jersey would vote "yea," and the Senator from Colorado would vote "nay."

On this vote, the Senator from Kentucky [Mr. COOPER] is paired with the Senator from Arizona [Mr. FANNIN]. If present and voting, the Senator from Kentucky would vote "yea," and the Senator from Arizona would vote "nay."

On this vote, the Senator from Kansas [Mr. PEARSON] is paired with the Senator from Idaho [Mr. JORDAN]. If present and voting, the Senator from Kansas would vote "yea," and the Senator from Idaho would vote "nay."

On this vote, the Senator from Texas [Mr. TOWER] is paired with the Senator from Iowa [Mr. MILLER]. If present and voting, the Senator from Texas would vote "yea," and the Senator from Iowa would vote "nay."

The result was announced—yeas 38, nays 22, as follows:

So the conference report was agreed to.

Mr. MUSKIE. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. SPARKMAN. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

TRIBUTE TO SENATOR A. WILLIS ROBERTSON

Mr. SPARKMAN. Madam President, all of the members of the Committee on Banking and Currency, except one, have signed a certificate that I hold in my hand.

I read the resolution to the Senate:

RESOLUTION OF COMMENDATION FOR SERVICES RENDERED BY HON. A. WILLIS ROBERTSON, U.S. SENATOR FROM VIRGINIA

Whereas, Senator A. WILLIS ROBERTSON of Virginia has served the people of this Nation well and ably for 34 years in both the House of Representatives and the Senate, has been a member of the Committee on Banking and Currency of the Senate since January 8, 1947, and has served as Chairman from February 6, 1959; and

Whereas Senator ROBERTSON has exhibited the highest measure of initiative, imagination, and effectiveness in his service as a member and as Chairman of the Committee, and has thereby contributed greatly to the development and enactment of sound and constructive legislation in many fields, including particularly banking and financial institutions, coinage and currency, and defense mobilizations; and

Whereas in the discharge of his duties Senator ROBERTSON has been ever mindful of the rights, responsibilities, and duties of his

fellow Senators, and has served as Chairman in the highest tradition of fairness; and

Whereas Senator ROBERTSON will leave the Senate with the expiration of the 89th Congress: Now, therefore, be it

Resolved, That the Committee on Banking and Currency expresses its warm affection for Senator ROBERTSON and its deep appreciation for the great service which he has rendered to the Committee, to the Senate, and to the United States by his initiative, ability, statesmanship, and courtesy, as a member and as Chairman of the Committee; and be it further

Resolved, That the Committee extend to Senator ROBERTSON its best wishes for a long, useful, and happy life in years to come.

Mr. President, I stated that every member of the committee except one had signed the resolution. Of course, that one is the chairman himself, Senator ROBERTSON. Every member serving under the chairman has signed the resolution, and I ask unanimous consent that their names may be printed in the RECORD.

The PRESIDING OFFICER (Mr. PROXMIER in the chair). Is there objection?

There being no objection the list of names was ordered to be printed in the RECORD as follows:

JOHN SPARKMAN, Alabama.
PAUL H. DOUGLAS, Illinois.
WILLIAM PROXMIER, Wisconsin.
HARRISON A. WILLIAMS, Jr., New Jersey.
EDMUND S. MUSKIE, Maine.
EDWARD V. LONG, Missouri.
MAURINE B. NEUBERGER, Oregon.
THOMAS J. MCINTYRE, New Hampshire.
WALTER F. MONDALE, Minnesota.
WALLACE F. BENNETT, Utah.
JOHN G. TOWER, Texas.
STROM THURMOND, South Carolina.
BOURKE B. HICKENLOOPER, Iowa.

Mr. SPARKMAN. I take great pleasure now in presenting this resolution to our beloved chairman. [Applause, Senators rising.]

Mr. ROBERTSON. Mr. President, honored colleagues, I am deeply touched by this evidence of your friendship and your good will.

For 20 years I have been privileged to serve with some of you on this great committee. During that time, we have seen the deposits of commercial banks more than double, and a thousand percent increase in accounts in savings and loan institutions. We have seen an increase of approximately 250 percent in the gross national product.

Undoubtedly, our banks have been fulfilling the mission prescribed by the first Secretary of the Treasury—sometimes reputed to be the greatest—Alexander Hamilton, who said that they must be the repository of the savings of the people, and must promote and develop the industrial life of a nation.

Mr. President, I am sure that no Senator in the history of the Senate has served with a finer group that I have, in serving with the members of the Committee on Banking and Currency. Although my political philosophy sometimes clashed with that of the majority of the committee, we never had personal feelings about any issue. I can point with some pride to the fact that the Senate has never defeated any bill that our committee has reported. In fact, the Senate has never materially changed

any bill that we have reported, except by our agreement and consent.

I am very happy, in concluding this enjoyable work with this committee, that I am to be succeeded as chairman of that committee by the fine gentleman from Alabama. He is very able; he is very patriotic; and while he has centered his attention primarily on housing and has done a wonderful job for housing and urban renewal, he also has been in close touch with all matters pertaining to commercial banks, mutual banks, and savings and loan institutions. All our financial institutions can look forward to his making a fight for fair treatment. He will be an enlightened chairman, he will be an able chairman, and he will be an efficient and an effective chairman of this great committee.

Of course, Mr. President, I did not sign this certificate, because, with all due deference, it praised me beyond my just ability. However, I would be less than frank and less than human if I did not say, "Thank you," from the bottom of my heart.

I shall not say goodbye, because I hope from time to time to make contact with you through the years. I shall merely say, "Until we meet again," because I shall always be interested in what you are doing. I can say, in the words of my friend, Dr. Billy Graham, "May the Lord bless you real well."

Mr. ERVIN. Mr. President, when the 90th Congress convenes next January, the senior Senator from Virginia will for the first time in 33 years be missing from the rollcall, but he will not be absent from the hearts and minds of those who have served with him here. I hope, however, that he will continue to make his influence felt through frequent visits and through constant advice from the Old Dominion State.

As befits the tradition of distinguished public servants and statesmen Virginia has produced throughout our history, WILLIS ROBERTSON has carved a niche for himself from which history may not displace him. His career—indeed his life—is unalterably linked to the history of the Congress in this century.

He entered the House of Representatives in 1933, in a crucial period for our Nation. He departs at an even more crucial juncture, at a time when the Nation stands most in need of the benefit of the wise counsel, the commonsense and the good judgment which is nurtured by long experience and endowed with a broad and deep knowledge. It is this rich resource the Senate loses as the senior Senator from Virginia takes his leave.

His unflagging energy and his physical fitness are legendary and surely we may all envy him the accolade bestowed by one of my staff members, who observed recently that his smile and courtly bow when he passes one in the hall would alone warrant the disbursement of his salary. Fortunately for the annals of the Senate, he has far more to commend his service.

While others may have sought the hollow applause of more sensational causes, this Virginia Senator has steadfastly spent his time and intellect on the underlying backbone issues affecting the national economy. As chairman of the

HIGHLIGHTS: Senate passed supplemental appropriation bill. House agreed to conference report on demonstration cities bill, which includes rural-housing amendments. House agreed to conference report on poverty bill. Senate passed bill to authorize assignment of ACP payments.

HOUSE--OCTOBER 20

1. HOUSING LOANS. Agreed to, 142-126, the conference report on S. 3708, the proposed Demonstration Cities and Metropolitan Development Act of 1966, which includes various amendments relating to rural housing. This bill will now be sent to the President. pp. 26998-012
2. POVERTY. Agreed to, 170-109, the conference report on H. R. 15111, to extend and amend various programs under the Economic Opportunity Act. This bill will now be sent to the President. pp. 27013-39

3. APPROPRIATIONS. Agreed to the conference report on H. R. 18119, the State, Justice, and Commerce appropriation bill. pp. 27040-1
Received the conference report on H. R. 14745, the Labor-HEW appropriation bill (H. Rept. 2331). pp. 27051-4
4. RIVERS-HARBORS; FLOOD CONTROL. Agreed to, 261-0, the Senate amendments to H. R. 18233, the rivers-and-harbors and flood control bill. This bill will now be sent to the President. pp. 27041-9
5. WHEAT. The Daily Digest says the House committee reported S. 3550, to provide for issuance by the Secretary of Agriculture of a 25-cent-per-bushel marketing certificate on wheat for the 1967, 1968, and 1969 crops (H. Rept. 2329).
6. EDUCATION. The Daily Digest states that the House agreed to, 185-76, the conference report on H. R. 13161, to provide additional aid for elementary and secondary schools, thus clearing the bill for the President. p. D1030
7. TARIFF. The Daily Digest states that the House agreed to the conference report on H. R. 11216, to amend the description and treatment of articles assembled abroad from U. S. products, thus clearing the bill for the President. p. D1031
8. TAXATION. The Daily Digest states that the House agreed to, 161-76, the conference report on H. R. 17607, regarding investment credit and allowance of accelerated depreciation. p. D1031

HOUSE--OCTOBER 19, CONTINUED

9. CONGRESSIONAL REORGANIZATION. Rep. McClory recommended use of automatic data processing in Congress for budgetary data, legislative history of bills, digest of bills, etc. pp. 26787-8
10. ELECTRIFICATION. Rep. Anderson, Tenn., deplored the "failure of the 89th Congress to take constructive action to provide for the growing financial needs of our rural electrification cooperative systems." p. 26797
11. SOIL CONSERVATION. Rep. Leggett commended the work of SCS. p. 26805

SENATE--OCTOBER 20

12. APPROPRIATIONS. Passed with amendments H. R. 18381, the supplemental appropriation bill (pp. 26866-83). Agreed to an amendment by Sen. Young, N. Dak., to limit to \$500,000 funds for various aspects of the poverty program (p. 26874). Senate conferees were appointed (p. 26883) and the "Daily Digest" states that House conferees were appointed (p. D1031).
The "Daily Digest" states that the conference report on H. R. 18119, the State, Justice, and Commerce appropriation bill, was adopted and cleared for the President. p. D1029
13. RIVERS-HARBORS; FLOOD CONTROL. Passed, with an amendment in the nature of a substitute bill, H. R. 18233, the rivers-and-harbors and flood-control bill. pp. 26885-96
14. RESEARCH. The "Daily Digest" states that the "Senate concurred in House amendment (with amendments) to S. 1674, authorizing Secretary of the Interior to

and so skillfully commanded a role in its leadership that they have permanently influenced its course. Judge SMITH is one of these few, famous men. In his service to this body, and in his defense of its position as a separate and coequal branch of Government, he has been a great legislator. He has represented here not simply his district, but also a classic tradition, and he has done so very well.

Mr. HARDY. Mr. Speaker, Judge SMITH, one of the true patriots of our country, will soon be leaving this distinguished body and I, for one, am sorry to see him go. The House will not be the same without him.

I have always admired a man who has the courage of his convictions and there is no one who stands taller than Judge SMITH in this regard. Despite the many attacks which have been levelled against him, he has held his head high and gone on to do what he feels to be in the best interests of his constituency and the Nation.

It has been a distinct privilege and an honor to know and to work with this fine gentleman, who has so faithfully and with such dedication served Virginia and the Nation for over 40 years. I am pleased to have the opportunity to join in honoring the judge for these many years of outstanding public service. We hope he will come back to see us.

Mr. GALLAGHER. Mr. Speaker, it was with great regret and a deep sense of loss that I learned Judge HOWARD W. SMITH, venerable chairman of our Rules Committee, will leave the House at the conclusion of the 89th Congress.

In his 36 years of selfless service to his district, his State of Virginia and our Nation, he spanned an era of great change and movement, an era of war and peace, an era of social and political revolution. Judge SMITH is well deserving of our deep thanks for his steadying influence and his contributions to the democratic process. No man has worked harder for the vision of what he saw America to be.

While I sometimes disagreed with his judgment, I valued his friendship and I respected his high ideals. I doubt the House will ever be quite the same after his departure.

Mr. Speaker, I salute Judge SMITH—a conscientious legislator, a great Virginian, a distinguished American.

Mr. McVICKER. Mr. Speaker, the retirement of the Honorable HOWARD W. SMITH of Virginia at the close of this session will be felt deeply by all of us who have had the privilege of working with him here on Capitol Hill. For 31 years he has ably served not only the citizens of his own great Commonwealth but of the entire Nation by his dedication and competence as a legislator. During his many years in Congress, Judge SMITH has displayed a steadfast devotion to good government and a sound economy. As chairman of the House Rules Committee he has repeatedly demonstrated his skill as a parliamentarian and his mastery of the art of statemanship. And, today, I would like to join with his many friends and

colleagues who will be extending him best wishes and praise as he leaves these halls.

Mr. BOLAND. Mr. Speaker, the retirement of the Honorable HOWARD W. SMITH of Virginia at the close of this term will stir the hearts of all his many friends on Capitol Hill. Those of us who have had the opportunity to know and work with him during his years of invaluable service to the legislative process are united in admiring his performance as a lawmaker, as a parliamentarian and as a man genuinely and deeply devoted to good government.

For 44 years Judge SMITH has served the people of his district with a diligence, honesty, and sincerity that renders him today the idol of his colleagues and thousands and thousands of his constituents. He is, beyond question, the prototype of the good, sound, conservative, down-to-earth public official, and as such he is admired by all.

Virginia-born and reared, Judge SMITH saw fit to serve the people of his State throughout the course of his adult life, and in so doing he established himself in the hearts of all Virginians.

Graduating from the University of Virginia in 1903, he entered the profession of law and practiced for almost 20 years, establishing in the process a record as a topnotch legal mind. In 1922 he was appointed to the bench of the Corporation Court of Alexandria, where he performed with brilliance before resigning 6 years later to accept appointment as judge of the 16th Judicial Court of Virginia. In all his judicial acts, Judge SMITH revealed a grasp of the law unequaled by any of his distinguished contemporaries.

In 1930, at the height of the depression years, Judge SMITH resigned his place on the bench of the 16th Judicial Court to accept the Democratic nomination for Congress, in the Virginia Eighth District. Elected in this his first political campaign, and reelected repeatedly, on 26 subsequent occasions, he came in time to stand among the best known men in Washington, renown as a scholar of the law and man of principle.

Of conservative nature, Judge SMITH has opposed for many years the possibility of runaway spending by the Federal authorities, and has done his best to economize at every turn. As chairman of the House Committee on Rules, he has scrutinized thousands of House bills, measured their value, exposed their flaws and pounded them into shape. And for all his work in the regard, never once has the Judge been questioned in the area of principle. For clearly, he is a man of the greatest integrity.

Every legislative action perpetrated by Judge SMITH was in line with his philosophy of government. A firm believer in the free American system he has sought to preserve our freedoms at every turn. As author of the Smith Act, he struck a blow against the interests of communism in the 1930's, and from that time to this the Communist influence in America has steadily declined.

In all his legislative endeavors in Washington, Judge SMITH has earned

the respect of all his colleagues and in all his personal dealings he has won their confidence.

We wish him well in whatever activities he now chooses to pursue, knowing full well he will perform with traditional zest and high ability.

Mrs. SULLIVAN. Mr. Speaker, I am grateful to the gentleman from Virginia [Mr. HARDY], for notifying me that he was taking this time to pay tribute to the Honorable HOWARD W. SMITH, so that I could arrange to have these brief words of mine included among the tributes.

Judge SMITH's views on virtually every issue to come before Congress have been almost the exact opposite of mine. This has never made any difference in his ever-present courtesy and graciousness. Appearing before the Rules Committee has always been something of a challenge and a most unusual experience, but Mr. SMITH, as chairman of that committee, and as a colleague here in the House, has been a true gentleman with whom I have enjoyed serving. I have always respected his integrity. He will be missed here in the House.

Mr. ROONEY of New York. Mr. Speaker, I think it very fitting that in the closing moments of this great Congress we pause at this time as a tribute to the distinguished gentleman from Virginia, the Honorable HOWARD W. "JUDGE" SMITH. For 36 years Judge SMITH has been an outstanding figure in this body. His dignity and warmth are too well known to all the Members for me to elaborate at this point. But these two fine attributes are not what we will remember Judge SMITH for. He will be remembered, rather, as a man of unshakeable principle—a man who kept his own counsel and then acted accordingly, firmly convinced in the right of his course. I cannot, in all truth, say that I have always agreed with Judge SMITH, but I can say that I have always admired and respected him. It would be impossible not to. The gentleman from Virginia will not be present when the 90th Congress convenes and it will be a poorer Congress for his absence. We, too, will be poorer for his absence.

Mr. VAN DEERLIN. Mr. Speaker, I know that every Member of the House feels a deep regret at the retirement of the Honorable HOWARD SMITH. For me, however, this regret is especially deep. I cherish an admiration for Judge SMITH that stems from personal contact with him when I was a freshman Congressman. His help to one new to the ways of Congress, his courteous personal consideration of my problems, and his wise counsel were so much more than I expected from a man of his stature that I have never forgotten it and will never forget it. He set an example for me that I shall strive to follow. In the words of his fellow Members of the House of Representatives, Congressman SMITH not only is "one of the most dedicated men ever to serve in Congress" but he "epitomizes integrity, conviction and patriotism." I know of no man who more richly deserves such praise.

Mr. ZABLOCKI. Mr. Speaker, it is with considerable pleasure and genuine pride that I join the gentleman from Vir-

ginia [Mr. PORTER HARDY, JR.] in paying tribute to one of Virginia's most outstanding gentlemen and legislators, my friend and colleague, the Honorable HOWARD W. SMITH.

During the time it has been my honor to serve in Congress with Judge SMITH I have come to appreciate the true meaning of the word "gentleman"—a word used many times each day in this Chamber. When applied to Judge SMITH, however, it takes on special meaning.

You, Mr. Speaker, recall that it was the great Cardinal Newman who probed the depth of the meaning in that term when he defined a gentleman as one who never willingly inflicted pain on others. Judge SMITH, the renowned gentleman from Virginia, is such a person.

In his distinguished chairmanship of the House Judiciary Committee he has always been firm but fair. Determined in his purpose of representing the people of Virginia and true to his own beliefs, Judge SMITH has always given consideration to every reasonable request.

Those who failed to recognize those qualities in Mr. SMITH have, I think, too often submitted him to unwarranted criticism. Ironically enough, those decisions for which he was perhaps most criticized were those in which he was carrying out the wishes of party leadership and in some cases the wishes of the sponsors of the legislation involved.

Those of us who have known Judge SMITH these many years and who have respected him find the prospect of the 90th Congress without him a bleak one indeed.

To him and his gracious and lovely wife go my personal best wishes for a happy and full life in the State and amid the people he has represented for so long with outstanding statesmanship.

GENERAL LEAVE

Mr. HARDY. Mr. Speaker, I ask unanimous consent that all Members desiring to do so may have 5 legislative days in which to revise and extend their remarks on the life and service of the Honorable HOWARD W. SMITH.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

APPOINTMENTS TO SELECT COMMITTEE ON STANDARDS AND CONDUCT

The SPEAKER. Pursuant to the provisions of House Resolution 1013, 89th Congress, the Chair appoints as members of the Select Committee on Standards and Conduct the following Members of the House: Mr. BENNETT, of Florida, chairman; Mr. BROOKS, of Texas; Mr. NIX, of Pennsylvania; Mr. CAREY, of New York; Mr. CAMERON, of California; Mr. RONAN, of Illinois; Mr. GROSS, of Iowa; Mr. BROYHILL, of Virginia; Mr. MICHEL, of Illinois; Mrs. MAY, of Washington; Mr. LATTA, of Ohio; and Mr. STAFFORD, of Vermont.

GENERAL LEAVE TO EXTEND

Mr. PATMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and pay tribute to the Honorable A. WILLIS ROBERTSON, U.S. Senator from Virginia.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

Mr. PATMAN. Mr. Speaker, I call up the conference report on the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, and ask unanimous consent that the statement of the managers on the part of the House be read in lieu of the report.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. PATMAN. Mr. Speaker, I ask unanimous consent that since this statement is published in the RECORD of October 18, 1966, beginning on page 26370 and available to every Member, that further reading of it be dispensed with.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

Mr. GERALD R. FORD. Mr. Speaker, I shall not object, but I do make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

CALL OF THE HOUSE

Mr. PATMAN. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 388]

Abernethy	Clevenger	Fisher
Adair	Cohelan	Flynt
Adams	Colmer	Fogarty
Albert	Conyers	Foley

Miller	Sickles	

The SPEAKER. On this rollcall 261 Members have answered to their names, a quorum.

By unanimous consent, further proceedings under the call were dispensed with.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966—CONFERENCE REPORT

Mr. PATMAN. Mr. Speaker, I renew my unanimous-consent request that the statement of the managers on the part of the House be considered as read.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

Mr. CRAMER. Mr. Speaker, reserving the right to object, I should like to ask the gentleman if the gentleman intends to allot some specific time to the minority side? There are some here who would like to ask some questions relating to this matter. Could the gentleman give us some assurance on this side with respect to time?

Mr. PATMAN. The gentleman from New Jersey [Mr. WIDNALL] and I have discussed that. He has submitted names of those who would like to be recognized. That would take about 30 minutes. There will only be 1 hour.

Mr. WIDNALL. Mr. Speaker, will the gentleman yield?

Mr. CRAMER. I yield to the gentleman from New Jersey.

Mr. WIDNALL. I submitted the names of those who had requested time. Up to the time I submitted the names, the gentleman from Florida had not requested time.

Mr. CRAMER. Will the gentleman please add my name to the list of those to be recognized?

Mr. PATMAN. I am going to allot time to those requested by the gentleman from New Jersey [Mr. WIDNALL].

Mr. CRAMER. Mr. Speaker, I withdraw my reservation.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

(For conference report and statement, see proceedings of the House of October 18, 1966.)

Mr. PATMAN. Mr. Speaker, the conference report on the demonstration cities bill which is now before the House is virtually identical to the bill which passed the House just last Friday by a vote of 178 to 141. As always, the conferees on both sides presented their views with vigor, but always with fairness and a willingness to seek reasonable solutions. In the 2 days of conference, we had over 50 items to debate, but, as the statement of managers attached to the conference report shows, the changes accepted by the House conferees were relatively few in number, only about 15, and most of them are relatively minor.

Title I of the conference report would inaugurate the President's demonstration cities program. This new program would concentrate the whole array of Government aids for physical and social rehabilitation in the most blighted areas of our towns and cities. The only change in this vital program made in conference was a minor modification of the language governing priorities in the use of the Federal supplemental grant funds.

Title II of the conference report—"Planned Metropolitan Development"—includes a Senate provision on which the conferees in the other body were adamant. They simply would not yield on their provision to authorize the appointment of metropolitan expeditors to help cities make the best use of available Federal aids; however, the Senate agreed to a very important modification in its provision so that under the terms of the conference report the central city—that is the municipality with the largest population in the area, would have to request the appointment of an expediter. This, together with the language requiring the Secretary to consult with local officials before making any appointment, should still the fears expressed by a few mayors of large cities.

Moreover, the statement of managers makes it clear that the expediter is, in the words of that statement, "the servant of the city" and is intended only to be helpful to local authorities.

Title III of the conference report which makes a number of amendments to Federal Housing Administration programs was modified. The Senate conferees raised strong objection to the reactivation of the Capehart program and to the additional units authorized for the FHA Section 810 program for off-base housing. These provisions are not included in the conference report. In addition, the House version contained a floor amendment setting a ceiling of \$10,000 on the income of families who can occupy housing financed with FHA below-market interest rate mortgages. While few, if any, families would actually be affected by this limitation, the Department strenuously objected to the rigid ceiling and pointed out the special prob-

lems of large families in high-cost areas. However, in removing this section, we included language in the statement of managers cautioning the Secretary to approve higher limits only after careful scrutiny and only where exceptional factors justified such action.

I am pleased to report to the House that our conferees were successful in defending title IV of the House bill which authorized FHA mortgage insurance for development of new communities. However, in view of the strong feelings of the Senate conferees, we did accept a limitation of \$250 million on the outstanding amount of such insured loans, together with a termination date for this program of 1972. We also accepted an amendment requiring that any such new community must be approved by the local governing body and, in most cases, by the Governor of the State, as well.

Title VI of the conference report is designed to encourage the preservation of historic structures. The House version included the authorization of funds of several types, including the use of urban renewal grants, urban planning grants, open-space grants and certain special appropriations. The House version would also have authorized the use of low interest rehabilitation loans, but in view of the strong objection by the Senate conferees, and by the Department, the loan provision was eliminated.

Mr. Speaker, one of the most serious controversies in this legislation has involved the subject of local grant-in-aid credit under the urban renewal program. As the bill passed the House, there were no provisions for specific projects, but section 701 liberalized existing law so that communities under certain conditions could get credit for one-fourth of the cost of certain local projects. These eligible projects were defined as those for cultural, exhibition, civic or municipal purposes. The other body had earlier approved a very similar provision, but without the word "municipal." The inclusion of "municipal" greatly disturbed the Department because it was so broad and vague. Accordingly, in conference, we struck out the word "municipal" and in its place substituted "city hall or public safety building."

The formula was also modified to enable communities to receive credit for certain kinds of medical and mental health facilities. As a further precaution, the conference report sets a ceiling of \$3.5 million on the credits which may be derived from any of these facilities. I would also like to call the attention of the House to the section of the statement of managers, which says:

The Conferees wish to emphasize that this provision is not intended as a blank check for the inclusion of such projects for urban renewal credit purposes and the provision includes the requirement that any such local project must "contribute materially to the objectives of the urban plan or plans for such project or projects."

The statement of managers further directs the Secretary to report back to us next January with an estimate of potential cost involved and with his recommendations for any changes he feels are needed in existing law.

Mr. Speaker, the final change made in conference that I want to discuss is a provision included in the Senate version, but not in the House bill, which would have authorized a new program of matching grants for urban information centers and for technical assistance through State government for smaller communities. The Senate conferees fought strongly for this provision and we finally accepted half of it, that part which would provide information on Federal programs and similar assistance through State government to communities of less than 100,000 population. The funds which would have been provided in the Senate bill were reduced by one-half to a maximum of \$2.5 million in the current fiscal year and \$5 million in the next fiscal year.

Mr. Speaker, there are a number of other changes of a minor nature listed in the statement of the managers and we feel that all of them were justified under the circumstances. I want to note that it was particularly gratifying that no changes whatsoever were made in the provisions of the rural housing title which will do much to help farm families and people in small towns.

The conference report is vitally needed to improve our cities to dispel the sense of hopelessness which poverty and slums breed, and to help bolster the sagging homebuilding industry. I believe it deserves the support of every Member of the House and I hope it will be adopted by an overwhelming majority.

Mr. Speaker, I now yield 5 minutes to the gentleman from New Jersey [Mr. WIDNALL].

Mr. WIDNALL. Thank you, Mr. Speaker.

Mr. Speaker, I do think I should review a bit of the circumstances of the conference for the RECORD. I would like to emphasize, also, to the House that the provisions that are now coming before the House are not "virtually identical" with what passed the House originally. There are a number of major changes that have been made in conference. It is with regret that I must report there was no notice of this conference given to the Members or at least not to the minority Members. Prior to the conference a call was made to each Member asking if he was in town, but no indication was given as to the purpose of the call.

If, they were not in town no one was informed as to the change to the effect that the conference was taking place.

Mr. Speaker, it was only later in the day that I found out a conference was actually taking place, deciding upon what should be done with respect to conflicts between the Senate proposal and the House proposal.

Mr. Speaker, I tried to keep in touch, by telephone and, frankly, I felt some things had been adjusted in a satisfactory way and were all right and should be approved by the House of Representatives.

However, Mr. Speaker, I found, after agreeing to sign the report, a number of other changes had been made which in my opinion are very substantial and

about which I had not known at that time.

Mr. Speaker, I would like to point out a couple of these changes which in my opinion are extremely important and which have to do with housing for the armed services.

Mr. Speaker, in the House bill we had reinstated the Capehart housing program. This was stricken.

Also, we had section 810 which contained a provision increasing from 5,000 to 10,000 the maximum number of units which might be covered by mortgages insured through the FHA program, for off-base military housing for the military.

Mr. Speaker, these housing units should have a priority actually in housing these days in the United States, because we are doing a very poor job in taking care of the housing units of our people in the military—and I am not talking about officers of the military now; I am talking about all the way through, and particularly the low-income military personnel.

Mr. Speaker, I cannot understand why these changes were made, and the House version not agreed to.

Mr. Speaker, other Members on this side of the aisle will want to make remarks about other changes in the bill.

Mr. Speaker, I am very pleased that the urban renewal section with respect to projects primarily for residential areas, should have the emphasis upon a substantial number of low-income and middle-income housing, and that has been retained by the Congress.

Mr. Speaker, we are legislating in a very important area where, particularly, we should have agreement and full understanding as to what we are doing.

Mr. Speaker, it is my opinion that some real progress has been made in certain sections of this bill. I, myself, am going to vote for the conference report. I regret that I was not present at the time some of the adjustments were made. That was because I had had no notice with reference to the conference, and also had an understanding that it would be held on Tuesday or Wednesday and not on Monday.

Mr. Speaker, for the RECORD, I want to say this:

I shall never in the future concur with respect to any such conference, if proper notice has not been given to every Member who is to participate in that conference, with a reasonable length of time for notice involved.

In this case, Mr. Speaker, we had an understanding that there would not be a conference on a certain date. It took place on that date.

Mr. Speaker, with those few comments, I am going to close and I suppose it sounds as if I am a little bit mixed up, but I believe there is enough good in the bill for me to support the conference report.

However, Mr. Speaker, I did want to call these changes to the attention of the House of Representatives.

Mr. PATMAN. Mr. Speaker, I yield 5 minutes to the gentlewoman from New Jersey [Mrs. DWYER].

(Mrs. DWYER asked and was given permission to revise and extend her remarks.)

Mrs. DWYER. Mr. Speaker, it is a matter of great regret to me that the demonstration cities and metropolitan development bill, after lengthy consideration in the House and Senate and in the conference committee, is still not worthy of support. As a conferee, I felt obliged to omit my name from the conference report and I cannot, in good conscience, vote for the compromise bill.

I consider it regrettable because I have strongly supported almost every major housing bill during my 10 years in the House, and because the present bill could have been—and should have been—good legislation. Cities need help in restoring rundown areas, in providing new hope and opportunity for people living in slums, and in improving the quality of life and environment in our major centers of population.

But this bill is so compromised by the addition to it of billions of dollars of special urban renewal credits that the demonstration cities program, which will depend heavily on urban renewal, will be severely handicapped. Inasmuch as the Secretary of Housing and Urban Development has confirmed my estimate, I can only attribute the administration's public silence on this issue to its willingness to pay almost any price to obtain the legislation it wants.

I refer of course to title VII of the bill. As our colleagues will recall, the Banking and Currency Committee, at my repeated urging, deleted a section from title VII which would have authorized local noncash urban renewal credits for 52 special projects at a cost estimated at \$750 million. But the committee and the House retained the even more objectionable section 701, which provides credits for 25 percent of the cost of cultural, exhibition, civic and municipal facilities for all of the more than 800 communities with active urban renewal projects. And the House accepted an amendment authorizing local credits for university and hospital projects located as far as 1 mile away from urban renewal projects.

In my remarks during debate on the bill, I estimated that the cost of section 701 alone would exceed \$2 billion, and exceed it probably by a substantial margin. It would also, of course, have the same kind of adverse effect on the urban renewal and demonstration cities programs as the 52 special projects we eliminated earlier, and on a much more comprehensive scale.

I emphasize again, Mr. Speaker, that my fear and concern in these respects were also shared by the Housing Secretary.

Although I pursued my fight against these unjustified credits—or subsidies, to give them their correct designation—we were limited under the rules during the conference to consideration of credits for "municipal" facilities and for university and hospital projects within 1 mile of urban renewal areas.

I am glad to report, Mr. Speaker, that the conference did agree to put some limits on the municipal facilities eligible for local credits, but it did not go nearly far

enough. While we struck out the word "municipal," the conference inserted in its place "city hall or public safety building" and added certain medical, research and mental health facilities to those eligible for credits. The conference also added to the existing 25-percent credit limitation a dollar figure of \$3,500,000, and it approved the 1-mile liberalization for university and hospital facilities eligible for full credit.

It is impossible, Mr. Speaker, to say precisely how much the conference saved in dollar amounts by the action we took on urban renewal credits. We saved something, but not nearly enough. Using my estimate of \$2 billion as the cost of section 701 as approved by the House—a conservative estimate—and relying on Secretary Weaver's judgment that municipal facilities would account for approximately half the cost of section 701 credits, I would speculate that conference limitations on eligible municipal projects will reduce the cost by one-half—or a net saving, very approximately, of another \$500 million.

As useful as this may be, however, it serves to point up the extremely costly character of what Congress is doing to the urban renewal program in this bill. What Congress left in the bill will still cost billions, it will still distort urban renewal, limit its usefulness as a slum-clearance and residential construction program, and deprive many communities of legitimate urban renewal assistance, and it will still hurt the demonstration cities program. In effect, we are asking urban renewal to subsidize city jails, city halls, firehouses, police stations, hospitals, cultural centers, exhibition halls, university buildings, and other facilities, at the expense of low- and moderate-income families who need decent housing if we are to have decent cities. These may be all good and desirable facilities, but by definition none of them are integral parts of urban renewal and many will not even be in or near the urban renewal area. Urban renewal is being made a convenient source of financing and being transformed into a giant "pork barrel."

Fortunately, Mr. Speaker, the conferees accepted my proposal to include cautionary language in the report, emphasizing that section 701 is not intended to be a "blank check" for urban renewal credits, and requiring the Department of Housing and Urban Development to report to Congress next January on the potential cost of section 701, including recommendations for changes in the law as it affects local grants-in-aid. This will give us another chance to look carefully at what we are doing, though it is an opportunity we should have utilized more thoroughly before we passed this bill.

In voting against the conference report, as I shall, Mr. Speaker, I want to make it clear that my vote will not be against housing or urban renewal or the effort to rehabilitate slum areas. It will be a vote protesting the misuse of these and other potentially valuable programs to serve other and unrelated purposes.

If Congress wants the Federal Government and the Federal taxpayer to sub-

sidize the building of jailhouses or concert halls, then we should enact a program for such purposes. But we should not use a program designed for much more urgent needs. I am afraid Congress action will come back to haunt us.

Mr. PATMAN. Mr. Speaker, I yield 5 minutes to the gentleman from Tennessee [Mr. BROCK].

(Mr. BROCK asked and was given permission to revise and extends his remarks.)

Mr. BROCK. Mr. Speaker, it is a beautiful fall day outside. It is too beautiful a day to be hornswoggled and hoodwinked into accepting legislation which is totally changed in concept from the bill that this House passed.

The chairman of the Banking and Currency Committee says there is virtually no change in this bill. He is wrong. There are people on both sides of the aisle who have expressed great concern over the decline and fall of the House of Representatives—and, gentlemen, you are participating in that very decline and fall today when you accept the statement that “there are virtually no changes in this bill.” You are participating in it when you allow a conference to be held without the minority being given notice of the conference.

More importantly, you are participating in it when you pass a bill in this body and come right back a few days later and vote for a conference report which changes the whole concept of that bill without study, without really any thought at all.

You were sold on the demonstration cities bill on the premise that existing Federal-aid programs were not effective because there was no coordination of the approximately 120 Federal aid programs that now exist. You were told we need more coordination. You were told the cities could not afford their local share—therefore we should pay their local share for them. That was the way this program was sold to you. That is the way the House passed it.

But what happened? The bill went to conference, and the Senate made what is referred to as a “minor” change. All they did was add the word “not.” Gentlemen, “not” is a very significant word. The House bill provided for assistance to demonstration cities with Washington paying the local share of federally assisted programs such as urban renewal, housing, and that sort of thing.

What happened after we sent this bill to conference? The Senate said—and the conferees agreed—that the money must go to nonfederally assisted programs.

What does this mean, when they say: “The Secretary shall give the money to nonfederally assisted programs?”

What is a nonfederally assisted program? I do not know. Parking meters—insignia for policemen’s caps? You name it. There is no limit whatsoever other than administrative expenses in this bill.

Do you know something? I did not think our House conferees even knew the change was made. If they knew it, I do not think they knew the significance of it. This destroys the whole intent and purpose of the demonstration title that was passed by the House last Friday. It

opens a Pandora’s box of Federal programs that have no limit whatsoever in their application.

It takes the Secretary out of the field of coordinating existing programs and tells him that he shall give the money to any project that a city requests money for as long as it is not now federally assisted.

You know, there are a lot of things that are not federally assisted. But our conferees bought this, and now they come in and the chairman of the committee says there is “virtually no change.” Well, it just is not true.

The whole concept of this bill has changed—the whole approach is changed. I think it would be a shameful travesty if we were to abdicate our responsibility and vote for a conference report of this type, simply because we are in the closing two or three days of this session. We do not have any right to abdicate our responsibility to our constituents and vote for a bill like this.

Who sent you here, the President, or the people? Do they pay you to think, or to be told? I am ashamed of the answer.

This conference report should be soundly defeated. I urge you to return to responsibility, to stand and be counted against such a bill.

Mr. MacGREGOR. Mr. Speaker, will the gentleman yield?

Mr. BROCK. I yield to the gentleman.

Mr. MacGREGOR. I have listened to this discussion. I have heard the gentleman from Texas [Mr. PATMAN] chairman of the Committee on Banking and Currency state that the conference report was unanimous.

Then I heard the ranking Republican, the gentleman from New Jersey [Mr. WIDNALL] state that he was not even advised that the date of the conference had been changed.

Then the gentlewoman from New Jersey [Mrs. DWYER] tells us she did not sign the conference report. Obviously the conferees were not in agreement on the final draft of this demonstration cities bill.

The SPEAKER. The time of the gentleman has expired.

Mr. PATMAN. Mr. Speaker, I yield 3 minutes to the gentleman from Michigan [Mr. HARVEY].

Mr. HARVEY of Michigan. Mr. Speaker, I was shocked when I read this conference report to learn that the maximum income limit of \$10,000 that had been inserted by the gentleman from Illinois [Mr. ANDERSON] as the maximum income limit for occupancy under the 221(d)(3) programs has been removed by this conference committee.

What this means, so that you understand it clearly, and so that you can go back to your constituents and tell them, is that you can live in cities like Anaheim, Calif.; San Francisco, Calif.; Norwalk, Conn.; Rockford, Ill.; Omaha, Nebr.; Las Vegas, Nev.; New York City or in Hawaii or in Alaska—and you can earn between \$10,000 and \$15,000 per year and yet have your income subsidized under the 221(d)(3) program of our country.

This is a shocking thing, Mr. Speaker, and it is even more shocking to think that even a moderate and modest limitation of \$10,000 such as the gentleman

from Illinois inserted should be removed by this conference committee. It is even more astounding when you consider that the median income in America is only \$6,800 per year. Why then should we subsidize the rent of any earning more than \$10,000?

I say to you right here and now, if you vote for this conference report—and I intend to vote against it—but if you vote for it then you are voting to subsidize persons who earn between \$10,000 and \$15,000 per year in the cities that I named—and that is just naming a few cities.

If you do not believe me, I have here in my hand the FHA maximum income limitation for occupancy in section 221(d)(3) programs. Examine this FHA list yourself and I assure you that you will be surprised to say the least.

Look at your hometown wherever it may be in America and learn the upper limits for occupancy under the 221(d)(3) program. What this means, Mr. Speaker, is that persons earning over \$10,000 per year, but fortunate enough to live in one of these housing developments, will have their rent subsidized in excess of \$30 per month.

I say that this a shocking thing indeed, Mr. Speaker. I think we should vote against it.

This program originally started in 1961. It started, in order to replace low income public housing programs. But not only has it not replaced them but it has grown like a monster—all out of proportion—and it has grown to the point where this conference committee was unwilling to accept the very modest limitation of \$10,000 per year. This will come as a surprise to the many Americans earning less than that figure.

I think this is indeed wrongful and I would urge the House to vote against this conference report for this reason if for no other reason.

I would point out one other substantial change that has been made and that is in title V, which is entitled “Group Practice Facilitate.” Mr. Speaker, the President, in his state of the Union message urged that the Congress encourage the group practice of medicine. This title authorizes insured loans to nonprofit corporations covering buildings, real estate, and equipment to be used in group practice of medicine. In committee, I offered an amendment which was approved and included in the bill when it passed the House, that not only made these mortgages available to nonprofit corporations, but to private physicians as well. In these days of tight money, high interest rates, and difficulty in securing mortgages, it is conceivable that some doctors or dentists would want such a loan. This conference report penalizes the private practitioner who wants to join with a colleague and conduct a group practice. It give a bonus to the labor union or other nonprofit corporation that hires doctors and sponsors a prepayment plan practice of medicine. It is another slap at our doctors and those who want to continue as self-employed. It fails to accomplish what the President urged in his message to Congress. It is another reason Mr. Speaker why we should oppose this conference report.

Mr. PATMAN. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois [Mr. RUMSFELD].

Mr. RUMSFELD. Mr. Speaker, as the gentleman from Minnesota, I have been listening to this debate and I am distressed also. For emphasis let me point out that first the chairman of the committee, the gentleman from Texas, took the floor and indicated that the conference report was unanimous. Then the ranking minority member took the floor and indicated he had not even been notified of when the conference took place, and that he was not present. Then the gentlewoman from New Jersey took the floor and indicated that she refused to sign the conference report. Next I find that the third minority conferee, the gentleman from New York [Mr. FINO], was also not notified and was not present.

How the gentleman from Texas can take the floor and tell the Members of this House that this conference was unanimous is absolutely beyond me.

It seems to me that as we go into the closing days of this session, as in other sessions, each Member has to be alert to see that we in the House do not do anything that is irresponsible, that we do not trim a little bit on our procedures. I think clearly this performance by the committee is trimming on procedures. The procedures of this House are to assure that the people of this country are protected and that the minority is protected. Clearly in this instance the things we are being told by the chairman of the committee give me great pause and concern.

I was also surprised to hear the chairman of the committee say that this conference report reflects what he believes to be the views of this House. Certainly it does not reflect this Member's views.

Members will recall that when the bill was before the House the gentleman from Tennessee [Mr. BROCK] offered an amendment to place a \$7,500 ceiling limitation on earnings to qualify under the rent subsidy program. That amendment was defeated.

The gentleman from Illinois [Mr. ANDERSON], then offered an amendment to put a \$10,000 annual earnings ceiling to qualify for section 221(d)(3) housing. That amendment carried in the House of Representatives.

In the conference, the conferees, absent two minority Members, because they were not notified, then yielded to the Senate. Now, as the gentleman from Michigan [Mr. HARVEY] so properly pointed out, anyone who supports this conference report is voting for subsidized housing for individuals who are earning between \$10,000 and \$15,000 per year.

According to the maximum income limits for occupancy put out by the Department of HUD for the District of Columbia, it shows on page 3 as high as \$10,600 for families with seven or more persons.

Mr. Speaker, it is absolutely beyond belief that the administration has insisted upon removing the House-passed \$10,000 family income ceiling for the billion plus dollar Federal rent subsidy program enacted in 1961. But there it is on page 45 of the Conference Report No. 2301.

We hear a lot these days about the "credibility gap." Well, this appears to be an example of what is meant.

In 1961, Members of this House were told that the subsidized interest rate rent subsidy program would be for the benefit of low- and low-middle-income families. Today we are confronted with the ridiculous situation of being asked to approve a conference report that permits families earning \$11,000, \$12,000, \$13,000, and even \$14,000 per year to have their rents subsidized.

This is exactly what was suggested earlier this year on the new rent subsidy program when many warned that the administration intended to subsidize the incomes of upper middle-income families. Many, in fact a majority, did not believe it.

But, make no mistake about it, if we approve this conference report, we are putting the stamp of approval of the 89th Congress on a multibillion-dollar rent subsidy scheme to subsidize the rents of upper middle-income families. At a time in our history when private mortgage money is practically unavailable, when interest rates are the highest they have been in 45 years, when people earning \$5,000 and \$6,000 can't borrow money to build their own homes, the 89th Congress—the so-called great Congress—must not blindly approve rent subsidies for families earning more than \$10,000 per year. The median annual family income in the United States today is only \$6,800.

Mr. Speaker, if we approve this conference report, this will indeed be a sad day for the 89th Congress.

I urge that it be rejected.

The SPEAKER. The time of the gentleman has expired.

(Mr. RUMSFELD asked and was given permission to revise and extend his remarks.)

Mr. PATMAN. Mr. Speaker, I yield 3 minutes to the gentleman from Georgia [Mr. WELTNER].

(Mr. WELTNER asked and was given permission to revise and extend his remarks.)

Mr. WELTNER. Mr. Speaker, today we are once again faced with a basic question as to whether this Congress is going to do something to solve the almost overwhelming problems of people who live in cities, or whether we are going to find some excuse for doing nothing.

I served on the committee that fashioned this legislation in the House. I participated in the debate on the authorization. I was not a member of the conference committee, but once again, today, I hear from the other side of the aisle all of the excuses that come from that element within this House which wishes to do nothing to help the people of the cities.

Here we are at the 11th hour of the 2d session of the 89th Congress. Soon we will adjourn. We can go home having done something for the people who live in the cities of this Nation—125 million Americans—or we can find an excuse for doing nothing.

That, Mr. Speaker, I submit is the question before the House today.

I hear once again the problem of opening Pandora's box. I observe only that that box has been opened so often by our

friends on the other side of the aisle, without the dire consequences they invariably predict, that it is time to close the lid. Let us pass this legislation, adopt this conference report, and do something for 125 million Americans who need help so desperately.

Mr. JOHNSON of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. WELTNER. I yield to the gentleman from Oklahoma.

Mr. JOHNSON of Oklahoma. I thank the gentleman for yielding.

I should like to urge the House to vote against this legislation. I am not satisfied with several things in it.

I should like to call the gentleman's attention to these.

First, it is a patchwork kind of thing, to pick some cities out and to leave other cities alone.

Second, I believe it is an open-ended matter as to how much money is going to be spent.

Third, I fear we may be taking money away from some of the smaller communities and giving the bulk of the money to a few large metropolitan areas.

I am on record against this legislation and I plan to vote against it.

Again I thank the gentleman for yielding.

Mr. PATMAN. Mr. Speaker, I yield 3 minutes to the gentleman from North Carolina [Mr. JONAS].

Mr. JONAS. Mr. Speaker, I was quite surprised at the remarks of my friend, the distinguished gentleman from Georgia. He apparently did not read what President Johnson said to the mayors of 30 large cities of the country last Saturday. The President appealed to them, according to the AP story, to postpone spending in order to help battle inflation. He also reminded them that Federal programs with a direct impact on cities has climbed from \$5.6 billion to \$8.3 billion, or up 48 percent from 1964; and in the 3 years since they will jump from \$8.3 to \$14.6 billion—up 76 percent.

This allegation, which has been repeated on the floor on numerous occasions within the last few days, that those who object to some features of this bill are not willing to do anything to aid the cities of the country solve their problems, just does not hold water in the light of the facts. The yearend supplemental appropriations bill which passed the House just a few days ago appropriates another \$750 million for urban renewal and we are currently funding the urban renewal program at an annual rate of \$750 million. This is only one of a multitude of Federal aid to cities programs. The President's statement to the 30 mayors last Saturday fully confirms this.

But what I asked this time for—and I hope there are some members of the Committee on Armed Services listening—is to say that I was shocked to note that the conference committee is perpetuating the injustice being practiced by this administration on the men now serving in our military forces.

Here we are with a bill which eliminates the \$10,000 ceiling on income for civilians eligible to receive a rent subsidy under section 221(D)(3), so that now this subsidy will be available to civilians with incomes ranging upward to \$13,000. At the same time every provision in the

original bill that would have provided housing for men in military service has been eliminated.

The administration did another injustice to the servicemen last year when, after Congress had appropriated \$600 million in military construction funds, of which \$160 million was to build 7,500 family housing units for military personnel in the United States, the administration arbitrarily refused to provide the military housing Congress had authorized and appropriated the money for.

And in the military construction budget for 1967, the President did not ask for one dime for housing for the men in military service and their families.

If you are going to subsidize the house rent of civilians whose incomes range up to \$13,000 a year, will someone on this committee who favors that program please explain to the House, the American people, and to the men in military service why this discrimination is being perpetuated.

I do not believe it is fair to require the men in uniform to make all of the sacrifices in the prosecution of the war in which our country is now engaged.

Mr. PATMAN. Mr. Speaker, I would like to take 1 minute at this time. The reason why I said that this report was signed by all of the conferees is that at the end of the conference I had the impression if we would agree to certain things, all of the members of the minority would sign the report. That was agreed to, and I thought they did sign it. I did look at the Senate conferees and I saw that all of them did sign it, but I was in error on the gentleman from New York [Mr. FINO], and the gentlewoman from New Jersey [Mrs. DWYER]. I had reason to believe that they would sign it, but I had not actually looked it up to see if they did. I was told they would sign it. I am sorry that I made that mistake in my statement. It is not a major mistake, because all of the conferees except those two did sign it.

Mr. WIDNALL. Mr. Speaker, will the gentleman yield?

Mr. PATMAN. I yield to the gentleman.

Mr. WIDNALL. I would like to talk about that. I would like to know who told the gentleman from Texas that, because no one has any authority to make any such statement. I told you after I had a phone conversation with some who were attending the conference that I would sign the report.

Mr. PATMAN. I am talking about what happened there at the table at the time. I understood that they all would sign the report.

The SPEAKER. The time of the gentleman has expired.

Mr. PATMAN. Mr. Speaker, I yield 4 minutes to the gentleman from New York [Mr. MULTER].

Mr. MULTER. Mr. Speaker, I think we ought to clarify this matter about what happened at the conference and what did not happen there. It is quite true than an informal—and I stress the word "informal"—conference was started

on Monday at the time when the ranking minority member of the committee was not there and could not be there and he had a prior commitment which the chairman of our committee did try to keep.

The gentleman from New Jersey [Mr. WIDNALL] was kept fully advised of what was going on by minority staff members who were present throughout. At that informal conference all that was done was the Senate indicated to us the matters on which they would recede, thus eliminating from discussion many of the matters in disagreement. We thereby saved much time. We did not have to discuss the items that were put in the bill on this side and not on the Senate side and which they agreed to keep in the bill. Similarly as to matters put in by the Senate and not in the House bill and which the Senate agreed not to press. Then when we met in formal conference, after due and proper notice to all concerned, we went over the items that were still in disagreement. I think we brought out a good bill. I do trust that this conference report will be adopted by all of the Members.

Now, with reference to one item that has been referred to by the able and distinguished gentleman from Tennessee [Mr. BROCK], the only difference there, as I find it, between the bill passed by the House, which contained his amendment, and the bill as finally adopted as a result of the conference is in emphasis. We still limit all of these funds to comprehensive city demonstrations. That language is in the bill in two different places which we bring to the House. Then we provide in so many words that such grant funds shall not, however, be used for the general administration of local governments or to replace non-Federal contributions and so forth.

I want to emphasize that the grant formula in the bill assures that communities will participate in the demonstration cities program and will make use of existing Federal grant-in-aid programs. It does this by tying the amount of the supplemental grant available under the demonstration cities legislation to the aggregate amount of non-Federal contributions required to be made to those projects or activities carried out in connection with the demonstration programs which are assisted under existing Federal grant-in-aid programs.

I believe that the grant formula in the bill and the priority provision for new projects which we have adopted combine to give Congress assurance that there will be a desirable balance in each city demonstration program between the benefits of innovation which can be gained from new programs and the lessons of experience already gained from the operation of existing Federal grant-in-aid programs.

Now, with reference to the matter of exceeding the \$10,000 limit, there is not any doubt that what happens here is that that excess of \$10,000 per family income, I repeat per family income, can apply only where families are composed

of seven or more persons and then only when the total family exceeds the \$10,000 figure. I think experience has shown that that is a necessary exception. Therefore, we did agree to take out the limitation that was in the bill.

Mr. Speaker, again I repeat that the bill before us is a good result of a fair and open and free conference, with the conferees acting in good faith, each giving a little bit and getting a little in exchange, thereby bringing to the House a better bill.

There were 55 items in disagreement between the two Houses. The Senate completely receded as to 25 items. The House completely receded as to only 11 items. As to the balance we compromised on the language as indicated in the report and in the statement on the part of the managers.

Mr. Speaker, I urge the adoption of the conference report.

Mr. PATMAN. Mr. Speaker, I yield 5 minutes to the gentleman from Florida [Mr. CRAMER].

Mr. CRAMER. Mr. Speaker and Members of the House, in my opinion, this is one of the most dangerous bills which comes to us as a result of conference coming before the House in some time, as it relates to the octopus of Federal control over local, municipal decisions, and as it relates to cutting off of present Federal grant programs. I hope that sinks in—present Federal grant programs. I thought this was supposed to be a bonus program with Federal grants and then you make up the difference, if you conform, with the Federal Government taking over some of the present non-Federal cost. But when I read section 204, under the so-called planned metropolitan development title II—and I have consulted with our counsel on the Committee on Public Works on this and he confirms my views—it says in section 204, and I say this to you, this metro government type planning is going to be required in every one of these national standard metropolitan statistical areas throughout the country if they are going to get any Federal grant money from grant-in-aid programs.

Mr. Speaker, here they are in section 204. And, if you are going to get any Federal grant money under present programs for any of these projects you will have to comply with the provisions of this section requiring metro type area wide planning. This has reference to hospitals, airports, libraries, water supply and distribution facilities, sewage facilities, waste treatment plants, highways, transport facilities and various other projects under present grant-in-aid programs contained therein.

And, Mr. Speaker, the grant-in-aid projects must be planned by an area-wide agency. You must have metro government. You must have it in all of Broward, Duval, Palm Beach Counties, Fla. They are standard, metro statistical areas, according to the Bureau of the Budget and, Mr. Speaker, I shall put a list of these areas into the Record.

The list referred follows:

TABLE 31.—Population of standard metropolitan statistical areas and component areas in the United States and the Commonwealth of Puerto Rico, 1940-60

Mr. Speaker, included therein for metro statistical planning, as a condition for getting any Federal money under any of the ongoing, existing grant-in-aid programs that I just read, included therein are a number of counties in the State of Florida, as well as a combination of cities, Tampa and St. Petersburg, which are specifically included and for which joint metro planning is required—for all of Hillsboro and Pinellas Counties combined.

Mr. Speaker, that means planning all of these things together, jointly, under a metro government, for all such standard metropolitan statistical areas in order to continue to obtain Federal grants or to obtain any money under any of the present programs which I have just mentioned.

Well, Mr. Speaker, what right in the world has the Federal Government in requiring Tampa to plan with St. Pete insofar as sewage treatment programs are concerned, or libraries, or many other programs covered under this legislation? These cities are about 20 miles apart and have differently constituted local governments and no legislative authority for conforming to Federal demands.

Well, Mr. Speaker, if you want to get in a battle with the rights of local governments in the State of Florida, and the people that do not want metro government, this is one way to do it.

Mr. Speaker, I do not believe that the Members of the House realize that all of these grant programs are going to be in jeopardy, unless they conform to metro planning, thus acquiescing in the heavy-handed bureaucratic pressure of the Federal Government over existing programs.

Mr. Speaker, what is at stake is not only the primary and secondary highways, but the interstate money—\$4 billion a year—which was authorized just a few months ago for these highway programs for the years in the future—\$3.4 billion was authorized just the other day by this House, and rightly so, for sewage treatment plant construction. Now, these programs are to be jeopardized in the name of master planning required by the Federal Government.

Mr. Speaker, what business is it of the Federal Government to require the planners for the cities of Tampa, Fla., and of St. Petersburg that they can or cannot build a sewage treatment plant because such metro planners are required by this section.

It is none of the Federal Government's business, and I will guarantee you that the people of the congressional district which it is my honor to represent would say so, if they had a right to vote on the matter.

Mr. Speaker, these are some of the many problems involved with metro government planning on a standard metropolitan statistical area as required by this section.

Mr. Speaker, this joint metro area planning includes the county in Texas in which the city of El Paso is located. It includes the entire county in Texas in which the city of Houston is located. It includes the entire county in Texas in which the city of Dallas is located. It includes the entire county in Texas in which the city of Fort Worth is located.

Mr. Speaker, areawide planning under penalty of losing all Federal funds is a dangerous thing.

Mr. Speaker, under section 204, metro planning includes two States and the District of Columbia in this area, and this area as an area, is going to have to plan everything—libraries, sewage-treatment plants—on the areawide, metrogovernment basis. And, of course, these metro areas, and how these areas are set up, are subject to the whims of Dr. Weaver's guidelines, and he can exercise any discretion which he chooses to exercise with respect to these matters.

Mr. Speaker, I say to you and to the Members of the House that this is a dangerous thing, a very dangerous thing.

How did it get into this bill? The administration did not recommend it. It got in this bill because a Member of the other body, Senator MUSKIE, demanded it be put in. It was put in. It was not fully understood or considered, and the House committee swallowed it lock, stock, and barrel. This is another reason why this bill should be killed and the conference report voted down.

The SPEAKER. The time of the gentleman from Florida has expired.

Mr. PATMAN. Mr. Speaker, I yield 3 minutes to the gentleman from Arizona [Mr. RHODES].

(Mr. RHODES of Arizona asked and was given permission to revise and extend his remarks.)

Mr. RHODES of Arizona. Mr. Speaker, I am convinced that this conference report should be defeated. I wish it could have been recommitted.

The conference report adopts a position which is completely at variance with the position the House adopted when the bill was passed by this body. It is a sell-out to the Senate, and I think that it is something which all the Members of the House should resent. They should show their resentment by voting down the conference report.

On October 14—

Mr. ROONEY of New York. Mr. Speaker, will the gentleman yield?

Mr. RHODES of Arizona. No; I cannot yield. I have only 3 minutes.

On October 14 my colleague [Mr. Brock] offered an amendment to the demonstration cities bill which would place an income ceiling of \$7,500 on families eligible for admission for the FHA section 221(d)(3) below market interest rate program. This amendment was rejected by the House, but later an amendment for \$10,000 was offered by the gentleman from Illinois [Mr. ANDERSON], which was adopted.

I was most dismayed to discover that the conferees on this bill rejected the \$10,000 income ceiling for families eligible to obtain housing with a subsidized 3 percent interest rate mortgage obtained from the U.S. Treasury.

This leaves the state of the law about like this: There is no ceiling whatsoever in the law as to eligibility of families to participate under this program. There is a ceiling in the regulations, but they can be changed at any time. This represents another instance in which the majority have surrendered powers reserved to the prerogative of the Congress to the executive department.

I am sure that many Members of the

House have in their constituencies families whose incomes are \$6,000 and \$7,000 who are ready, willing, and able to go their own way to provide shelter for their families without subsidy from the Federal Government. Yet, here we subsidize families with incomes much higher—and without any ceiling in the law.

Reflect for one moment on this anomalous situation. The Federal National Mortgage Association has been authorized to draw \$1.8 billion from the Treasury to buy mortgages with a 3-percent interest rate in order to subsidize the rents of families whose incomes are far beyond the median and average incomes of American families. Yet when the Congress recently authorized the Federal National Mortgage Association to spend \$1 billion to buy mortgages at a market rate of 6 percent interest plus a mortgage insurance premium the administration impounded this \$1 billion because it was inflationary.

I cannot dismiss lightly the apparent preoccupation of this administration, and the majority of the Members of the House of this Congress, in perpetuating and expanding a subsidy program for upper middle income families. Can this Nation afford to have its burgeoning middle class dependent on the Federal Government for its shelter? Do the middle-class families want to be dependent on the Federal Government for shelter? The answer is "No, they do not." It is equally obvious that the Federal Government cannot afford to have them be dependent.

I hope that when the Congress reconvenes next year that both the Committee on Appropriations and the Committee on Banking and Currency will reconsider their apparent espousal of this 3-percent middle-income subsidy program, and terminate the program. When a subsidy program has taken such a hold on Members of the Congress then truly I fear for this great Republic.

Mr. PATMAN. Mr. Speaker, to close the debate, I yield to the gentleman from Pennsylvania [Mr. BARRETT].

(Mr. BARRETT asked and was given permission to revise and extend his remarks.)

Mr. BARRETT. Mr. Speaker, I just want to point out to both sides of the aisle that in the conference we had approximately 50 differences to settle and we yielded on 15 points.

There were some points there that were talked about informally, on the basis that some of the amendments might be considered by both sides and not be considered favorably.

But because of the very fine representation of the minority, we were able to hold most of the minority's amendments in the conference report.

I am very happy I am able to say here this afternoon that the minority leader in the housing subcommittee has said that he does not altogether agree with the conference report but that he will support it. This is the most important thing—he will support it just as I will support it. Because it helps the people who are in dire need. It helps those blighted areas and slum areas to be rehabilitated. It helps that person who is in dire need and gives him consideration from a human standpoint and gives

him an opportunity to live in a decent environment.

There are no differences here this afternoon that we did not have on the day that we debated this bill.

On our left here on the minority side of the House, you heard the same speakers saying the identical same thing. If anything, here today, you are hearing a repetition. Of course, I do not say you are not hearing a repetition from our side. We are repetitious too. We are telling you exactly what we told you on the date we debated this bill.

Mr. Speaker, this is a good bill. It helps the communities. As I said the other day, not only does it help the communities that need this help, but it helps the taxpayers as well. Because in the demonstration cities program they say, "all available Federal aid" will be pooled and on this amount that they pool they will get 80 percent of the local share for that demonstration city project.

It will make, as I pointed out before, multiple watchdogs for these dollars that are being spent by the Federal Government.

It will be a multiple watchdog observation tower from which people can see how the Federal contributions and the local contributions are being spent.

Mr. Speaker, we are now near the end of a long, hard fight to enact the President's demonstration cities bill. Last year when I addressed my colleagues on the conference report on the great Housing Act of 1965, I said it was one of the proudest moments of my life and certainly today is an occasion of equal, if not greater, satisfaction to me personally. I want to express my gratitude to the distinguished chairman of the full committee, the gentleman from Texas [Mr. PATMAN], to the ranking minority member of the committee, the gentleman from New Jersey [Mr. WIDNALL], and to all members of the Housing Subcommittee and the full committee, as well. For 10 long months, we have labored with this great bill.

I have not begrudged 1 minute of the hundreds of hours spent on this bill because I know that it is a bill which our cities, both large and small, must have. I think we have devised a new weapon with the greatest potential to help our cities rejuvenate and rebuild their blighted and rundown areas, both in terms of physical rehabilitation and social and human rehabilitation.

Mr. Speaker, I hope this conference report is voted overwhelmingly because it is in the best interests of the people of this country.

The SPEAKER. The time of the gentleman has expired.

Mr. ARENDS. Mr. Speaker, I would ask the gentleman from Texas [Mr. PATMAN] if he would yield me some time.

Mr. PATMAN. We have yielded more than the 30 minutes to the minority. We had our program arranged just as the minority did. The gentleman from Pennsylvania [Mr. BARRETT] was closing the debate and he has closed the debate.

I must, therefore, respectfully refuse to yield any more time.

Mr. ARENDS. Mr. Speaker, that is rather unusual, under the circumstances, because time is precious and, of course, we would like to have a couple of minutes. But if that is the gentleman's attitude, we will forget about it.

Mr. PATMAN. We have people on this side who want to talk too. I do not believe the Speaker would recognize me to extend the time, and if we cannot get the time, I would have to move the previous question.

The SPEAKER. The gentleman from Texas has control of time.

Mr. PATMAN. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois.

The SPEAKER. The gentleman from Illinois is recognized for 2 minutes.

Mr. ARENDS. Mr. Speaker, some very pertinent information has been given to the membership this morning as to what took place in the conference on this bill. In view of these facts alone, I, like other Members, not only on this side of the aisle but on the other side of the aisle as well, feel very strongly that this conference report should be defeated.

Mr. JOHNSON of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. ARENDS. I yield to the gentleman from Oklahoma.

Mr. JOHNSON of Oklahoma. I would like to ask the committee two questions: How much is this legislation going to cost? Ten or fifteen years from now how much will it cost? Second, I would like to ask about the business of selecting some cities and leaving other cities alone.

Mr. BROCK. Mr. Speaker, will the gentleman yield?

Mr. ARENDS. I yield to the gentleman from Tennessee to answer the question.

Mr. BROCK. In answer to the question of the gentleman from Oklahoma, we tried diligently to get an estimate of the cost of the program, and they admitted their total incapacity to come up with any reasonable figure whatsoever.

Mr. JOHNSON of Oklahoma. The second part of the question is this: Is it part of the program to help some cities and leave other cities alone?

Mr. BROCK. I think the gentleman from Oklahoma clearly understands the situation. That is one of the reasons why the conference report should be rejected.

Mr. JONAS. Mr. Speaker, will the gentleman yield?

Mr. ARENDS. I yield to the gentleman from North Carolina.

Mr. JONAS. The gentleman from Illinois has had long service on the Armed Services Committee. He realizes that the conference committee took out a provision for housing aid for men in uniform, and at the same time approved a housing rent subsidy for civilians with incomes ranging up to nearly \$15,000. Do you think that is fair?

Mr. ARENDS. I thank the gentleman for again bringing this all-important fact to the attention of the House. Those of us, on both sides of the aisle, on the Armed Services Committee, have repeatedly called to the attention of Secretary

McNamara that while servicemen's housing is being denied we go merrily on providing more and more housing to civilians with ever-increasing annual incomes. Men in service are being denied adequate housing. Sometime back many were being housed in tents in various parts of the country because of the lack of housing. Yet at this very time we see this provision for more civilian housing taking place as reported in the conference report. It is wrong, as wrong as it can be.

Mr. PATMAN. Mr. Speaker, I yield myself 2 minutes. A question has been asked about the cost of the program. In the first year \$12 million for planning and in the second \$12 million; and \$400 million in funds for the demonstration projects themselves for the first year and \$500 million for the second year. That is all, except for \$250 million for urban renewal in the demonstration projects. But the overall cost of this bill will certainly be less than \$1.5 billion, a very small, insignificant cost in comparison to the great need that it will serve.

In connection with the conference, the gentleman from New Jersey [Mr. WIDNALL] and I have talked about this matter. I told him I would try to put it over to Wednesday, because that would suit him better. But Monday morning I was told from the other body that we had to have a conference before Tuesday noon, an agreement, or they would not agree to have any bill this year. There was considerable sentiment at the other end of the Capitol for no bill at all. Therefore I agreed we would have an informal conference Monday morning.

I got hold of all members who were here, majority and minority, and informed the minority members' staff, with the understanding that there would be no decisions made until the gentleman from New Jersey [Mr. WIDNALL] was contacted and apprised of the situation, so he could come back here if he wanted to. We did not do anything that was substantive on Monday, but on Tuesday we did have a conference of all the members, and we agreed on everything. I thought all the members were in agreement with it, because we had to yield on some points and I thought by yielding we would get their support. We did not get it.

Mr. Speaker, I move the previous question.

Mr. GALLAGHER. Mr. Speaker, this Congress has, in its waning moments, the rare opportunity to help move our country smoothly from one great era into another. The 89th Congress has brought to fruition in the 1960's the last of the dreams for a better America born in the 1930's. But we would be remiss, as legislators, if we merely contented ourselves with presiding over the twilight of a revolutionary age, while an even more dynamic epoch was already swiftly underway.

Today, 7 out of 10 Americans live in cities. Tomorrow, four out of five will reside in urban areas. At the same time, nearly twice as many people will be living in the cities and suburbs; and many more schools, houses, health, transpor-

tation and other community facilities will be needed. Action is required now, to insure adequate services in tomorrow's heavily populated, heavily urbanized, highly mobilized society.

During the past three decades, special agencies and specific legislation have been created to meet certain problems, such as housing, urban renewal, and mass transportation. These measures were as successful as possible under their limitations. The demonstration cities bill broadens the scope of these efforts into single, coordinated programs embracing entire communities.

As Robert C. Weaver, Secretary of Housing and Urban Development, pointed out:

This bill will help cities to plan, develop and carry out comprehensive city demonstration programs.

These projects, which will be devised at the local level, will restore or rebuild whole sections and neighborhoods of slum and blighted areas, while simultaneously ministering to the human needs of the people in the areas under rehabilitation.

While vast Federal programs have attacked the growing problem of urbanization, they have not been able to eradicate all of the ills of the modern city: poor housing, rundown neighborhoods, congestion, inadequate public services, rising costs, social decay and economic decline.

From these conditions are festered racial discrimination, employment frustration, hostility, hopelessness, and ugly environment—all of which could be transformed through demonstration cities into something better—a climate of hope, attractive community buildings, adequate transportation systems, and open spaces free from pollution.

The demonstration cities bill is no panacea. Federal housing and urban renewal programs did not provide adequate housing for every American family, the new Department of Transportation will not immediately solve our myriad travel problems, and this bill will not build a network of utopias in this country. But it will be a beginning; it will gradually make life more livable in cities; and most importantly, it will show us where we are wrong, and how we can best guarantee the best life possible in the coming decades. As President Johnson has said:

The prize cities of spacious beauty and lively promise—where men are truly free to determine how they will live—is too rich to be lost because the problems are complex.

A national assault on urban problems will be complex, but the price of inaction is too high: the rising cost of welfare services; crime; unemployment; declining property values; tax bases which put heavy strains on city budgets, all of which haunt all governments, and which will continue to plague them—whether local, State, or Federal—in the future. But we can avert disaster by moving quickly now to heal and revitalize our cities.

We owe it to today's budding generation. We cannot, in all conscience, leave them a heritage of chaos. We must lay a groundwork from which our

heirs in the next 30 years will be able to cope with the problems peculiar to their time, just as farsighted Congresses in the last three decades spread out a base on which we built our present society.

Simply stated, our existing urban centers, however revitalized, cannot accommodate all the urban Americans of the next generation, but this great country has the resources with which to accommodate these areas, as much as we are moved to do so. To do less would be to deny faith in man's good will and the ability to redeem his cities.

President Johnson said at the conclusion of his message to Congress on city demonstration programs:

If we begin now the planning from which action will flow, the hopes of the 20th century will become the realities of the 21st.

Mr. Speaker, I urge that the Congress adopt the Demonstration Cities Act of 1966.

Mr. CABELL. Mr. Speaker, I rise in opposition to this conference report because I am opposed to the entire premise of the demonstration cities provisions within this bill and no amount of conferences nor amendments could make of this proposal an acceptable one.

It is obvious that the administration sent this bill to the Congress many months ago prior to the recognition that we are in an overheated economy and that there is dire need for conserving our resources.

It has only been within recent weeks that the President has conferred with Governors of the several States and with mayors of the cities within those States exhorting them to slow down on their capital expenditures in order to cool off this so-called overheated economy and to ease their sales of bonds for these capital expenditures which entail additional demands upon an already tight money market.

It is inconceivable to me, in view of these facts, that the pressure should be retained for the enactment of this bill.

A careful analysis of those who are sponsoring and demanding this bill proves conclusively that this pressure comes from the older eastern and midwestern metropolises where, by their own profligacy they have painted themselves into this corner where their own taxpayers can no longer pay the cost of these past mistakes, and they are asking that the taxpayers of the Nation bail them out of their present predicament.

I hope that this great body will recognize these facts and vote not to agree with the conference report and thus kill this bad legislation for at least the 89th Congress.

Mr. PATMAN. Mr. Speaker, I move the previous question.

The previous question was ordered.

The SPEAKER. The question is on the adoption of the conference report.

The question was taken; and the Speaker announced that the "ayes" appeared to have it.

Mr. GERALD R. FORD. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Doorkeeper will close the doors, the Sergeant at Arms will notify absent Members, and the Clerk will call the roll.

The question was taken; and there were—yeas 142, nays 126, answered "present" 4, not voting 160, as follows:

[Roll No. 389]

Mrs. Sullivan for, with Mr. Laird against.

Mr. Adams for, with Mr. Halleck against.

Mr. Blatnik for, with Mr. Fino against.

Mr. Brown of California for, with Mr. Thomson of Wisconsin against.

Mr. Clevenger for, with Mr. Ayres against.

Mr. McFall for, with Mr. Berry against.

Mr. McVicker for, with Mr. Findley against.

Mr. Dyal for, with Mr. Jones of North Carolina against.

Mr. Hawkins for, with Mr. Fisher against.

Mr. Senner for, with Mr. O'Neal of Georgia against.

Mr. Edwards of Louisiana for, with Mr. Wright against.

Mr. Yates for, with Mr. Roush against.

Mr. Sisk for, with Mr. Ichord against.

Mr. Fulton of Tennessee for, with Mr. Randall against.

Mr. Hanna for, with Mr. Rivers of South Carolina against.

Mr. Powell for, with Mr. Roberts against.

Mr. Resnick for, with Mr. Tunney against.

Mr. Rivers of Alaska for, with Mr. Watts against.

Mr. Hansen of Iowa for, with Mr. Walker of New Mexico against.

Mr. Nix for, with Mr. Scott against.

Mr. Meeds for, with Mr. King of New York against.

Mrs. Mink for, with Mr. Sweeney against.

Mr. King of Utah for, with Mr. Adair against.

Mr. Hungate for, with Mr. Stanton against.

Mr. Huot for, with Mr. Talcott against.

Mr. Irwin for, with Mr. McEwen against.

Mr. McCarthy for, with Mr. Martin of Nebraska against.

Mrs. Hansen of Washington for, with Mr. Devine against.

Mr. Stratton for, with Mr. Derwinski against.

William D. Ford for, with Mr. Del Clawson against.

Mr. Charles H. Wilson for, with Mr. Cederberg against.

Mr. Matthews for, with Mr. Robison against.

Mr. Reuss for, with Mr. Carter against.

Mr. Toll for, with Mr. Hansen of Idaho against.

Mr. Ellsworth for, with Mr. Davis of Wisconsin against.

Mr. Keith for, with Mr. Mailliard against.

Until further notice:

Mr. Rogers of Texas with Mr. Dickinson.
Mr. Albert with Mr. Edwards of Alabama.
Mr. Davis of Georgia with Mr. Glenn Andrews.

Mr. de la Garza with Mr. Harvey of Indiana.

Mr. Tuten with Mr. Bray.

Mr. Todd with Mr. Brown of Ohio.

Mr. Willis with Mr. Callaway.

Mr. Pool with Mr. Walker of Mississippi.

Mr. Purcell with Mr. Watkins.

Mr. Greigg with Mr. Stafford.

Mr. Roncalio with Mr. Smith of New York.

Mr. Murray with Mr. Anderson of Illinois.

Mr. Martin of Massachusetts with Mr. O'Konski.

Mr. LEGGETT. Mr. Speaker, I have a live pair with the gentleman from California [Mr. Moss] who if he were present would have voted "yea." I vote "nay" therefore I withdraw my vote "nay" and vote "present."

Mr. MATHIAS. Mr. Speaker, I have a live pair with the gentleman from Oklahoma [Mr. BELCHER]. If he were here, he would vote "nay." I voted "yea." I withdraw my vote and vote "present."

Mr. MOSHER. Mr. Speaker, I have a live pair with the gentleman from Maryland [Mr. MORTON]. If he was here, he would have voted "nay." I voted "yea." I withdraw my vote "yea" and vote "present."

Mr. CONTE. Mr. Speaker, I have a live pair with the gentleman from Illinois [Mr. MICHEL]. If he were here, he would vote "nay." I voted "yea." Therefore, I withdraw my vote "yea" and vote "present."

The result of the vote was announced as above recorded.

The doors were opened.

A motion to reconsider was laid on the table.

GENERAL LEAVE TO EXTEND

Mr. FATMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to extend their remarks on the conference report just agreed to.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

APPROPRIATIONS FOR THE DEPARTMENTS OF LABOR AND HEALTH, EDUCATION, AND WELFARE.

Mr. MAHON. Mr. Speaker, on behalf of the gentleman from Rhode Island [Mr. FOGARTY] I ask unanimous consent that the managers on the part of the House may have until midnight tonight to file a conference report on the bill H.R. 14745, making appropriations for the Departments of Labor and Health, Education, and Welfare, and related agencies for the fiscal year ending June 30, 1967, and for other purposes.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

AMENDMENT OF UNITED STATES CODE WITH RESPECT TO SCOPE OF FEDERAL RULES OF CIVIL PROCEDURE

Mr. CELLER. Mr. Speaker, I ask unanimous consent that the Committee of the Whole House on the State of the Union be discharged from further consideration of the bill S. 3254, to amend section 2072 and 2112 of title 28, United States Code, with respect to the scope of the Federal Rules of Civil Procedure and to repeal inconsistent legislation, together with committee amendments which are technical, and ask for its immediate consideration. The bill was on the Consent Calendar and was objected to. The objector has now removed his objection.

The bill was read by title.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. MOORE. Mr. Speaker, reserving the right to object, and I shall not object, in light of my actions yesterday in respect to the unanimous-consent requests that were made in the House with respect to Senate bills or House bills with Senate

Public Law 89-754
89th Congress, S. 3708
November 3, 1966

An Act

80 STAT. 1255

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Demonstration Cities and Metropolitan Development Act of 1966".

Demonstration
Cities and Met-
ropolitan De-
velopment Act
of 1966.

TITLE I—COMPREHENSIVE CITY DEMONSTRATION
PROGRAMS

FINDINGS AND DECLARATION OF PURPOSE

SEC. 101. The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.

The Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical problems facing them, and that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

BASIC AUTHORITY

SEC. 102. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112(2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.

ELIGIBILITY FOR ASSISTANCE

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation, and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning for the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title: *Provided*, That the authority of the Secretary under this paragraph shall not be used to impose criteria or establish requirements except those which are related and essential to the specific provisions of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

(c) The preparation of demonstration city programs should include to the maximum extent feasible (1) the performance of analyses that provide explicit and systematic comparisons of the costs and benefits, financial and otherwise, of alternative possible actions or courses of action designed to fulfill urban needs; and (2) the establishment of programing systems designed to assure effective use of such analyses by city demonstration agencies and by other government bodies.

(d) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program (1) by which pupils now resident in a school district not within the confines of the area covered by the city demonstration program shall be transferred to a school or school district including all or part of such area, or (2) by which pupils now resident in a school district within the confines of the area covered by the city demonstration program shall be transferred to a school or school district not including a part of such area.

FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

(d) Grant funds provided to assist projects and activities included within an approved comprehensive city demonstration program pursuant to subsection (c) of this section shall be made available to assist new and additional projects and activities not assisted under a Federal grant-in-aid program. To the extent such funds are not necessary to support fully such new and additional projects and activities, they may be used and credited as part or all of the required non-Federal contribution to projects or activities, assisted under a Federal grant-in-aid program, which are part of an approved comprehensive city demonstration program. Such grant funds, however, shall not be used—

- (1) for the general administration of local governments; or
- (2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive city demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

TECHNICAL ASSISTANCE

SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

RELOCATION REQUIREMENTS AND PAYMENTS

SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of housing for all such families and individuals throughout the city.

79 Stat. 475.
42 USC 1455.

(b) (1) To the extent not otherwise authorized under any Federal law, financial assistance extended to a city demonstration agency under section 105 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 105.

(2) The term "relocation payments" means payments by a city demonstration agency to a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by section 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

"Relocation
payments."

(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date of the enactment of this Act.

78 Stat. 788;
79 Stat. 486.
42 USC 1465.

CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID PROGRAM FUNDS

SEC. 108. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and undertaken in connection with an approved comprehensive city demonstration program shall remain available until expended.

CONSULTATION

SEC. 109. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105.

LABOR STANDARDS

SEC. 110. (a) All laborers and mechanics employed by contractors or subcontractors in the construction, rehabilitation, alteration, or repair of projects which—

(1) are federally assisted in whole or in part under this title
and

53 Stat. 807.
12 USC 1715c.
63 Stat. 430.
42 USC 1416.
68 Stat. 626.
42 USC 1459.

49 Stat. 1011;
78 Stat. 238.

63 Stat. 108.
40 USC 327.

(2) are not otherwise subject to section 212 of the National Housing Act, section 16(2) of the United States Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction,

shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5) : *Provided*. That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work Hours Standards Act (76 Stat. 357).

APPROPRIATIONS

SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 104 and 106, not to exceed \$12,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

(c) Appropriations authorized under this section shall remain available until expended.

DEFINITIONS

SEC. 112. As used in this title—

(1) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

(3) "City" means any municipality (or two or more municipalities acting jointly) or any county or other public body (or two or more acting jointly) having general governmental powers.

(4) "Local" agencies include State agencies and instrumentalities providing services or resources to a city or locality, and "local" resources include those provided to a city or locality by a State or its agency or instrumentality.

GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS WHICH ARE PART OF APPROVED COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 113. Section 103(b) of the Housing Act of 1949 is amended by inserting after the first sentence the following new sentence: "In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under

63 Stat. 416.
42 USC 1453.

this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966."

Ante, p. 1258.

STATE LIMIT

SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

FINDINGS AND DECLARATION OF PURPOSE

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this title to provide, through greater coordination of Federal programs and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive metropolitan planning and programing effective.

COOPERATION BETWEEN FEDERAL AGENCIES

SEC. 202. In order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner—

(1) the Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development, and to assist the President in coordinating the metropolitan development efforts of all Federal agencies; and

(2) all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other

significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

METROPOLITAN EXPEDITERS

SEC. 203. Upon the request of the duly authorized local officials of the central city in any metropolitan area, and after consultation with local governmental authorities throughout the metropolitan area with respect to whether or not the Secretary should make an appointment under this section (and with respect to the individuals who might be so appointed), the Secretary may appoint a metropolitan expediter for such area whenever he finds a need for the services specified in this section. The metropolitan expediter shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

COORDINATION OF FEDERAL AIDS IN METROPOLITAN AREAS

SEC. 204. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—

(1) to any areawide agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used, and which is, to the greatest practicable extent, composed of or responsible to the elected officials of a unit of areawide government or of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning, and

(2) if made by a special purpose unit of local government, to the unit or units of general local government with authority to operate in the area within which the project is to be located.

(b)(1) Except as provided in paragraph (2) of this subsection, each application shall be accompanied (A) by the comments and recommendations with respect to the project involved by the areawide agency and governing bodies of the units of general local government to which the application has been submitted for review, and (B) by a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application. Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this paragraph shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

(2) An application for a Federal loan or grant need not be accompanied by the comments and recommendations and the statements referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before an appropriate area-wide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

(3) The requirements of paragraphs (1) and (2) shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

(c) The Bureau of the Budget, or such other agency as may be designated by the President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

GRANTS TO ASSIST IN PLANNED METROPOLITAN DEVELOPMENT

SEC. 205. (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

(c)(1) Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities, it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

(2) Where the applicant for a grant under this section is not a unit of general local government, both it and the unit of general local government having jurisdiction over the location of the project must meet the requirements of this subsection.

(d) In making the determinations required under this section, the Secretary shall obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for comprehensive planning and programing for the metropolitan area.

(e) No grant shall be made under this section with respect to a metropolitan development project for which a Federal grant has been made, or a contract of assistance has been entered into, under the legislation referred to in paragraph (2) of section 208, prior to February 21, 1966, or more than one year prior to the date on which the Secretary has made the determinations required under this section with respect to the applicant and to the area in which the project is located: *Provided*, That in the case of a project for which a contract of assistance under the legislation referred to in paragraph (2) of section 208 has been entered into after June 30, 1967, no grant shall be made under this section unless an application for such grant has been made on or before the date of such contract.

(f) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program to achieve a racial balance or to eliminate racial imbalance within school districts within the metropolitanwide area.

EXTENT OF GRANT

SEC. 206. (a) A grant under section 205 shall not exceed (1) 20 per centum of the cost of the project for which the grant is made; nor (2) the Federal grant made with respect to the project under the legislation referred to in paragraph (2) of section 208. In no case shall the total Federal contributions to the cost of such project be more than 80 per centum. Notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under section 205 shall be eligible for inclusion (directly or through refunds or credits) as part of the financing for such projects: *Provided*, That projects or activities on the basis of which assistance is provided under section 105(c) shall not be eligible for assistance under section 205.

(b) There are authorized to be appropriated for grants under section 205 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

CONSULTATION AND CERTIFICATION

SEC. 207. In carrying out his authority under section 205, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 206, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Restriction.
Ante, p. 1258.

DEFINITIONS

80 STAT. 1265

SEC. 208. As used in this title—

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open-space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

(2) "Metropolitan development project" means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; title II of the Library Services and Construction Act; section 606 of the Public Health Service Act; section 8 of the Federal Water Pollution Control Act; section 120(a) of title 23, United States Code; section 12 of the Federal Airport Act; section 3 of the Urban Mass Transportation Act of 1964; title VII of the Housing Act of 1961; or section 5(e) of the Land and Water Conservation Fund Act of 1965; or under section 101(a)(1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under any of the other provisions listed above).

(3) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or an agency or instrumentality of any of the foregoing.

(4) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

(5) "Comprehensive planning" includes the following, to the extent directly related to area needs or needs of a unit of general local government: (A) preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities; (B) programing of capital improvements based on a determination of relative urgency; (C) long-range fiscal plans for implementing such plans and programs; and (D) proposed regulatory and administrative measures which aid in achieving coordination of all related plans of the departments or subdivisions of the governments concerned and intergovernmental coordination of related planned activities among the State and local governmental agencies concerned.

(6) "Hospital" means any public health center or general, tuberculosis, mental, chronic disease, or other type of hospital and related facilities, such as laboratories, outpatient departments, nurses' home and training facilities, and central service facilities normally operated in connection with hospitals, but does not include any hospital furnishing primarily domiciliary care.

(7) "Areawide agency" means an official State or metropolitan or regional agency empowered under State or local laws or under an interstate compact or agreement to perform comprehensive planning in an area; an organization of the type referred to in section 701(g) of the Housing Act of 1954; or such other agency or instrumentality as may be designated by the Governor (or, in the case of metropolitan areas crossing State lines, any one or more of such agencies or instrumentalities as may be designated by the Governors of the States involved) to perform such planning.

42 USC 3102.
20 USC 355a-
355d.
42 USC 291f.
33 USC 466e.
49 USC 1111.
49 USC 1602.
42 USC 1500.
16 USC 4601-
8.

42 USC 3131.

76 Stat. 544.
40 USC 462.

(8) "Special purpose unit of local government" means any special district, public-purpose corporation, or other limited-purpose political subdivision of a State, but shall not include a school district.

(9) "Unit of general local government" means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

(10) "Secretary" means the Secretary of Housing and Urban Development.

STATE LIMIT

SEC. 209. Grants made under section 205 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated pursuant to section 206(b).

TITLE III—FHA INSURANCE OPERATIONS

FHA MORTGAGE FINANCING FOR VETERANS

79 Stat. 466.
12 USC 1709.

SEC. 301. The next to last sentence of section 203(b)(2) of the National Housing Act is amended by striking out "If the mortgagor is a veteran who has not received any direct, guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home," and inserting in lieu thereof the following: "If the mortgagor is a veteran,".

AREAS AFFECTED BY CIVIL DISORDERS

52 Stat. 10.

SEC. 302. Section 203 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(1) The Secretary is authorized to insure under this section any mortgage meeting the requirements of this section, other than the requirement in subsection (c) relating to economic soundness, if he determines that (1) the dwelling covered by the mortgage is situated in an area in which rioting or other civil disorders have occurred or are threatened, (2) as a result of such actual or threatened rioting or other disorders the property with respect to which the mortgage is executed cannot meet the normal requirements with respect to economic soundness, and (3) such property is an acceptable risk giving due consideration to the need for providing adequate housing for families of low and moderate income in such area."

COOPERATIVE HOUSING INSURANCE FUND

79 Stat. 469.
12 USC 1715e.

SEC. 303. (a) Section 213(m) of the National Housing Act is amended by striking out "; but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe".

(b) Section 213(n) of such Act is amended—

(1) by striking out "insured under this section and sections 207, 231, and 232" and inserting in lieu thereof "the insurance of which is the obligation of either the Management Fund or the General Insurance Fund"; and

(2) by adding at the end thereof the following new sentence: "Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in

debentures which are the obligation of either the Management Fund or the General Insurance Fund."

(c)(1) The fourth sentence of section 213(k) of such Act is amended to read as follows: "The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate."

(2) The second proviso in section 213(1) of such Act is amended by striking out "pursuant to subsection (k) or (o)" and inserting in lieu thereof "pursuant to subsection (o)".

SUPPLEMENTARY FINANCING FOR COOPERATIVE HOUSING

SEC. 304. Section 213(j)(2)(A) of the National Housing Act is amended by adding at the end thereof the following: "except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b) ;".

MORTGAGE LIMITS UNDER SECTION 220 SALES HOUSING MORTGAGE INSURANCE PROGRAM

SEC. 305. (a) Section 220(d)(3)(A)(i) of the National Housing Act is amended by striking out "(3) 75 per centum of such replacement cost in excess of \$20,000" and inserting in lieu thereof "(3) 80 per centum of such replacement cost in excess of \$20,000".

(b) Section 220(d)(3)(A)(i) of such Act is further amended by adding before the semicolon at the end thereof the following: " : *Provided further*, That if the mortgagor is a veteran and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (1) 100 per centum of \$15,000 of the Commissioner's estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, and (3) 85 per centum of such replacement cost in excess of \$20,000. As used herein, the term 'veteran' means any person who served on active duty in the Armed Forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable".

INCREASED MORTGAGE LIMITATIONS UNDER SECTION 220(d)(3)(B) FOR SMALL PROJECTS CONTAINING LARGER FAMILY DWELLING UNITS

SEC. 306. (a) Section 220(d)(3)(B)(iii) of the National Housing Act is amended by inserting after " ; and except that " the following: "with respect to rehabilitation projects involving not more than five family units, the Secretary may by regulation increase by 25 per centum any of the foregoing dollar amount limitations contained in

80 STAT. 1268

this clause which are applicable to units with two, three, or four or more bedrooms: *Provided, That*".

78 Stat. 775;

79 Stat. 467.

12 USC 1715k.

- (b) Section 220(d)(3)(B)(iii) of such Act is further amended—
 (1) by inserting immediately before "by not to exceed 45 per centum" the following: "(as determined after the application of the preceding proviso)"; and
 (2) by striking out "*Provided, That nothing*" and inserting in lieu thereof "*Provided further, That nothing*".

MORTGAGE LIMITS FOR HOMES UNDER SECTION 221(d)(2)

75 Stat. 149.

12 USC 1715l.

SEC. 307. Section 221(d)(2)(A) of the National Housing Act is amended by striking out "\$11,000" and "\$18,000" and inserting in lieu thereof "\$12,500" and "\$20,000", respectively.

NONDWELLING FACILITIES IN SECTION 221 PROJECTS IN URBAN RENEWAL AREAS

68 Stat. 599.

73 Stat. 658.

SEC. 308. Section 221(f) of the National Housing Act is amended by inserting before the period at the end of the first sentence the following: ": *Provided, That* in the case of any such property or project located in an urban renewal area, the provisions of section 220(d)(3)(B)(iv) shall apply with respect to the nondwelling facilities which may be included in the mortgage if the mortgagor waives the right to receive dividends on its equity investment in the portion thereof devoted to community and shopping facilities".

SINGLE OCCUPANTS IN SECTION 221(d)(3) HOUSING

SEC. 309. Section 221(f) of the National Housing Act is amended by adding at the end thereof the following new sentence: "Low- and moderate-income persons who are less than 62 years of age shall be eligible for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3), but not more than 10 per centum of the dwelling units in any such project shall be available for occupancy by such persons."

INSURANCE OF MORTGAGES UNDER SECTION 221 TO FINANCE PURCHASE AND REHABILITATION BY NONPROFIT ORGANIZATIONS OF HOUSING FOR RESALE TO LOW-INCOME PURCHASERS

SEC. 310. (a) Section 221 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(h)(1) In addition to mortgages insured under the other provisions of this section, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

"(2) To be eligible for insurance under paragraph (1) of this subsection, a mortgage shall—

"(A) be executed by a private nonprofit corporation or association approved for purposes of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon

which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided:

“(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

“(C) be in a principal amount not exceeding the appraised value of the property at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

“(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d) (5) at the time of execution;

“(E) provide for complete amortization (subject to paragraph (5) (E)) by periodic payments within such term as the Secretary may prescribe; and

“(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

“(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary that (A) the property to be rehabilitated is located in a neighborhood which is sufficiently stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

“(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

“(5) (A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as ‘low-income purchasers’) determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c) (1) of the Housing and Urban Development Act of 1965.

79 Stat. 451.
12 USC 1701s.

“(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

“(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

“(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

“(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

80 STAT. 1270

“(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as though they constituted rental units in a project covered by a mortgage which is insured under subsection (d) (3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d) (5)).

“(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

“(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy the property the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) the nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary.”

(b) (1) Section 221(g) (1) of such Act is amended by inserting after “paragraph (2) of subsection (d) of this section” the following: “or paragraph (5) of subsection (h) of this section”.

(2) Section 221(g) (2) of such Act is amended by inserting after “paragraph (3) or (4) of subsection (d) of this section” the following: “or paragraph (1) of subsection (h) of this section”.

(c) Section 221(f) of such Act is amended by inserting after “Housing Act of 1961,” in the fourth sentence “or which meet the requirements of subsection (h).”.

(d) Section 305(h) of such Act is amended by striking out “section 221(d) (3)” and inserting in lieu thereof “sections 221(d) (3) and 221(h)”.

APPLICATION OF DAVIS-BACON ACT TO COOPERATIVE HOUSING PROJECTS
INSURED UNDER SECTION 221(d) (3) AND (d) (4) AND MORTGAGES
INSURED UNDER SECTION 221(h) (1)

SEC. 311. The third sentence of section 212(a) of the National Housing Act is amended by striking out “subsection (d) (3) or (d) (4).” and inserting in lieu thereof “subsection (d) (3) or (d) (4) and (deeming the term ‘construction’ as used in the first sentence of this subsection to mean rehabilitation) of any mortgage described in subsection (h) (1) which covers property on which there is located a dwelling or dwellings designed principally for residential use for more than eight families; except that compliance with such provisions may be waived by the Secretary—

“(1) with respect to mortgages described in such subsection (d) (3) or (d) (4), in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construc-

tion of the project) voluntarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction, and

“(2) with respect to mortgages described in such subsection (h)(1), in cases or classes of cases where prospective owners of such dwellings voluntarily donate their services without compensation, or other persons (not otherwise employed at any time in the rehabilitation of the property) voluntarily donate their services without compensation, and the Secretary determines that any amounts saved thereby are fully credited to the nonprofit organization undertaking the rehabilitation.”

WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO
SECRETARY IN LIEU OF FORECLOSURE

SEC. 312. Title V of the National Housing Act is amended by adding at the end thereof the following new section: 12 USC 1731a-1735f.

“WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY
TO SECRETARY IN LIEU OF FORECLOSURE

“SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multifamily housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage.”

TITLE IV—LAND DEVELOPMENT AND NEW
COMMUNITIES

EXPERIMENTAL MORTGAGE INSURANCE PROGRAM FOR NEW COMMUNITIES

SEC. 401. (a) Title X of the National Housing Act is amended by inserting after section 1003 the following new section 1004 and redesignating the remaining sections accordingly: 79 Stat. 463. 12 USC 1749cc.

“NEW COMMUNITIES

“SEC. 1004. (a) New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.

“(b) A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

“(1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;

“(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

“(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

“(4) maximum accessibility to any major central city in the area.

"(c) No development shall be approved as a new community by the Secretary under this section unless the construction of such development has been approved by the local governing body or bodies of the locality or localities in which it will be located and by the Governor of the State in which such locality or localities are situated: *Provided*, That if such locality or localities have been delegated general powers of local self-government by State law or State constitution, as determined by the Secretary, the approval of the Governor shall not be required.

"(d) The aggregate amount of mortgages insured under this title with respect to new communities approved under this section and outstanding at any one time shall not exceed \$250,000,000."

(b) No mortgage shall be insured under title X of the National Housing Act with respect to a new community approved under section 1004 of such Act (as added by subsection (a) of this section) after October 1, 1972, except pursuant to a commitment to insure entered into before that date.

Ante, p. 1271.

MORTGAGE AMOUNT AND TERM

79 Stat. 462.
12 USC 1749bb.

SEC. 402. (a) Section 1002(c) of the National Housing Act is amended by striking out "\$10,000,000" and inserting in lieu thereof "\$25,000,000".

(b) Section 1002(d) (1) of such Act is amended to read as follows:

"(1) contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;".

ENCOURAGEMENT OF SMALL BUILDERS

SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting "particularly small builders," after "broad participation by builders,".

WATER AND SEWERAGE FACILITIES

SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended to read as follows:

"WATER AND SEWERAGE FACILITIES

"SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

"(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

“(b) in the case of systems for sewerage, the land may be served by—

“(1) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as adequate by the Secretary, and which are regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) are otherwise regulated in a manner acceptable to the Secretary; or

“(2) if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (A) which he finds consistent with other existing or prospective systems within the area, (B) which during the period of such ownership will be regulated or supervised by the State or political subdivision or an agency thereof, or (in the absence of such State or local regulation or supervision) will be otherwise regulated in a manner acceptable to the Secretary, with respect to user rates and charges, capital structure, methods of operation, and rate of return, and (C) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer.”

FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL ASSISTANCE FOR NEW COMMUNITIES

SEC. 405. Section 302(b) of the National Housing Act is amended by inserting after “or title VIII,” in the proviso the following: “or under title X with respect to a new community approved under section 1004 thereof.”

75 Stat. 176.
12 USC 1717.

URBAN PLANNING GRANTS

SEC. 406. Section 701(a) (4) of the Housing Act of 1954 is amended by inserting before the semicolon at the end thereof the following: “, or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community approved under section 1004 of the National Housing Act”.

73 Stat. 678.
40 USC 461.

PUBLIC FACILITY LOANS

SEC. 407. Section 202(b) (4) of the Housing Amendments of 1955 is amended by adding before the period at the end of the second sentence the following: “, or (iii) to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act”.

78 Stat. 798;
79 Stat. 503.
42 USC 1492.

TITLE V—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

PURPOSE

SEC. 501. It is the purpose of this title to assure the availability of credit on reasonable terms to units or organizations engaged in the group practice of medicine, optometry, or dentistry, particularly those in smaller communities and those sponsored by cooperative or other nonprofit organizations, to assist in financing the construction and equipment of group practice facilities.

12 USC 1701.

SEC. 502. (a) The National Housing Act is amended by adding at the end thereof the following new title:

**"TITLE XI—MORTGAGE INSURANCE FOR GROUP
PRACTICE FACILITIES**

"INSURANCE OF MORTGAGES

"SEC. 1101. (a) The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.

"(b) To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c).

"(c) The mortgage shall—

"(1) not exceed \$5,000,000;

"(2) not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges incident to construction or rehabilitation and approved by the Secretary;

"(3) have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments within such term as the Secretary shall prescribe; and

"(4) bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market.

"(d) Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

"(e) Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgagee, the property will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated.

"(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records.

Recordkeeping.

"PREMIUMS

"SEC. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary.

"PAYMENT OF INSURANCE BENEFITS

"SEC. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title.

12 USC 1713.

"REGULATIONS

"SEC. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Secretary of Health, Education, and Welfare with respect to any health or medical aspects of the program under this title which may be involved in such regulations.

"ADMINISTRATION

"SEC. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for and construction of such facilities.

"(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency.

"DEFINITIONS

"SEC. 1106. For the purposes of this title—

"(1) The term 'group practice facility' means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

"(2) The term 'medical or dental group' means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs, and which partnership or association or group is composed of at least such professional personnel and make available at least such health services as may be provided in regulations prescribed under this title.

"(3) The term 'group practice unit or organization' means—

"(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis; or

"(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to which assistance has been requested under this title available to a medical or dental group for use by it.

"(4) The term 'nonprofit organization' means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any

private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organization for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

“(5) The term ‘State’ includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

“(6) The term ‘mortgage’ means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term ‘first mortgage’ means such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the realty.

“(7) The term ‘mortgagee’ means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

“(8) The term ‘mortgagor’ means the original borrower under a mortgage and his or its successors and assigns.”

(b) The first sentence of section 227 of such Act is amended by inserting after “new or rehabilitated multifamily housing” the following: “or a property or project described in title XI”. 68 Stat. 607.
12 USC 1715r.

LABOR STANDARDS

SEC. 503. Section 212(a) of the National Housing Act is amended by adding at the end thereof the following new sentence: “The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be.” 53 Stat. 807.
12 USC 1715o.

AMENDMENTS TO OTHER FEDERAL LAWS

SEC. 504. (a) (1) The sixth sentence of paragraph “Seventh” of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after “Federal Home Loan Banks,” the following: “or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act”.

(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after “or sections 1471-1484 of title 42,” the following: “or 69 Stat. 633.

80 STAT. 1278

which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act,".

53 Stat. 1153.

(b) Subsection (a) of section 304 of the Trust Indenture Act of 1939 (15 U.S.C. 77ddd) is amended by striking out the word "or" at the end of paragraph (8); by striking out the period at the end of paragraph (9) and inserting in lieu thereof a semicolon and the word "or"; and by adding after paragraph (9) a new paragraph as follows:

"(10) any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c(a)(2))."

48 Stat. 906.

52 Stat. 902.

(c) Section 263 of chapter X of the Bankruptcy Act (11 U.S.C. 663) is amended by adding at the end thereof the following: "Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act."

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

PRESERVATION OF HISTORIC STRUCTURES AS PART OF URBAN RENEWAL PROJECTS

71 Stat. 301.

42 USC 1460.

SEC. 601. (a) Section 110(b) of the Housing Act of 1949 is amended by inserting "historic and architectural preservation," after "land acquisition,".

70 Stat. 1097.

(b) Section 110(c)(6) of such Act is amended by inserting "to promote historic and architectural preservation," after "deterioration,".

(c) Section 110(c) of such Act is further amended by striking out "and" at the end of clause (8), and by striking out clause (9) and inserting in lieu thereof the following:

"(9) relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and

"(10) restoration of acquired properties of historic or architectural value."

LOCAL GRANT-IN-AID CREDIT FOR RELOCATION AND RESTORATION OF HISTORIC STRUCTURES

68 Stat. 626.

SEC. 602. Clause (2) of section 110(d) of the Housing Act of 1949 is amended by striking out "clause (2) and clause (3)" and inserting in lieu thereof "clauses (2), (3), (9), and (10)".

GRANTS TO NATIONAL TRUST FOR HISTORIC PRESERVATION TO COVER RESTORATION COSTS

SEC. 603. (a) The Secretary of Housing and Urban Development is authorized to make grants to the National Trust for Historic Preservation, on such terms and conditions and in such amounts (not exceeding \$90,000 with respect to any one structure) as he deems appropriate, to cover the costs incurred by such Trust in renovating or restoring structures which it considers to be of historic or architectural value and which it has accepted and will maintain (after such renovation or restoration) for historic purposes.

(b) There are authorized to be appropriated such sums as may be necessary for the grants to be made under subsection (a).

URBAN PLANNING GRANTS FOR SURVEYS OF HISTORIC STRUCTURES

SEC. 604. Section 701 of the Housing Act of 1954 is amended by adding at the end thereof the following new subsection:

73 Stat. 678.
40 USC 462.

“(h) In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the National Register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (9) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved.”

78 Stat. 792,
793; 79 Stat. 17.

GRANTS FOR HISTORIC PRESERVATION

SEC. 605. (a) The heading of title VII of the Housing Act of 1961 is amended to read as follows:

75 Stat. 183.
42 USC 1500
et seq.

“TITLE VII—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION”.

(b) Section 701 of such Act is amended by redesignating subsection (c) as subsection (d), and by inserting after subsection (b) a new subsection as follows:

79 Stat. 494.

“(c) The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our past history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas.”

(c) Section 701(d) of such Act (as redesignated by subsection (b) of this section) is amended—

(1) by inserting after “urban development,” the following: “to assist in preserving areas and properties of historic or architectural value,”; and

(2) by striking out “and (2)” and inserting in lieu thereof “(2) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (3)”.

(d) Section 702(e) of such Act is amended to read as follows:

75 Stat. 184.

“(e) The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this title. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture,

80 STAT. 1280

archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments."

79 Stat. 496.

42 USC 1500c-2.

42 USC 1500d.

(e) Section 706 of such Act is amended by striking out the proviso.
(f) Section 708 of such Act is amended by inserting "(a)" after "Sec. 708.", by inserting "(b)" before "The" in the second paragraph, and by adding at the end thereof a new subsection as follows:

"(c) Notwithstanding any other provision of this title, the Secretary may use not to exceed \$10,000,000 of the sum authorized for contracts under this title for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this title."

42 USC 1500e.

(g) Title VII of such Act is amended by redesignating section 709 as section 710, and by adding after section 708 a new section as follows:

"GRANTS FOR HISTORIC PRESERVATION

"SEC. 709. The Secretary is authorized to enter into contracts to make grants to States and local public bodies to assist in the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit, in accord with the comprehensively planned development of the locality. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Secretary, of the assisted activities. The remainder of such cost shall be provided from non-Federal sources."

(h) Commencing three years after the date of the enactment of this Act, no grant shall be made (except pursuant to a contract or commitment entered into less than three years after such date) under section 709 of the Housing Act of 1961 or section 701(h) of the Housing Act of 1954, or under section 103 of the Housing Act of 1949 to the extent that it is to be used for historic or architectural preservation, except with respect to districts, sites, buildings, structures, and objects which the Secretary of Housing and Urban Development finds meet criteria comparable to those used in establishing the National Register maintained by the Secretary of the Interior pursuant to other provisions of law.

42 USC 1460.

TITLE VII—URBAN RENEWAL

LOCAL GRANTS-IN-AID

SEC. 701. Section 110(d) of the Housing Act of 1949 is amended by inserting immediately after the colon at the end of the first proviso the following: "*Provided further*, That any publicly owned facility, the construction of which was begun not earlier than three years prior to the date of enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility, or \$3,500,000, whichever is less, if such facility (A) (i) is used, or is to be used, by the public predominantly for cultural, exhibition, or civic purposes, or is a city hall or a public safety building, or (ii) is a facility, constructed or rehabilitated by a public university, which is or will be devoted to the treatment of physical or mental disabilities and illness or to medical research; (B) is located within, adjacent to, or in the immediate vicinity of such urban

renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid:".

AIR RIGHTS SITES IN URBAN RENEWAL PROJECTS

SEC. 702. (a) Section 110(c)(1) of the Housing Act of 1949 is amended by inserting in clause (iv), between the word "income" and the colon immediately preceding the first proviso, the following: "or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for industrial development". 78 Stat. 787.
42 USC 1460.

(b) Section 110(c)(7) of such Act is amended by inserting immediately before the semicolon the following: ", or construction of foundations and platforms necessary for the provision of air rights sites for industrial development". 78 Stat. 788.

ADDITIONAL REQUIREMENTS FOR REDEVELOPMENT OF URBAN RENEWAL AREA

SEC. 703. (a) Section 105 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection: 63 Stat. 416.
42 USC 1455.

"(f) The redevelopment of the urban renewal area, unless such redevelopment is for predominantly nonresidential uses, will provide a substantial number of units of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas."

(b) The amendment made by subsection (a) shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act.

THREE-FOURTHS GRANTS FOR PROJECTS IN CERTAIN REDEVELOPMENT AREAS

SEC. 704. Section 103(a)(2)(B) of the Housing Act of 1949 is amended by inserting after "to avoid hardship," the following: "or at any time after such contract or contracts are entered into and prior to the time the final grant payment has been made pursuant thereto,". 79 Stat. 479.
42 USC 1453.

EXPENDITURES BY EDUCATIONAL INSTITUTIONS AND HOSPITALS

SEC. 705. Section 112(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: "*Provided further*, That no such expenditure shall be deemed ineligible as a local grant-in-aid in connection with an urban renewal project, to the extent that the expenditure is otherwise eligible, if the facilities, land, buildings, or structures with respect to which the expenditure is made are located within one mile of the project". 75 Stat. 169.
42 USC 1463.

REQUIREMENT OF SEPARATE SEWER SYSTEMS IN REDEVELOPMENT OF URBAN RENEWAL AREA

SEC. 706. Section 105 of the Housing Act of 1949 is amended by adding at the end thereof (after the new subsection added by section 703 of this Act) the following new subsection: 42 USC 1455.

"(g) Consideration has been given to development of a sewer system to serve the urban renewal area which will, to the maximum extent feasible, provide for effective control of storm and sanitary wastes."

TITLE VIII—RURAL HOUSING

75 Stat. 186.
42 USC 1471.

76 Stat. 671.
42 USC 1472.

42 USC 1485.

SEC. 801. Section 501(a) of the Housing Act of 1949 is amended by striking out "previously occupied" wherever it appears.

SEC. 802. Section 502(a) of the Housing Act of 1949 is amended by striking out "In cases of applicants who are elderly persons, the" and inserting in lieu thereof "The".

SEC. 803. Section 504 of the Housing Act of 1949 is amended by striking out "\$1,000" and inserting in lieu thereof "\$1,500".

SEC. 804. (a) Section 515(a) of the Housing Act of 1949 is amended by inserting after "income" the following: "or other persons and families of low income".

(b) Section 515(d)(1) of such Act is amended by striking out "elderly persons or elderly families" and inserting in lieu thereof "occupants eligible under this section".

SEC. 805. (a) Subsections (a) and (b) of section 515 of the Housing Act of 1949 are each amended by striking out "rental housing" and inserting in lieu thereof "rental or cooperative housing".

(b) Section 515(b) of such Act is amended by inserting after "families" the following: "or other persons and families of moderate income".

(c) Section 515(d)(4) of such Act is amended by adding at the end thereof the following: "Such fees and charges may include payments to qualified consulting organizations or foundations which operate on a nonprofit basis and which render services or assistance to nonprofit corporations or consumer cooperatives who provide housing and related facilities."

79 Stat. 498.
42 USC 1487.

SEC. 806. Section 517(a)(1) of the Housing Act of 1949 is amended—

(1) by inserting "and" before "(B)"; and

(2) by striking out ", and (C)" and all that follows and inserting in lieu thereof the following: "; but no loan under this paragraph shall be insured or made after October 1, 1969, except pursuant to a commitment entered into before that date; and".

SEC. 807. (a) Section 501(a) of the Housing Act of 1949 is amended by inserting before the period at the end thereof the following: ", and (4) to an owner described in clause (1), (2), or (3) for refinancing indebtedness which—

"(A) was incurred for an eligible purpose described in such clause,

"(B) if not refinanced, is likely to result at an early date in loss of the applicant's necessary dwelling or essential farm service buildings,

"(C) is not held or insured by the United States or any agency thereof, and

"(D) was incurred prior to the enactment of this clause."

75 Stat. 186.

(b) Section 501(c) of such Act is amended by inserting before the semicolon at the end of clause (1) the following: ", or that he is the owner of a farm or other real estate in a rural area who needs refinancing of indebtedness described in clause (4) of subsection (a)".

TITLE IX—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

PURPOSE

SEC. 901. It is the purpose of this title to assist States to make available information and data on urban needs and assistance programs and activities, and to provide technical assistance, to small communities with respect to the solution of urban problems.

GRANT AUTHORITY

SEC. 902. (a) The Secretary is authorized to make grants to States to help finance programs to provide information and data on urban needs and assistance programs and activities, and to provide technical assistance, to small communities with respect to the solution of local problems. Activities aided by such grants may include—

(1) the assembly, correlation, and dissemination of urban physical, social, and economic development information and data for the purpose of informing local governments of small communities, and interested organizations and individuals, of the availability and status of Federal, State, and local programs and other resources and data for the solution of urban problems; and

(2) providing technical assistance with respect to the solution of urban problems to any small community requesting such assistance.

(b) A program assisted under this section shall—

(1) specify the information and technical assistance activities to be carried on and justify the needs for the costs of such activities; and

(2) represent substantially increased or improved activities on the part of the applicant State agency.

AMOUNT OF GRANT

SEC. 903. (a) A grant under this section shall not exceed 50 per centum of the cost of the activities carried on under an approved urban information and technical assistance program.

(b) No grant shall be made under this title to assist in assembling data, or providing information, to be used primarily in the day to day operations of State or local governing bodies and agencies.

COOPERATION AND COORDINATION

SEC. 904. (a) Federal departments and agencies shall cooperate with States in providing information to assist in carrying out the purpose of this title.

(b) In the administration of this title, the Secretary shall seek to ensure the greatest practicable coordination of urban information and technical assistance programs established under this title.

DEFINITIONS

SEC. 905. As used in this title—

(1) "State" means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or an agency or instrumentality designated by the chief executive of any of the foregoing, or a statewide agency or instrumentality of its political subdivisions designated by such chief executive.

(2) "Secretary" means the Secretary of Housing and Urban Development.

(3) "Small communities" means communities having populations of less than one hundred thousand according to the most recent decennial census.

APPROPRIATIONS

SEC. 906. There are authorized to be appropriated for the purpose of carrying out the provisions of this title not to exceed \$2,500,000 for the fiscal year ending June 30, 1967, and not to exceed \$5,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

TITLE X—MISCELLANEOUS

HOUSING FOR THE ELDERLY OR HANDICAPPED

SEC. 1001. Section 105(b) of the Housing and Urban Development Act of 1965 is amended—

79 Stat. 457.
12 USC 1701q
note.

(1) by inserting “(1)” after “(b)”;

(2) by striking out “Effective with respect to loans made on or after the date of the enactment of this Act, section” and inserting in lieu thereof “Section”; and

(3) by adding at the end thereof a new paragraph as follows:

“(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate.”

LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS—TERM OF LEASE

SEC. 1002. Section 23(d) of the United States Housing Act of 1937 is amended by striking out “thirty-six months” and inserting in lieu thereof “sixty months”.

79 Stat. 455.
42 USC 1421b.

APPLICATION OF DAVIS-BACON ACT TO LOW-RENT HOUSING PROJECTS
CONSISTING OF PRIVATELY BUILT HOUSING

SEC. 1003. Section 16(2) of the United States Housing Act of 1937 is amended by inserting after “the development of the project involved” the following: “(including a project for the use of privately built housing in any case, other than under the authority of section 23 of this Act, where the public housing agency and the builder or sponsor enter into an agreement for such use before construction or rehabilitation is commenced), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be”.

63 Stat. 430.
42 USC 1416.

ASSISTANCE FOR HOUSING IN ALASKA

SEC. 1004. (a) The Secretary of Housing and Urban Development (hereinafter referred to as the “Secretary”) is authorized to make loans and grants to the State of Alaska, or any duly authorized agency or instrumentality thereof, in accordance with a statewide program prepared by such State, agency, or instrumentality, and approved by the Secretary, to assist in the provision of housing and related facilities for Alaska natives and other Alaska residents who are otherwise unable to finance such housing and related facilities upon terms and conditions which they can afford. The program shall (1) specify the

minimum and maximum standards for such housing and related facilities (not to exceed an average of \$7,500 per dwelling unit); (2) to the extent feasible, encourage the proposed users of such housing and related facilities to utilize mutual and self-help in the construction thereof; and (3) provide experience, and encourage continued participation, in self-government and individual home ownership.

(b) Grants under this section shall not exceed 75 per centum of the aggregate cost of the housing and related facilities to be constructed under an approved program.

(c) There is authorized to be appropriated not to exceed \$10,000,000 to carry out the purposes of this section.

FEDERAL NATIONAL MORTGAGE ASSOCIATION PARTICIPATION IN FEDERAL HOUSING ADMINISTRATION-INSURED CONSTRUCTION FINANCING

SEC. 1005. Section 305 of the National Housing Act is amended by adding at the end thereof the following new subsection:

“(i) In any case where the Association makes a commitment to purchase under this section (1) a mortgage insured under section 213, (2) a mortgage insured under section 220, or (3) a mortgage insured under section 221 (d) (3) and executed by a cooperative (including an investor-sponsor), a limited dividend corporation, a private non-profit corporation or association, or a mortgagor qualified under section 221(e), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage. The Secretary of Housing and Urban Development shall approve the reasonableness of the fee to be paid a participating mortgagee, taking into account its services and the extent of its participation in the advances.”

68 Stat. 616.
12 USC 1720.

12 USC 1715e,
1715k, 1715l.

FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL ASSISTANCE FOR FINANCING LOW-COST HOMES

SEC. 1006. The Congress hereby finds that the sharp decline in new home construction over the past year threatens to undercut our present high level of prosperity and employment as such declines have in the past; that the substantial reduction which has taken place has had its greatest impact on families of modest income who are seeking to achieve the goal of homeownership; that this decline in homebuilding is due primarily to the shortage of mortgage financing on terms which moderate income families can afford; and that our national policy objectives in the field of housing and community development are thereby being thwarted. The Congress therefore expresses its intent that the special assistance funds made available to the Federal National Mortgage Association for the financing of new low-cost homes by the Act of September 10, 1966 (Public Law 89-556), should be released immediately to halt the continuing decline in the construction of new homes for families of moderate income.

Ante, p. 738.

FEDERAL NATIONAL MORTGAGE ASSOCIATION STANDBY COMMITMENTS

SEC. 1007. Section 304(a)(1) of the National Housing Act is amended by striking out the last sentence.

75 Stat. 176.
12 USC 1719.

PLANNING GRANTS FOR RESEARCH ON STATE STATUTES AFFECTING LOCAL GOVERNMENTS

68 Stat. 640.
40 USC 461.

SEC. 1008. Section 701(b) of the Housing Act of 1954 is amended by inserting before the period at the end thereof the following: “, and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations”.

PUBLIC FACILITY LOANS

69 Stat. 643;
75 Stat. 174;
76 Stat. 543.
42 USC 1492.

SEC. 1009. Section 202 of the Housing Amendments of 1955 is amended by adding at the end thereof a new subsection as follows:

“(f) The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located.”

APPLYING ADVANCES IN TECHNOLOGY TO HOUSING AND URBAN DEVELOPMENT

SEC. 1010. (a) To encourage and assist the housing industry to continue to reduce the cost and improve the quality of housing by the application to home construction of advances in technology, and to encourage and assist the application of advances in technology to urban development activities, the Secretary of Housing and Urban Development (hereinafter referred to as the “Secretary”) is directed to—

(1) conduct research and studies to test and demonstrate new and improved techniques and methods of applying advances in technology to housing construction, rehabilitation, and maintenance, and to urban development activities; and

(2) encourage and promote the acceptance and application of new and improved techniques and methods of constructing, rehabilitating, and maintaining housing, and the application of advances in technology to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public.

(b) Research and studies conducted under this section shall be designed to test and demonstrate the applicability to housing construction, rehabilitation, and maintenance, and urban development activities, of advances in technology relating to (1) design concepts, (2) construction and rehabilitation methods, (3) manufacturing processes, (4) materials and products, and (5) building components.

(c) The Secretary is authorized to carry out the research and studies authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for research and studies authorized by this section for work to continue not more than two years from the date of any such contract.

(d) There are authorized to be appropriated to carry out the provisions of this section not to exceed \$5,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$10,000,000 for the fiscal year ending June 30, 1968. All funds so appropriated shall remain available until expended.

(e) Nothing contained in this section shall limit any authority of the Secretary under title III of the Housing Act of 1948, section 602 of the Housing Act of 1956, or any other provision of law.

63 Stat. 431.
12 USC 1701e-
1701f-1.
70 Stat. 1113.
12 USC 1701d-3.

URBAN ENVIRONMENTAL STUDIES

SEC. 1011. (a) The Congress finds that, with the ever-increasing concentration of the Nation's population in urban centers, there has occurred a marked change in the environmental conditions under which most people live and work; that such change is characterized by the progressive substitution of a highly complex, man-contrived environment for an environment conditioned primarily by nature; that the beneficent or malignant influence of environment on all living creatures is well recognized; and that much more knowledge is urgently needed concerning the effect on human beings of highly urbanized surroundings. It is the purpose of this section to authorize a comprehensive program of research, studies, surveys, and analyses to improve understanding of the environmental conditions necessary for the well-being of an urban society, and for the intelligent planning and development of viable urban centers.

(b) In order to carry out the purpose of this section, the Secretary is authorized and directed to—

(1) conduct studies, surveys, research, and analyses with respect to the ecological factors involved in urban living;

(2) document and define urban environmental factors which need to be controlled or eliminated for the well-being of urban life;

(3) establish a system of collecting and receiving information and data on urban ecological research and evaluations which are in process or are being planned by public or private agencies, or individuals;

(4) evaluate and disseminate information pertaining to urban ecology to public and private agencies or organizations, or individuals, in the form of reports or otherwise;

(5) initiate and utilize urban ecological information in urban development projects initiated or assisted by the Department of Housing and Urban Development; and

(6) establish through interagency consultation the coordinated utilization of urban ecological information in projects undertaken or assisted by the Federal Government which affect the growth or development of urban areas.

(c) (1) The Secretary is authorized to establish such advisory committees as he deems desirable for the purpose of rendering advice and submitting recommendations for carrying out the purpose of this section. Such advisory committees shall render such advice to the Secretary upon his request and may submit such recommendations to the Secretary at any time on their own initiative. The Secretary may designate employees of the Department of Housing and Urban Development to assist such committees.

Advisory com-
mittees.

(2) Members of such advisory committees shall receive not to exceed \$100 per day when engaged in the actual performance of their duties, in addition to reimbursement for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

(d) The Secretary is authorized to carry out the studies, surveys, research, and analyses authorized by this section either directly or by contract with public or private bodies or agencies, or by working agreement with departments and agencies of the Federal Government, as he may determine to be desirable. Contracts may be made by the Secretary for work under this subsection to continue not more than two years from the date of any such contract.

(e) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. All funds so appropriated shall remain available until expended when so provided in appropriation Acts.

MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

SEC. 1012. That part of section 107 of the Housing and Urban Development Act of 1965 which precedes subsection (f) is amended to read as follows:

"MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

"SEC. 107. (a) For the purposes of this section—

"(1) The term 'mortgage' means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(2) The term 'Federal mortgage agency' means—

"(A) the Secretary of Housing and Urban Development when used in connection with mortgages insured under the National Housing Act, and

"(B) the Administrator of Veterans' Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

"(3) The term 'distressed mortgagor' means an individual who—

"(A) was employed by the Federal Government at, or was assigned as a serviceman to, a military base or other Federal installation and whose employment or service at such base or installation was terminated subsequent to November 1, 1964, as the result of the closing (in whole or in part) of such base or installation; and

"(B) is the owner-occupant of a dwelling situated at or near such base or installation and upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments due under such mortgage.

"(b)(1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments due under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

"(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that such action is necessary to avoid foreclosure.

"(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency, the mortgagor, and the mortgagee shall enter into a binding agreement under which—

"(A) the mortgagor will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c), together with interest thereon at a rate not to exceed the rate provided in the mortgage; the manner and time in which such payments shall be made to be

79 Stat. 458.
12 USC 1735g.

12 USC 1701.

58 Stat. 284;
72 Stat. 1273.
72 Stat. 1203.
38 USC 1801-
1826.

determined by the Federal mortgage agency having due regard for the purposes sought to be achieved by this section; and

“(B) the Federal mortgage agency will be subrogated to the rights of the mortgagee to the extent of payments made pursuant to such certificate, which rights, however, shall be subject to the prior right of the mortgagee to receive the full amount payable under the mortgage.

“(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

“(A) two years from the date on which such certificate was issued;

“(B) thirty days after the date on which the mortgagor gives notice in writing to the Federal mortgage agency that he is able to resume his obligation to make payments due under his mortgage; or

“(C) thirty days after the date on which the Federal mortgage agency determines that the mortgagor to whom such certificate was issued has ceased to be a distressed mortgagor as defined in subsection (a) (3).

“(c) (1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments due under the mortgage.

“(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor may include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid payments under such mortgage prior to the issuance of such certificate, plus a reasonable allowance for foreclosure costs actually paid by the mortgagee if a foreclosure action was dismissed as a result of the issuance of a moratorium certificate. Payments by the Federal mortgage agency may also include payments of taxes and insurance premiums on the mortgaged property as deemed necessary when these items are not provided for through payments to a tax and insurance account held by the interested mortgagee.

“(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments due under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

“(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

“(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

“(e) There shall be in the Treasury (1) a fund which shall be available to the Secretary of Housing and Urban Development for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c) and for paying administrative expenses incurred in connection with such assistance, and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose, except administrative expenses. The capital of each

Investment of
moneys.

such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Secretary of Housing and Urban Development, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts."

ACQUISITION OF CERTAIN PROPERTIES SITUATED AT OR NEAR MILITARY
BASES WHICH HAVE BEEN ORDERED TO BE CLOSED

SEC. 1013. (a) Notwithstanding any other provision of law, the Secretary of Defense is authorized to acquire title to, hold, manage, and dispose of, or, in lieu thereof, to reimburse for certain losses upon private sale of, or foreclosure against, any property improved with a one- or two-family dwelling which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

(1) that the owner of such property is, or has been, a Federal employee employed at or in connection with such base or installation (other than a temporary employee serving under a time limitation) or a serviceman assigned thereto;

(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at or in connection with such base or installation; and

(3) that as the result of the actual or pending closing of such base or installation, in whole or in part, there is no present market for the sale of such property upon reasonable terms and conditions.

(b) In order to be eligible for the benefits of this section such employees or military personnel must be or have been—

(1) assigned to or employed at or in connection with the installation or activity at the time of public announcement of the closure action,

(2) transferred from such installation or activity, or terminated as employees as a result of reduction-in-force, within six months prior to public announcement of the closure action, or

(3) transferred from the installation or activity on an overseas tour unaccompanied by dependents within fifteen months prior to public announcement of the closure action:

Provided, That, at the time of public announcement of the closure action, or at the time of transfer or termination as set forth above, such personnel or employees must—

(i) have been the owner-occupant of the dwelling, or

(ii) have vacated the owned dwelling as a result of being ordered into on-post housing during a six-month period prior to the closure announcement:

Provided further, That as a consequence of such closure such employees or personnel must—

(i) be required to relocate because of military transfer or acceptance of employment beyond a normal commuting distance from the dwelling for which compensation is sought, or

(ii) be unemployed, not as a matter of personal choice, and able to demonstrate such financial hardship that they are unable to meet their mortgage payments and related expenses.

(c) Such persons as the Secretary of Defense may determine to be eligible under the criteria set forth above shall elect either (1) to receive a cash payment as compensation for losses which may be or have been sustained in a private sale, in an amount not to exceed the difference between (A) 95 per centum of the fair market value of their property (as such value is determined by the Secretary of Defense) prior to public announcement of intention to close all or part of the military base or installation and (B) the fair market value of such property (as such value is so determined) at the time of the sale, or (2) to receive, as purchase price for their property, an amount not to exceed 90 per centum of prior fair market value as such value is determined by the Secretary of Defense, or the amount of the outstanding mortgages. Cash payment as compensation for losses sustained in a private sale shall not be made in any case in which the property is encumbered by a mortgage loan guaranteed, insured, or held by a Federal agency unless such mortgage loan is paid, assumed by a purchaser satisfactory to such Federal agency, or otherwise fully satisfied at or prior to the time such cash payment is made. Except in cases of payment as compensation for losses, in the event of foreclosure by mortgagees commenced on or after public announcement of intention to close all or part of the military base or installation and prior to the one hundred and twentieth day after the enactment of this Act, the Secretary of Defense may reimburse or pay on account of eligible persons such sums as may be paid or be otherwise due and owing by such persons as the result of such foreclosure, including (without limiting the generality of the foregoing) direct costs of judicial foreclosure, expenses and liabilities enforceable according to the terms of their mortgages or promissory notes, and the amount of debts, if any, established against such persons by a Federal agency in the case of loans made, guaranteed, or insured by such agency following liquidation of the security for such loans.

(d) There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section, which receipts shall be credited to the fund and shall be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray expenses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: *Provided, however,* That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 406(a) of the Act of August 30, 1957 (42 U.S.C. 1594i), nor shall it be deemed a transaction within the contemplation of section 2662 of title 10, United States Code.

73 Stat. 321.

74 Stat. 186.

(e) Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired

and held under this section. The amount so paid for any year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

(f) The title to any property acquired under this section, the eligibility for, and the amounts of, cash payable, and the administration of the preceding provisions of this section, shall conform to such requirements, and shall be administered under such conditions and regulations, as the Secretary of Defense may prescribe. Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

(g) The Secretary of Defense is authorized to enter into such agreement with the Secretary of Housing and Urban Development as may be appropriate for the purposes of economy and efficiency of administration of this section. Such agreement may provide authority to the Secretary of Housing and Urban Development and his designee to make any or all of the determinations and take any or all of the actions which the Secretary of Defense is authorized to undertake pursuant to the preceding provisions of this section. Any such determinations shall be entitled to finality to the same extent as if made by the Secretary of Defense, and, in event the Secretaries of Defense and Housing and Urban Development so elect, the fund established pursuant to subsection (d) of this section shall be available to the Secretary of Housing and Urban Development to carry out the purposes thereof.

(h) Section 223(a)(8) of the National Housing Act is amended to read as follows:

“(8) executed in connection with the sale by the Government of any housing acquired pursuant to section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966.”

(i) No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

(j) Section 108 of the Housing and Urban Development Act of 1965 is repealed.

COLLEGE HOUSING

SEC. 1014. (a) Section 404(b)(4) of the Housing Act of 1950 is amended by striking out “public” immediately before “educational institution”.

(b) Section 401(d) of such Act is amended by inserting before the period at the end thereof the following: “and, notwithstanding the first proviso of this subsection, the amount of this annual increase which is not utilized for loans for hospitals may be utilized for loans for other educational facilities, as defined herein”.

STUDY CONCERNING RELIEF OF HOMEOWNERS IN PROXIMITY TO AIRPORTS

SEC. 1015. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

79 Stat. 509.
12 USC 1701d-3
note.

(1) by inserting "(a)" after "SEC. 1113.";

(2) by striking out "one year after the date of the enactment of this Act" and inserting in lieu thereof "six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966"; and

(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

QUARTERS AND FACILITIES FOR FEDERAL HOME LOAN BANKS AND
THE FEDERAL HOME LOAN BANK BOARD

SEC. 1016. (a) The second sentence of section 12 of the Federal Home Loan Bank Act (12 U.S.C. 1432) is amended by striking out "but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease" and inserting in lieu thereof "but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease".

47 Stat. 735.

(b) Section 18 of such Act (12 U.S.C. 1438) is amended—

(1) by adding at the end of subsection (b) the following new sentence: "Such assessments may include such amounts as the board may deem advisable for carrying out the provisions of subsection (c) of this section."; and

(2) by adding at the end thereof the following new subsection:

"(c) (1) The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the 'Administrator'), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—

"(A) to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;

"(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

"(C) to enlarge, remodel, or reconstruct any of the same; and

"(D) to make or enter into contracts for any of the foregoing.

"(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of $4\frac{1}{2}$ per centum per annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be

80 STAT. 1294

regarded as an obligation of the United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

"(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

"(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

"(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term 'property' shall include interests in property.

"(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms 'wholly owned Government corporations' and 'Government corporations', wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. The first budget program shall be for the first full fiscal year beginning on or after the date of the enactment of this subsection, and the first audit shall be for the remainder of the fiscal year in which this subsection is enacted. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413-5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

"(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed

Budget program

GAO audit.

52 Stat. 797.

40 USC 129.

\$13,200,000, or such greater amount as may be provided in an appropriation Act or other law."

SMALL BUSINESS ACT

SEC. 1017. Paragraph (1) of section 8(b) of the Small Business Act is amended by inserting "(A)" after "(1)", by inserting "and" after "Administration;", and by adding at the end thereof a new subparagraph as follows:

72 Stat. 389.
15 USC 637.

"(B) to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;"

USE OF CERTAIN LANDS FOR CIVIL DEFENSE PURPOSES

SEC. 1018. Section 2 of the Act entitled "An Act to provide for the conveyance of a tract of land in Prince Georges County, Maryland, to the State of Maryland for use as a site for a National Guard Armory and for training the National Guard or for other military purposes", approved August 10, 1949 (63 Stat. 592), is amended by striking out "The land" and inserting in lieu thereof "(a) Except as provided in subsection (b) of this section, the land" and by adding at the end thereof the following new subsection:

"(b) The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable."

MORTGAGE INSURANCE FOR LAND DEVELOPMENT—CLARIFYING AMENDMENTS

SEC. 1019. Section 1001(d) of the National Housing Act is amended—

79 Stat. 462.
12 USC 1749aa.

(1) by striking out "sewerage disposal installations," and inserting in lieu thereof "sewage disposal installations, steam, gas, and electric lines and installations,";

(2) by striking out the semicolon after "or common use", and inserting in lieu thereof a period and the following new sentence: "Related uses may include industrial uses, with sites for such uses to be in proper proportion to the size and scope of the development.";

(3) by striking out "but such term" and inserting in lieu thereof: "The term improvements"; and

(4) by inserting after "sewage disposal installation," in clause (1) the following: "or a steam, gas, or electric line or installation,".

MISCELLANEOUS AND TECHNICAL AMENDMENTS

SEC. 1020. (a) Section 106(d) of the Housing Act of 1949 is repealed.

63 Stat. 419.
42 USC 1456.

(b) Section 227(a) of the National Housing Act is amended by striking out "subsection (b) (2)" in clause (vi) and inserting in lieu thereof "subsection (b)".
